CANADIAN COMMERCIAL CORPORATION

MANDATE

To assist in the development of trade between Canada and other nations.

BACKGROUND

Established in 1946, the corporation serves as prime contractor when other countries wish to purchase goods and services from Canada on a government-to-government basis. As well, it facilitates sales to international agencies.

Appropriate Minister:	The Honourable Michael H. Wilson, P.C., M.P. Minister of Industry, Science and Technology and Minister for International Trade	Incorporation:	1946; by the *Canadian Commercial Corporation* Act (R.S.C. 1985, c. C-14)
Chairman and Chief Executive Officer:	Hugh Mullington	Head Office:	Metropolitan Centre 11th Floor 50 O'Connor Street Ottawa, Ontario, K1A 0S6
		Status:	Schedule III, Part I An agent of Her Majesty
Auditor:	Auditor General of Canada	Department:	External Affairs and International Trade

[1] Represents obligations to foreign governments.

CANADIAN DAIRY COMMISSION

MANDATE

To provide efficient producers of milk and cream with an opportunity to obtain a fair return for their labour and investment and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality.

BACKGROUND

Established in 1966, the corporation administers the following elements of the federal dairy program: calculation of Target Price for milk and cream for industry; market support for the Target Price through a nationwide offer to purchase butter and skim milk powder; direct support payments on eligible milk and cream shipments; international marketing of dairy products not required for domestic consumption; receipt of levies collected by provinces from farmers to finance the cost of exporting products surplus to domestic requirements; and coordination of national supply management of industrial milk production.

Appropriate Minister:	The Honourable William McKnight, P.C., M.P. Minister of Agriculture	Incorporation:	1966; by the *Canadian Dairy Commission Act* (R.S.C. 1985, c. C-15)
Chairman and Chief Executive Officer:	Roch Morin	Head Office:	Pebb Building 2197 Riverside Drive Ottawa, Ontario, K1A 0Z2
		Status:	Schedule III, Part I An agent of Her Majesty

[1] The corporation does not provide a Cash flow statement.
[2] Includes payments via the Agricultural Stabilization Board.
n.a = not applicable

CANADIAN FILM DEVELOPMENT CORPORATION

MANDATE

To foster and promote an independent film and television production industry in Canada through the development, production and distribution of Canadian motion picture and videos, and through other forms of industry assistance.

BACKGROUND

The corporation, which is also known as Telefilm Canada, administers a variety of programs in support of the domestic film and television production industry. These programs include two funds, the Feature Film Fund and the Canadian Broadcast Program Development Fund. The Feature Film Fund was created in 1986 to support the production and development of feature films. The Canadian Broadcast Program Development Fund, which dates back to 1983, provides assistance for Canadian television production. Through these and other programs (such as a script and project development program, a distribution and marketing program and international promotion activities), CFDC provided financial support to 437 production and development projects for film and television programs in 1990-91.

Appropriate Minister:	The Honourable Henry Perrin Beatty, P.C., M.P. Minister of Communications	Incorporation:	1967; by the *Canadian Film Development Corporation Act*, (R.S.C. 1985, c. C-16)
Chairman:	Harvey A. Corn	Head Office:	National Bank Tower 14th Floor 600 de la Gauchetière, West Montreal, Quebec, H3B 4L2
Chief Executive Officer:	Pierre DesRoches	Status:	Exempt from Divisions I to IV of Part X of the *Financial Administration Act*; subject to Part VIII of this Act as it read immediately before the (1984) repeal thereof. An agent of Her Majesty

CANADIAN INSTITUTE FOR INTERNATIONAL PEACE AND SECURITY

MANDATE

To increase knowledge and understanding of the issues relating to international peace and security from a Canadian perspective, with particular emphasis on arms control, disarmament, defence and conflict resolution.

BACKGROUND

CIIPS fulfills its mandate by fostering, funding and conducting research; promoting scholarship; studying and proposing ideas and policies; and collecting and disseminating information on, and encouraging public discussion of, issues of international peace and security.

Appropriate Minister:	The Honourable Barbara McDougall, P.C., M.P. Secretary of State for External Affairs	Incorporation:	1984; by the *Canadian Institute for International Peace and Security Act*, (R.S.C. 1985, c. C-18); amended (R.S.C. 1985, 1st Suppl. c. 46)
Chairman:	David Braide	Head Office:	360 Albert Street Suite 900 Ottawa, Ontario, K1R 7X7

CANADIAN LIVESTOCK FEED BOARD

MANDATE

To ensure: availability of adequate feed grain to meet the needs of livestock feeders; availability of adequate storage for feed grain in eastern Canada; reasonable stability in prices for feed grain in eastern Canada, British Columbia and the Yukon and Northwest Territories; and fair equalization of feed grain prices in those regions.

BACKGROUND

Established in 1967, the Board executes its mandate by subsidizing the transportation costs of feed grains; by assessing requirements for feed grains and storage space and by collecting and disseminating related information; and by negotiating and coordinating with respect to storage, handling, transportation and cost of feed grains. Its programs are financed by budgetary payments from Canada. The February 20, 1990 Budget announced that the Board would be dissolved as a Crown corporation and its functions transferred to Agriculture Canada. Bill C-8, currently being considered by Parliament, provides for the dissolution of the Canadian Livestock Feed Board.

Appropriate Minister:	The Honourable William McKnight, P.C., M.P. Minister of Agriculture	Incorporation:	1967; pursuant to the *Livestock Feed Assistance Act*, (R.S.C. 1985, c. L-10)
Chairman and Chief Executive Officer:	Griffith T. Meredith	Head Office:	Suite 400 5180 Queen Mary Road P.O. Box 177, Snowdon Station Montreal, Quebec, H3X 3T4

CANADIAN MUSEUM OF CIVILIZATION

MANDATE

To increase interest in, knowledge of, appreciation and respect for human cultural achievements and human behaviour throughout Canada and internationally. To establish a collection of objects of historical or cultural interest relating to human cultural achievements and human behaviour. The collection is to have special but not exclusive reference to Canada.

BACKGROUND

On July 1, 1990, the Canadian Museum of Civilization became an autonomous Crown corporation under the *Museums Act*, Bill C-12. The museum was previously under the jurisdiction of the National Museums Corporation of Canada.

Appropriate Minister:	The Honourable Henry Perrin Beatty, P.C., M.P. Minister of Communications	Incorporation:	July 1, 1990, by the *Museums Act* (S.C. 1990, c.3)
Chairman:	Peter A. Herrndorf	Head Office:	100 Laurier Street P.O. Box 3100, Station B Hull, Quebec, J8X 4H2

CANADIAN NATIONAL RAILWAY COMPANY

MANDATE

To operate a national railway system and other transportation and related services.

BACKGROUND

In 1919, CNR was created from an amalgamation of 200 companies, many of which were insolvent. From the merger of these companies, CNR was required to produce one strong, commercially competitive system to serve the entire nation. It was recapitalized in 1937, in 1952 and in 1978. In 1988, the corporation sold its hotel, telephone and telecommunication subsidiaries and applied the proceeds to reduce its corporate debt. In 1986, its subsidiary CN Marine Inc., was incorporated as a separate parent Crown corporation and renamed Marine Atlantic Inc.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1919; by the *Canadian National Railway Act* which was superseded by the 1955 Act of the same name (R.S.C. 1985, c. C-19)
Chairman:	Brian R.D. Smith, Q.C.	Head Office:	16th Floor 935 de la Gauchetière, West Montreal, Quebec, H3B 2M9
Chief Executive Officer:	Ronald E. Lawless	Status:	Schedule III, Part II Not an agent of Her Majesty

[2] Dividend of $24.1 million was declared in 1987 and subsequently reversed in 1988.

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS, LTD.

MANDATE

To collect monies due to it from the sale of eight steamships to Cuban interests.

BACKGROUND

The corporation, which provided a steamship service to the West Indies, has been inactive since 1958 when its fleet of ships was sold to Banco Cubana of Havana. In 1959, the corporate management was transferred to federal government officials for the purpose of collecting the proceeds from the sale. An irrevocable letter of credit issued through the Bank of America to cover the final principal payment was not honoured because of the imposition of the Cuban Assets Control Regulations by the U.S. government on July 3, 1963. The sole purpose of maintaining the company has been to collect the outstanding principal plus interest, totalling $1.6 million as of December 31, 1990. Authority to dissolve the corporation has been given in the *Crown Corporations Dissolution Authorization Act*, which received Royal Assent on October 29, 1985.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1927; created by CNR in 1927 under the *Dominion Companies Act* and continued under the *Canada Business Corporations Act*, November 21, 1978
Chairman and Chief Executive Officer:	Ron Jackson	Head Office:	Tower C Place de Ville 23rd Floor 330 Sparks Street Ottawa, Ontario, K1A 0N5

CANADIAN PATENTS AND DEVELOPMENT LIMITED

MANDATE

To maximize benefits to Canada by the promotion and use of innovations produced by publicly funded institutions and agencies and by others on behalf of the Crown.

BACKGROUND

The corporation makes available to the public the industrial and intellectual property resulting from government-funded research and development. It makes licensing arrangements with industry and monies received which are used to cover most of its operating expenses. Awards are paid to inventors under the *Public Service Inventions Act*. As announced in the February 1990 Budget, CPDL is to be wound up. Bill C-8, currently being considered by Parliament, provides for the dissolution of Canadian Patents and Development Limited.

Appropriate Minister:	The Honourable Michael H. Wilson, P.C., M.P. Minister of Industry, Science and Technology and Minister for International Trade	Incorporation:	1947; by letters patent under the *Companies Act*; continued under the *Canada Business Corporation Act* in 1979
Chairman:	Jacques A. Léger	Head Office:	17th Floor 275 Slater Street Ottawa, Ontario, K1A 0R3

CANADIAN SALTFISH CORPORATION

MANDATE

To regulate interprovincial and export trade in saltfish from participating provinces (Quebec - Lower North Shore, and Newfoundland) to improve earnings of primary producers of cured cod fish.

BACKGROUND

In accordance with its enabling legislation, the corporation must buy all saltfish offered to it which is of reasonable quality, and must conduct its operations on a self-sustaining financial basis.

Appropriate Minister:	The Honourable John Crosbie, P.C., M.P. Minister of Fisheries and Oceans and Minister for the Atlantic Canada Opportunities Agency	Incorporation:	1970; by the *Saltfish Act* (R.S.C. 1985, c. S-4)
Chairman:	James G. Barnes	Head Office:	Saltfish Building Newfoundland Drive P.O. Box 9440 St. John's, Newfoundland, A1A 2Y3

[1] During 1989-90, the corporation ceased providing marketing services and financing for frozen fish products.
[2] In 1990-91, the corporation received an ex-gratia payment from Canada.

CANADIAN WHEAT BOARD, THE

MANDATE

To market wheat and barley grown in western Canada in the best interests of western Canada's grain producers; to administer the *Prairie Grain Advance Payments Act*.

BACKGROUND

The Board was established in 1935 by Act of Parliament and is now responsible for all exports of wheat and barley grown in the prairie provinces and some parts of British Columbia. It is also responsible for sales of these grains for human consumption in Canada. The Board may sell domestic feed grains, but in general these sales are handled by producers themselves or by private trade. The Board issues a government-guaranteed initial payment when the producer delivers grain. Receipts are pooled, and a final payment net of marketing costs is made after the full year's returns have been calculated. Deficits are rare but if they occur they are, by statute, a charge upon the Consolidated Revenue Fund of Canada. The Board negotiates directly with customers, or through Accredited Exporters. The Board's longstanding mandate to market oats was ended by Orders in Council (PC 1989-986 and PC 1989-987) of May 27, 1989.

Appropriate Minister:	The Honourable William McKnight, P.C., M.P. Minister of Agriculture	Incorporation:	1935; by *The Canadian Wheat Board Act* (R.S.C. 1985, c. C-24)
		Head Office:	423 Main Street P.O. Box 816 Winnipeg, Manitoba, R3C 2P5

CAPE BRETON DEVELOPMENT CORPORATION

MANDATE

To operate, reorganize and rationalize coal production from the Sydney coal field.

BACKGROUND

The corporation was established in 1967 by the *Cape Breton Development Corporation Act* with a Coal Division and an Industrial Development Division. The Industrial Development Division's mandate (IDD) was to develop alternative employment opportunities and to broaden the base of the local Cape Breton economy. Pursuant to the *Atlantic Canada 1987 Legislation*, this division was transferred to the Enterprise Cape Breton Corporation on December 1, 1988.

The remaining Coal Division (DEVCO) is the major employer in the Sydney/Glace Bay area with approximately 2,800 employees. The corporation operates three collieries (Prince, Lingan, and Phalen) and fully integrated support facilities including a coal preparation plant, a complete railway transportation system, and a shipping pier.

Appropriate Minister:	The Honourable Michael H. Wilson, P.C., M.P. Minister of Industry, Science and Technology and Minister for International Trade	Incorporation:	1967; by the *Cape Breton Development Corporation Act*, (R.S.C. 1985, c. C-25)
Chairman:	John Terry	Head Office:	500 Kings Road P.O. Box 2500 Sydney, Nova Scotia, B1P 6K9
Chief Executive Officer:	Ernest Boutilier	Status:	Schedule III, Part I An agent of Her Majesty
Auditor:	Auditor General of Canada	Department:	Industry, Science and Technology

FINANCIAL SUMMARY ($ million) Financial year ending March 31.

ENTERPRISE CAPE BRETON CORPORATION

MANDATE

To promote and assist the financing and development of industry on the Island of Cape Breton, to provide employment outside the coal producing industry and to broaden the base of the economy of the Island.

BACKGROUND

On December 1, 1988, the Industrial Development Division (IDD) of the Cape Breton Development Corporation became a separate Crown corporation, Enterprise Cape Breton Corporation. To ensure coordination of development policies within the region, this corporation reports to the Minister responsible through Atlantic Canada Opportunities Agency. The Agency and the corporation have the same President. Upon assuming the activities, programs and properties of the IDD, revised programs were established to promote industrial development on Cape Breton Island and in the northeast part of the Nova Scotia mainland.

Appropriate Minister:	The Honourable John Crosbie, P.C., M.P. Minister of Fisheries and Oceans and Minister for the Atlantic Canada Opportunities Agency	Incorporation:	1988; by The *Government Organization Act, Atlantic Canada*, 1987 (S.C. 1988, c.50)
Chairman:	Peter Lesaux	Head Office:	P.O. Box 1750 Sydney, Nova Scotia, B1P 6T7

EXPORT DEVELOPMENT CORPORATION

MANDATE

Export Development Corporation (EDC) is Canada's official export credit agency, responsible for facilitating and developing export trade by the provision of credit insurance, loans, guarantees, and other financial services to promote Canadian export trade.

BACKGROUND

In addition to its corporate activities, EDC administers for Canada certain export insurance and financing in support of export transactions considered to be in the national interest.

Appropriate Minister:	The Honourable Michael H. Wilson, P.C., M.P. Minister of Industry, Science and Technology and Minister for International Trade	Incorporation:	1969; by the *Export Development Act*, (R.S.C. 1985, c. E-20)
Chairman:	Maureen J. Sabia	Head Office:	14th Floor 151 O'Connor Street P.O. Box 655 Ottawa, Ontario, K1P 5T9

FARM CREDIT CORPORATION

MANDATE

To assist Canadian farmers to establish and develop viable farm enterprises through the provision of long-term credit and other financial services.

BACKGROUND

Since 1959, under the authority of the *Farm Credit Act*, the corporation has made mortgage loans to farmers for the purchase of farm land, livestock and machinery, for permanent farm improvements and for debt refinancing. Under the authority of the *Farm Syndicates Credit Act*, the corporation may make loans to groups of farmers for the joint acquisition of agricultural facilities and equipment. The maximum loan for an individual farm is $600,000 and for a syndicate is $100,000. The corporation maintains six regional offices and about 100 district and field offices. As at March 31, 1991, the Corporation had 61,475 loans outstanding.

Appropriate Minister:	The Honourable William McKnight, P.C., M.P. Minister of Agriculture	Incorporation:	1959; by the *Farm Credit Act* (R.S.C. 1985, c. F-2)
Chairman and Chief Executive Officer:	James J. Hewitt	Head Office:	6th Floor 434 Queen Street P.O. Box 2314, Station D Ottawa, Ontario, K1P 6J9

[1] In addition to the direct payments from Canada, the corporation received cash from the Department of Agriculture in compensation for financial concessions to clients under the Farm Debt Review Board program.

FEDERAL BUSINESS DEVELOPMENT BANK

MANDATE

To promote and assist in the establishment and development of business enterprises in Canada by providing financial assistance, management counselling, management training, information and advice, giving particular attention to the needs of small business enterprises.

BACKGROUND

Since 1974, the Bank has provided financial assistance to Canadian firms by acting as a supplementary lender and a source of equity financing. It also provides financial planning, counselling, training and other management services to small and medium-sized business.

Appropriate Minister:	The Honourable Michael H. Wilson, P.C., M.P. Minister of Industry, Science and Technology and Minister for International Trade	Incorporation:	1974; by the *Federal Business Development Bank Act* (R.S.C. 1985, c. F-6)
Chairman:	Bertrand J. Lavoie	Head Office:	800 Victoria Square P.O. Box 335 Stock Exchange Tower Station Montreal, Quebec, H4Z 1L4

FRESHWATER FISH MARKETING CORPORATION

MANDATE

The objectives of the corporation are to market fish in an orderly manner, to increase returns to fishers; and to promote international markets for, and increase inter-provincial and export trade in, fish.

BACKGROUND

The corporation was created to improve the economic situation of commercial fisheries in Western Canada. The corporation's Act requires it to purchase and market all of the legally caught freshwater fish from the region it serves and to operate on a self-sustaining basis. Its products are sold in direct competition with producers from the Great Lakes area as well as competing against other fish and seafood products in an open marketplace.

Appropriate Minister:	The Honourable John Crosbie, P.C., M.P. Minister of Fisheries and Oceans and Minister for the Atlantic Canada Opportunities Agency	Incorporation:	1969; by the *Freshwater Fish Marketing Act* (R.S.C. 1985, c. F-13)
Chairman:	Maurice Blanchard	Head Office:	1199 Plessis Road Winnipeg, Manitoba, R3C 3L4
Chief Executive Officer:	Tom Dunn	Status:	Schedule III, Part I An agent of Her Majesty
Auditor:	Auditor General of Canada	Department:	Fisheries and Oceans

[1] Includes provision for final payments to fishermen.

GREAT LAKES PILOTAGE AUTHORITY, LTD.

MANDATE

To establish, operate, maintain and administer a safe and efficient pilotage service in the designated Canadian waters in the Great Lakes area in and around Ontario, in designated waters in Manitoba, and in the St. Lawrence River, south of the St. Lambert Lock in Quebec.

BACKGROUND

Established in 1972, the Authority provides pilotage services to the Great Lakes region. With the approval of the Governor-in-Council, the Authority has the power to make regulations in order to meet its objectives. These regulations may prescribe the establishment of compulsory pilotage areas; the ship or classes of ships which are subject to compulsory pilotage; the circumstances under which compulsory pilotage may be waived; the tariffs or pilotage charges; and the classes of licences and classes of pilotage certificates that may be issued. The Authority is required to set fair and reasonable tariffs that ensure self-sustaining operations.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1972; pursuant to the *Pilotage Act* (R.S.C. 1985, c. P-14), incorporated under the *Canada Corporations Act* in May 1972 as a subsidiary of The St. Lawrence Seaway Authority
Chairman and Chief Executive Officer:	Richard G. Armstrong	Head Office:	132 Second Street East P.O. Box 95 Cornwall, Ontario, K6H 5R9
		Status:	Schedule III, Part I Not an agent of Her Majesty
Auditor:	Auditor General of Canada	Department:	Transport

[1] The corporation received a Parliamentary appropriation of $1.4 million in February, 1991 for the cash operating loss for 1990.
negl. = negligible

HALIFAX PORT CORPORATION

MANDATE

Administration, management and control of the Halifax harbour and all works and property within the harbour previously under the jurisdiction of the Canada Ports Corporation or, prior to February 24, 1983, the National Harbours Board.

BACKGROUND

The Halifax Port Corporation was established as a parent Crown corporation on June 1, 1984, pursuant to the national ports policy to create local port corporations at the major ports and harbours previously under the centralized administration of the National Harbours Board and, since February 1983, the Canada Ports Corporation. The port now handles more Canadian containerized cargo than any other port.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1984; letters patent of incorporation issued by the Minister of Transport pursuant to subsection 25 (1) of the *Canada Ports Corporation Act*. (R.S.C. 1985, c. C-9)
Chairman:	Donald A. Parker	Head Office:	P.O. Box 336 Ocean Terminal Halifax, Nova Scotia, B3P 2P6
Chief Executive Officer:	David F. Bellefontaine	Status:	Schedule III, Part II An agent of Her Majesty

[1] Includes contributions to Canada (cash recovery) of $1.47 million.

HARBOURFRONT CORPORATION

MANDATE

Harbourfront Corporation operates, manages, maintains and develops the Harbourfront site in Toronto. Since January 1991, the activities of the corporation have focused specifically on implementing the recommendations of the Royal Commission on the Future of the Toronto Waterfront.

BACKGROUND

Harbourfront Corporation was created in 1972 from the assembly of lands owned and expropriated by the federal government. With participation from all levels of government, its mandate to support cultural, recreational and educational activities at the Harbourfront site was established in 1978. In addition to funding facilities for public use, the corporation also encouraged private sector development on the site . Over the past several years, Harbourfront's dual role as programmer and developer has been under review.

On March 30, 1988, the federal government commissioned a Royal Commission on the Future of the Toronto Waterfront to review the role, mandate and development plans of Harbourfront Corporation. Implementation plans were developed on the basis of the recommendations of the Commission. Under this plan, cultural, recreational and educational activities have been transferred to Harbourfront'90, a local not-for-profit programming entity. A second entity, a charitable foundation, was established and will be responsible for managing the fund which will be generated from the disposition of the corporation's real estate assets and will make a contribution from that fund to support the public programming activities of Harbourfront '90. Bill C-8, currently being considered by Parliament, provides for the dissolution of Harbourfront Corporation.

Appropriate Minister:	The Honourable Elmer MacKay, P.C., M.P. Minister of Public Works	Incorporation:	1936; as Terminal Warehouses Ltd, under the Ontario *Companies Act*; July 14, 1978, as Harbourfront Corporation, under the *Business Corporations Act* of Ontario; continued under the *Canada Business Corporations Act*, December 21, 1984
Chairman and Chief Executive Officer:	William J. McAleer, Q.C.	Head Office:	Scotia Plaza, Suite 2703 P.O. Box 320 Toronto, Ontario, M5H 3Y2
		Status:	Schedule III, Part I Not an agent of Her Majesty

[1] Includes amounts pertaining to transferred activities between the corporation and Harbourfront '90. Harbourfront '90, a reorganized entity, pursuant to the Asset Transfer Agreement dated December 31, 1990, is responsible for all public programming activities.

INTERNATIONAL CENTRE FOR OCEAN DEVELOPMENT

MANDATE

To initiate, encourage and support cooperation between Canada and developing countries in the field of ocean resource development.

BACKGROUND

ICOD's programs are part of Canada's Official Development Assistance commitment. The Centre fosters and supports initiatives that help developing countries to improve their own management and use of ocean resources in a rational and sustainable manner. The focus is on island and coastal nations where ocean resources can have the maximum development impact.

Appropriate Minister:	The Honourable Monique Landry, P.C., M.P. Minister for External Relations and Minister of State (Indian Affairs and Northern Development)	Incorporation:	1985; *The International Centre For Ocean Development Act*, (R.S.C. 1985, 1st Suppl. c. 17)

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE

MANDATE

To initiate, encourage, support and conduct research into the problems of the developing regions of the world and into the means for applying and adapting scientific, technical and other knowledge to the economic and social advancement of those regions.

BACKGROUND

IDRC was created to help resolve, through research carried out by Third World scientists, the problems of poverty in the developing countries. To this end, it has established the following main program areas: Agriculture, Food and Nutrition Sciences, Health Sciences, Information Sciences, Social Sciences, Communication, and Earth and Engineering Sciences.

Appropriate Minister:	The Honourable Barbara McDougall, P.C., M.P. Secretary of State for External Affairs	Incorporation:	1970; by *The International Development Research Centre Act*, (R.S.C. 1985, c. I-19)

LAURENTIAN PILOTAGE AUTHORITY

MANDATE

To establish, operate, maintain and administer a safe and efficient pilotage service in the St. Lawrence River between Les Escoumins and the north end of the St. Lambert Lock, in the Saguenay River and in the Chaleur Bay.

BACKGROUND

Established in 1972, the Authority provides pilotage services to the St. Lawrence River region. With the approval of the Governor-in-Council, it has the power to make regulations in order to meet its objectives. These regulations may prescribe the establishment of compulsory pilotage areas; the ship or classes of ships which are subject to compulsory pilotage; the circumstances under which compulsory pilotage may be waived; the tariffs or pilotage charges; and the classes of licences and classes of pilotage certificates that may be issued. The Authority is required to set fair and reasonable tariffs that ensure self-sustaining operations.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1972; pursuant to the *Pilotage Act* (R.S.C. 1985, c. P-14)
Chairman and Chief Executive Officer:	Jacques Marquis	Head Office:	Suite 1402 1080 Côte du Beaver Hall Montreal, Quebec, H2Z 1S8
		Status:	Schedule III, Part I Not an agent of Her Majesty
Auditor:	Auditor General of Canada	Department:	Transport

MARINE ATLANTIC INC.

MANDATE

To acquire, establish, manage and operate a marine transportation service, a marine maintenance, repair and refit service, a marine construction business and any service or business related thereto.

BACKGROUND

The company provides marine ferry services to Atlantic Canada. As CN Marine Inc., it was a subsidiary of Canadian National Railway Company. Pursuant to the *Marine Atlantic Inc. Acquisition Authorization Act* (S.C. 1986, C. 36) proclaimed on June 27, 1986, the company's name was changed to Marine Atlantic Inc. and was added to Part I of Schedule III of the *Financial Administration Act*. In 1987 the corporation acquired Coastal Transport Limited and the Newfoundland Dockyard Corporation, of St. John's. Coastal Transport Limited operates a ferry between New Brunswick ports. These subsidiaries operate autonomously. Customer revenues cover approximately one-third of Marine Atlantic's operating expenditures.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1979; by the *Canada Business Corporations Act*. Status and ownership changed as of December 31, 1986 (S.C. 1986, C. 36)
Chairman:	Alan Scales, Q.C.	Head Office:	100 Cameron Street Moncton, New Brunswick, E1C 5Y6

MINGAN ASSOCIATES, LTD

MANDATE

To purchase land for eventual disposition.

BACKGROUND

Ownership of the corporation was purchased for Canada in 1983 to obtain certain land and fishing rights. Those assets are to become Indian reserve property, and as a first step, have been transferred to the Crown in right of Canada. Bill C-8, currently being considered by Parliament, provides for the dissolution of Mingan Associates, Ltd.

Appropriate Minister:	The Honourable Tom Siddon, P.C., M.P. Minister of Indian Afffairs and Northern Development	Incorporation:	1983; by Order in Council P.C. 1983-4029; a corporation under Part 1A of the *Quebec Companies Act*
Chairman and Chief Executive Officer:	Vacant	Head Office:	Les Terrasses de la Chaudière 18th Floor 10 Wellington Street Hull, Quebec, K1A 0H4
		Status:	Schedule III, Part I Not an agent of Her Majesty
		Department:	Indian Affairs and Northern Development

FINANCIAL SUMMARY Financial year ending December 31, 1990.

All of the corporation's assets have been sold to the Crown. The corporation had no business or activity during the 1990 calendar year.

Mingan Associates Ltd. has been an inactive corporation since 1983.

MONTRÉAL PORT CORPORATION

MANDATE

To administer, manage and control the Montreal harbour and all the works and property within the harbour previously under the jurisdiction of the Canada Ports Corporation or, prior to February 24, 1983, the National Harbours Board.

BACKGROUND

The Montréal Port Corporation was established as a parent Crown corporation on July 1, 1983, pursuant to the national ports policy to create local port corporations at the major ports and harbours previously under the centralized administration of the National Harbours Board and, since February 1983, the Canada Ports Corporation. The total volume of traffic at the port in 1990 was 21.7 million metric tonnes, up 6.5 percent compared with 1989.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1983; letters patent of incorporation issued by the Minister of Transport pursuant to subsection 25(1) of the *Canada Ports Corporation Act*. (R.S.C. 1985, c. C-9)
Chairman:	André Gingras	Head Office:	Montreal Port Building Cité du Havre Wing No. 1 Montreal, Quebec, H3C 3R5
Chief Executive Officer:	Dominic J. Taddeo	Status:	Schedule III, Part II An agent of Her Majesty

NATIONAL ARTS CENTRE CORPORATION

MANDATE

To promote the development of the performing arts.

BACKGROUND

In 1969, the corporation leased the National Arts Centre complex for twenty years without charge. The lease was renewed to May 31, 1991. The corporation's revenues meet about 52.8 per cent of its expenses with payments from Canada covering most of the balance. The corporation is a charitable organization for the purposes of the *Income Tax Act*.

Appropriate Minister:	The Honourable Henry Perrin Beatty, P.C., M.P. Minister of Communications	Incorporation:	1966; by the *National Arts Centre Act*, (R.S.C. 1985, c. N-3)
Chairman:	Robert E. Landry	Head Office:	53 Elgin Street P.O. Box 1534, Station B Ottawa, Ontario, K1P 5W1

OLD PORT OF MONTREAL CORPORATION INC.

MANDATE

To promote the development of the lands of Le Vieux-Port de Montréal; to develop, administer, manage and maintain Crown property there.

BACKGROUND

Since February 1982, the corporation has managed the Crown lands at Le Vieux-Port, including lands transferred to the Crown in 1983 from Canada Ports Corporation. Planning and consultation with the public and with the other levels of government have resulted in plans for major developments on the lands. The Government of Canada has announced a series of projects that are scheduled to be completed by 1992, the 350th anniversary of the founding of Montréal and the 125th anniversary of Confederation.

Appropriate Minister:	The Honourable Elmer MacKay, P.C., M.P. Minister of Public Works	Incorporation:	1981; by Canada Lands Company Limited, under the *Canada Business Corporations Act.*
Chairman and Chief Executive Officer:	Benoît Lemay	Head Office:	333 rue de la Commune West Montreal, Quebec, H2Y 2E2
		Status:	A wholly-owned subsidiary of Canada Lands Company Limited; it has been directed by Order in Council (PC 1987-86) to report its affairs as if it were a parent Crown corporation. An agent of Her Majesty

PACIFIC PILOTAGE AUTHORITY

MANDATE

To establish, operate, maintain and administer, a safe and efficient pilotage service within designated waters in and around British Columbia.

BACKGROUND

Established in 1972, the Authority provides pilotage services to the British Columbia region. With the approval of the Governor-in-Council, it has the power to make regulations in order to meet its objectives. These regulations may prescribe the establishment of compulsory pilotage areas; the ship or classes of ships which are subject to compulsory pilotage; the circumstances under which compulsory pilotage may be waived; the tariffs or pilotage charges; and the classes of licences and classes of pilotage certificates that may be issued. The Authority is required to set fair and reasonable tariffs that ensure self-sustaining operations.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1972; pursuant to the *Pilotage Act* (R.S.C. 1985, c. P-14)
Chairman and Chief Executive Officer:	Robert J. Smith	Head Office:	Suite 300 1199 West Hastings Street Vancouver, British Columbia, V6E 4G9

PETRO-CANADA

(formerly PETRO-CANADA INC.)

MANDATE

To explore for, research, develop, produce and distribute hydrocarbons and other types of fuel and energy, and to engage or invest in ventures related thereto.

BACKGROUND

Incorporated as **Petro-Canada Inc.** in 1975 under the *Canada Business Corporations Act*, it functioned as the operating subsidiary of Petro-Canada, the parent Crown corporation. Through a series of acquisitions including Atlantic Richfield, Pacific Petroleums, Petrofina, BP Canada and Gulf Canada's rights and other assets and also its own oil and gas investment program, Petro-Canada Inc. became a major oil and gas corporation.

On February 1, 1991, Petro-Canada was reorganized by the *Petro-Canada Public Participation Act*. Petro-Canada Inc. was continued as Petro-Canada, a new parent Crown corporation, with responsibility for all the oil and gas businesses. The shares of this operating company, Petro-Canada, were transferred to the Minister of State (Finance and Privatization). Petro-Canada, the former parent of Petro-Canada Inc. was renamed Petro-Canada Limited. Subsequently, Petro-Canada sold treasury shares to the public and at July 31, 1991, the Government of Canada owned 80.5% of the shares of Petro-Canada.

As a result of the share issue, the corporation is no longer a parent Crown corporation and accordingly, its summary page will not be included next year in this annual report.

Appropriate Minister:	The Honourable John H. McDermid, P.C., M.P. Minister of State (Finance and Privatization)	Incorporation:	1975; by the *Canada Business Corporations Act* continued as Petro-Canada February 1, 1991 under the *Petro-Canada Public Participation Act*
Chairman and Chief Executive Officer:	Wilbert H. Hopper	Head Office:	Petro-Canada Centre 52nd Floor, West Tower 150-6th Avenue, S.W. Calgary, Alberta, T2P 3E3
		Status:	Schedule III, Part II Not an agent of Her Majesty

[1] These financial statements were restated to reflect a change in 1989 in the method of accounting for exploration and development activities from the full cost method to the successful efforts method.

PETRO-CANADA INTERNATIONAL ASSISTANCE CORPORATION

MANDATE

To assist oil-importing developing countries to exploit their own hydrocarbon resources; to provide development assistance directly to Third World countries; and to be available as an executing agent for other institutions such as the World Bank.

BACKGROUND

PCIAC participates in oil and gas exploration in developing countries, conducts pre-exploration studies and provides technical assistance and training. Under the terms of an Operating Services Agreement, Petro-Canada acts as PCIAC's executing agent for the procurement of goods and services on a non-profit, cost-recovery basis. At the time of the February 1991 federal Budget the Government announced its decision to dissolve PCIAC and deliver all energy aid through CIDA.

Appropriate Minister:	The Honourable Don Mazankowski[3], P.C., M.P. Deputy Prime Minister and Minister of Finance	Incorporation:	1981; under the *Canada Business Corporations Act*
Chairman and Chief Executive Officer:	Frederick W. Gorbet	Head Office:	c/o Department of Finance L'Esplanade Laurier 140 O'Connor Street Ottawa, Ontario K1A 0G5
		Status:	A wholly-owned subsidiary of Petro-Canada Limited which by Order in Council (PC 1985-2957), has been designated a parent Crown corporation with respect to Sections 122-125 and 150 of the *Financial Administration Act*. Not an agent of Her Majesty

PETRO-CANADA LIMITED

(formerly PETRO-CANADA)

MANDATE

To hold Canada's interest in Petro-Canada International Assistance Corporation until it is dissolved and to fulfil, on a break-even basis, the government's debt obligations relating to Petro-Canada.

BACKGROUND

Incorporated in 1974 as **Petro-Canada** under the *Petro-Canada Act*, it was the parent Crown corporation responsible for establishing an integrated oil and gas business. Under the *Petro-Canada Public Participation Act* of February 1, 1991, it was renamed as **Petro-Canada Limited** and its principal operating subsidiary, Petro-Canada, was transferred to the Minister of State (Finance and Privatization). Petro-Canada Limited, as a continuing parent corporation, holds Canada's interest in Petro-Canada International Assistance Corporation (PCIAC) and the outstanding agency debt of its former operating subsidiary, Petro-Canada. Refinancing arrangements are being made to transfer this present debt in an orderly manner to Petro-Canada. Steps are also being taken to dissolve PCIAC. The *Petro-Canada Public Participation Act* allows for the dissolution of Petro-Canada Limited. The Crown received a dividend payment of $35 million from the former operating subsidiary, Petro-Canada, through Petro-Canada Limited.

Appropriate Minister:	The Honourable Don Mazankowski,[3] P.C., M.P. Deputy Prime Minister and Minister of Finance	Incorporation:	1975; by the *Petro-Canada Act* (R.S.C. 1985: c.P-11), continued as Petro-Canada Limited on February 1, 1991, under the *Petro-Canada Public Participation Act*
Chairman:	Arni Thorsteinson	Head Office:	c/o Department of Finance L'Esplanade Laurier 140 O'Connor Street Ottawa, Ontario, K1A 0G5
Chief Executive Officer:	Vacant	Status:	Schedule III, Part II An agent of Her Majesty
Auditor:	Arthur Andersen & Co.	Department:	Finance

[1] The shareholder's equity was eliminated to reflect the transfer of the major operating subsidiary Petro-Canada Inc. to the Minister of State (Finance and Privatization), upon passing of Bill C-84, *The Petro-Canada Public Participation Act* in the House of Commons, December 1990. This investment in Petro-Canada, formerly Petro-Canada Inc., was formally transferred on February 1, 1991.

[2] Includes $159 million pertaining to earnings from investment in Petro-Canada (discontinued operations).

[3] As of August 29, 1991, by Order in Council, the Minister of Finance, The Honourable Don Mazankowski became the responsible minister for Petro-Canada Limited.

PORT OF QUÉBEC CORPORATION

MANDATE

To administer, manage and control the Harbour of Quebec and all the works and property within the harbour under its jurisdiction.

BACKGROUND

The Port of Québec Corporation was established as a parent Crown corporation on June 1, 1984, pursuant to the national ports policy to create local port corporations at the major ports and harbours previously under the centralized administration of the National Harbours Board and, since February 1983, the Canada Ports Corporation. The port is an important trans-shipment point for Canadian grain exports and has recently modernized its two grain elevators which are operated under contract by a private firm.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1984; letters patent of incorporation issued by the Minister of Transport pursuant to subsection 25(1) of the *Canada Ports Corporation Act*. (R.S.C. 1985, c. C-9)
Chairman:	Guy Boulanger	Head Office:	150 Dalhousie Street P.O. Box 2268 Quebec City, Quebec, G1K 7P7
Chief Executive Officer:	Ross Gaudreault	Status:	Schedule III, Part II An agent of Her Majesty

[1] In 1987, a recoverable loan to Canada of $38 million was forgiven.
[2] Represents contribution to Canada (cash recovery).

ROYAL CANADIAN MINT

MANDATE

To mint coins in anticipation of profit and to carry out other related activities.

BACKGROUND

Founded in 1908 as a branch of the Mint of the United Kingdom, its operations devolved to the Crown in right of Canada in 1931. It was a departmental agency of the government until 1969 when it was incorporated by legislation. *The Act to Amend the Royal Canadian Mint Act and the Currency Act*, which came into force on December 17, 1987, authorized share capital for the corporation. In 1989, a share capital structure was created for the Mint and shares were issued to Canada. The corporation operates in a competitive international environment.

Appropriate Minister:	The Honourable Paul Dick, P.C., M.P. Minister of Supply and Services	Incorporation:	1969; by the *Royal Canadian Mint Act* (R.S.C. 1985, c. R-9)
Chairman:	James Corkery	Head Office:	320 Sussex Drive Ottawa, Ontario, K1A 0G8
Chief Executive Officer:	Maurice Lafontaine	Status:	Schedule III, Part II An agent of Her Majesty
Auditor:	Auditor General of Canada	Department:	Supply and Services

FINANCIAL SUMMARY ($ million) Financial year ending December 31.

[1] Obligations to Canada includes net earnings accumulated prior to the amendments to the *Royal Canadian Mint Act*, (Dec 1987) totalling $60.4 million in 1988 and 1987 and $52.8 million in 1986.

[2] Represents payment of net earnings accumulated prior to the amendment of the *Royal Canadian Mint Act*, December 1987.

SAINT JOHN PORT CORPORATION

MANDATE

To administer, manage and control the Saint John harbour and all the works and property within the harbour under its jurisdiction.

BACKGROUND

The Saint John Port Corporation was established as a parent Crown corporation on December 31, 1986, pursuant to the national ports policy to create local ports corporations at the major ports and harbours previously under the centralized administration of the National Harbours Board and, since February 1983, the Canada Ports Corporation.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1986; letters patent issued by the Minister of Transport pursuant to subsection 25(1) of the *Canada Ports Corporation Act*. (R.S.C. 1985, c. C-9)
Chairman:	Harry P. Gaunce	Head Office:	133 Prince William Street P.O. Box 6429, Station A Saint John, New Brunswick, E2L 4R8
Chief Executive Officer:	Kenneth Krauter	Status:	Schedule III, Part II An agent of Her Majesty
Auditor:	Ernst and Young	Department:	Transport

FINANCIAL SUMMARY ($ million) Financial year ending December 31.

ST. LAWRENCE SEAWAY AUTHORITY, THE

MANDATE

To construct, operate and maintain canals, bridges, works and other property related to the deep waterway between the Port of Montreal and Lake Erie, known as the St. Lawrence Seaway.

BACKGROUND

The St. Lawrence Seaway Authority was established in 1954 to construct and operate the Seaway in conjunction with an appropriate authority in the United States and to construct, maintain and operate bridges and other works and property incidental thereto as the Governor-in-Council may deem to be necessary. The Authority operates 13 locks and related works in Canadian territory along the waterway, as well as four high-level bridges traversing the St. Lawrence River. Two locks in the United States are operated by the St. Lawrence Seaway Development Corporation.

A wholly-owned subsidiary, the Seaway International Bridge Corporation, Ltd. was established in 1962 to manage the international bridge at Cornwall, Ontario. A second wholly-owned subsidiary, the Jacques Cartier and Champlain Bridges Incorporated was established to manage the two high-level bridges in Montreal when these were transferred from the National Harbours Board in 1978. A third wholly-owned subsidiary, Great Lakes Pilotage Authority, Ltd. is a parent Crown corporation for the purposes of the *Financial Administration Act*. The Canadian span of the Thousand Islands Bridge at Lansdowne, Ontario has been directly administered by the Authority since this property reverted to Canada in 1976.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1954; pursuant to section 3 of the *St. Lawrence Seaway Authority Act* (R.S.C. 1985, c. S-2)
Chairman and Chief Executive Officer:	Glendon R. Stewart	Head Office:	Constitution Square 14th Floor 360 Albert Street Ottawa, Ontario, K1R 7X7
		Status:	Schedule III, Part I An agent of Her Majesty
Auditor:	Auditor General of Canada	Department:	Transport

STANDARDS COUNCIL OF CANADA

MANDATE

To foster and promote voluntary standardization in fields relating to the construction, manufacture, production, quality, performance and safety of buildings, structures, manufactured articles and products, and other goods not expressly provided for by law, as a means of advancing the national economy, benefiting the public, protecting consumers and facilitating trade, and furthering international cooperation in relation to standards.

BACKGROUND

The Council coordinates the activities of organizations involved in standardization in Canada, and represents Canada in international standardization organizations.

Appropriate Minister:	The Honourable Pierre Blais, P.C., M.P. Minister of Consumer and Corporate Affairs and Minister of State (Agriculture)	Incorporation:	1970; by the *Standards Council of Canada Act* (R.S.C. 1985, c. S-16)
Chairman:	Georges Archer	Head Office:	Suite 1200 350 Sparks Street Ottawa, Ontario, K1N 6N7

TELEGLOBE CANADA

MANDATE

To establish, maintain and operate, in Canada and elsewhere, international telecommunications services for the conduct of public communications; this mandate ended on April 3, 1987 with the sale of its business.

BACKGROUND

The corporation was established as the Canadian Overseas Telecommunications in 1949 and continued as Teleglobe Canada under the *Teleglobe Canada Act* in 1975. In 1987, the operating company was transferred to a subsidiary and sold to Memotec Data Inc. following proclamation of the *Teleglobe Canada Reorganization and Divestiture Act*. The parent corporation continues to exist but is inactive. Steps are being taken for its dissolution.

Appropriate Minister:	The Honourable John McDermid, P.C., M.P., Minister of State (Finance and Privatization)	Incorporation:	1949; by the *Canadian Overseas Telecommunications Act* (R.S.C. 1985, c. T-4)
Chairman and Chief Executive Officer:	Vacant	Head Office:	Suite 2703 Scotia Plaza P.O. Box 320 Toronto, Ontario, M5X 1A4

[1] Reflects the status of the corporation prior to privatization during 1987.
[2] Includes gain realized on privatization of $214 million.
[3] Includes $119.2 million income tax paid on profits on the sale of Teleglobe's assets and business.
negl. = negligible

VANCOUVER PORT CORPORATION

MANDATE

To administer, manage and control the Vancouver Harbour and all the works and property within the harbour under its jurisdiction.

BACKGROUND

The Vancouver Port Corporation was established as a parent Crown corporation on July 1, 1983, pursuant to the national ports policy to create local port corporations at the major ports and harbours previously under the centralized administration of the National Harbours Board and, since February 1983, the Canada Ports Corporation. In 1990, the corporation introduced "Port 2010", its long-range Land Management Planning Program.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1983; letters patent of incorporation issued by the Minister of Transport pursuant to subsection 25(1) of the *Canada Ports Corporation Act*. (R.S.C. 1985, c. C-9)
Chairman:	Patrick Reid	Head Office:	2760 Granville Square 200 Granville Street Vancouver, British Columbia, V6C 1S4

VIA RAIL CANADA INC.

MANDATE

To manage and provide safe, efficient, effective and economic rail passenger service in Canada to meet the needs of the travelling public.

BACKGROUND

In accordance with contracts with the Minister of Transport, VIA Rail operates passenger train services over CN and CP railway tracks. In the April 1989 Budget the government announced reductions in planned funding for the corporation. A revised network, which was part of a new business plan that included increased fares and service reductions, was implemented on January 15, 1990.

Appropriate Minister:	The Honourable Jean Corbeil, P.C., M.P. Minister of Transport	Incorporation:	1977; under the *Canada Business Corporations Act*
Chairman:	Lawrence Hanigan	Head Office:	2 Place Ville-Marie P.O Box 8116, Station A Montreal, Quebec, H3B 2G6

Notes to Listings of Parent Crown Corporations and their Corporate Holdings

1. For corporations scheduled in the *Financial Administration Act* (FAA), the relevant schedule is shown in parentheses immediately following the corporation's name. Under the *FAA*, a subsidiary is a Crown corporation if it is wholly-owned directly or indirectly by one or more parent Crown corporation.

2. At the corporation's (CDIC) year-end, Canada Eldor Inc. owned 38.5% of Cameco. Subsequent to the initial public offering in July, 1991, it owns 30.8% of Cameco.

3. Inactive corporations.

4. Bill C-8, currently in Parliament, will provide for a change in status for these six corporations.

5. Canada Ports Corporation became the registered owner of all Ridley Terminals Inc. shares on July 30, 1991.

6. Only non-voting preferred shares are held.

7. Listing is as at March 31, 1991.

8. These subsidiaries are inactive and steps are being taken to dissolve them.

9. Updated information on subsidiaries was not available at time of printing. The information presented is as at December 31, 1989.

10. Not included in Statistical Summary of wholly-owned subsidiaries. Scheduled as a parent Crown corporation pursuant to *The Pilotage Act*.

Note to Changes to the Listings during the Year

1. Petro-Canada Inc., now renamed Petro-Canada, was temporarily reorganized into a parent Crown corporation from its previous status as a wholly-owned subsidiary.

PART II

TABLINGS IN PARLIAMENT: SUMMARIES AND ANNUAL REPORTS FOR PARENT CROWN CORPORATIONS

PART II

TABLINGS IN PARLIAMENT: SUMMARIES AND ANNUAL REPORTS FOR PARENT CROWN CORPORATIONS

Introduction

Part II of this report provides a record of the tablings of Crown corporation documents by appropriate Ministers for the twelve-month period ending July 31, 1991. It lists the summaries and annual reports for Crown corporations that were to be tabled, with the deadlines for tabling as well as the dates that the documents actually were tabled.

The provision of adequate and timely information to Parliament is a major objective of the control and accountability régime established for Crown corporations in 1984. To meet that objective, Ministers responsible for Crown corporations table a Corporate Plan Summary, a Capital Budget Summary and an Annual Report in Parliament for each Crown corporation listed under Part I and Part II of Schedule III of the *Financial Administration Act*. In addition, an Operating Budget Summary is tabled for Crown corporations listed in Part I of Schedule III.

The purpose of the Corporate Plan and Budget Summaries is to inform parliamentarians of the major strategic and financial elements contained in each Crown corporation's five-year approved Corporate Plan and Budget(s). The summaries are based on the approved Corporate Plan and Budgets and cover all the businesses, activities and investments of a corporation and of its wholly-owned subsidiaries including the major business decisions with respect to its future operations. The corporation's Annual Report informs Parliament of a corporation's performance relative to the objectives, strategies and activities approved by the government and tabled in the previous Corporate Plan and Budget Summaries.

The deadlines for the tabling of a Corporate Plan Summary or a Budget Summary by a Minister are contingent upon the approval date, by Governor-in-Council or Treasury Board, of the actual Corporate Plan or Budget. For Annual Reports, each Crown corporation is required to submit and annual report to the appropriate Minister within three months from the end of its financial year, and the tabling deadline is contingent upon when it was received by the Minister. The prescribed deadlines are:

> *Corporate Plan Summary:* 30 sitting days after approval of the Corporate Plan by Governor-in-Council. Budget Summaries have the same deadline when the Budget(s) are included with the Corporate Plan approval. Summaries of amended corporate plans have this same deadline.
>
> *Capital and Operating Budget Summaries:* 30 sitting days after Treasury Board approval of the Budgets. Summaries of amended budgets have this same deadline.
>
> *Annual Reports:* 15 sitting days after receipt by the appropriate Minister, not to exceed three months plus 15 sitting days.

The record of tablings of summaries and annual reports for the twelve-month period ending July 31, 1991 is shown in the following table which: a) provides information concerning those documents that were due to be tabled during the current reporting period, and b) lists those documents that were due to be tabled in a previous reporting period and were actually tabled during the current one.

This report is in accordance with Section 152(1) of the *Financial Administration Act* and pursuant to Bill C-91, *An Act to amend the Financial Administration Act and other Acts in consequence thereof* which received Royal Assent on May 8, 1991. Previously, this information had been required on a quarterly basis.

NOTES TO TABLE

(1) Parliamentary authority (Bill C-8) is being sought to provide for:

- the integration of Canada Harbour Place Corporation into another federal entity;
- the dissolution of the Canadian Livestock Feed Board and the transfer of its program responsibilities to the Department of Agriculture;
- the dissolution of Canadian Patents and Development Limited and the transfer of patents and licences to departments and agencies;
- the wind up and dissolution of Harbourfront Corporation and Mingan Associates, Ltd.; and
- the transfer of the one share of Canada Museums Construction Corporation Inc. held by the Minister of Public Works to Canada Lands Company Limited, which currently holds the remaining two of the three existing shares.

(2) The corporate plan for Canada Harbour Place Corporation was not approved because of the anticipated transfer or dissolution of the corporation, for which Parliamentary authority is now being sought (see note 1).

(3) Canada Lands Company (Mirabel) Limited, a subsidiary of Canada Lands Company Limited, formerly with acting parent status, was directed by Order in Council on April 25, 1991 to no longer continue in that acting capacity.

(4) The Governor-in-Council approved a one-year corporate plan for Canada Museums Construction Corporation Inc. in accordance with the Government's intent to obtain Parliamentary authority to provide for the change in status of the corporation from a parent Crown Corporation to a subsidiary as a step toward eventual dissolution of the corporation (see note 1). Subsequent amendment to the original plan extended it to cover the five-year planning period.

(5) The *Canada Ports Corporation Act* specifies that the annual report shall include the annual reports of the Local Port Corporations and that it be submitted to the appropriate Minister no later than four months after the financial year-end. These annual reports are tabled as one document.

(6) The Canadian Dairy Commission 1990-91/1994-95 corporate plan summary tabled on November 20, 1990 included the summaries of the capital and operating budgets but the labelling did not correctly indicate that all three summaries were incorporated into a single document.

(7) Four new Crown corporations came into existence on July 1st, 1990 pursuant to Bill C-12, *An Act Respecting Museums* which received Royal Assent on January 30th, 1990: the Canadian Museum of Civilization; the Canadian Museum of Nature; the National Gallery of Canada and the National Museum of Science and Technology.

(8) The approved corporate plan for the Canadian Museum of Civilization covers a six-year planning period which includes the nine-month transition period from July 1, 1990 to March 31, 1991. The summary document tabled in Parliament included summaries of the 1990-91 Operating and Capital budgets though this was not indicated by the labelling.

(9) The approved corporate plan for the Canadian Museum of Nature covers a six-year planning period which includes the nine-month transition period from July 1, 1990 to March 31, 1991. The mislabelled summary document tabled in Parliament incorrectly indicated only a five-year planning period (1991-92/1995-96) and did not indicate that the 1990-91 Operating and Capital budgets summaries were also included.

(10) The following corporations are inactive: Mingan Associates, Ltd. (see note 1), Canadian National (West Indies) Steamships, Ltd., and Teleglobe Canada.

(11) The 1991-92 / 1995-96 corporate plan and 1991-92 capital and operating budgets for Canadian Patents and Development Limited were not submitted for approval in anticipation of the expected dissolution of the corporation in 1990 (see note 1).

(12) The actual corporate plan for Defence Construction (1951) Limited was tabled. The labelling incorrectly identified only a one-year planning period and did not indicate that the operating and capital budgets were also included.

NOTES TO TABLE—(concluded)

(13) In 1990-91 a one-year corporate plan submitted by Harbourfront Corporation was not approved because of a planning freeze put in place by the Province of Ontario in December 1989. Subsequently, in February 1991, five-year 1990-91 and 1991-92 corporate plans were approved (see note 1).

(14) The International Centre for Ocean Development did not have capital expenditures in 1991-92 and did not submit a capital budget.

(15) The approved corporate plan for the National Gallery of Canada covers a six-year planning period which includes the nine-month transition period from July 1, 1990 to March 31, 1991.

(16) Petro-Canada International Assistance Corporation and one subsidiary of Canada Lands Company Limited (Old Port of Montreal Corporation Inc.) report as parent Crown corporations in accordance with section 86(2) of Part X of the *Financial Administration Act*.

(17) The Old Port of Montreal Corporation Inc. has not planned beyond 1992-93 in accordance with the funds available to the corporation to complete its mandate.

(18) Pursuant to Bill C-84, *Petro-Canada Public Participation Act* which received Royal Assent on February 1, 1991, Petro-Canada was reorganized into two parent Crown corporations: Petro-Canada and Petro-Canada Limited and privatization of the former is underway.

(19) Petro-Canada International Assistance Corporation did not submit a corporate plan for approval due to the anticipated dissolution of the corporation as announced in The Budget of February 26, 1991. The corporation did not submit a capital budget for approval because no capital expenditures were planned.

(20) Consideration of the St. Lawrence Seaway Authority's corporate plan has been deferred.

(21) Teleglobe Canada's corporate plan is for one year in anticipation of the corporation's dissolution.

PART III

OTHER CORPORATE INTERESTS OF CANADA

PART III
OTHER CORPORATE INTERESTS OF CANADA

Introduction

In response to section 151(3)(a) of the *Financial Administration Act*, Part III of this Annual Report presents lists of all the other corporate interests of which any shares are held by, on behalf of, or in trust for the Crown. This supplements the Part I list of Crown corporations and their subsidiaries. It consists of two sections:

1. Listings of the Other Corporate Interests

1.1 Statistical Summary—presents a comparison of the number of joint and mixed enterprises, other entities and international organizations as at March 31, 1991, and 1990.

These are grouped as:

1.2 Joint and Mixed Enterprises—corporate entities whose shares are partially owned by Canada, through a Minister. The balance of shares is owned by another level of government or by private sector parties.

1.3 Other Entities—corporate entities in which Canada holds no shares but, either directly or through a Crown corporation, has a right pursuant to statute, articles of incorporation, letters patent or by-law, to appoint or nominate one or more members to the board of directors or similar governing body.

1.4 International Organizations—corporate entities created pursuant to international agreements by which Canada has a right to appoint or elect members to a governing body.

1.5 Changes to the Listings—provides the names of other corporate interests of Canada deleted or added to the listings since the last Annual Report. The changes are as at March 31, 1991 compared to March 31, 1990.

2. Information about Other Corporate Interests of Canada

Descriptions for each of the joint and mixed enterprises, other entities, and international organizations are presented. These individual descriptions include general background information, a brief overview of the organization's mandate, and the government's objective for the investment. The background information identifies the head office, the responsible Minister, the statutory authority, the financial position and year-end, the name of the auditor and the federal ownership percentage based on the number of votes. For further information, the reader is referred to the special Acts, articles of incorporation and annual reports of the corporations.

1. Listings of the Other Corporate Interests of Canada (as at March 31)

1.1 Statistical Summary of the Other Corporate Interests of Canada

	1991	1990
Joint and Mixed Enterprises	22	22
Other Entities	46	44
International Organizations	14	13

1.2 Listings of Joint and Mixed Enterprises (as at March 31, 1991)

These are enterprises whose shares are partly owned by Canada, in conjunction with other levels of government or with private sector parties to further common objectives. Their subsidiaries and associates are not listed. Table 2.1 provides additional information about each of these corporate interests of Canada.

1. Canarctic Shipping Company Limited

ATLANTIC PILOTAGE AUTHORITY

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements have been prepared by the Authority's management in accordance with generally accepted accounting principles. Management is responsible for the integrity and objectivity of the data in the financial statements and annual report.

The Authority's management recognizes the responsibility of conducting its affairs in compliance with the Pilotage Act and regulations, the Financial Administration Act and regulations, and the by-laws of the Authority.

The Authority is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Authority exercises its responsibilities through the Audit Committee of the Authority, which is composed of members who are not employees of the Authority. The financial statements have been approved by the Authority on the recommendation of the Audit Committee.

The Auditor General of Canada conducts an independent examination in accordance with generally accepted auditing standards, and expresses his opinion on the financial statements. He has full and free access to the Audit Committee of the Authority, and his report follows.

C. R. Worthington
Chairman and Chief Executive Officer

M. R. McGrath
Treasurer

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of Atlantic Pilotage Authority as at December 31, 1990 and the statements of operations, contributed capital, deficit, and changes in financial position for the year then ended. These financial statements are the responsibility of the Authority's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Pilotage Act and regulations, and the by-laws of the Authority.

Raymond Dubois, FCA
Deputy Auditor General
for the Auditor General of Canada

ATLANTIC PILOTAGE AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Objectives and activities

The Atlantic Pilotage Authority (the "Authority") was established on February 1, 1972 pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act provides that pilotage tariffs shall be fair, reasonable and sufficient, together with any revenue from other sources, to permit the Authority to operate on a self-sustaining financial basis.

The Authority is a Crown corporation listed in Schedule III, Part I of the Financial Administration Act and is not subject to income tax under the provisions of the Income Tax Act.

2. Significant accounting policies

(a) Parliamentary appropriation

When revenues are not sufficient to permit the Authority to operate on a self-sustaining financial basis, the Authority requests parliamentary appropriations to recover cash operating losses. These appropriations are recorded in the accounts when approved by Parliament and are reflected in the statement of deficit.

Parliamentary appropriations are also requested when the cash operating profits are not sufficient to provide for the purchase of capital assets and the principal portion of payments under capital lease agreements. These appropriations are recorded in the accounts when approved by Parliament and are reflected in the statement of contributed capital.

(b) Amortization

Amortization of capital assets is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Pilot boats	10 to 25 years
Furniture and equipment	5 to 10 years

(c) Capital leases

The Authority leases a pilot boat from Canada under a long term financing lease. Under the terms of the lease agreement, the Authority assumes the rights and obligations of ownership. As a result, the lease is treated as a purchase and the principal portion of lease payments is capitalized and amortized over the estimated useful life of the boat. The corresponding liability is reduced by the principal portion of lease payments and the interest portion is expensed in the year to which it relates.

(d) Pension plan

All employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid.

(e) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded as they accrue to the employees.

3. Parliamentary appropriation

Appropriation Act Number 2, 1990-91, assented to June 19, 1990, provided $200,000 to be applied in payment of the excess of expenditures over revenues as a result of 1990 operations. This amount was received by the Authority on February 15, 1991, and is recorded in the accounts in accordance with the Authority's accounting policies.

4. Capital assets

	1990			1989
	Cost	Accumulated amortization	Net	Net
	$	$	$	$
Land	450		450	450
Pilot boats	1,668,866	626,912	1,041,954	1,038,475
Pilot boats under capital lease	448,573	262,534	186,039	203,981
Furniture and equipment	213,898	154,269	59,629	77,651
	2,331,787	1,043,715	1,288,072	1,320,557

5. Capital lease agreement

The Authority leases a pilot boat under a long term financing lease. The remaining payment under the lease is as follows:

	1990	1989
	$	$
9 1/2% lease agreement, due April 1991, payable in blended annual payments of $54,785	54,785	109,571
Less: amount representing interest	4,701	13,691
Principal amount of capital lease	50,084	95,880
Less: current portion	50,084	45,796
Principal amount of capital lease agreement net of current portion		50,084

Upon maturity of the lease, the Authority has the option to purchase the boat for $1. The Authority intends to purchase the boat upon maturity of the lease.

6. Pension plan

Under the Public Service Superannuation Act, employees of the Authority are entitled to count service prior to becoming an employee of the Authority as pensionable. For employees who elected to purchase pension benefits with respect to past service, the Authority is required to match the employee contribution. Total past service pension expense was $6,991 in 1990 ($6,821 in 1989). The estimated unfunded past service pension contribution with respect to these employees was approximately $124,000 at December 31, 1990 ($54,000 at December 31, 1989) and will be funded over the remaining years of service of the employees, or the terms of purchase, whichever is the lesser.

7. Related party transactions

The Authority receives services from government departments and these are provided without charge. These include pilot dispatching services by the Canadian Coast Guard, through its Vessel Traffic Service Centres in Nova Scotia, New Brunswick, and Newfoundland. The cost of these services is not recorded in the accounts of the Authority.

ATLANTIC PILOTAGE AUTHORITY—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

8. Commitments and contingencies

(a) The Authority has entered into contracts for pilot boat services, office rentals, wharfage fees and wharf rentals requiring the following minimum annual payments:

	$
1991	792,827
1992	564,268
	1,357,095

(b) A lawsuit has been filed and a claim for damages is being made against the Authority. In management's opinion, the outcome of these actions cannot be determined at this time and no provision has been made in the financial statements.

ATOMIC ENERGY OF CANADA LIMITED

MANAGEMENT RESPONSIBILITY

The financial statements and all other information presented in this Annual Report are the responsibility of the management and the Board of Directors of the corporation. The financial statements have been prepared in accordance with generally accepted accounting principles and include estimates based on the experience and judgement of management.

The corporation maintains books of account, financial and management control, and information systems, together with management practices designed to provide reasonable assurance that reliable and accurate financial information is available on a timely basis, that assets are safeguarded and controlled, that resources are managed economically and efficiently in the attainment of corporate objectives, and that operations are carried out effectively. These systems and practices are also designed to provide reasonable assurance that transactions are in accordance with Part X of the Financial Administration Act and its regulations, as well as the Canada Business Corporations Act, the articles, and the by-laws and policies of the corporation. The corporation has met all reporting requirements established by the Financial Administration Act, including submission of a corporate plan, an operating budget, a capital budget and this Annual Report.

The corporation's internal auditor has the responsibility for assessing the management systems and practices of the corporation. The Auditor General of Canada conducts an independent examination of the financial statements of the corporation and reports on his examination to the Minister of Energy, Mines and Resources.

The Board of Directors' Audit Committee, composed of directors who are not employees of the corporation, reviews and advises the Board on the financial statements, the Auditor General's reports thereto and the plans and reports related to special examinations, and oversees the activities of internal audit. The Audit Committee meets with management, the internal auditor and the Auditor General on a regular basis.

Stanley R. Hatcher
Chief Executive Officer, AECL

David G. Cuthbertson
Chief Financial Officer, AECL

AUDITOR'S REPORT

TO THE MINISTER OF ENERGY, MINES AND RESOURCES

I have audited the balance sheet of Atomic Energy of Canada Limited as at March 31, 1991 and the statements of income, contributed capital, retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act, the articles and the by-laws of the corporation.

L. Denis Desautels, FCA
Auditor General of Canada

ATOMIC ENERGY OF CANADA LIMITED—*Continued*

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with generally accepted accounting principles applied on a consistent basis. The most significant accounting policies are summarized below:

Foreign currency translation

Transactions denominated in a foreign currency are translated into Canadian dollars at the exchange rate in effect at the date of the transaction, except those covered by forward exchange contracts, where the rate established by the terms of the contract is used. Monetary assets and liabilities outstanding at the balance sheet date are adjusted to reflect the exchange rate in effect at that date. Exchange gains and losses arising from the translation of foreign currencies are included in income.

Inventories

Heavy water is valued at the lower of average cost, less related parliamentary appropriations, and net realizable value. Maintenance and general suoplies are valued at cost.

Investment

The corporation has an investment in Pickering reactor Units 1 and 2. This is recorded at cost and is being amortized on a straight-line basis over the remaining term of the related investment agreement.

Property, plant and equipment

Property, plant and equipment of a research and development nature are recorded at cost and expensed in the year of acquisition.

Other property, plant and equipment are recorded at cost and this cost, net of parliamentary appropriations and third party contributions, if any, is amortized on a straight-line basis over the estimated useful life of the asset as follows:

Machinery and equipment	3 to 20 years
Buildings	20 to 50 years

Costs of decommissioning nuclear facilities are expensed when incurred since the timing of these activities and the associated costs cannot be reasonably estimated.

Long-term contracts

Revenue and costs on long-term contracts are accounted for by the percentage of completion method, applied on a conservative basis to recognize the absence of certainty on these contracts. Full provision is made for all estimated losses to completion of contracts in progress.

Parliamentary appropriations

The Government of Canada, through parliamentary appropriations, funds certain operations of the corporation as outlined in Note 2. The parliamentary appropriations are offset against the applicable expenditures except for the portion used to discharge certain loan principal which is recognized as an increase in contributed capital.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. The corporation's contributions to the Plan are limited to an amount equal to the employees' contributions on account of current service. These contributions represent the total pension obligations of the corporation and are charged to income on a current basis.

Employee termination benefits

Employees are entitled to specific termination benefits as provided for under collective agreements and conditions of employment. The liability for these benefits is charged to income as benefits accrue to the employees. The accumulated liability is actuarially determined on a periodic basis.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1991

1. Accounting policies

The summary of significant accounting policies is an integral part of these financial statements.

2. Parliamentary appropriations

Parliamentary appropriations were used during the year for the following purposes:

	1991	1990
	(in thousands of dollars)	
Research and development operations	154,323	153,722
CANDU 3 pre-project costs		29,200
Decommissioning activities	11,368	12,023
Heavy water plant loan principal	1,765	1,621
Subsidiaries divested		9,074
	167,456	205,640

3. Receivable from CDIC

On September 30, 1988, the corporation sold its shares in Nordion Inc. and Theratronics International Limited to Canada Development Investment Corporation (CDIC) for eventual privatization. The receivable from CDIC of $114.6 million represents the net book value of the these divested subsidiaries at the date of sale. Under the terms of the agreement with CDIC, the corporation will receive the proceeds realized from the privatization of Nordion and Theratronics, less CDIC's expenses associated therewith. It is expected that these net proceeds will be fully distributed to the Shareholder. As of the date of the auditor's report, CDIC was close to completing negotiations for the sale of Nordion. While the corporation anticipates a gain on sale, the amount cannot be reasonably determined at this time.

4. Inventories

	1991	1990
	(in thousands of dollars)	
Current		
Maintenance and general supplies	7,378	3,256
Heavy water	538,838	544,799
Less: parliamentary appropriations	531,053	536,703
	7,785	8,096

Parliamentary appropriations for heavy water are repayable to the government, together with interest thereon, to the extent of future revenue from sales of related heavy water. Accrued liabilities as at March 31, 1991, include $4.9 million in respect of net proceeds from sales during the year (1990—$2.9 million).

ATOMIC ENERGY OF CANADA LIMITED—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1991—*Continued*

5. Long-term receivables

	1991	1990
	(in thousands of dollars)	
Notes receivable from provincial utilities in respect of the financing of nuclear facilities maturing through 2008 at fixed interest rates varying from 7.795% to 9.706% (refer to Note 8 for related debt)	491,568	522,118
Contract receivables maturing through 1998	43,461	38,957
Mortgages receivable and other	3,097	3,135
	538,126	564,210
Current portion	49,215	65,900
	488,911	498,310

6. Investment

The corporation, Ontario Hydro and the Province of Ontario are parties to an agreement for the construction and operation of Units 1 and 2 of the Pickering "A" nuclear generating station, with ownership of these Units being vested in Ontario Hydro. Under the agreement, the corporation is entitled to receive payments until the year 2003 based on the net operational advantage of the power generated by Pickering Units 1 and 2 as compared with the coal-fired Lambton Units 1 and 2. Due primarily to costs incurred during the 1984-88 shutdown of the Pickering Units 1 and 2 for pressure tube replacement, no payment have been received since this shutdown. The timing and extent of future payback remain uncertain.

The charge against 1991 earnings for amortization of the investment in Pickering was $5.5 million (1990—$5.5 million).

7. Property, plant and equipment

	1991			1990
	Cost	Funding and accumulated amortizationn	Net	Net
	(in thousands of dollars)			
Nuclear power operations				
Land and improvements	1,169	565	604	607
Buildings	9,860	9,750	110	121
Machinery and equipment	21,871	16,615	5,256	5,789
	32,900	26,930	5,970	6,517
Research and development operations				
Land and improvements	11,880	11,821	59	
Buildings	83,842	82,273	1,569	2,119
Reactors and equipment	244,151	242,677	1,474	1,368
Construction in progress	69,433	65,032	4,401	
	409,306	401,803	7,503	3,487
	442,206	428,733	13,473	10,004

Amortization of property, plant and equipment for the year ended March 31, 1991 amounted to $2.2 million (1990—$1.9 million).

Research and development property, plant and equipment expensed during the year amounted to $9.9 million (1990—$13.0 million).

8. Long-term debt

	1991	1990
	(in thousands of dollars)	
Loans from Government of Canada		
To finance provincial utility nuclear facilities, maturing through 2008 at fixed interest rates varying from 6.687% to 9.706% (refer to Note 5 for related receivables)	491,274	521,700
To finance leased heavy water and other assets, maturing through 2008 at interest rates varying from 5.125% to 13.885%	20,901	22,316
Loans from third parties		
To finance the purchase of the Glace Bay heavy water plant, maturing through 1998 at an imputed interest rate of 8.875%	17,241	18,969
	529,416	562,985
Current portion	36,907	33,871
	492,509	529,114

Loan repayments required over succeeding years are as follows (millions of dollars): 1992—$36.9; 1993—$33.1; 1994—$16.0; 1995—$17.3; 1996—$18.8; and subsequent to 1996—$407.3.

9. Decommissioning activities

An important objective of the corporation's decommissioning activities is to ensure environmental safety. These activities consist of placing and maintaining prototype reactors and other facilities in a safe-storage mode as the initial stage of decommissioning, as well as the activities associated with closure and protection of heavy water plants. Funding for these activities is provided through parliamentary appropriations and proceeds generated from related asset sales.

Prototype reactors

The decommissioning of nuclear research and prototype facilities is an integral part of the nuclear program. Currently, the Gentilly 1, Douglas Point and Nuclear Power Demonstration (NPD) prototype reactors are in a safe-storage mode and the initial stage of decommissioning of the Whiteshell research reactor (WR-1) is continuing.

Future net costs related to decommissioning nuclear facilities beyond the safe-storage mode cannot be quantified at this time due to the uncertainty as to the nature and timing of the disposal alternative that will ultimately be adopted in each case. In accordance with the corporation's accounting policy, any such costs will be expensed when incurred.

Detailed planning for the dismantling and decontamination of Tunney's Pasture radioactive waste was conducted this year and the estimated cost for that phase of decommissioning is $13.1 million.

All reactors in the decommissioning stage have been fully written off. The original gross cost of these reactors was $216 million, including $31 million for capitalized heavy water.

ATOMIC ENERGY OF CANADA LIMITED—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1991—*Concluded*

Heavy water plants

The corporation has closed down the three heavy water plants located in Glace Bay and Port Hawkesbury in Cape Breton, Nova Scotia and in LaPrade, Quebec. These assets, which have been fully written off, had an original gross cost of $803 million.

10. Related party transactions

In addition to the transactions disclosed elsewhere in these financial statements, the corporation had the following transactions with the Government of Canada:

	1991	1990
	(in thousands of dollars)	
Repayment of loans and interest	88,547	88,790
Payments to the Public Service Superannuation Plan	12,036	11,744

In the normal course of business, the corporation also enters into various transactions with the Government of Canada, its agencies and other Crown corporations.

11. Comparative figures

Certain reclassifications have been made to the 1990 comparative figures to conform with the current year's presentation.

12. Supplementary information

Incorporation

Pursuant to the authority and powers of the Minister of Energy, Mines and Resources under the Atomic Energy Control Act, the corporation was incorporated in 1952 under the provisions of the Canada Corporations Act (and continued in 1977 under the provisions of the Canada Business Corporations Act) to develop the utilization of atomic energy for peaceful purposes.

The corporation is a Schedule III Part I Crown corporation under the Financial Administration Act. The corporation is exempt from income taxes.

Insurance

To the extent deemed appropriate, the corporation carries conventional insurance for its facilities and heavy water inventories. Decommissioned prototype reactors are self-insured.

Sales agents' remuneration

Guidelines concerning the commercial practices of Crown corporations require disclosure of sales agents and the total remuneration paid to them during the year.

Remuneration and expenses paid to the following sales agents and representatives in 1991 aggregated $3.1 million(1990—$1.0 million):

B.C. Park, U.S.A.; Marubeni Corporation, Japan; PII-PED International Inc., U.S.A.; P.T. Sanga Kencana International, Indonesia; Samchang Corporation, Korea; Yuksel Nedim Yalcin, Turkey.

BANK OF CANADA

AUDITORS' REPORT

We have audited the statement of assets and liabilities of the Bank of Canada as at December 31, 1990 and the statement of revenue and expense for the year then ended. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Bank as at December 31, 1990 and the results of its operations for the year then ended in accordance with the accompanying summary of significant accounting policies applied on a basis consistent with that of the preceding year.

BANK OF CANADA—*Continued*

STATEMENT OF REVENUE AND EXPENSE
YEAR ENDED DECEMBER 31, 1990
(with comparative figures for 1989)
(in millions of dollars)

	1990	1989
Revenue		
Revenue from investments and other sources, net of interest paid on deposits of $46.7 ($42.8 in 1989)	2,615.2	2,424.5
Expense		
Salaries[1]	78.9	72.1
Contributions to pension and insurance funds[2]	10.9	9.1
Other staff expenses[3]	2.8	2.3
Directors' fees	0.1	0.1
Auditors' fees and expenses	0.6	0.5
Taxes—Municipal and business	10.3	9.5
Bank note costs	41.5	40.0
Data processing and computer costs	7.8	6.3
Premises maintenance—Net of rental income[4]	19.8	19.7
Printing of publications	0.8	1.0
Other printing and stationery	2.4	2.4
Postage and express	1.7	1.8
Telecommunications	2.0	1.8
Travel and staff transfers	3.4	2.7
Other expenses	3.6	2.9
	186.6	172.2
Depreciation on buildings and equipment	20.1	13.5
	206.7	185.7
Net revenue paid to Receiver General for Canada	2,408.5	2,238.8

See accompanying notes to the financial statements.

(1) Salaries include overtime and are for Bank staff other than those engaged in premises maintenance. The number of employee years worked by such staff (including temporary, part-time and overtime work) was 2,301 in 1990 compared with 2,255 in 1989.

(2) Contributions to pension and insurance funds for Bank staff other than those engaged in premises maintenance.

(3) Other staff expenses include retirement allowances and educational training costs.

(4) Premises maintenance comprises building and equipment maintenance expenses including related staff costs.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Significant accounting policies

The financial statements of the Bank conform to the disclosure and accounting requirements of the Bank of Canada Act and the Bank's by-laws. The significant accounting policies of the Bank are:

(a) Revenues and expenses

Revenues and expenses are accounted for on the accrual basis except for interest on advances to a bank ordered to be wound up where interest is recorded as received.

(b) Investments

Investments, consisting mainly of Government of Canada treasury bills and bonds, are recorded at cost adjusted for amortization of purchase discounts and premiums. The amortization as well as gains and losses on disposition are included in revenue.

(c) Translation of foreign currencies

Assets and liabilities in foreign currencies are translated to Canadian dollars at the rates of exchange prevailing at the year-end. Gains and losses from translation of, and transactions in, foreign currencies are included in revenue.

(d) Bank premises

Bank premises, consisting of land, buildings and equipment, are recorded at cost less accumulated depreciation. Depreciation is calculated on the declining balance method using the following annual rates:

Buildings	5%
Computer equipment	35%
Other equipment	20%

A full year of depreciation is charged against assets in the year of acquisition, except for Projects in progress which are depreciated from the point of substantial completion. No depreciation is taken on assets in the year of disposal.

(e) Pension plan

The Bank's contributions to the Pension Trust Fund are recorded as expenses at the time they are made. Actuarial surpluses or deficiencies, if any, are amortized over periods not exceeding those provided for by the Pension Benefits Standards Act, 1985, and the regular contributions are adjusted accordingly.

(f) Insurance

The Bank does not insure against direct risks of loss to the Bank, except for potential liabilities to third parties and where there are legal or contractual obligations to carry insurance. Any costs arising from these risks are recorded in the accounts at the time they can be reasonably estimated.

2. Advances to members of the Canadian Payments Association

Advances include a total of $29.6 million ($46.4 million in 1989) provided to the Canadian Commercial Bank and the Northland Bank for which winding-up orders have been issued by the courts. On the basis of the available information, it is the opinion of the Bank of Canada that this amount will be fully repaid from the proceeds of the liquidations.

BANK OF CANADA—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

3. Investments

Investments may include securities of the Government of Canada held under Purchase and Resale Agreements (PRA). As at December 31, 1990 and 1989 there were no securities held under PRA. Investments exclude $607.9 million of securities of the Government of Canada which were sold subject to a repurchase agreement for January 2, 1991 (nil in 1989).

4. Bank premises

	1990			1989
	Cost	Accumulated depreciation	Net	Net
	(in millions of dollars)			
Land and buildings	173.8	74.3	99.5	102.7
Computer equipment ...	40.6	25.5	15.1	5.4
Other equipment	62.9	38.2	24.7	24.3
	277.3	138.0	139.3	132.4
Projects in progress	28.3		28.3	6.0
	305.6	138.0	167.6	138.4

5. Capital

The authorized capital of the Bank is $5.0 million divided into 100,000 shares of the par value of $50 each. The shares are fully paid and in accordance with the Bank of Canada Act have been issued to the Minister of Finance, who is holding them on behalf of Canada.

6. Rest fund

The rest fund was established by the Bank of Canada Act and represents the general reserve of the Bank. In accordance with the Act, the rest fund was accumulated out of net revenue until it reached the stipulated maximum amount of $25.0 million in 1955. Subsequently, all net revenues have been paid to the Receiver General for Canada.

7. Legal matters

The Bank of Canada's security for advances to the Canadian Commercial Bank and the Northland Bank includes the loan portfolios of those institutions. In the case of the Canadian Commercial Bank, two issues are being considered by the courts. On March 30, 1990, the Court of Queen's Bench in Alberta ruled that the interest received from the portfolio does not form part of the security, and this issue is now before the Alberta Court of Appeal. There have also been submissions presented to the court challenging the liquidator's conclusion that loans made in California form part of the Bank's security. In the event that there were a final legal determination that all of the interest or all of the California loan portfolio is not included in the security, it could result in some adjustment to amounts which have been recorded in income. The information available at the present time is not sufficient to estimate the potential magnitude of such an adjustment.

8. Commitments

As at December 31, 1990, outstanding commitments under contracts for new buildings and equipment totalled $62 million. These contracts call for payments over the next four years and pertain to the Bank's responsibility for the issuance of bank notes.

CANADA COUNCIL

AUDITOR'S REPORT

TO THE CANADA COUNCIL AND THE
MINISTER OF COMMUNICATIONS

I have audited the balance sheet of the Endowment Account and Special Funds of the Canada Council as at March 31, 1991 and the statements of revenue and expense, equity and changes in financial position for the year then ended. These financial statements are the responsibility of the Council's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Council as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles.

Raymond Dubois, FCA
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada

CANADA COUNCIL—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and operations

The Canada Council was established by the Canada Council Act in 1957 which authorized the creation of an Endowment Fund of $50 million pursuant to Section 13 of the Act. Except for the annual parliamentary appropriation, monies or properties donated to the Council pursuant to Section 18 of the Act are generally accounted for as Special Funds or Special Trusts. The Council has been assigned the functions and duties for the Canadian Commission for UNESCO pursuant to Paragraph 8(2) of the Act. The Council is not an agent of Her Majesty. Its objectives are to foster and promote the study, enjoyment and production of works, in the arts.

2. Significant accounting policies

(a) Investments

Equities, bonds, debentures and mortgages are recorded at cost. The portfolios of two Special Funds (Molson Prize and Lynch-Staunton) are merged with the Endowment Account. Special Funds with capital in excess of $250,000 and received after January 1, 1990 are merged with the Endowment Account. The participation of each fund is calculated on the basis of market value as at the date the monies are received. Interest, dividends, gains and losses on disposal of investments are allocated to each fund based on the percentages established at the beginning of each quarter.

Special Funds with capital less than $250,000 and Special Trusts receive income calculated quarterly using the ninety day Treasury Bill rate at the beginning of the quarter.

Investments are written down to market value when the loss in value is considered to be a permanent decline.

(b) Equipment and leasehold improvements

Equipment and leasehold improvements are recorded at cost and amortized over their estimated useful lives on the straight-line method, as follows:

Equipment	5 years
Leasehold improvements	term of the lease (maximum 10 years)

A full year's amortization is taken in the year of acquisition while no amortization is taken in the year of disposal. Gains and losses on disposals are netted against the amortization expense in the year of disposal.

(c) Works of art

Works of art acquired by the Canada Council Art Bank are recorded at laid-down cost.

(d) Musical instruments—Special Funds

Musical instruments are recorded at cost.

(e) Special Funds and Special Trusts

Special Funds and Special Trusts include amounts received by the Canada Council by way of bequest, gift or donation and may be specific as to purpose.

Special Funds are managed at the full discretion of the Canada Council and are invested in accordance with the policies of the Endowment Fund.

Special Trusts are either managed or allowed to have their capital drawn down, in accordance with the donor's wishes.

(f) Employee termination benefits

Employees are entitled to specific termination benefits as provided for under the Council's policy and conditions of employment. The cost of these benefits is expensed in the year in which they accrue to employees.

(g) Gains and losses on disposal of investments

Pursuant to subsection 17(2) of the Act, net gains or losses on disposal of investments are credited or charged to the Fund Capital. In the event that net losses exceed the Fund balance, the excess is recorded as an expense.

(h) Contributed surplus

Amounts paid during the year for the purchase of works of art acquired by the Canada Council Art Bank are expensed. Such purchases are then capitalized as contributed surplus-works of art and no amortization is recorded.

(i) Capitalization of net income of Special Funds

The Council capitalizes 10% of the revenue less administration expenses of the Izaak Walton Killam Memorial Fund for Advanced Studies and the Killam Special Scholarship Fund, in accordance with advice received from the trustees of these Funds in order to preserve the equity for future beneficiaries. However, the Council reserves the right to draw at any time on the accumulated net income capitalized, for the purposes of the funds.

(j) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. This contribution represents the total liability of the Council.

(k) Parliamentary appropriations

Parliamentary appropriations to the Council are recorded as revenue in the year in which they are approved by Parliament.

(l) Grants and services

Grants approved by the Council are recorded as expense in the appropriate year as determined by the Treasurer in consultation with the Arts Division. Cancelled grants and refunds of grants approved in previous years, are shown as revenue.

Services to the arts which include juries, advisory committees, prizes and other costs that directly serve artists or the arts community, are recorded as expense in the year in which they are incurred.

3. Special funds

(a) Izaak Walton Killam Memorial

A bequest of $12,339,615 in cash and securities was received from the estate of Mrs. Dorothy J. Killam and was established "to provide scholarships for advanced study or research in any field of study or research other than the 'arts' as presently defined in the Canada Council Act and not limited to the 'humanities and social sciences' referred to in such Act".

CANADA COUNCIL—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

The bequest contains the provision that "the Fund shall not form part of the Endowment Account or otherwise be merged with any assets of the Council". The cash and securities received and the proceeds have been invested in a separate portfolio.

The fund equity as at March 31, 1991 was $19,276,789 (1990—$18,966,558).

(b) Killam Special Scholarship

This fund was established by way of securities received from Mrs. Dorothy J. Killam. Dividends and proceeds from the redemption of those securities amounted to $13,653,344.

The net income from this fund is available to provide fellowship grants to Canadians for advanced study or research in the fields of medicine, science and engineering.

The fund equity as at March 31, 1991 was $18,394,978 (1990—$18,289,278).

(c) Jean A. Chalmers

An endowment of $500,000 in cash was received from Mrs. Floyd S. Chalmers to establish a special Jean A. Chalmers Fund for the crafts. In consultation with the Canadian Crafts Council, the income of the fund is used to provide a small number of special project grants for the development or advancement of the crafts in Canada.

The fund equity as at March 31, 1991 was $550,225 (1990—$540,020).

(d) Molson Prize

Gifts of $1,000,000 were received from the Molson Foundation for the establishment of the Molson Prize Fund. The income of the fund is used for awarding cash prizes to Canadians "for outstanding achievement in the fields of the Arts, the Humanities or the Social Sciences".

The fund equity as at March 31, 1991 was $1,453,267 (1990—$1,417,272).

(e) Lynch-Staunton

This fund was established by a bequest in cash of $699,066 received from the estate of V.M. Lynch-Staunton, the income from which is available for the regular programs of the Council.

The fund equity as at March 31, 1991 was $1,476,413 (1990—$1,440,474).

(f) Vida Peene

This fund was established by a bequest in cash of $599,761 received from Vida Peene to provide payments to specified organizations.

The fund equity as at March 31, 1991 was $599,803 (1990—$599,799).

(g) Joseph S. Stauffer

This fund was established by bequests in cash totalling $400,000 from the estate of Joseph S. Stauffer, the income from which is to provide prizes to encourage promising young Canadians in the fields of music, visual arts and literature.

The fund equity as at March 31, 1991 was $474,235 (1990—$466,540).

The following Special Funds have an original capital less than $250,000 and have a total fund equity as at March 31, 1991 of $1,625,069 (1990—$1,566,201).

(h) Other

(i) Frances Elizabeth Barwick and J.P. Barwick

Bequests totalling $93,000 in cash were received from the estates of Mrs. Frances Elizabeth Barwick and J.P. Barwick. The total fund is to be used for the benefit of the musical arts and is being used for a musical instruments bank.

(ii) John B.C. Watkins

This fund was established by a bequest consisting of the net income from the residue of the estate of the late John B.C. Watkins to provide scholarships for postgraduate studies in specified countries.

(iii) The Duke and Duchess of York Prize in Photography

The Council received an endowment of $170,000 from the Government of Canada to mark the occasion of the marriage of The Duke and Duchess of York. The income from this endowment is to be used to provide an annual scholarship to a professional artist for personal creative work or advanced study in photography.

(iv) Petro Canada Award

Petro Canada donated $50,000 towards an award in the media arts. The income from this donation is to be used to provide an annual award to an artist who has achieved outstanding and innovative use of new technology in the media arts.

(i) Funds will eventually be received from the following bequests:

(i) Edith Davis Webb

This fund, estimated at $400,000, is intended "for the purpose of making grants or establishing scholarships for musical study in such manner as the Council shall determine".

(ii) Coburn Fellowship Trust

This fund, the amount of which cannot be determined at this time, is to provide for exchanges of scholars between Israel and Canada. It consists of an amount of $100 from Kathleen Coburn to establish this fund as well as a $20,000 donation received from F.E. Coburn.

(iii) John Stephen Hirsch

This fund, the amount of which cannot be determined at this time, is being established from the estate of John Hirsch for specific purposes. An interim distribution of $38,000 has been received from the estate.

CANADA COUNCIL—*Continued*

NOTES TO FINANCIAL STATEMENTS

	1991			1990
	Cost	Accumulated amortization	Net book value	Net book value
	(in thousands of dollars)			
Equipment	2,427	1,736	691	873
Leasehold improvements	1,395	576	819	744
	3,822	2,312	1,510	1,617

6. Deferred revenue

	1991	1990
	(in thousands of dollars)	
Art Bank		
—Rentals of works of art	329	320
—Deferred rent	274	438
Canadian Commission for UNESCO	342	243
Touring Office	77	
	1,022	1,001

The deferred rent represents an inducement payment received from the landlord that will be used to reduce rental accommodation expense over the next three years. Amounts from the Canadian Commission for UNESCO represent funds received for specific programs for which expenses have not yet been incurred.

7. Due to Special Trusts

These funds have been accounted for separately due to special conditions related to the donations. Trusts with balances exceeding $50,000 are:

(i) Glenn Gould Prize Fund

The Council has received $525,113 from the Glenn Gould Memorial Foundation to provide a prize of $50,000 every three years (funds permitting) to an outstanding individual for his or her original contribution to the field of music and communications. As at March 31, 1991, the balance stood at $640,926.

(ii) Visiting Foreing Artists Program

The Visiting Foreign Artists Program is administered by the Arts Awards Service of the Canada Council on behalf of Department of External Affairs. It is a residency program through which Canadian professional arts organizations receive assistance to invite distinguished foreign artists from any country outside Canada for periods ranging from two weeks to four months. As at March 31, 1991, the balance stood at $79,972.

(iii) Japan-Canada Fund

The Council received an endowment of $966,651 from the Government of Japan "to further strengthen the relations between Canada and Japan". After consultations with the Embassy of Japan, the endowment is to be used to fund programs that will encourage artistic exchange between the two countries. As at March 31, 1991, the balance stood at $908,677.

(iv) Ronald J. Thom Award

The Council was the beneficiary of donations totalling $106,898 to provide an award every two years "to a candidate in the early stages of his or her career in architecture, who demonstrates outstanding creative talent in architectural design and a sensitivity to its allied arts".

CANADA DEPOSIT INSURANCE CORPORATION

MANAGEMENT RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying financial statements of the Canada Deposit Insurance Corporation and all information in this annual report are the responsibility of management and the financial statements have been approved by the Board of Directors. The financial statements include some amounts that are necessarily based on management's best estimates and judgement.

The financial statements have been prepared by management in accordance with generally accepted accounting principles. Financial information presented elsewhere in the annual report is consistent with that contained in the financial statements.

In discharging its responsibility for the integrity and fairness of the financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained in accordance with the Financial Administration Act and regulations as well as the Canada Deposit Insurance Corporation Act and by-laws of the Corporation. The system of internal control is augmented by internal audit which conducts periodic reviews of different aspects of the Corporation's operations. In addition, the internal and external auditors have free access to the audit committee of the Board, which oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

In accordance with its Statutory Objects, the Corporation monitors the operations of its member institutions with varying degrees of intensity, as circumstances warrant. Except for two institutions referred to in Note 8 of the financial statements where we have not yet been able to estimate the extent of loss, if any, we are not aware of any other situations at this time where the Corporation is exposed to a material loss.

These financial statements have been independently examined by the Corporation's auditor, the Auditor General of Canada, and his report is included herein.

J. P. Sabourin
President and Chief Executive Officer

Johanne R. Lanthier
Vice-President, Finance

AUDITOR'S REPORT

TO THE MINISTER OF FINANCE

I have audited the balance sheet of the Canada Deposit Insurance Corporation as at December 31, 1990 and the statements of deposit insurance fund, investment and administrative operations and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Deposit Insurance Corporation Act and the by-laws of the Corporation.

CANADA DEPOSIT INSURANCE CORPORATION—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Authority and objective

The Corporation was established in 1967 by the Canada Deposit Insurance Corporation Act (the CDIC Act). It is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

The objects of the Corporation are to provide insurance against the loss of part or all of deposits, to be instrumental in the promotion of standards of sound business and financial practices for member institutions, and to promote and otherwise contribute to the stability and competitiveness of the financial system in Canada. The aforementioned objects are to be pursued for the benefit of depositors of member institutions and in such manner so as to minimize the exposure of the Corporation to loss.

The Corporation has the power to do all things necessary or incidental in the furtherance of its objects including the acquisition of assets from or guarantee of loans to a member institution. It may make or cause to be made inspections of member institutions, prescribe standards of sound business and financial practices, and act as liquidator, receiver or inspector of a member institution or a subsidiary thereof.

2. Significant accounting policies

Basis of preparation

These financial statements have been prepared in accordance with generally accepted accounting principles.

These financial statements do not reflect the assets, liabilities or operations of member institutions whose operations the Corporation is financing in order to secure an orderly wind-down.

The policies adopted are set out below.

Premium recognition

Premiums are recognized when assessed and are based on insured deposits with member institutions as at April 30 of each year. Premiums are collectible in two equal instalments, on June 30 and December 31 of the year.

General provision for loss

The general provision for loss reflects the Corporation's best estimate of losses in respect of only those member institutions against which the Corporation has or is certain to have a financial claim. This estimate includes consideration of losses expected in respect of claims against insolvent member institutions arising from payments made to insured depositors and of loans made to member institutions and others under an agency or loan agreement.

Claims against insolvent member institutions and loans to member institutions and others, may be written-off in full or in part when, in the opinion of the Corporation, there is reasonable certainty that the claims and loans will not be fully realized. This would generally occur when a period of three years has elapsed since the intervention by the Corporation. The Corporation is required to exercise judgement in arriving at its decision to write-off all or a portion of its claims and loans. Also the amount written-off depends largely on the availability of reliable information regarding the amount the Corporation expects to lose with respect to a particular insolvent member institution.

Interest income recognition

The Corporation charges interest on loans advanced, directly or indirectly, by it in accordance with the specific terms of the loan agreements. It ceases to recognize interest income when an insolvent member institution is placed in liquidation or when there is a reasonable doubt as to the ultimate collectibility of the interest. When reasonable doubt is present, interest revenue is recognized only as cash is received.

3. Loans to member institutions and others

Under the general powers of subsection 10(1) of the CDIC Act, the Corporation has, under the provisions of loan agreements, made secured loans to member institutions and others. The outstanding loan balance as at December 31, 1990, for three (3) loans made prior to 1990, is $76.3 million (December 31, 1989: $111 million). The Corporation is presently accruing interest on $58.75 million of these loans. No interest is being accrued on the remaining $17.6 million since the ultimate collectibility of the interest is doubtful.

During the year, the Corporation entered into a new loan agreement to assist in the orderly winding-down of a member institution. In accordance with this agreement, advances were made during the year. As at December 31, 1990, a secured loan of $28.5 million is outstanding. The Corporation is not accruing interest on this loan since it is unlikely that interest will be recovered from this institution.

4. Claims against insolvent member institutions

Claims against insolvent member institutions arise through the subrogation of the rights and interests of the depositor when the Corporation pays that depositor's claim. The Corporation also asserts a claim against insolvent member institutions in liquidation, arising out of loans previously advanced by the Corporation. The Corporation has asserted claims against all its insolvent member institutions which were placed in liquidation.

5. General provision for loss

The following table provides details of the calculation of the general provision for loss as reflected on the balance sheet:

	1990	1989
	(in thousands of dollars)	
Balance, beginning of year	502,000	584,000
Provision for loss adjustment	(78,694)	(77,733)
	423,306	506,267
Less write-offs		
Claims against insolvent member institutions	90,812	4,267
Loans to member institutions and others	36,494	
	127,306	4,267
Balance, end of year	296,000	502,000

Last year, the Corporation stated that it was a claimant in a number of judicial actions arising out of the collapse or insolvency of various member institutions. During the year, certain major actions were settled. These settlements account for the major portion of the $78.694 million adjustment in 1990.

CANADA DEPOSIT INSURANCE CORPORATION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

6. Loans from the Consolidated Revenue Fund

With the approval of the Governor in Council, the Corporation can borrow up to $3 billion from the Consolidated Revenue Fund.

As at December 31, 1990, the Corporation has $1,283 million in outstanding loans including accrued interest of $58 million (1989: $1,439 million including accrued interest of $64 million).

These loans bear interest at various annual rates ranging from 9.95% to 12.64% and are repayable according to the following schedule:

	(in thousands of dollars)
1991	276,000
1992	414,000
1993	395,000
1994	140,000
Accrued interest at December 31, 1990	58,000
	1,283,000

7. Premiums

At the request of the Corporation and in accordance with paragraph 21(1)(b) of the CDIC Act, the Governor in Council fixed the premium rate for the premium year 1990, at one-tenth of one percent of insured deposits, the same rate as in 1989.

8. Contingent liabilities

Exposure to loss in respect of member institutions

The financial condition of two related member institutions, one of which has substantial insured deposits, deteriorated during the year, which significantly increased the Corporation's exposure to loss. The Corporation is currently examining options to assist in a sale or a wind-down of these member institutions in a manner to meet its Statutory Objects. Presently, the Corporation does not have adequate information to estimate reasonably the amount of any loss that may result from a sale or wind-down. The loss, if any, will be accounted for as a charge to the Deposit Insurance Fund when it can be reasonably estimated.

In addition, during the year, the Corporation has provided an underlying guarantee of a $17 million secured liability of these members to their bank.

Litigation

The Corporation is a defendant in a number of judicial actions arising out of the collapse or insolvency of various member institutions. The Corporation does not believe it has any liability as a result of these actions and has therefore not provided for any potential claims.

9. Income taxes

The Corporation is subject to federal income taxes although it is not subject to taxation on premiums assessed and may not take a deduction for claims paid.

The Corporation has available losses which can be carried forward to reduce future years' earnings otherwise subject to taxation. Such losses total $782 million and expire as follows:

Originating taxation year	Expiring taxation year	Amount (in thousands of dollars)
1984	1991	44,000
1985	1992	81,000
1986	1993	85,000
1987	1994	167,000
1988	1995	165,000
1989	1996	156,000
1990	1997	84,000
		782,000

10. Insured deposits

Deposits insured by the Corporation, on the basis of returns received from member institutions, as at April 30, 1990 and 1989, were as follows:

	1990	1989
	(in billions of dollars)	
Federal Institutions	248	225
Provincial Institutions	22	20
	270	245

11. Long-term operating lease commitments

The Corporation has entered into a ten (10) year operating lease for its premises commencing October 1st, 1990 with an option for one renewal term of five (5) years. Minimum lease payments are as follow:

Year ending December 31	Amount
	$
1991	589,000
1992	652,000
1993	670,000
1994	676,000
1995	694,000
1996 to 2000	3,594,000
	6,875,000

12. Comparative figures

Certain of the 1989 figures have been reclassified to conform with the presentation adopted for 1990.

CANADA DEVELOPMENT INVESTMENT CORPORATION

AUDITORS' REPORT

TO THE MINISTER OF FINANCE

We have audited the consolidated balance sheet of Canada Development Investment Corporation as at December 31, 1990 and the consolidated statements of income (loss) and accumulated deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the corporation and of its wholly-owned subsidiaries that have come to our notice during our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and the charters and by-laws of the corporation and its wholly-owned subsidiaries.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990
(All dollar amounts are stated in thousands)

1. The corporation

Canada Development Investment Corporation ("the corporation") was incorporated on May 26, 1982 under the provisions of the Canada Business Corporations Act and is wholly-owned by Her Majesty in Right of Canada. The corporation is subject to the Financial Administration Act and is an agent of Her Majesty.

2. Activities of the corporation

In a statement dated October 30, 1984, the Minister of the Government of Canada ("Government") responsible for the corporation announced the intention of the Government to cause the corporation to dispose of its investments in Massey-Ferguson Limited ("Massey-Ferguson") now Varity Corporation ("Varity") and Massey-Combines Corporation ("Massey-Combines"), Canadair Limited ("Canadair"), The de Havilland Aircraft of Canada, Limited ("de Havilland") and Canada Eldor Inc. ("CEI") (formerly Eldorado Nuclear Limited) in an orderly fashion. Disposals of the corporation's investments in de Havilland and Canadair were completed in 1986. The remaining investment in Massey-Combines was written off in 1988. During 1988, the operating assets of CEI were transferred to Cameco Corporation ("Cameco") (formerly Cameco—A Canadian Mining & Energy Corporation) in exchange for notes and shares in Cameco. CEI now holds a 38.5% interest in Cameco (Note 6). The only significant continuing activities of CEI are the monitoring of its equity interest in Cameco and continuing the servicing of its debt.

The Government provides authorities and guarantees for the borrowing of CEI of $700,000 of which $558,371 is being utilized at December 31, 1990.

Since CEI's ability to generate future cash flows will depend primarily on future dividends received from and dispositions of its investment in Cameco, CEI's continued existence as a going concern will depend on its ability to obtain debt financing within the extent of its statutory borrowing limits, or future capital injections by the corporation or the Government.

During 1988, the corporation acquired the following two subsidiaries from Atomic Energy of Canada Limited ("AECL"):

(a) Nordion International Inc. ("Nordion") which holds the assets and operations of Radiochemical Company, formerly a division of AECL; and

(b) Theratronics International Limited ("Theratronics") which holds the assets and operations of the former Medical Products Division of AECL.

Pursuant to a directive received from the Government, the corporation acquired during 1989, a 51% interest in Ginn Publishing Canada Inc. ("Ginn Publishing") from Paramount Communications (Canada) Limited ("Paramount") (formerly Gulf + Western (Canada) Inc.).

Pursuant to an agreement entered into on December 17, 1990 by the corporation, the Governments of Canada and Ontario and Varity, Varity agreed to pay the corporation $7,813 in each of 1990 and 1993 and to maintain certain levels of employment in Canada through to May 1, 1993; the Governments agreed to terminate all prior agreements with Varity; and the corporation continues to have responsibility for monitoring Varity's compliance with the new employment requirements.

The Board of Directors of the corporation is continuing to develop approaches to the divestiture of the corporation's remaining investments and to assist the Government in implementing its privatization policies.

3. Significant accounting policies

(a) Basis of consolidation

The financial statements of Cartierville Financial Corporation Inc. ("Cartierville Financial") and CEI, both wholly-owned subsidiaries, have been consolidated with those of the corporation.

(b) Investments in non-consolidated subsidiaries

The corporation's investments in subsidiaries acquired with the objective of eventual disposition or privatization are accounted for using the equity basis, unless (i) there is a formal plan approved by the Government to dispose of the investment, in which case the investments are carried at the lower of the equity basis carrying value and net realizable value; or (ii) the earnings of the subsidiaries and/or gains or losses on dispositions do not accrue to the benefit of the corporation, in which case the investment is carried at the lower of cost and net realizable value. As at December 31, 1990, the corporation's investments in Nordion, Theratronics, and Ginn are carried at the lower of cost which is net realizable value, pursuant to accounting policy (ii) in the prior sentence.

A consolidation of the corporation's financial statements and such subsidiaries has not been prepared as the corporation believes that the adopted accounting method provides a more informative presentation to the shareholder.

(c) Other investments

The corporation's investment in Cameco, a company in which the corporation exercises significant influence, but not control, is accounted for using the equity method. Under this method, the net income (loss) recognized from the investment is the corporation's pro rata share of the investee's net income. Any dividends received will serve to reduce the carrying value of the investment.

Portfolio investments are carried at cost.

(d) Amortization of deferred financing costs

Debt discounts and issue expenses associated with long-term financing are deferred and amortized over the term of the debt.

(e) Foreign exchange

Long-term debt and other monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at rates of exchange in effect at year-end. Certain long-term debt (and related interest payments) payable in foreign currencies has been exchanged through swap agreements into other currencies. Such debt and interest expense is accounted for using exchange rates applicable to the currencies into which they have been swapped. Certain other debt (and/or related interest payments) payable in foreign currencies is hedged for periods of time using forward foreign exchange contracts. Unrealized translation gains and losses on such debt are offset by realized and unrealized translation losses and gains on the forward contracts. The premium on the forward contract is amortized over the term of the contract and is presented as interest expense in the statement of income (loss). Unrealized translation gains and losses on non-hedged long-term debt are deferred and amortized over the remaining term of the debt. All other translation gains and losses are included in the statement of income (loss) in the current period.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Continued*

4. Cash restricted as to use

These funds are held in a special account in the Consolidated Revenue Fund of Canada on a non-interest basis to satisfy payment of contingent liabilities relating to the sale of the corporation's investments in Canadair (see Note 9 (a)) and de Havilland.

As part of an omnibus agreement entered into on February 9, 1990, the corporation, Her Majesty The Queen in Right of Canada as represented by the Minister of Regional Industrial Expansion, The Boeing Company ("Boeing"), Boeing Canada Technology Ltd., and Boeing of Canada Ltd. (successor to the business of The de Havilland Aircraft of Canada, Limited), entered into an agreement whereby the corporation is no longer liable for any contingent liabilities or other expenditures arising from a purchase and sale agreement dated January 31, 1986 whereby the corporation sold its investment in de Havilland to Boeing. Pursuant to this agreement, the corporation paid Boeing of Canada Ltd. $63,000 during the year.

5. Investment in non-consolidated subsidiaries, at cost

The carrying values of the corporation's investments in subsidiaries are as follows:

	Carrying value December 31, 1990	Carrying value December 31, 1989
Ginn Publishing (b)	10,385	10,323
Nordion (a)	146,404	129,881
Theratronics (a)	12,028	11,867
	168,817	152,071

(a) Nordion and Theratronics

The share purchase agreement between AECL and the corporation requires the corporation to pay to AECL the fair market value of the shares of Nordion and Theratronics. The agreement also specifies that the fair market value will be estimated as at the date of transfer, but will subsequently be adjusted to an amount equal to the price ultimately received by the corporation in the subsequent privatization sale of Nordion and Theratronics. Furthermore, the agreement specifies that the corporation is not required to make payment of the purchase price to AECL until 60 days after the privatization sale.

Accordingly, AECL will ultimately receive the full proceeds realized upon privatization of Nordion and Theratronics, less the corporation's expenses associated with the privatization.

Thus, while the corporation has title to the shares of Nordion and Theratronics and executive management control over their operations prior to their privatization, the corporation did not acquire the normal risks and benefits associated with share ownership. Accordingly, the corporation has recorded its investment in Nordion and Theratronics at a deemed cost represented by the net book values of those companies at December 31, 1990 and 1989, with an off-setting non-interest bearing note payable to AECL, and has not recognized any income or loss on these investments.

(b) Investment in Ginn Publishing

Pursuant to a directive received from the Government, the corporation acquired during 1989, a 51% interest in Ginn Publishing from Paramount.

6. Other investments

	Carrying value December 31, 1989	Equity in income	Provision for loss	Carrying value December 31, 1990
Cameco	337,485	35,274		372,759
Varity	23,139			23,139
	360,624	35,274		395,898

Investment in Cameco

In connection with the sale of CEI's assets to Cameco in 1988, CEI took back as part of its consideration 3,850,000 common shares in Cameco, representing a 38.5% ownership interest. The shareholders intend to dispose of the shares in stages over the next five years. The ultimate recovery of the carrying value of the shares will depend on the outcome of the future dispositions of these shares.

During 1989, the spot market prices for uranium concentrate declined significantly. In light of this decline, the corporation re-evaluated the recoverability of its investment in Cameco through the privatization process described above and has concluded that it is unlikely that the corporation will recover the purchase price discrepancy component of its investment in Cameco. Accordingly, the corporation recorded a provision for the probable impairment in the value of this purchase price discrepancy in the 1989 statement of income (loss) of $202,431. The provision reduces the corporation's investment in Cameco to an amount approximately equal to the corporation's proportionate interest in Cameco's book value.

7. Long-term debt

	1990	1989
Notes due 1990, at 9.125%		10,093
Loan due 1991, at 4.75% (95,000 Swiss francs) (a)	86,355	71,355
Loan due 1992, at 6.5% (100,000 Swiss francs) (b)	53,269	53,269
Notes due 1992, at 14.5% ($100,000 U.S.) (c)	119,000	119,000
Bonds due 1992, at 5.25% (7,000,000 Japanese yen), with 1,000,000 Japanese yen due in 1991 (d)	59,829	64,400
Notes due 1993, at 11.75%	250,000	250,000
Sub-total	568,453	568,117
Less		
Current portion of long-term debt listed above	94,901	18,143
Deferred losses on foreign exchange	8,603	18,926
Total	464,949	531,048

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

(a) Through foreign exchange forward contracts, CEI has hedged its exposure to changes in the Swiss franc exchange rate through to maturity of the loan.

(b) Through a series of swap transactions, CEI has fixed the repayment of the loan due 1992, at a Canadian dollar amount of $53,269 and has fixed the interest rate at 17.15%.

(c) Through a series of swap transactions, CEI has fixed the repayment of the notes due 1992 at a Canadian dollar amount of $119,000 and has fixed the interest rate at 15.835%.

(d) Through foreign exchange forward contracts, CEI has hedged its exposure to changes in the Yen exchange rate through to February, 1991 on the bonds due 1992, and intends to continue this hedging program through to maturity of the bonds.

Long-term debt payments due in each of the next three calendar years are: 1991—$94,901; 1992—$223,552; 1993—$250,000.

Financial expense is composed of the following:

	1990	1989
Interest and other income	(1,277)	(4,409)
Interest expense		
Long-term debt	69,545	64,506
Other	2,555	3,011
Foreign exchange losses (gains)		
Amortization of deferred losses	10,323	12,642
Other		3,756
Other finance charges	1,406	3,894
	82,552	83,400

8. Accumulated deficit

Effective as of December 31, 1988, the corporation's shareholder approved the elimination of the December 31, 1988 accumulated deficit of $3,366,875 by a charge to contributed surplus.

9. Contingencies

(a) On December 23, 1986, the corporation sold its investment in Canadair Limited to Bombardier-Canadair Inc. The corporation and the Government have agreed to indemnify Bombardier-Canadair Inc. and Canadair Limited for certain contingent liabilities and other expenditures which may be incurred by Bombardier-Canadair Inc. and Canadair Limited over a maximum of five years from December 23, 1986, and for specified product related claims for fifteen years for which insurance coverage is unavailable or economically impracticable to obtain. Reasonable estimates of the effects, if any, of such indemnities cannot be made at this time. Such amounts will be recognized in future years, as appropriate, when reasonable estimates can be made as to the likely amount, if any, which will ultimately be paid pursuant to the indemnities.

(b) Under the terms of the agreement between CEI and Cameco, CEI and Cameco agreed on a formula for sharing any future joint costs, excluding normal operating costs, related to certain specified existing wastes accumulated by CEI to October 5, 1988, the date of transfer of assets. Cameco assumed liability for the first $2,000 of joint costs. The next $98,000 in joint costs will be shared 23/98ths by Cameco, 75/98ths by CEI. CEI assumed liability for joint costs in excess of $100,000.

CEI will accrue for these costs on an annual basis, when reasonable estimates are available.

(c) The corporation is the defendant in certain litigation. While the amount of any ultimate liability cannot yet be determined, the corporation, after discussion with legal counsel, is of the opinion that there will be no material adverse effect on its financial position.

10. Corporate (income) expense, net

	1990	1989
Interest earned on short-term investments and notes receivable	(3,661)	(2,901)
Other income	(10,857)	(3,055)
	(14,518)	(5,956)
Corporate and divestiture expenses	3,433	4,555
	(11,085)	(1,401)
Recovery of divestiture expenses incurred in prior years	(55)	(1,290)
Net operating (income) expense	(11,140)	(2,691)

11. Income tax

As at December 31, 1990, Cartierville Financial has tax losses of $92,700 available to reduce taxable income, expiring as follows:

1991	92,500
1994	200
	92,700

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 1

NORDION INTERNATIONAL INC.

AUDITORS' REPORT TO THE SHAREHOLDER

We have audited the consolidated balance sheet of Nordion International Inc. as at December 31, 1990 and the consolidated statements of income, retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company, as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles.

We further report that, in our opinion, the transactions of the Company that have come to our notice in the course of our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Company and any directives given to the Company.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 1—*Continued*

NORDION INTERNATIONAL INC.—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990
(All dollar amounts are stated in thousands)

Nordion International Inc. ("the Company") is incorporated under the Canada Business Corporations Act and is subject to the Financial Administration Act and the Government Corporations Operations Act. The primary business of the Company is the production and sale of radioisotopes, capital equipment and related technology for segments of the international health care market. The Minister of State for Privatization has announced the government's intention to sell the Company to the private sector, however no assessment of the potential impact of privatization has been made or reflected in these financial statements.

1. Accounting policies

Significant accounting policies are summarized below:

(a) Basis of presentation

The consolidated financial statements of the Company include the accounts of its wholly-owned Belgian subsidiary, Nordion Europe s.a. accounted for as a self-sustaining enterprise. The investment of the Company in CyberFluor Inc. is accounted for using the equity method.

(b) Plant and property

Plant and property is recorded at cost and depreciated on a straight-line basis over the estimated useful life of the underlying assets, as follows:

Buildings and site services	25 to 30 years
Other plant and equipment	3 to 10 years

(c) Decommissioning and waste disposal costs

Future decommissioning costs of nuclear facilities and waste disposal costs cannot be quantified due to uncertainty as to their exact nature and timing. Accordingly, the Company expenses these costs when incurred.

(d) Inventory

Inventory is valued at the lower of average cost and replacement cost. Decay of radioactive inventory is expensed as it occurs. Cobalt-60 inventory is recorded on discharge from reactors. The Company records advance payments, required under certain contractual circumstances, as in-reactor inventory.

(e) Deferred charges

Costs of modifications to production facilities owned by others to permit isotope production are deferred and amortized over the minimum contractual production period.

(f) Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. The Company's contributions to the plan are limited to matching the employees' contributions on account of current service. These payments are charged to income on a current basis and represent the total pension obligations of the Company.

(g) Employee termination benefits

Employees are entitled to specific termination benefits defined under collective agreements and conditions of employment. The amount provided represents the vested portion.

(h) Revenue recognition

Revenue is recognized at the time of shipment of goods to the customer, with the exception of major equipment sales, where a portion of revenue is deferred pending installation at the customer's premises.

2. Inventory

	1990	1989
Raw materials and supplies	58,851	23,524
In-reactor inventory	8,954	5,923
Work-in-process	3,701	1,558
Finished goods	4,157	5,303
	75,663	36,308

3. Plant and property

	Cost	Accumulated depreciation	Net book value 1990	Net book value 1989
Land	305		305	305
Site services	1,107	727	380	338
Buildings	34,184	10,287	23,897	23,903
Machinery and equipment	40,887	10,378	30,509	15,716
	76,483	21,392	55,091	40,262

Depreciation totalling $3,161 (1989—$2,757) was recorded during the year.

4. Deferred charges

	Cost	Amortization	Net book value 1990	Net book value 1989
Reactors	42,837	7,346	35,491	30,478
Cyclotron	8,672	2,439	6,233	4,088
Leasehold improvements	921		921	
Other	562	282	280	348
	52,992	10,067	42,925	34,914

Amortization totalling $2,135 (1989—$2,030) was recorded during the year.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 1—*Continued*

NORDION INTERNATIONAL INC.—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Continued*

5. Acquisition and investment

(a) Acquisition

Under the terms of the Asset Purchase Agreement, (the "Agreement") effective November 30, 1990, Nordion Europe s.a. acquired certain assets related to the manufacture and distribution of radiochemical and radiopharmaceutical products. Fair market values assigned are as follows:

Plant and property	12,847
Inventory	1,880
Other assets	1,156
	15,883

The cash consideration on closing was $9,947 and the remaining $5,936 is payable in 1993, subject to certain conditions being fulfilled. The first year-end of Nordion Europe s.a. was November 30, 1990. This acquisition has been accounted for using the purchase method. The Agreement includes additional commitments totalling $5,809 for cyclotron and related construction in Belgium during 1991.

(b) Investment

During the year the Company acquired 47.5% of the outstanding common shares of CyberFluor Inc. at a cost of $2,684. The Company has a further commitment to acquire an additional 2,500,000 common shares at one dollar per share in 1991.

6. Long-term liabilities

	1990	1989
Amount payable (Note 5)	5,936	
Employee termination benefits	1,302	3,027
Loans payable	506	768
	7,744	3,795

The amount payable is non-interest bearing and is due November 30, 1993. The loans payable are due to AECL and bear interest rates from 6 11/16% to 7 5/8% with final payments due in August 1992. Principal repayments amount to $281 and $225 in 1991 and 1992 respectively.

7. Related party transactions

(a) Nordion International Inc. was incorporated initially as a wholly-owned subsidiary of Atomic Energy of Canada Limited ("AECL"). Assets and liabilities were transferred from AECL to the Company in exchange for 100,000 common shares. Since the transaction occurred between companies under common control, a value of $96,310 was assigned to capital stock for accounting purposes representing the net book value of the assets and liabilities transferred. The effective date of these transactions was July 1, 1988. As at September 30, 1988, all of the outstanding common shares were sold to Canada Development Investment Corporation ("CDIC").

(b) Transactions with companies controlled directly and indirectly by the Government of Canada for manufactured products, processed raw materials and related services included purchases of $21,594 (1989—$16,427) and sales of $1,615 (1989—$2,145). At December 31, 1990, $3,206 (1989—$2,494) was recorded as accounts payable and $355 (1989—$430) as accounts receivable.

8. Income taxes

The Company became subject to federal income taxes effective September 30, 1988. As a wholly-owned subsidiary of a federal Crown corporation, the Company is not subject to provincial income taxes.

The Company's effective tax rate is made up as follows:

	1990	1989
Net federal statutory rate	28.0%	28.0%
Manufacturing and processing deduction	(3.5)%	(2.5)%
Surtax	0.8%	0.8%
Large corporations tax	1.0%	0.5%
Permanent differences	(9.9)%	(21.4)%
Effective rate of income tax	16.4%	5.4%

Permanent differences, which arose from differences in tax and accounting values of the assets and liabilities of the Company at the date it became subject to income taxes totalling $10,249 (1989—$18,116) remain available to reduce future years' taxable income.

The components of the provision for income taxes are as follows:

	1990	1989
Current	1,966	120
Deferred	1,310	1,240
	3,276	1,360

Investment tax credits totalling $1,000 were recorded in 1990, $826 as other income and $174 as a reduction of the cost of plant and property.

9. Capital stock

The authorized capital stock of the Company consists of an unlimited number of no par value common shares. Issued and outstanding shares total 100,000.

10. Commitments

(a) The Company has commitments to purchase Cobalt-60 produced in nuclear generating stations for various periods to the year 2003. Annual payments are expected to range between $10,000 and $40,000 in each of the next five years.

(b) The Company is committed to AECL to make capital contributions for isotope production facilities in the amount of $1,850 during 1991.

THERATRONICS INTERNATIONAL LIMITED

AUDITORS' REPORT TO THE SHAREHOLDER

We have audited the consolidated balance sheet of Theratronics International Limited as at December 31, 1990 and the consolidated statements of earnings, retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, the transactions of the Company that have come to our notice in the course of our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Company and any directives given to the Company.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 2—*Continued*

THERATRONICS INTERNATIONAL LIMITED—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990
(All dollar amounts are stated in thousands)

Theratronics International Limited ("Theratronics") is incorporated under the Canada Business Corporations Act and is subject to the Financial Administration Act. The primary business of Theratronics is the manufacture, sales and service of radiotherapy and related equipment and services to hospitals and medical institutions around the world. The Minister of State for Privatization has announced the government's intention to sell the Company to the private sector. No assessment of the potential impact of privatization has been made or reflected in the consolidated financial statements.

1. Significant accounting policies

Significant accounting policies are summarized below:

(a) Basis of consolidation

The consolidated financial statements include the accounts of Theratronics International Limited and its subsidiary Medical High Technology Inc. ("MHTI") and MHTI's subsidiary Meicor Inc. for the eight-month period then ended.

(b) Capital assets

Capital assets are recorded at cost and depreciated on a straight-line basis over the estimated useful life of the underlying assets, as follows:

Site service	15 years
Building	25 to 30 years
Furniture and fixtures	5 years
Leasehold improvements	3 years
Machinery and equipment	3 to 10 years

(c) Inventories

Work-in-process and finished goods inventories are valued at the lower of cost and estimated net realizable value. Raw material, service inventory, and accelerator product parts are valued at the lower of cost and replacement cost. Cost is determined on a first-in first-out basis and includes material, labour and manufacturing overhead where applicable. Decay of radioactive inventory is expensed as it occurs.

Cobalt-60 inventory is recorded on discharge from reactors. The Company records advance payments, required under certain contractual circumstances, as in-reactor cobalt inventory.

(d) Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. The Company's contributions to the plan are limited to matching the employees' contributions on account of current service. These payments are charged to income on a current basis and represent the total pension obligations of the Company.

(e) Employee termination benefits

Employees are entitled to specific termination benefits defined under collective agreements and conditions of employment. The amount provided to cover this liability incudes a vested portion, covering employee service to date, and a non-vested portion covering anticipated future service and inflation. These benefits are recorded on the basis of actuarial assumptions as to future events.

(f) Warranty provision

A provision is recorded for estimated warranty costs at the time of product sale.

(g) Revenue recognition

Revenue from the sale of radiotherapy units and related equipment is recognized upon shipment. Revenue from field services is recognized at the time services are rendered. Revenue from service contracts is recognized on a straight-line basis over the term of the contract.

(h) Goodwill

Goodwill is being amortized on a straight-line basis over a period of 17 years.

2. Business acquisitions

Effective May 1, 1990, the Company increased its common share ownership in MHTI from 48% to 51% through the conversion of preferred shares. Concurrently, the Company loaned U.S. $2,000 to MHTI to allow MHTI to acquire a 65% controlling interest in Meicor Inc. for U.S. $2,000. The consolidated statement of earnings includes the operations of MHTI and Meicor Inc. for the eight-month period ended December 31, 1990.

(i) MHTI was formed in 1982 to provide equipment maintenance services on CT Scanners and in 1988 developed interactive software known as the CT-SIM. The acquisition of MHTI has been accounted for by the purchase method. Details of the acquisition are as follows:

Net assets acquired, at assigned fair values	
Non-cash current assets	1,863
Capital assets	238
Patent rights	26
Other	42
Goodwill arising on Meicor Inc. acquisition	1,348
	3,517
Current liabilities	(2,766)
Long-term debt	(2,517)
Minority interest	(640)
	(5,923)
Net asset position acquired represented by cash in MHTI	2,406
Consideration given	

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 2—*Continued*

THERATRONICS INTERNATIONAL LIMITED—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Continued*

(ii) Meicor Inc., incorporated in 1986, is a development stage company which owns the technology proprietary designs, patents and manufacturing and distribution rights to an array of air-cooled metal-ceramic x-ray tubes. The acquisition of Meicor Inc. by MHTI has been accounted for by the purchase method. Details of the acquisition are as follows:

Net assets acquired, at assigned fair values	
Cash	2,303
Capital assets	77
Patent rights	9
	2,389
Current liabilities	(576)
Minority interest	(640)
	1,173
Cash consideration given	2,320
Excess of consideration given over assigned values of net assets acquired —Goodwill on date of acquisition	1,147
Acquisition costs incurred by MHTI	201
Goodwill	1,348

3. Inventories

	1990	1989
Service inventory	2,812	4,705
Manufacturing		
Raw materials	3,399	3,701
Work-in-process	2,188	2,597
Finished goods	1,528	1,289
Cobalt 60	1,111	808
	11,038	13,100

The radiotherapy industry demands timely response to customer needs for product and warranty service. Accordingly, the service inventory is maintained by the Company to provide an adequate service level to worldwide customers and based on the Company's estimate of usage and the customers' anticipated level of service and requirements, the carrying value of this inventory was written down during the current year by $2,099 and charged to the statement of earnings.

4. Capital assets

	Cost	Accumulated depreciation	Net book value 1990	Net book value 1989
Land	304		304	304
Site service	372	219	153	140
Buildings	3,473	3,085	388	153
Machinery and equipment	6,048	4,217	1,831	1,830
Furniture and fixtures	287	216	71	
Leasehold improvements	25	9	16	
	10,509	7,746	2,763	2,427

5. Bank loan

The Company's bank loan is an unsecured revolving line of credit which bears interest at the bank's prime rate.

6. Share capital

The authorized capital stock of the company consists of an unlimited number of no par valued common shares with issued and outstanding shares totalling 10,000.

7. Income taxes

Initially the Company, as a division and then a subsidiary of Atomic Energy of Canada Limited ("AECL"), was exempt from income taxes. However, as a wholly-owned subsidiary of Canada Development Investment Corporation ("CDIC"), this exemption does not apply and the Company became subject to federal income taxes effective September 30, 1988. As a wholly-owned subsidiary of a Federal Crown corporation, the Company is not subject to provincial income taxes.

The Company's expected income tax rate is the net Federal statutory rate (including surtax) of 31% less the applicable manufacturing and processing deduction of 3.5%. The 1990 effective tax rate is zero due to the utilization by the Company of the permanent differences related to the assets of the Company at the date it became subject to income taxes. Permanent differences totalling $7,619 (1989—$9,446) remain available to reduce future years' taxable income.

8. Operating working capital

The changes in operating working capital is comprised of:

	1990	1989
Accounts receivable	(5,154)	(531)
Inventories	1,357	(2,039)
Prepaid expenses	71	(150)
Accounts payable and accrued liabilities	(1,638)	3,633
Deferred revenue	(48)	(639)
Employee termination benefits	515	430
	(4,897)	704

9. Related party transactions

(a) Theratronics International Limited was incorporated initially as a wholly-owned subsidiary of AECL. Assets and liabilities were transferred from AECL to the Company in exchange for 10,000 common shares. Since the transaction occurred between companies under common control, a value of $9,588 was assigned to capital stock for accounting purposes representing the net book value of the assets and liabilities transferred. The effective date of these transactions was July 1, 1988. As of September 30, 1988, all of the outstanding common shares were sold to CDIC.

(b) AECL and Nordion International Inc. ("Nordion"), a corporation controlled by CDIC, provide the Company with services and cobalt sources. Total purchases of goods and services in the year were $3,578 (1989—$3,703). At December 31, 1990, $551 of these purchases were included in accounts payable.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 2—*Concluded*

THERATRONICS INTERNATIONAL LIMITED—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Concluded*

The Company provides Nordion with manufactured products and accelerator product support on behalf of AECL. Total sales of goods and services in the year were $7,132 (1989—$7,372). At December 31, 1990, $1,308 of these sales were included in accounts receivable.

(c) On June 6, 1990, an Asset Purchase Agreement between Nordion and the Company for the purchase of Nordion's bulk cobalt business was entered into by Nordion and the Company. The Company acquired certain cobalt and transportation packaging inventories, customer lists and the exclusive right to carry on the business in the continuation of and succession to Nordion.

10. Commitments

(a) Minimum lease payments in accordance with lease commitments are as follows:

1991	1,117
1992	937
1993	830
1994	349
Thereafter	730
	3,963

(b) The Company has a commitment, estimated at $18,900 to purchase cobalt 60 from AECL produced at its Chalk River nuclear laboratory to the year 2008.

(c) The Company has a commitment of approximately $5,500 to purchase CT-SIM units from MHTI over a 28 month period ending April 30, 1993.

11. Sales agents' remuneration

During the year ended December 31, 1990 the Company paid sales commissions totalling $1,822 to the following agents: Kostas Karayansissa, Greece; Medtel Pty. Limited, Australia; Equipo Pare Hospitales SA, Mexico; Kamol Sukosol Electric Co. Ltd., Thailand; Tecnologia EM Radiocoa Ltda., Brazil; Watsons & Sons (E.M.) Limited, Nigeria; Radiotherapy-Medical Systems PTY Ltd., Australia; General Marketing and Manufacturing Co. Ltd., India; General Machinery Co. Ltda., Chile; Bureautique Communications Organization Ltd., Channel Islands; Aristons (PVT) Ltd., Sri Lanka; General Medica de Columbia Ltd., Columbia; Meditel Medikal Elektronik Ltd., Turkey; L.H.S. Communications Ltd., Jamaica; Baron Technologies Inc., Korea; Indexport de Ecuador CIA Ltda., Ecuador; Philips Medizin Systeme GMBH, West Germany; Dada, El Salvador; Mems, South Africa; Nucletron International B.V., Netherlands; M.L. Sethi, India; Springport Taiwan Ltd., Taiwan.

12. Comparative figures

Certain 1989 figures have been reclassified to conform with the current year's financial statement presentation.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

AUDITORS' REPORT

TO THE MINISTER OF FINANCE

We have examined the consolidated balance sheet of Canada Development Investment Corporation as at December 31, 1989 and the consolidated statements of income (loss) and accumulated deficit, contributed surplus and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the corporation as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in method of accounting for inventories made by an investee company, Cameco - A Canadian Mining and Energy Corporation, as described in Note 4 to the financial statements, on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the corporation and of its wholly-owned subsidiaries that have come to our notice during our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and the charters and by-laws of the corporation and its wholly-owned subsidiaries.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1989
(All dollar amounts are stated in thousands)

1. The corporation

Canada Development Investment Corporation ("the corporation") was incorporated on May 26, 1982 under the provisions of the Canada Business Corporations Act and is wholly-owned by Her Majesty in Right of Canada. The corporation is subject to the Financial Administration Act and is an agent of Her Majesty.

2. Activities of the corporation

In a statement dated October 30, 1984, the Minister of the Government of Canada ("Government") responsible for the corporation announced the intention of the Government to cause the corporation to dispose of its investments in Massey-Ferguson Limited ("Massey-Ferguson") now Varity Corporation ("Varity") and Massey-Combines Corporation ("Massey-Combines"), Canadair Limited ("Canadair"), The de Havilland Aircraft of Canada, Limited ("de Havilland") and Canada Eldor Inc. ("CEI") (formerly Eldorado Nuclear Limited) in an orderly fashion. Disposals of the corporation's investments in de Havilland and Canadair were completed in 1986. The remaining investment in Massey-Combines was written off in 1988. During 1988, the operating assets of CEI were transferred to Cameco - A Canadian Mining and Energy Corporation ("Cameco") in exchange for notes and shares in Cameco. CEI now holds a 38.5% interest in Cameco (Note 7). The only significant continuing activities of CEI are the monitoring of its equity interest in Cameco and continuing the servicing of its debt.

The Government provides authorities and guarantees for the borrowing of CEI of $700,000 of which $522,652 is being utilized at December 31, 1989.

Since CEI's ability to generate future cash flows will depend primarily on future dividends received from and dispositions of its investment in Cameco, CEI's continued existence as a going concern will depend on its ability to obtain debt financing within the extent of its statutory borrowing limits, or future capital injections by the corporation or the Government.

During 1988, the corporation acquired the following two subsidiaries from Atomic Energy of Canada Limited ("AECL"):

(a) Nordion International Inc. ("Nordion") which holds the assets and operations of Radiochemical Company, formerly a division of AECL; and

(b) Theratronics International Limited ("Theratronics") which holds the assets and operations of the former Medical Products Division of AECL.

Pursuant to a directive received from the Government, the corporation acquired, on May 26, 1989, a 51% interest in Ginn Publishing Canada Inc. ("Ginn Publishing") which owns the business of Ginn + Company and GLC Publishers Limited ("GLC") from Paramount Communications (Canada) Limited ("Paramount") (formerly Gulf + Western (Canada) Inc.).

The Board of Directors of the corporation is continuing to develop approaches to the divestiture of the corporation's remaining investments and assist the Government in implementing its privatization policies.

3. Significant accounting policies

(a) Basis of consolidation

The financial statements of Cartierville Financial Corporation Inc. ("Cartierville Financial") and CEI, both wholly-owned subsidiaries, have been consolidated with those of the corporation. (CEI for the period commencing October 1, 1988).

Earnings of CEI for the period from January 1, 1988 to September 30, 1988 (the period prior to the disposition of CEI's operating assets to Cameco (Note 7)) have been accounted for using the equity method pursuant to the accounting policy discussed below.

(b) Investments in non-consolidated subsidiaries

The corporation's investments in subsidiaries acquired with the objective of eventual disposition or privatization are accounted for using the equity basis, unless (i) there is a formal plan, approved by the Government to dispose of the investment, in which case the investments are carried at the lower of the equity basis carrying value and net realizable value; or (ii) the earnings of the subsidiaries and/or gains or losses on dispositions do not accrue to the benefit of the corporation, in which case the investment is carried at the lower of cost and net realizable value. As at December 31, 1989, the corporation's investments in Nordion, Theratronics, and Ginn are carried at the lower of cost which is net realizable value, pursuant to accounting policy (ii) in the prior sentence.

A consolidation of the corporation's financial statements and such subsidiaries has not been prepared as the corporation believes that the adopted accounting method provides a more informative presentation to the shareholder.

(c) Other investments

The corporation's investment in Cameco, a company in which the corporation exercises significant influence, but not control, is accounted for using the equity method. Under this method, the net income (loss) recognized from the investment is the corporation's pro rata share of the investee's net income, less amortization and/or write-off of any purchase price discrepancy (which is the excess of the cost of the investment over the underlying net book value). Any dividends received will serve to reduce the carrying value of the investment; and any restatements of prior period's financial statements by Cameco are reflected in the carrying value of the investment, to the extent that they apply to periods subsequent to the corporation's initial investment in Cameco.

Portfolio investments are carried at cost.

(d) Amortization of deferred financing costs

Debt discounts and issue expenses associated with long-term financing are deferred and amortized over the term of the debt.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Continued*

(e) Foreign exchange

Long-term debt and other monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at rates of exchange in effect at year-end. Certain long-term debt (and related interest payments) payable in foreign currencies has been exchanged through swap agreements into other currencies. Such debt and interest expense is accounted for using exchange rates applicable to the currencies into which they have been swapped. Certain other debt (and/or related interest payments) payable in foreign currencies is hedged for periods of time using forward foreign exchange contracts. Unrealized translation gains and losses on such debt are offset by realized and unrealized translation losses and gains on the forward contracts. The premium on the forward contracts is amortized over the terms of the contracts and is presented as interest expense in the statement of income (loss). Unrealized translation gains and losses on non-hedged long-term debt is deferred and amortized over the remaining term of the debt. All other translation gains and losses are included in the statement of income (loss) in the current period.

4. Changes in inventory valuation

An investee company, Cameco, has changed its method of accounting for inventories. Previously, all costs of mining and milling activities of Cameco were allocated to finished uranium concentrates inventory. Under this new method, mining costs are now allocated to broken ore as it is stockpiled. This change in the method of inventory valuation has been applied retroactively and the 1988 financial statements presented for comparative purposes have been restated for the adjustment to the interest in the net earnings of Cameco. The effect on the statements was to increase reported net earnings by $4,011 (1988—$1,359).

5. Cash restricted as to use

These funds are held in special accounts (primarily in the Consolidated Revenue Fund of Canada on a non-interest basis) to satisfy payment of contingent liabilities relating to the sale of the corporation's investments in Canadair and de Havilland (see Note 10 (a) and Note 13).

6. Investment in non-consolidated subsidiaries, at cost

The carrying values of the corporation's investments in subsidiaries are as follows:

	Carrying Value December 31, 1989	Carrying Value December 31, 1988
Ginn Publishing (b)	10,323	
Nordion (a)	129,881	106,937
Theratronics (a)	11,867	9,650
	152,071	116,587

(a) Nordion and Theratronics

The share purchase agreement between AECL and the corporation requires the corporation to pay to AECL the fair market value of the shares of Nordion and Theratronics. The agreement also specifies that the fair market value will be estimated as at the date of transfer, but will subsequently be adjusted to an amount equal to the price ultimately received by the corporation in the subsequent privatization sale of Nordion and Theratronics. Furthermore, the agreement specifies that the corporation is not required to make payment of the purchase price to AECL until 60 days after the privatization sale.

Accordingly, AECL will ultimately receive the full proceeds realized upon privatization of Nordion and Theratronics, less the corporation's expenses associated with the privatization.

Thus, while the corporation has title to the shares of Nordion and Theratronics and executive management control over their operations prior to their privatization, the corporation did not acquire the normal risks and benefits associated with share ownership. Accordingly, the corporation has recorded its investment in Nordion and Theratronics at a deemed cost represented by the net book values of those companies at December 31, 1989 and 1988, with an off-setting non-interest bearing note payable to AECL, and has not recognized any income or loss on these investments.

(b) Investment in Ginn Publishing

Pursuant to a directive received from the Government, the corporation acquired, on May 26, 1989, a 51% interest in Ginn Publishing from Paramount. Ginn Publishing carries on the business of Ginn + Company, a former division of Paramount, GPCL (Canada) Limited and GLC Publishers Limited (former subsidiaries of Paramount). Under the terms of the purchase and sale agreement, a portion of the purchase price is subject to adjustment based on an arbitration to determine fair market value at May 26, 1989. The arbitration adjustment has not been finalized. The adjustment, if any, will increase the carrying value of the investment.

7. Other investments

	Carrying Value December 31, 1988	Equity in income	Provision for loss	Carrying Value December 31, 1989
Cameco	530,861	9,055	(202,431)	337,485
Varity	23,139			23,139
	554,000	9,055	(202,431)	360,624

Investment in Cameco

In connection with the sale of CEI's assets to Cameco in 1988, CEI took back as part of its consideration 3,850,000 common shares in Cameco, representing a 38.5% ownership interest. An amount of $522,786, reflecting the value agreed by the parties as the fair value of the assets disposed of by CEI was assigned to the Cameco shares. The parties intend to dispose of the shares in stages over the next six years. The ultimate recovery of the carrying value of the shares will depend on the outcome of the future dispositions of these shares.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Continued*

It was determined that, at the date of acquiring the Cameco shares, the corporation's equity interest in the underlying net book value of Cameco's assets was $316,746 while $522,786 was assigned as the agreed value of the shares. The excess amount was determined to be attributable to various producing and non-producing properties. This amount was amortized using the straight-line method over the estimated economic life of the various properties, when in production. The amortization of the excess amount amounting to $3,609 in 1988 was deducted in arriving at the investment income from Cameco.

During 1989, the spot market prices for uranium concentrate declined significantly. In light of this decline, the corporation has re-evaluated the recoverability of its investment in Cameco through the privatization process described above and has concluded that it is currently unlikely that the corporation will recover the purchase price discrepancy component of its investment in Cameco. Accordingly, the corporation has recorded a provision for the probable impairment in the value of this purchase price discrepancy in the 1989 statement of income (loss) of $202,431. The provision reduces the corporation's investment in Cameco to an amount approximately equal to the corporation's proportionate interest in Cameco's book value.

8. Long-term debt

	As at December 31, 1989	1988
Notes due 1990, at 9.125%	10,093	10,093
Loan due 1991, at 4.75% (95,000 Swiss francs) (a)	71,355	75,459
Loan due 1992, at 6.5% (100,000 Swiss francs) (b)	53,269	53,256
Notes due 1992, at 14.5% ($100,000 U.S.) (c)	119,000	119,270
Bonds due 1992, at 5.25% (8,000,000 Japanese yen), with 1,000,000 Japanese yen due in each of the years 1989-1991 (d)	64,400	85,878
Notes due 1993, at 11.75%	250,000	
Loan due 1989-1992, at 5.0% (1,400,000 Japanese yen)		13,359
Euronotes, due 1989, interest to be set semi-annual at LIBOR rate ($100,000 U.S.)		119,270
Subtotal	568,117	476,585
Less		
Current portion of long-term debt listed above	18,143	132,629
Deferred loss on foreign exchange	18,926	25,355
Total	531,048	318,601

(a) Through foreign exchange forward contracts, the corporation has hedged its exposure to changes in the Swiss franc exchange rate through to August, 1990 on the loan due 1991 and intends to continue this hedging program through to maturity of the debt.

(b) Through a series of swap transactions, the corporation has fixed the repayment of the loan due 1992, at a Canadian dollar amount of $53,269 and has fixed the interest rate at 17.15%.

(c) Through a series of swap transactions, the corporation has fixed the repayment of the notes due 1992 at a Canadian dollar amount of $119,000 and has fixed the interest rate at 15.835%.

(d) Through foreign exchange forward contracts, the corporation has hedged its exposure to changes in the Yen exchange rate through to August, 1990 on the bonds due 1992 and intends to continue this hedging program through to maturity of the bonds.

Long-term debt payments due in each of the next four calendar years are: 1990—$18,143; 1991—$79,404; 1992—$220,569; 1993—$250,000.

Finance expense is composed of the following:

	Year ended December 31, 1989	Three months ended December 31, 1988
Interest and other income	(4,409)	(8,005)
Interest expense		
Long-term debt	64,506	12,848
Other	3,011	6,098
Foreign exchange losses (gains)		
Amortization of deferred losses	12,642	2,052
Other	3,756	(4,923)
Other finance charges	3,894	519
	83,400	8,589

9. Accumulated deficit

Effective as of December 31, 1988, the corporation's shareholder approved the elimination of the December 31, 1988 deficit by a charge to contributed surplus. The amount of this reduction was restated to reflect the effect of the change in accounting policy adopted retroactively by the corporation's investee, Cameco, in 1989 (Note 4).

10. Contingencies

(a) On December 23, 1986, the corporation sold its investment in Canadair Limited to Bombardier-Canadair Inc. The corporation and the Government have agreed to indemnify Bombardier-Canadair Inc. and Canadair Limited for certain contingent liabilities and other expenditures which may be incurred by Bombardier-Canadair Inc. and Canadair Limited over a maximum of five years from December 23, 1986, and for specified product related claims for fifteen years for which insurance coverage is unavailable or economically impracticable to obtain. Reasonable estimates of the effects, if any, of such indemnities cannot be made at this time. Such amounts will be recognized in future years, as appropriate, when reasonable estimates can be made as to the likely amount, if any, which will ultimately be paid pursuant to the indemnities.

(b) Under the terms of the agreement to transfer assets from CEI to Cameco, CEI and Cameco agreed on a formula for sharing any future joint costs, excluding normal operating costs, related to certain specified existing wastes accumulated by CEI to October 5, 1988, the date of transfer of assets. Cameco assumed liability for the first $2,000 of joint costs. The next $98,000 in joint costs will be shared 23/98ths by Cameco, 75/98ths by CEI. CEI assumed liability for joint costs in excess of $100,000.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

(c) The corporation is the defendant in certain litigation. While the amount of any ultimate liability cannot yet be determined, the corporation, after discussion with legal counsel, is of the opinion that there will be no material adverse effect on its financial position.

11. Corporate (income) expense, net

	1989	1988
Interest earned on short-term investments and notes receivable	(2,901)	(692)
Other income	(3,055)	(69)
	(5,956)	(761)
Corporate and divestiture expenses	4,555	5,319
	(1,401)	4,558
Recovery of divestiture expenses incurred in prior years	(1,290)	(4,432)
Net operating (income) expense	(2,691)	126

12. Income tax

As at December 31, 1989, Cartierville Financial has tax losses of $247,000 available to reduce taxable income, expiring as follows:

1990	154,500
1991	92,500
	247,000

13. Subsequent event

As part of an omnibus agreement entered into on February 9, 1990, the corporation, Her Majesty The Queen in Right of Canada as represented by the Minister of Regional Industrial Expansion, The Boeing Company ("Boeing"), Boeing Canada Technology Ltd., and Boeing of Canada Ltd. (successor to the business of The de Havilland Aircraft of Canada, Limited), entered into an agreement whereby the corporation is no longer liable for any contingent liabilities or other expenditures arising from a purchase and sale agreement dated January 31, 1986 whereby the corporation sold its investment in de Havilland to Boeing. Pursuant to this agreement, the corporation paid Boeing of Canada Ltd. $63,000 in 1990, which has been fully accrued in these financial statements.

APPENDIX 1

NORDION INTERNATIONAL INC.

AUDITORS' REPORT

We have examined the balance sheet of Nordion International Inc., as at December 31, 1989 and the statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Company, as at December 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

We further report that, in our opinion, the transactions of the Company that have come to our notice in the course of our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Company and any directives given to the Company.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 1—*Continued*

NORDION INTERNATIONAL INC.—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989
(All dollar amounts are stated in thousands)

Nordion International Inc. ("the Company") is incorporated under the Canada Business Corporations Act and is subject to the Financial Administration Act and the Government Companies Corporations Operations Act. The primary business of the Company is the production and sale of radioisotopes, capital equipment and related technology for segments of the international health care market. The Minister of State for Privatization has announced the government's intention to sell the Company to the private sector, however no assessment of the potential impact of privatization has been made or reflected in these financial statements.

1. Accounting policies

Significant accounting policies are summarized below:

(a) Plant and property

Plant and property is recorded at cost and depreciated on a straight-line basis over the estimated useful life of the underlying assets, as follows:

Buildings and site services	25 to 30 years
Other plant and equipment	3 to 10 years

(b) Decommissioning and waste disposal costs

Future decommissioning costs of nuclear facilities and waste disposal costs cannot be quantified due to uncertainty as to their exact nature and timing. Accordingly, the Company expenses these costs when incurred.

(c) Inventory

Inventory is valued at the lower of average cost and replacement cost. Decay of radioactive inventory is expensed as it occurs. Cobalt-60 inventory is recorded on discharge from reactors. The Company records advance payments, required under certain contractual circumstances as in-reactor inventory.

(d) Deferred charges

Costs of modifications to production facilities owned by others to permit isotope production are deferred and amortized over the minimum contractual production period.

(e) Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. The Company's contributions to the plan are limited to matching the employees' contributions on account of current service. These payments are charged to income on a current basis and represent the total pension obligations of the Company.

(f) Employee termination benefits

Employees are entitled to specific termination benefits defined under collective agreements and conditions of employment. The amount provided to cover this liability includes a vested portion, covering employee service to date, and a non-vested portion, covering anticipated future service and inflation.

(g) Revenue recognition

Revenue is recognized at the time of shipment of goods to the customer, with the exception of major equipment sales, where a portion of revenue is deferred pending installation at the customer's premises.

2. Inventory

	1989	1988
Raw materials and supplies	23,524	24,330
In-reactor inventory	5,923	10,714
Work-in-process	1,558	1,128
Finished goods	5,303	4,614
	36,308	40,786

3. Plant and property

	Cost	Accumulated depreciation	Net 1989	Net 1988
Land	305		305	130
Site services	1,016	678	338	378
Buildings	33,018	9,115	23,903	24,870
Machinery and equipment	24,368	8,652	15,716	11,558
	58,707	18,445	40,262	36,936

Depreciation totalling $2,757 (1988—$2,112) was recorded in the period.

4. Deferred charges

	Cost	Amortization	Net 1989	Net 1988
Reactors	36,234	5,756	30,478	23,562
Cyclotron	6,083	1,995	4,088	2,292
Other	525	177	348	430
	42,842	7,928	34,914	26,284

Amortization totalling $2,030 (1988—$1,409) was recorded in the period.

5. Related party transactions

(a) Nordion International Inc. was incorporated initially as a wholly-owned subsidiary of Atomic Energy of Canada Limited ("AECL"). Assets and liabilities were transferred from AECL to the Company in exchange for 100,000 common shares. Since the transaction occurred between companies under common control, a value of $96,310 was assigned to Capital stock for accounting purposes representing the net book value of the assets and liabilities transferred. The effective date of these transactions was July 1, 1988. As at September 30, 1988, all of the outstanding common shares were sold to Canada Development Investment Corporation ("CDIC").

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 1—*Concluded*

NORDION INTERNATIONAL INC.—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

(b) The loans payable are due to AECL and bear interest at rates from 6 11/16% to 7 5/8% with final payments due in August 1992. Principal repayments on these loans are as follows:

1990	262
1991	281
1992	225
	768

Interest paid totalled $65 during the period (1988—$64).

(c) Theratronics International Inc. ("Theratronics"), a corporation owned by CDIC, provides the Company with manufactured products and processed raw materials. Total purchases from Theratronics during the year totalled $6,176 (1988—$4,346). At December 31, 1989, $889 (1988—$133) of these purchases was included in accounts payable. The Company supplied goods and services to Theratronics in 1989 with a total value of $2,145 (1988—$1,399). At December 31, 1989, $430 (1988—$86) was recorded as accounts receivable.

(d) AECL supplied the Company with raw materials for isotope production and related services totalling $10,251 during 1989 (1988—$6,818). Accounts payable to AECL at December 31, 1989 totalled $1,605 (1988—$1,451).

6. Income taxes

The Company became subject to federal income taxes effective September 30, 1988. As a wholly-owned subsidiary of a federal Crown corporation, the Company is not subject to provincial income taxes.

The Company's effective tax rate is made up as follows:

	1989	1988
Net federal statutory rate	28.0%	28.0%
Manufacturing and processing deduction	(2.5)%	(2.0)%
Surtax	0.8%	0.8%
Permanent differences	(20.4)%	(26.8)%
Effective rate of income tax	5.9%	0.0%

Permanent differences arise due to difference in tax and accounting values for the assets and liabilities of the Company at the date it became subject to income taxes. Unutilized permanent differences totalling $18,116 (1988—$35,037) are available to reduce future years' taxable income.

The components of the provision for income taxes are as follows:

	1989	1988
Current	120.0	
Deferred	1,240.0	
	1,360.0	

Investment tax credits totalling $384 (1988—$134) are available to reduce income taxes payable in future years and have been recorded in these financial statements.

Unutilized research and development deductions, totalling $1,939 (1988—$689) are available to reduce future years' taxable income.

7. Capital stock

The authorized capital stock of the Company consists of an unlimited number of no par value common shares. Issued and outstanding shares total 100,000.

8. Commitments

(a) The Company has commitments to purchase Cobalt-60 produced in nuclear generating stations for various periods to the year 2003. Annual payments are expected to range between $20,000 and $40,000 per annum in each of the next five years, and will approximate $150,000 in total for the five year period.

(b) The Company is committed to AECL to make capital contributions for isotope production facilities in the amount of $8,452 over the next 18 months.

(c) The Company is committed to pay for construction of an additional cyclotron and related production facilities in the amount of $3,380 during 1990.

9. Sales agents' remuneration

During the period, the Company paid sales commissions totalling $806 (1988—$701) to the following agents: Bio Nuclear Diagnostica Industria E. Comercio Ltda., Brazil; General Machinery Company Ltda., Chile; IGE (India) Limited, India; Jacobson Van Den Berg (Hong Kong) Ltd., Hong Kong; Korea General Trading Corporation, Korea; Kostas Karayannis SA, Greece; Marsman & Company Inc., Philippines; Marubeni Corporation, Japan; PT Sanga Kencana International, Indonesia; Radiotherapy & Medical Systems Pty. Ltd., Australia; Societa Lombarda Di Televisione srl, Italy; Spring Port Taiwan Limited, Taiwan; Tamathe SA, Argentina; Tareq Company, Kuwait and Tecnologia Em Radiacao Ltda., Brazil.

10. Comparative information

The comparative information represents the combined revenues and expenses of the Company for the six month period ended December 31, 1988 and its predecessor, Radiochemical Company, a division of AECL, for the three month period ended June 30, 1988. Certain comparative information has been reclassified to conform with the current presentation.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Continued*

APPENDIX 2—*Continued*

THERATRONICS INTERNATIONAL LIMITED—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989
(All dollar amounts are stated in thousands)

Theratronics International Limited ("Theratronics") is incorporated under the Canada Business Corporations Act and is subject to the Financial Administration Act and the Government Companies Operations Act. The primary business of Theratronics is the manufacture, sales and service of radiotherapy and related equipment and services to hospitals and medical institutions around the world. The Minister of State for Privatization has announced the government's intention to sell the Company to the private sector. No assessment of the potential impact of privatization has been made or reflected in the financial statements.

1. Accounting policies

Significant accounting policies are summarized below:

Plant and property

Plant and property is recorded at cost and depreciated on a straight-line basis over the estimated useful life of the underlying assets, as follows:

Site services	15 years
Building	25 to 30 years
Machinery and equipment	3 to 10 years

Inventories

Work-in-process and finished goods inventories are valued at the lower of cost and estimated net realizable value. Raw material, service inventory, and accelerator product parts are valued at the lower of cost and replacement cost. Cost is determined on a first-in first-out basis and includes material, labour and manufacturing overhead where applicable. Decay of radioactive inventory is expensed as it occurs.

Cobalt-60 inventory is recorded on discharge from reactors. The Company records advance payments, required under certain contractual circumstances, as in-reactor inventory.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. The Company's contributions to the plan are limited to matching the employees' contributions on account of current service. These payments are charged to income on a current basis and represent the total pension obligations of the Company.

Employee termination benefits

Employees are entitled to specific termination benefits defined under collective agreements and conditions of employment. The amount provided to cover this liability incudes a vested portion, covering employee service to date, and a non-vested portion covering anticipated future service and inflation. These benefits are recorded on the basis of actuarial assumptions as to future events.

Warranty provision

A provision is recorded for estimated warranty costs at the time of product sale.

Revenue recognition

Revenue from the sale of radiotherapy units and related equipment is recognized upon shipment. Revenue from field services is recognized at the time services are rendered. Revenue from service contracts is recognized on a straight-line basis over the term of the contract.

2. Inventories

	1989	1988
Service inventory	4,705	5,050
Manufacturing		
Raw materials	3,701	3,325
Work-in-process	2,597	1,780
Finished goods	1,289	906
In-reactor inventory	1,763	
	14,055	11,061

The radiotherapy industry demands timely response to customer needs for product and warranty service. Accordingly, the service inventory is maintained by the Company to provide an adequate service level to worldwide customers based on the Company's estimate of usage and the customers' anticipated level of service requirements.

3. Plant and property

	Cost	Accumulated depreciation	Net 1989	Net 1988
Land	304		304	69
Site service	314	174	140	168
Buildings	3,223	3,070	153	84
Machinery and equipment	5,320	3,490	1,830	1,395
	9,161	6,734	2,427	1,716

4. Related party transactions

(a) Theratronics International Limited was incorporated initially as a wholly-owned subsidiary of Atomic Energy of Canada Limited ("AECL"). Assets and liabilities were transferred from AECL to the Company in exchange for 10,000 common shares. Since the transaction occurred between companies under common control, a value of $9,588 was assigned to capital stock for accounting purposes representing the net book value of the assets and liabilities transferred. The effective date of these transactions was July 1, 1988. As of September 30, 1988, all of the outstanding common shares were sold to Canada Development Investment Corporation ("CDIC").

(b) AECL and Nordion International Inc. ("Nordion"), a corporation controlled by CDIC, provide the Company with services and cobalt sources. Total purchases of goods and services in the year were $3,703 (December 31, 1988—$2,737). At December 31, 1989, $738 of these purchases were included in accounts payable.

CANADA DEVELOPMENT INVESTMENT CORPORATION—*Concluded*

APPENDIX 2—*Concluded*

THERATRONICS INTERNATIONAL LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1989—*Concluded*

The Company provides Nordion with manufactured products and accelerator product support on behalf of AECL. Total sales of goods and services in the year were $7,372 (December 31, 1988—$5,601). At December 31, 1989, $1,013 of these sales were included in accounts receivable.

(c) The Company acquired 48% of the outstanding common shares and 100% of the preferred shares of Medical High Technology Inc. ("MHTI") located in Clearwater, Florida, by converting a fully provided for Note Receivable. The company does not expect earnings to be repatriated in excess of its original investment and as such, the investment is carried on the cost basis.

Total purchases from MHTI in 1989 were $1,438. At December 31, 1989, $173 of these purchases were included in accounts payable.

5. Income taxes

Initially the Company, as a division and then a subsidiary of AECL, was exempt from income taxes. However, as a wholly-owned subsidiary of CDIC, this exemption does not apply and the Company became subject to federal income taxes effective September 30, 1988. As a wholly-owned subsidiary of a Federal Crown Corporation, the Company is not subject to provincial income taxes.

The Company's expected income tax rate is the net Federal statutory rate (including surtax) of 29% less the applicable manufacturing and processing deduction of 2.5%. The 1989 effective tax rate is zero due to the utilization earned by the Company in the period April 1, 1988 to September 30, 1988 and the utilization of the currently deductible portion of the permanent differences related to the assets of the Company at the date it became subject to income taxes. Permanent differences totalling $2,937,296 were utilized to reduce taxable income to nil.

6. Capital stock

The authorized capital stock of the company consists of an unlimited number of no par valued common shares with issued and outstanding shares totalling 10,000.

7. Commitments

(a) Minimum lease payments in accordance with lease commitments are as follows:

1990	595
1991	557
1992	216
1993	152
Thereafter	65
	1,585

(b) The Company has a commitment, estimated at $21,000 to purchase cobalt 60 from AECL produced at its Chalk River nuclear laboratory to the year 2008.

(c) The Company has a commitment of approximately $5,000 to purchase CT-SIM units from MHTI over a two year period ending April 30, 1991.

8. Sales agents' remuneration

During the year ended December 31, 1989 the Company paid sales commissions totalling $1,597 to the following agents: Siemens A.G., Germany; Kostas Kanayannissa, Greece; Medtel Pty. Limited, Australia; Novelact (Medical) Limited, Hong Kong; Equipo Pare Hospititales SA, Mexico; IGE India, India; Kamsol Suksol Electric Co., Thailand; Tecnologia EM Radiocoa Ltda., Brazil; Sabbagh Wholesale Druggist, Jordan; Gemed Sistemas Medicos, Venezuela; Springport Taiwan Ltd., Taiwan; Korea General Trading Co., Korea; Watsons & Sons (E.M.) Limited, Nigeria; Radiotherapy-Medical Supply, Australia; M.L. Sethi, India; Alkan Establishment (Medical Division), Egypt; General Marketing and Manufacturing Co. Ltd., India; Bureautique Communications Organization Ltd., Channel Islands; Aristons (PVT) Ltd., Sri Lanka; General Medica de Columbia Ltd., Columbia; Medikal Teknik Elektronik Ltd., Turkey; L.H.S. Communications Ltd., Jamaica; Barons Technologies Inc., Korea; Rimpex S.A.R.L., Tunisia; Nairobi X-Ray Supplies Ltd., Kenya; Indexport do Ecudor cia Ltd., Ecuador; Hamco Commercial S.C.R.L., Peru; and Nuclital S.R.L., Italy.

9. Operation working capital

The changes in operating capital is comprised of:

	1989	1988
Accounts receivable	(531)	(1,706)
Inventories	(2,994)	713
Prepaid expenses	(150)	251
Accounts payable and accrued liabilities	3,633	(2,209)
Deferred revenue	(639)	132
Employee termination benefits	430	180
	(251)	(2,639)

10. Comparative figures

The comparative figures represent the combined revenues and expenses of the Company for the nine month period ended December 31, 1988 which includes the three-month period ended June 31, 1988 for its predecessor, Medical Products Division, a former division of AECL.

Certain 1988 figures have been reclassified to conform with the current year's statement presentation.

CANADA HARBOUR PLACE CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of Canada Harbour Place Corporation as at March 31, 1991 and the statements of operations, equity of Canada and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the articles and by-laws of the Corporation.

CANADA HARBOUR PLACE CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority, objectives and discontinuation

Canada Harbour Place Corporation was incorporated in 1982 under the Canada Business Corporations Act. The Corporation is an agent Crown corporation and is included in Part I of Schedule III to the Financial Administration Act. The only three shares issued are all held in right of Canada by the Minister of Transport.

The objectives of the Corporation are to promote the presence of the Federal Government in Vancouver, B.C., be financially self sufficient, and manage real property at Canada Place in Vancouver. For this purpose it designed, constructed and manages Canada Place which includes The Vancouver Trade and Convention Centre, a cruise ship terminal, a parking garage, a theatre and restaurant, infrastructure of a hotel, and various commercial and public facilities.

In accordance with a lease agreement with the Province of British Columbia, the Corporation transferred the administration and maintenance of the Trade and Convention Centre in Canada Place including pre-function areas, meeting rooms and banquet facilities, for a term of 20 years with renewal options for three successive similar terms.

On February 20, 1990 the Government announced in its 1990-91 Federal Budget that it will proceed with the necessary legislation to wind up the Corporation in an orderly fashion and transfer its assets and functions to another entity. Consequently, Bill C-8, Crown Corporations Dissolution or Transfer Authorization Act, was tabled in the House of Commons and passed third reading on May 23, 1991. This Bill authorized the Minister of Transport to sell or dispose of all the shares of the Corporation on terms and conditions to be approved by the Governor in Council. The effective date of the coming into force of the provisions of the Bill will also be fixed by order of the Governor in Council.

2. Significant accounting policies

These financial statements have been prepared by management in accordance with generally accepted accounting principles. The more significant accounting policies of the Corporation are as follows:

Capital assets and amortization

All expenditures, including those for acquisition, design, construction and administration for the permanent structures at Canada Place, were capitalized at the time the facility was fully developed.

Amortization is calculated on a straight-line basis based on the estimated useful lives of the assets. The building is amortized over 40 years, while furniture, fixtures and equipment are amortized over 20 years.

Income taxes

The Corporation is exempt from any liability for income taxes.

Retirement savings plan

Under a group retirement savings plan, a trust was established with a private sector organization to accumulate contributions to provide a retirement income for long-term employees through individually registered retirement savings plans. The Corporation has agreed to make non contributory payments, which are recognized annually, ranging from 5% to 10% of the annual salary for each of these employees.

Operations revenues and expenses

Operations revenues and expenses relate to the management of Canada Place including the leasing of these facilities to various tenants. Central plant and utilities include electricity, natural gas, oil, labour and supplies used to supply power, water, air conditioning and heat for the facility. Common facilities and shared areas include labour, security, engineering and material used to provide the tenants with services as outlined in various leases and agreements.

3. Capital assets

	1991			1990
	Cost	Accumulated amortization	Net	Net
	(in thousands of dollars)			
Building	65,671	6,563	59,108	60,730
Furniture, fixtures and equipment	7,059	1,314	5,745	5,559
	72,730	7,877	64,853	66,289

Title to that part of the bed of Vancouver harbour on which the facility is located was transferred to the Corporation from Vancouver Port Corporation for one dollar and has been so recorded in site purchase costs.

4. Operating/utilities recoveries

Operating cost recoveries include amounts recovered from the Corporation's tenants for operating expenses, central plant and utilities. During the year, these costs exceeded the associated recoveries by $249,000 (1990—$292,000). This is caused by the Corporation incurring expenses in areas for which it is solely responsible, and cannot charge to its tenants, under the various leases and agreements.

5. Administration, public relations and other expenses

	1991	1990
	(in thousands of dollars)	
Advertising and promotion	618	661
Salaries	385	399
Imax projection system lease	190	180
Promenade shops	163	473
Legal and professional	117	42
Office rental	114	125
Repair and maintenance	42	24
Travel	36	46
Communications	34	27
Miscellaneous	13	18
	1,712	1,995

6. Lease commitments

The Corporation has entered into a 20 year lease agreement in effect from 1987 for the Imax projection system with a minimum total payment of $3 million. The minimum annual lease payment for the years 1991-92 to 1995-96 will be $199,000. The agreement provides for annual escalation at the rate of the Consumer Price Index.

The Corporation has entered into contracts for exterior and interior facility cleaning aggregating $163,000 for the period April 1, 1991 to March 31, 1992.

CANADA HARBOUR PLACE CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

7. Contingency

Employees may be entitiled to termination benefits under conditions of their employment contracts dependent on how the corporation proceeds to wind up its operations. Accordingly no accrual of termination benefits has been set up. The estimated liability at March 31, 1991 for the maximum amount of such termination benefits is $179,000.

8. Related party transactions

The Corporation is related in terms of common ownership to all Government of Canada created departments, agencies and Crown corporations. The Corporation enters into transactions with departments, agencies and Crown corporations in the normal course of business.

CANADA LANDS COMPANY LIMITED

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have audited, in accordance with generally accepted auditing standards, the balance sheet of Canada Lands Company Limited as at March 31, 1991. In my opinion, it presents fairly, in all material respects, the financial position of the corporation at that date in accordance with generally accepted accounting principles.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the balance sheet have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the articles and by-laws of the corporation.

CANADA LANDS COMPANY LIMITED—*Continued*

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1991

1. Authority and activities

The Canada Lands Company Limited, an agent Crown corporation, originally named Public Works Lands Company Limited, was incorporated under the Companies Act in 1956. It was added to Schedule C to the Financial Administration Act in 1979 and listed as a parent Crown corporation in 1984 in Part I of Schedule III to the Financial Administration Act.

The corporation has, by virtue of its letters patent of incorporation, the power to acquire, purchase, lease, hold, improve, manage, exchange, sell, turn to account or otherwise deal in or dispose of real or personal property or any interest therein. However, it has been used only to hold, in trust for other departments, certain leasehold interests in two properties in London, England, and two properties on Indian reserves in Canada. Funding for these leases is borne by other departments.

2. Significant accounting policies

(a) Investments in subsidiaries

The corporation wholly owns the following three subsidiary corporations:

Canada Lands Company (Mirabel) Limited
Canada Lands Company (Vieux-Port de Québec) Inc.
Old Port of Montreal Corporation Inc.

The shares have been acquired in consideration of services rendered.

(b) Exclusion of subsidiaries from consolidation

The financial statements of the subsidiaries are excluded from consolidation because increases in their equity are not likely to accrue to the parent.

(c) Capital stock

The corporation is authorized to issue three shares which shall not be transferred to any person other than a person approved by the Minister of Public Works. The authorized shares have been issued in consideration of services rendered and are held in trust for Her Majesty in right of Canada by the Minister of Public Works.

3. Financial statement presentation

The corporation has not been involved in any financial transactions. As a result, the balance sheet has nil balances and no other financial statement is presented.

4. Related party transactions

The Department of Public Works provides the corporation, without charge, with such executive and administrative functions as are required for its operations.

5. Information on certain wholly-owned subsidiaries

Canada Lands Company (Vieux-Port de Québec) Inc. ceased operations effective March 31, 1988. However, a decision has yet to be taken with respect to formal dissolution of the corporation pending the resolution of certain legal matters.

Canada Lands Company (Mirabel) Limited ceased operations effective March 31, 1991. Authority has been granted in accordance with paragraphs 91(3)(b) and 91(1)(e) of the Financial Administration Act to dispose of all or substantially all of its assets and to procure its dissolution.

6. Canada Museums Construction Corporation Inc. (CMCC)

The corporation holds two out of the three issued shares of the Canada Museums Construction Corporation Inc. (CMCC). The third share is held by the Minister of Public Works. However, control of CMCC lies with the Minister of Public Works through a shareholders' agreement.

Bill C-8, an Act to provide for the dissolution or transfer of certain Crown corporations and to amend certain Acts in consequence thereof, was passed by the House of Commons on May 23, 1991 and is awaiting Senate approval. Among other things, the Act provides for the transfer of the remaining CMCC share to Canada Lands Company Limited.

CANADA LANDS COMPANY LIMITED—*Continued*

APPENDIX

CANADA LANDS COMPANY (VIEUX-PORT DE QUÉBEC) INC.

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have audited the balance sheet of Canada Lands Company (Vieux-Port de Québec) inc. as at March 31, 1991. This financial statement is the responsibility of the Corporation's management. My responsibility is to express an opinion on this financial statement based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, this balance sheet presents fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the balance sheet have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, as well as the charter and by-laws of the Corporation.

CANADA LANDS COMPANY (VIEUX-PORT DE QUÉBEC) INC.—*Concluded*

NOTES TO THE BALANCE SHEET
AS AT MARCH 31, 1991

1. Authority and activities

Canada Lands Company (Vieux-Port de Québec) inc. was incorporated on April 9, 1981 under the Canada Business Corporations Act and is a wholly-owned subsidiary of Canada Lands Company Limited, a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

Effective August 1, 1981, pursuant to an agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works, the Corporation has been responsible for the implementation of a general development plan for the lands of the Vieux-Port de Québec under its jurisdiction and for administering, managing, promoting and operating such lands and their developments. The Corporation fulfilled this responsibility in the name and for the account of the Minister of Public Works who continues to hold title to the capital assets for the benefit of Her Majesty.

On May 26, 1988, by order of the Governor General in Council, the Minister of Public Works was authorized to terminate the said agreement. Since April 1st, 1988, the management of the Corporation's affairs has been assumed by the Department of Public Works.

From February 9, 1984 to February 27, 1986, the Corporation was responsible for its own account for the management, charge and direction of a parcel of land together with the improvements thereon which had been transferred to it, subject to certain limiting conditions, by order of the Governor General in Council on February 9, 1984. This property was retroceded on February 27, 1986.

2. Accounts receivable

The accounts receivable include the following amounts:

	$
Public services organization	466,430
Others	37,548
	503,978

The amount receivable from the public services organization is for specific work carried out by the Corporation during the year 1982-83. The related cost is recoverable upon the signing of a protocol by the Corporation, the Canada Ports Corporation and the organization. The protocol, not yet signed, provides for the transfer of certain privileges from the Corporation and the Canada Ports Corporation. The work is completed for all practical purposes. The Corporation has not yet decided to transfer the privileges requested by the organization. It is possible that the Corporation may not recover the related cost.

3. Due to Minister of Public Works

	$
Balance at beginning of the year	23,868
Payments made by Public Works to settle accounts payable by the Corporation	3,660
Collection made by Public Works of an account receivable by the Corporation	(430)
Balance at end of the year	27,098

4. Capital stock

The Corporation is authorized to issue a single share, to be held in trust for Her Majesty in Right of Canada and which may not be transferred without the consent of the Governor General in Council. The authorized share has been issued in consideration of services rendered.

5. Contingencies

The Corporation and the corporation Québec 1534-1984 signed a protocol of general understanding determining the rights and obligations of each party for the staging in 1984 of a festive event and for the use of the site and of the equipment under the jurisdiction of the Corporation. Under the terms of the agreement, the Corporation has not granted the right to use the totality of the site, reserving for itself some premises that it might rent for commercial purposes. Leases were signed but, because of poor attendance, several were modified, cancelled or abandoned. The Corporation has received claims arising from these leases and from other activities, for a total of approximately $1.4 million, and more may be received. The Department of Public Works assumes the settlement of these claims.

CANADA LANDS COMPANY (MIRABEL) LIMITED

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have audited the balance sheet of Canada Lands Company (Mirabel) Limited as at March 31, 1991 and the statements of transactions and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Corporation, as well as the agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works.

Raymond Dubois, FCA
Deputy Auditor General

CANADA LANDS COMPANY (MIRABEL) LIMITED—*Continued*

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1991

1. Authority and activities

Canada Lands Company (Mirabel) Limited was incorporated on April 9, 1981 under the Canada Business Corporations Act and is a wholly-owned subsidiary of Canada Lands Company Limited, a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

Effective July 1, 1981, pursuant to an agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works, the Corporation is responsible for administering and developing a part of the peripheral lands of Mirabel in order to ensure a normal living environment for residents of the lands while safeguarding the operations of the Mirabel International Airport. The Corporation fulfills this responsibility in the name and for the account of the Minister of Public Works who continues to hold title to the capital assets for the benefit of Her Majesty. On May 21, 1982, the Privy Council authorized the sale of certain properties; on February 23, 1984, it authorized the disposition of the remaining properties within the territory under its responsibility. On September 19, 1984, a moratorium suspended the sales program; the Privy Council authorized on June 11, 1985 an agricultural investment acceleration program and the resumption of sales under revised terms and conditions, approved by the Treasury Board.

Since March 25, 1988, under the terms of specific service agreements, the Department of Public Works provides the Corporation with personnel and also professional and maintenance services.

Following an agreement between the Minister of Transport and the Minister of Public Works for the management by the latest of the ultimate operational zone of the Mirabel Airport, under the responsibility of the Minister of Transport, the Corporation and the Department of Transport have signed a protocol of understanding for the period April 1, 1990 to March 31, 1991. This protocol of understanding deals with the implementation and administration of a Long-Term Leasing Program and the Agricultural Renewal Program for the ultimate operational zone of Mirabel Airport. The costs incurred for these programs are reimbursed to the Corporation by Airports Revolving Fund of the Department of Transport.

On April 25, 1991, the Governor General in Council has authorized:

- —the Minister of Public Works to terminate the agreement between Her Majesty in Right of Canada and the Corporation whereby the Corporation was given responsibility for establishing and managing a land disposal program at Mirabel;
- —Canada Lands Company Limited to procure the dissolution of the Corporation in accordance with paragraph 91(1)(e) of the Financial Administration Act;
- —the Corporation to sell or otherwise dispose of all or substantially all of its assets in accordance with paragraph 91(3)(b) of the Financial Administration Act.

2. Significant accounting policies

(a) Financial statements presentation

The statements present transactions carried out by the Corporation as agent and on behalf of the Minister of Public Works. All expenditures, net of proceeds from other than the direct use of capital assets, are reimbursable to the Corporation. Proceeds from the direct use of capital assets, principally rentals and sales of properties, are payable to the Receiver General for Canada.

Differences between advance payments received and net reimbursable expenditures are recorded in the balance sheet as due from or due to the Minister of Public Works, or due from or due to Airports Revolving Fund, if applicable.

(b) Contributions

Financial assistance under the agricultural investment acceleration program is recorded in the expenditures of the year in which the eligible work is carried out.

(c) Sales of properties

Sales of properties are recognized when title passes to buyers and the Corporation is entitled to receive the amount of the proceeds.

3. Mortgage loan receivable

The Corporation granted a mortgage loan of $152,550, bearing no interest, to a municipality on the sale of a property. The loan is reimbursable on the basis of nine annual instalments of $16,950 starting from April 1, 1988.

7. Capital stock

The Corporation is authorized to issue a single share, to be held in trust for Her Majesty in Right of Canada, which may not be transferred without the consent of the Governor General in Council. The authorized share has been issued in consideration of services rendered.

8. Cost of festivities to highlight the completion of the activities of the Corporation

On September 15, 1990, the Corporation offered public festivities to highlight the upcoming completion of its mandate. This event had been approved by the Minister of Public Works. The costs incurred, set at $169,000 after deducting $5,500 of contributions received from other entities, has been financed from Vote 5 of the Department of Public Works.

9. Contingencies

Legal action has been instituted against the Corporation, the Attorney General of Canada, the Minister of Transport and the Minister of Public Works by some of the original Mirabel property owners who are asking to have the 1969 expropriation declared invalid. In this context, a number of lessees have ceased to remit their rent to the Corporation. On March 27, 1985, a protocol of understanding was entered into with representatives of the original property owners whereby the parties undertake to discontinue all litigation actions between them. This protocol was approved in principle by the Privy Council on June 11, 1985.

In connection with its regular operations, the Corporation is the defendant in certain pending claims. It is the opinion of management that these claims are not founded and no provision was recorded in that effect.

CANADA MORTGAGE AND HOUSING CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The Management of the Corporation is responsible for establishing and maintaining a system of books, records, internal controls and management practices to provide reasonable assurance that: reliable financial information is produced; the assets of the Corporation are safeguarded and controlled; the transactions of the Corporation are in accordance with the relevant legislation, regulations and by-laws of the Corporation; the resources of the Corporation are managed efficiently and economically and the operations of the Corporation are carried out effectively.

Management is also responsible for the integrity and objectivity of the financial statements. The accompanying financial statements of the Corporation as at December 31, 1990 were prepared by Management in accordance with the accounting policies, consistently applied, as described in the notes to the financial statements. The financial statements of the Corporate Account, Minister's Account, the Mortgage Insurance Fund and other Insurance and Guarantee Funds have been presented separately to preserve their identity and provide meaningful information concerning the Corporation's distinct business activities. The financial information contained elsewhere in this Annual Report is consistent with that in the financial statements.

The Board of Directors is responsible for ensuring that Management fulfils its responsibilities for financial reporting and internal control. The Board exercises its responsibilities through the Audit Committee which includes a majority of members who are not officers of the Corporation. The Committee meets from time to time with Management, internal audit staff and the independent external auditors to review the manner in which these groups are performing their responsibilities and to discuss auditing, internal controls and other relevant financial matters. The Audit Committee has reviewed the financial statements with the external auditors and has submitted its report to the Board of Directors. The Board of Directors has reviewed and approved the financial statements.

The financial statements have been examined by the joint external auditors, Robert D. Hepburn, CA, of the firm Deloitte & Touche and Kenneth M. Dye, FCA, Auditor General of Canada. Their reports offer an independent opinion on the financial statements to the Minister of State (Housing).

E.A. Flichel
President and Chief Executive Officer

Karen Kinsley
Vice-President, Finance

FINANCIAL STATEMENTS DECEMBER 31, 1990

Canada Mortgage and Housing Corporation was incorporated as a Crown Corporation by an Act of Parliament on January 1, 1946. Its activities are regulated by the National Housing Act, the Canada Mortgage and Housing Corporation Act and, in certain respects, the Financial Administration Act, and include:

Corporate Account

Financing housing and community improvement through the making of loans and investments under specific conditions at interest rates normally at market rates which are generally higher than the rates it pays on funds borrowed from the Government of Canada. Loans and Investments exist in all three planning elements: Market Housing, Social Housing and Housing Support with the major emphasis (approximately 75%) on Social Housing projects.

Minister's Account

Making certain payments or incurring expenses in the process of delivering housing programs on behalf of the Government of Canada. These payments and expenses include grants, contributions, subsidies, loan forgiveness, losses on real estate, losses under federal-provincial agreements, interest rate losses, research and development, and specified operating costs. The funding for these activities is provided for in Main and Supplementary Estimates which are tabled in Parliament. Parliamentary approval is by way of the Appropriations Act together with Statutory Authorities which authorize the responsible Minister to reimburse the Corporation for the specified payments and expenses for the fiscal year concerned. Grants, contributions and subsidies are delivered within the three planning elements: Market Housing, Social Housing and Housing Support. In these endeavours, approximately 95% of the total activity relates to Social Housing initiatives.

Funds Administered

Administering certain Insurance and Guarantee Funds on behalf of the Government of Canada. The Mortgage Insurance Fund is the chief instrument for establishing a framework of confidence for mortgage lending by private institutions. This instrument facilitates an adequate supply of mortgage funds by reducing the risk to lenders and encouraging the secondary market trading of mortgages, and thereby increasing the access to housing by Canadians. The Mortgage Insurance Fund and the Mortgage-backed Securities Guarantee Fund support Market Housing Initiatives.

CORPORATE ACCOUNT

AUDITORS' REPORT

TO THE MINISTER OF STATE (HOUSING)

We have audited the balance sheet of the Canada Mortgage and Housing Corporation, Corporate Account as at December 31, 1990, and the statements of operations and reserve fund and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our audit of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Mortgage and Housing Corporation Act, the National Housing Act and the by-laws of the Corporation.

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

CORPORATE ACCOUNT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Summary of accounting policies

(a) Basis of presentation

Financial statements for the Corporate Account are presented separately from the Minister's Account and each of the Funds Administered.

The Corporate Account is in accordance with generally accepted accounting principles.

(b) Loans

Loans under certain programs give rise to interest rate losses which are recoverable from the Minister.

If loans contain forgiveness clauses, such forgiveness is recorded and recovered from the Minister when the loans are advanced.

No provisions are made for possible losses on loans as losses on insured loans are recoverable from the Mortgage Insurance Fund while property acquired upon default of uninsured loans is subject to loss recovery as described under Real Estate. Other losses on uninsured loans are recoverable from the Minister.

(c) Federal-provincial agreements

Loans and investments are made under various cost-sharing agreements with the provinces and territories to encourage development of rental housing, land assembly, cooperative housing, rural and native housing and housing rehabilitation.

Only the Corporation's share of costs plus capitalized interest are reflected in these statements.

The Corporation's share of subsidies and losses related to these agreements is recovered from the Minister.

Gains on the sale of land assembly projects are recognized as income in the Corporate Account.

(d) Real estate

Real estate includes vacant land and properties acquired directly by the Corporation, or through the Government of Canada at no cost, or through default on uninsured loans.

All real estate is recorded at cost which includes acquisition costs and any modernization and improvement costs.

Holding costs, including interest, on real estate acquired directly by the Corporation are capitalized up to appraised values after which the costs are expensed in the Corporate Account. Gains or losses on the disposal of these properties are recorded in the Corporate Account. Losses resulting from permanent declines in the value of property are recognized in the year in which they are identified.

Holding costs, including interest, on real estate acquired through the Government of Canada at no cost, or through default on uninsured loans, are capitalized. Gains or losses on the disposal of these properties are paid to or recovered from the Minister. All net operating losses on real estate are recovered from the Minister.

(e) Amortization

Buildings included as real estate in Loans and Investments are amortized on a straight-line basis over an expected useful life of normally fifty years.

Assets Under Capital Lease, Business Premises and Equipment are amortized on a diminishing balance basis over the estimated useful life of the asset. Leasehold improvements are amortized on a straight-line basis.

(f) Pension costs and obligations

The cost of pension benefits earned by employees is charged to income as services are rendered. Adjustments arising from pension plan amendments, experience gains and losses and changes in assumptions are amortized over the expected average remaining service life of the employee group.

(g) Comparative figures

The 1989 comparative figures have been reclassified to conform to the 1990 statement presentation.

2. Loans and investments

	1990	1989
	(in thousands of dollars)	
Loans	4,443,082	4,645,961
Federal-provincial agreements		
Loans	2,789,576	2,807,697
Investments in housing projects	1,636,921	1,540,278
Land assembly projects	24,847	21,332
	4,451,344	4,369,307
Real estate		
Investments in housing projects	17,246	13,359
Land	34,887	29,239
	52,133	42,598
Total loans and investments	8,946,559	9,057,866

3. Due from the Minister

	1990	1989
	(in thousands of dollars)	
Expenditures	1,886,122	1,687,031
Due from the Minister, beginning of year	120,450	26,044
	2,006,572	1,713,075
Recoveries	1,971,256	1,592,625
Due from the Minister, end of year	35,316	120,450

4. Assets under capital lease

	Rate	Cost	Accumulated amortization	Net book value 1990	Net book value 1989
	%	(in thousands of dollars)			
Building	4	29,809		29,809	
Leasehold improvements	10	9,173		9,173	
Total		38,982		38,982	

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

CORPORATE ACCOUNT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Continued*

5. Business premises and equipment

	Rate	Cost	Accumulated amortization	Net book value 1990	Net book value 1989
	%	(in thousands of dollars)			
Land		171		171	171
Buildings	5	15,149	6,460	8,689	7,360
Equipment	8, 20 or 30	31,207	22,070	9,137	8,304
Leasehold improvements	20	6,926	5,575	1,351	1,419
Total		53,453	34,105	19,348	17,254

Amortization in 1990 was $2.9 million (1989—$2.8 million).

6. Borrowings from the Government of Canada

The Corporation borrows from the Government of Canada under the provisions of the Canada Mortgage and Housing Corporation Act and the National Housing Act to finance loans and investments. The interest rates on these debentures or interim receipts vary from 2.00% to 17.96%. The terms are up to 50 years. The payments scheduled for the next five years are:

	(in thousands of dollars)
1991	226,800
1992	236,800
1993	237,200
1994	193,700
1995	173,000

7. Obligation under capital lease

A twenty-five year long-term lease, commencing October 1, 1990 (which for accounting purposes is treated as a capital lease), reflects the cost of the building and leasehold improvements undertaken to consolidate National Office operations in one location. The annual lease payments are $5.2 million for the first 10 years and $3.6 million for the remaining 15 years.

At the termination of the lease, the Corporation assumes ownership of the building at a cost of one dollar.

The minimum lease payments are:

	(in thousands of dollars)
1991 to 1995	25,844
Thereafter to year 2015	79,058
Total future minimum lease payments	104,902
Less interest at 11.77 and 11.57%	66,099
Present value of minimum lease payments	38,803

Interest expense in 1990 was $1.1 million.

8. Employee benefits

Employees are entitled to certain termination benefits. The cost of these benefits is charged to income as earned. The total liability at December 31, 1990 was $19.7 million (1989—$20.1 million). These employee benefits are part of Accounts Payable and Accrued Liabilities.

9. Reserve Fund

Net income or loss is transferred to the Reserve Fund, which is limited by Order-in-Council to $25 million. Any excess is paid to the Receiver General for Canada.

10. Operating expenses

The operating expenses of the Corporation are allocated on the basis of staff utilization as follows:

	1990	1989
	(in thousands of dollars)	
Corporate Account	31,680	29,845
Minister's Account	107,918	106,960
Funds Administered	78,964	70,965
Total	218,562	207,770

11. Taxes

Income tax is 38% of taxable income. The Large Corporations Tax of 0.175% of taxable capital which began July 1, 1989, is $15.2 million in 1990 (1989—$7.7 million).

12. Commitments

(a) Loans and investments

Commitments outstanding for loans and investments amounted to $231.0 million at December 31, 1990 (1989—$273.3 million).

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

CORPORATE ACCOUNT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

(b) Operating leases

Minimum rental payments scheduled over the next five years on business premises and equipment under long-term non-cancellable leases are:

	1991	1992	1993	1994	1995	Total
			(in thousands of dollars)			
Business premises	6,849	5,646	5,342	4,248	2,389	24,474
Equipment	9,147	8,192	7,412	6,559	30	31,340
Total	15,996	13,838	12,754	10,807	2,419	55,814

13. Contingent liabilities

In 1982, the Corporation became defendant, solely or jointly, in legal claims regarding urea formaldehyde foam insulation totalling approximately $48.9 million. There are other legal claims against the Corporation of $4.1 million at the end of 1990 (1989—$4.1 million). Due to the uncertainty of the outcome of these events, no provision for loss has been made. Should costs arise as a result of these actions, they would be expensed when determined.

14. Interest capitalized

The amount of interest capitalized in 1990 was $2.2 million (1989—$1.9 million).

15. Pension plan

The Corporation maintains an indexed, defined benefit pension plan. Retirement benefits are based on the average salary in any best five year period and the number of years of service.

The accrued pension benefits are determined using the projected benefits method prorated on service. The pension valuation and cost in 1990 reflect management's best estimates based on expected investment yields, salary escalation, mortality of members and the ages at which members retire.

The Corporation's funding policy is to contribute the amount required to provide for current benefits attributed to service and to pay the unfunded pension plan liabilities over periods permitted by regulatory authorities.

Based on the actuarial valuation at January 1, 1990 and using management's best estimates, the status of the plan at December 31, 1990 was:

	1990	1989
	(in thousands of dollars)	
Net assets available for benefits	472,443	447,394
Actuarial value of accrued pension benefits	472,036	441,942
Excess of net assets over actuarial value of accrued pension benefits	407	5,452

Annual pension cost includes:

	1990	1989
	(in thousands of dollars)	
Current service costs	9,616	7,568
Government pension plans	1,669	1,537
Early retirement program		3,000
Amortization of past experience gains and losses	(623)	(644)
Total	10,662	11,461

16. Interest loss recoveries

The Corporation was authorized by the Government of Canada to approve certain loans and investments at a negative interest margin and to recover the loss from the Minister. The interest loss recovered is included in interest income. The recoveries by program are:

	1990	1989
	(in thousands of dollars)	
Market housing	39,753	50,253
Social housing	19,628	19,171
Housing support	981	1,037
Total	60,362	70,461

MINISTER'S ACCOUNT

AUDITORS' REPORT

TO THE MINISTER OF STATE (HOUSING)

We have audited the Canada Mortgage and Housing Corporation, Minister's Account—Statement of Expenditures and Recoveries for the year ended December 31, 1990. This financial statement is the responsibility of the Corporation's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, this financial statement presents fairly, in all material respects, the expenditures for and recoveries from the Minister for the year ended December 31, 1990 in accordance with the accounting policy described in Note 1 to this financial statement.

Robert D. Hepburn, CA
of the firm Deloitte & Touche

Kenneth M. Dye, FCA
Auditor General of Canada

Ottawa, Canada

MINISTER'S ACCOUNT

NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 1990

1. Summary of accounting policies

   (a) Basis of presentation

   The financial statements for the Minister's Account is presented separately from those of the Corporate Account and each of the Funds Administered.

   (b) Accruals

   No accruals are made at December 31 in this account. The year-end for the Government of Canada is March 31, at which time accruals will be recorded in accordance with Treasury Board Guidelines and reported in the Public Accounts of Canada. Expenditures made on behalf of the Minister of State (Housing) are recorded as recoverable when disbursed.

   (c) Comparative figures

   The 1989 comparative figures have been reclassified to conform to the 1990 statement presentation.

2. Contingent liabilities

   In 1982, the Corporation became defendant, solely or jointly, in legal claims regarding urea formaldehyde foam insulation totalling approximately $48.9 million. It is uncertain if costs arising from these actions could be charged to the Government of Canada. There were other legal claims of $7.2 million at the end of 1990 (1989—$14.2 million), which if successfully held against the Corporation, could result in charges to the Minister's Account. Due to the uncertainty of the outcome of these events, no provision for losses has been made. Should costs arise as a result of these actions, they would be charged when determined.

3. Operating expenses

   Operating expenses allocated by the Corporation to the Minister's Account in 1990 were $107.9 million (1989—$107.0 million).

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

FUNDS ADMINISTERED

AUDITORS' REPORT

TO THE MINISTER OF STATE (HOUSING)

We have audited the balance sheets of the Funds Administered by Canada Mortgage and Housing Corporation: Mortgage Insurance Fund, Mortgage-backed Securities Guarantee Fund, Home Improvement Loan Insurance Fund and Rental Guarantee Fund as at December 31, 1990, and the statements of operations and surplus for the year then ended. We have also audited the statements of changes in financial position of the Mortgage Insurance Fund and the Mortgage-backed Securities Guarantee Fund for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of these funds as at December 31, 1990 and the results of their operations and the changes in their financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our audit of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Mortgage and Housing Corporation Act, the National Housing Act and the by-laws of the Corporation.

FUNDS ADMINISTERED

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Summary of accounting policies

(a) Basis of presentation

Financial statements for each of the Funds Administered are presented separately from the Corporate Account and the Minister's Account.

(b) Investment in securities

Investments are carried at amortized cost plus accrued interest.

(c) Mortgages

Mortgages are valued at cost less a provision for estimated losses.

(d) Real estate

Real estate acquired upon the payment of a claim resulting from a loan default is valued at net realizable value. Net realizable value is calculated as the current appraised value of the property, as determined by the Corporation, less the discounted value of estimated holding and disposal costs. Amortization is not recorded on the real estate.

(e) Provision for claims

This provision represents the estimated loss on claims in process of payment and the estimated loss on loans, where defaults have occurred, but for which claims have not yet been received by the Corporation.

(f) Premiums

Premiums are deferred and are taken into income over the life of the related policies based on the risk of default in each year.

(g) Premium deficiency

Annually, the Corporation compares the amount of its unearned premiums by line of business to the discounted costs of claims that have not yet occurred on insurance policies in force. Whenever it is determined that the unearned premiums on a line of business are inadequate to meet the expected net costs of future claims, a premium deficiency is charged to income. Subsequently, it is taken into income on the same basis as unearned premiums.

CANADA MORTGAGE AND HOUSING CORPORATION—*Continued*

FUNDS ADMINISTERED

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Continued*

(h) Guarantee fees

Guarantee fees are deferred and are taken into income over the term of the relative Mortgage-backed Security issue on a straight-line basis. Issues currently exist for terms of between one and twenty years.

(i) Application fees

Application fees are recognized as income when received.

(j) Investment income

Investment income is recorded on the accrual basis.

(k) Issuance costs

Issuance costs are expensed as incurred.

2. Investment in securities

CANADA MORTGAGE AND HOUSING CORPORATION—*Concluded*

FUNDS ADMINISTERED

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

3. Appropriated surplus—Mortgage Insurance Fund

Management, on the advice of the actuary, has established a reserve for possible additional claims on the Fund which may occur from the present economic downturn. At December 31, 1990, an amount of $66.0 million has been transferred to appropriated surplus for this purpose.

4. Operating expenses

The operating expenses allocated to the Funds by the Corporation for the year ended December 31, 1990 were $79.0 million (1989—$71.0 million).

5. Contingent liabilities

Legal claims of $21.6 million (1989—$16.5 million) are pending against the Mortgage Insurance Fund. Due to the uncertainty of the outcome of these events, no provision for loss has been made. Should costs arise as a result of these actions, they would be expensed when determined.

6. Actuarial valuation—Mortgage Insurance Fund

An actuarial study of the Fund as at September 30, 1990 disclosed that the Fund is now more than sufficient to pay all future claims in respect of business in force. The surplus as at September 30, 1990 was estimated to be $143.3 million (September 30, 1989—$4.2 million).

7. Insurance in force—Mortgage Insurance Fund

At December 31, 1990, the insurance policies in force totalled approximately $52.8 billion (1989—$48.6 billion).

8. Guarantees in force—Mortgage-backed Securities Guarantee Fund

At December 31, 1990, the guarantees in force totalled approximately $4.9 billion (1989—$3.0 billion).

9. Home Improvement Loan Insurance and Rental Guarantee Funds

The Home Improvement Loan Insurance and Rental Guarantee Programs are no longer active.

10. Income tax

The Insurance and Guarantee Funds are not subject to the provisions of the Income Tax Act, Canada.

CANADA MUSEUMS CONSTRUCTION CORPORATION INC.

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the Canada Museums Construction Corporation Inc. are the responsibility of management and have been approved by members of the Board of Directors of the Corporation. The financial statements have been prepared by management in accordance with generally accepted accounting principles and, where appropriate, include amounts based on management's estimates and judgement. Management is also responsible for all other information in the annual report and for ensuring that this information is consistent, where appropriate, with the information and data contained in the financial statements.

Management has developed and maintains books of account, records, financial and management controls and information systems. These are designed to provide reasonable assurance that assets are safeguarded and controlled and that transactions are in accordance with Part X of the Financial Administration Act and regulations, and the articles and by-laws of the Corporation.

The members of the Board of Directors carry out their responsibilities for the financial statements principally through an Audit Committee which is composed of three directors, two of whom are not employees of the Corporation. The Audit Committee meets at least annually to review and advise the Board of Directors with respect to the financial statements and the auditor's report thereon. The Audit Committee also oversees the internal audit activities of the Corporation and performs such other functions as are assigned to it.

The independent auditor, the Auditor General of Canada, is responsible for auditing the financial statements and for issuing his report thereon.

L.J. O'Toole
Chairman and Chief Executive Officer

R. Plourde
Treasurer and Comptroller

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have audited the balance sheet of Canada Museums Construction Corporation Inc. as at March 31, 1991 and the statement of changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonnable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and the articles and by-laws of the Corporation.

Raymond Dubois, FCA
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1991

1. Authority and activities

The Corporation was incorporated on June 21, 1982 under the Canada Business Corporations Act as an agent of Her Majesty pursuant to the Government Companies Operations Act, and is named as a parent Crown corporation in Part I of Schedule III to the Financial Administration Act. Two-thirds of the capital stock is held by the Canada Lands Company Limited, also a parent Crown corporation, and one-third by the Minister of Public Works, the responsible Minister with whom the control of the Corporation lies.

The business of the Corporation is limited to construction, in the National Capital Region, of buildings for the National Gallery of Canada (NGC), the Canadian Museum of Civilization (CMC) and any other national museum which the Governor in Council may direct, including the acquisition, control, administration and disposal of land required for the construction.

(a) Status of the Corporation

The phasing out of the activities of the Corporation started on April 1, 1990, and will continue until September 30, 1991 when it is anticipated that all employment in the Corporation will be terminated and the current lease for the Corporation's office accommodation will be cancelled. All residual activities of the Corporation will be transferred to the Department of Public Works (DPW) by September 30, 1991.

Bill C-8, an Act to provide for the dissolution or transfer of certain Crown corporations and to amend certain Acts in consequence thereof, was passed by the House of Commons on May 23, 1991 and is awaiting Senate approval. Among other things, the Act provides for the transfer of the remaining CMCC share to Canada Lands Company Limited.

(b) Funding

In September 1981, the Government allocated $185 million for the two projects. Subsequently, additional increases were approved by Treasury Board to bring the total of funds allocated for construction of the museums to $335.21 million for the period to March 31, 1991, as follows:

	NGC	CMC	Total
	(in millions of dollars)		
Construction	121.84	160.48	282.32
Architects and consultants	14.31	24.70	39.01
	136.15	185.18	321.33
Administration expenses	6.28	7.60	13.88
	142.43	192.78	335.21

(c) Transfer of National Gallery of Canada building

During 1988-89, custody and control of the National Gallery of Canada building were transferred from the Corporation to the Department of Public Works. Accordingly, the construction in progress and equity accounts have been reduced by the net construction cost to March 31, 1991 in the amount of $140.6 million. In accordance with the terms of a memorandum of understanding between the Corporation and the Department of Public Works, the Corporation will continue to be responsible for resolving outstanding construction and consultant claims until September 30, 1991 when all outstanding matters will be transferred to the Department of Public Works.

CANADA MUSEUMS CONSTRUCTION CORPORATION INC.—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

(d) Transfer of Canadian Museum of Civilization building

During 1990-91, custody and control of the Canadian Museum of Civilization building were transferred from the Corporation to the Department of Public Works. Accordingly, the construction in progress and equity accounts have been reduced by the net construction cost to March 31, 1991 in the amount of $194.8 million. In accordance with the terms of a memorandum of understanding between the Corporation and the Department of Public Works, the Corporation will continue to be responsible to complete certain work items and deficiencies and to resolve outstanding construction and consultant claims until September 30, 1991, when all outstanding matters will be transferred to the Department of Public Works.

(e) Fit-up and exhibit development

Upon giving preliminary project approval in 1987-88 for the fit-up and exhibit development of the Canadian Museum of Civilization at an estimated cost of $73 million, subsequently increased in 1989-90 to $89 million, Treasury Board assigned responsibility for the fit-up and exhibit development to the former National Museums of Canada (NMC).

An agreement was reached between NMC and CMCC for the Corporation to provide certain services, on a cost recovery basis, related to design, supply and installation of elements of the exhibition development and fit-up work.

The Corporation has completed the construction work under the fit-up program and all recoverable costs have been invoiced in full and paid by the Canadian Museum of Civilization.

(f) Post-construction program

On November 1, 1990 Treasury Board approved $2.7 million for the post-construction program for the Canadian Museum of Civilization, including the work to upgrade the Omnimax theatre hoisting system. This work is managed by the Department of Public Works (DPW). However, because of contractual requirements, certain elements of the work are contracted through CMCC on a cost recovery basis from DPW.

2. Significant accounting policies

(a) Basis of accounting

These financial statements account for the costs incurred by the Corporation in the construction of the museums. They do not account for costs incurred by the National Capital Commission for sites or by the former National Museums of Canada for accommodation planning and fit-ups.

(b) Capitalization

All expenditures, including those for site evaluation, design, construction and administration, will be capitalized until the museums are completed. Interest, management fees and other income are credited to construction in progress. Costs are allocated directly to each museum when they can be specifically identified. All other costs are allocated equally to the two museums.

3. Capital stock

The Corporation is authorized to issue three shares with a nominal value of $1 which shall not be transferred without the approval of the Governor in Council.

4. Equity (deficiency)

During the year, funding of $7.886 million (1990—$33.214 million) was provided by parliamentary appropriation through Vote 20 of the Department of Public Works for the expenditures of the Corporation, of which $6.5 million was received in 1990-91 and $1.386 million in 1991-92. The Corporation has now drawn the full amount of its approved parliamentary appropriation.

	1991	1990
	(in thousands of dollars)	
Opening balance	187,178	155,473
Parliamentary appropriation	7,886	33,214
Transfer of net cost of NGC and CMC buildings	(195,340)	(1,509)
Ending balance	(276)	187,178

5. Pension plan

The Corporation has instituted, with a private sector organization, a contributory pension plan covering all its regular employees. The employees and the Corporation contribute to the plan. The employees contribute 7.5% of gross earnings up to a maximum of $3,500. The employer's share of contribution is 7.5% of the employees' gross earnings. The Corporation's contributions represent its total liability and are recognized in the accounts on a current basis. Pension costs for the plan amounted to $42,102 for the year ended March 31, 1991 (1990—$82,210).

6. Contractual obligations

As at March 31, 1991, commitments for construction and related costs for the Canadian Museum of Civilization amounted to approximately $825,000.

7. Lease commitment

The Corporation has renewed its lease agreement for office space until September 30, 1991. Under the terms of the lease the Corporation is proportionately responsible for payment of operating expenses and taxes to the lessor. The minimum rental payment for 1991-92 is $96,800.

8. Contingencies and claims

(a) Claims have been made against the Corporation totalling approximately $11.6 million for additional construction costs. The final outcome of these claims is not determinable and accordingly, these items are not reflected in the accounts.

(b) The Corporation has given notice to certain consultants of actual pending claims under professional liability insurance policies. These claims are under review. Actions on certain claims have been taken by the insurers. No provision for amounts to be recovered has been made in the financial statements.

Settlements, if any, resulting from the resolution of these claims will be accounted for in the year in which the settlements occur.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

9. Related party transactions

(a) Under cost recovery arrangements with the Department of Public Works and the Canadian Museum of Civilization, the Corporation receives or provides various services. The following summarizes the transactions:

	Accounts receivable March 31, 1990	Amounts billed during 1991	Amounts received during 1991	Accounts receivable March 31, 1991
	(in thousands of dollars)			
Canadian Museum of Civilization				
Public space fit-up	8,555	(421)	(8,134)	
Imax/Omnimax	167	(103)	(64)	
Department of Public Works				
Public utilities for CMC and other services	38	16	(42)	12
Imax/Omnimax hoisting system		990		990
Post-construction work		379		379
	8,760	861	(8,240)	1,381

(b) The Corporation receives audit and legal services without charge from the Office of the Auditor General of Canada and the Department of Justice of Canada respectively.

10. Administration expenditures

The Corporation incurred the following administration expenditures which have been proportionately allocated to each Museum project relative to total annual construction costs.

	1991	1990
	(in thousands of dollars)	
Salaries and employee benefits	594	1,526
Office accomodation	258	362
Professional and special services	62	58

CANADA PORTS CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have audited the balance sheet of Canada Ports Corporation as at December 31, 1990 and the statements of income and retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Ports Corporation Act and the by-laws of the Corporation.

CANADA PORTS CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Canada Ports Corporation Act

Canada Ports Corporation is established under the Canada Ports Corporation Act. The Act provides for the establishment of local port corporations to manage and operate selected ports. The Corporation is named in Part II of Schedule III of the Financial Administration Act and is exempt from income tax.

2. Significant accounting policies

(a) Financial statements

The financial statements of the Corporation include the accounts of the ports and other facilities under its administration, as well as those of the Interport Loan Fund. The activities of the local port corporations are excluded from the financial statements from the date of their establishment.

(b) Investments

The investments are shown at amortized cost whereby premiums or discounts from par value are amortized over the periods to maturity.

(c) Investment in Ridley Terminals Inc.

The investment in Ridley Terminals Inc. is accounted for on the equity basis.

(d) Fixed assets

Fixed assets are recorded at cost except for those transferred to the Corporation from Canada, which are recorded at appraised or fair market value established at the time of transfer. Grants towards capital projects received from Canada and from third parties are deducted from the cost of the related fixed assets.

Depreciation is calculated on the straight-line basis for the full year, commencing with the year the asset becomes operational, using rates based on the estimated useful lives of the assets.

(e) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions represent the liability of the Corporation for pensions and are recognized in the accounts on a current basis.

(f) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are finalized after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(g) Employee benefits

The Corporation accrues in its accounts the estimated liabilities for severance pay, annual leave and overtime compensatory leave, which are payable to its employees under its collective agreements, or in accordance with its policy.

3. Investments

Investments are direct and guaranteed securities of Canada. Their amortized cost and market value are as follows:

	1990		1989	
	Amortized cost	Market value	Amortized cost	Market value
	(in thousands of dollars)			
Current—				
Canada treasury bills	28,409	28,435	32,867	32,788
Long-term—				
Canada bonds	18,497	20,129	18,429	21,080

4. Long-term receivable

In 1989, the Municipal Grants Division of Public Works Canada finalized an audit of grants in lieu of municipal taxes. This audit resulted in an adjustment of $1,174,000 in favour of the Corporation for the years 1985 to 1989, $800,000 of which had been accrued in previous years. This accrual was reversed and the balance of $374,000 was set up in 1989 as a long-term receivable from the Local Government District of Churchill in Manitoba. The receivable is to be recovered in equal annual installments from 1990 to 1994.

	1990	1989
	(in thousands of dollars)	
Non-interest bearing receivable	299	374
Less: current portion	(75)	(75)
	224	299

5. Debentures of Saint John Harbour Bridge Authority

As at December 31, 1989, the Saint John Harbour Bridge Authority (the Authority) was indebted in the amount of $13,793,000 to the Corporation, which in turn was indebted to Canada in the same amount. Accordingly, the debentures receivable and the advances payable had been offset against each other, as were the related interest income and expense of $947,000 for 1989. Thus the financial statements of the Corporation for the year then ended December 31, 1989 did not reflect any of these amounts.

In June 1990, the Corporation, by agreement with the Government of Canada and the Authority, assigned and transferred to Canada the debentures receivable from the Authority, and was thereby released and discharged from the related indebtedness to Canada.

Works under construction		5,651		5,651	243
		100,572	59,760	40,812	36,059

(b) Capital grants

During the year, the Corporation received capital grants towards the construction of fixed assets totalling $9,747,000 (1989—$2,754,000).

(c) Capital expenditure commitments

Contractual obligations for the completion, construction and purchase of fixed assets are estimated at $28,938,000 of which most will be expended in the year ending December 31, 1991.

7. Accounts payable and accrued liabilities

Included in accounts payable and accrued liabilities are deferred revenues of $965,000 (1989—$679,000) and current portion of long-term liabilities of $93,000 (1989—$87,000).

8. Loans from Canada

	1990	1989
	(in thousands of dollars)	
Loans bearing interest at 6.44% and 9.09%, repayable in blended annual instalments of principal and interest of $193,000 and maturing on December 31, 2000	1,319	1,406
Less: current portion	(93)	(87)
	1,226	1,319

Principal repayment requirements over the next five years amount to $93,000 in 1991, $100,000 in 1992, $108,000 in 1993, $116,000 in 1994 and $124,000 in 1995.

9. Due to Interport Loan Fund

The Interport Loan Fund has provided financing for a capital project of a port under the administration of the Corporation. This financing comprised transfers of funds totalling $3,639,000 and accrued interest on the transfers of $106,000. The transfers bear interest at 10.91% to 11.47% and are to be repaid in twenty blended annual instalments of principal and interest, scheduled to commence December 31, 1993.

The terms of the transfers provide that accrued interest is to be added to the principal amount of the transfers and compounded annually until the annual payments commence. The repayment of the deferred interest is subject to the same terms as the principal amount of the transfers.

Principal repayment requirements over the next five years amount to $70,000 in 1993, $78,000 in 1994 and $87,000 in 1995.

10. Contributed capital

Canada has requested a contribution of $100 million towards the federal deficit reduction from Canada Ports Corporation and the local port corporations. Cash payments have been requested of ports identified with cash reserves exceeding their short-term capital investment needs.

The Corporation's share of the contribution was $20.44 million of which $10.22 million is shown as Due to Canada at December 31, 1990. The contribution has been applied against Contributed Capital as follows:

	1990	1989
	(in thousands of dollars)	
Balance at beginning of the year	73,638	73,638
Contribution to Canada	(20,440)	
Balance at end of the year	53,198	73,638

11. Interport Loan Fund

In 1989, Canada provided a grant of $26,650,000 to establish the Interport Loan Fund. This grant was equivalent to the 1988 and 1989 dividend payments of the Corporation and the local port corporations, plus accrued interest.

The purpose of the Fund is to provide financing for financially viable capital projects of the Corporation and the local port corporations.

The balance sheet of the Fund as at December 31 shows:

	1990	1989
	(in thousands of dollars)	
Assets		
Current		
Cash and treasury bill investments	28,319	28,568
Transfers receivable	3,745	
	32,064	28,568
Fund balance		
Contribution from Canada	26,650	26 650
Retained earnings	5,414	1,918
	32,064	28,568

CANADA PORTS CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

The investments of the Fund, shown at amortized cost, are direct and guaranteed securities of Canada. As at December 31, 1990 and 1989, the market value of the investments approximates their amortized cost.

The transfers made in 1990 are described in Note 9.

The Fund is committed to providing financing of $55.3 million for financially viable capital projects of divisional ports over the next three years. Canada has made a commitment to invest up to $50 million in the Fund over the same time period.

The statement of income and retained earnings of the Fund for the year ended December 31, 1990 in comparison with the seven month period ended December 31, 1989, is as follows:

	1990	1989
	(in thousands of dollars)	
Interest income	3,571	1,918
Administrative expenses	75	
Net income	3,496	1,918
Retained earnings at beginning of the year/period	1,918	
Retained earnings at end of the year/period	5,414	1,918

12. Related party transactions

Through common ownership, the Corporation is related to all Government of Canada created departments, agencies and Crown corporations.

In accordance with the Canada Ports Corporation Act, operating and administrative costs incurred by the Corporation in the amount of $7,177,000 have been recovered from the local port corporations in 1990 ($6,225,000 in 1989). These recoveries are offset against the related expenses.

Investment income of $5,616,000 ($5,369,000 in 1989) was earned on Government of Canada securities and interest charges of $106,000 ($112,000 in 1989) were paid to Canada. Details of other transactions with the Government of Canada are disclosed in Notes 6(b), 8 and 10.

13. Contingencies

Claims aggregating approximately $3,459,000 in respect of lawsuits, guarantees, employee agreements, damages allegedly suffered on the Corporation's property and sundry other matters in dispute have been received by the Corporation but are not reflected in the accounts. In the opinion of the Corporation, the final outcome of such claims should not result in any material financial liability.

The Corporation assumes all risks with respect to workers' compensation claims. Any costs arising from such claims are recorded in the accounts in the year they can be reasonably estimated.

CANADA POST CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

Management and the Board of Directors are responsible for the consolidated financial statements and all other information presented in this annual report in accordance with the Financial Administration Act and regulations. The consolidated financial statements have been prepared by management in accordance with generally accepted accounting principles and, where appropriate, include amounts based on management's estimates and judgement.

Management has developed and maintains books of account, records, financial and management control, and information systems and management practices. These are designed to provide reasonable assurance as to the reliability of financial information in accordance with the Financial Administration Act and regulations as well as the Canada Post Corporation Act and by-laws of the Corporation. Internal audits are conducted to assess these systems and practices.

The Board of Directors ensures that management fulfils its responsibilities for financial reporting and internal control through the Audit Committee, which is composed of six directors who are not employees of the Corporation. The Audit Committee meets quarterly to oversee the internal audit activities of the Corporation, and at least annually to review and advise the Board of Directors with respect to the consolidated financial statements and the auditors' annual report.

The Corporation's external auditors, the Auditor General of Canada and Arthur Andersen & Co., examine the consolidated financial statements and report to the Audit Committee as well as the Minister responsible for Canada Post Corporation.

AUDITORS' REPORT

TO THE MINISTER RESPONSIBLE
FOR CANADA POST CORPORATION

We have audited the consolidated balance sheet of Canada Post Corporation as at March 31, 1991, and the consolidated statements of income and retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Post Corporation Act and the by-laws of the Corporation.

CANADA POST CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991

1. Incorporation

The Corporation was established by the Canada Post Corporation Act to operate a postal service on a self-sustaining financial basis while providing a standard of service that will meet the needs of the people of Canada. The Corporation is a Crown corporation included in Part II of Schedule III to the Financial Administration Act and is an agent of Her Majesty. The Corporation is exempt from income taxes.

2. Rate regulation

The Canada Post Corporation Act provides that the Corporation may make regulations prescribing rates of postage that are fair and reasonable so as to provide revenue together with any revenue from other sources, sufficient to defray the costs incurred by the Corporation in the conduct of its operations. The Corporation is required to publish each proposed regulation for interested persons to make representations to the Minister responsible for the Corporation, who thereafter submits the regulation to the Governor in Council for consideration and subsequent approval or refusal.

3. Significant accounting policies

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles. A summary of the significant accounting policies of the Corporation follows:

(a) Consolidation

The consolidated financial statements of the Corporation include the accounts of Canada Post Corporation and its wholly-owned subsidiary, Canada Post Systems Management Limited.

(b) Fixed assets and depreciation

Land, buildings and equipment transferred from the Government of Canada on incorporation were recorded at their fair value at that date, determined as follows:

Land	—Market value based on existing use
Buildings	—Depreciated replacement cost
Plant equipment, vehicles, sales counter, office furniture and equipment, and other equipment	—Depreciated replacement cost or original cost less estimated depreciation

The market value of land and the depreciated replacement cost of buildings transferred by the Government of Canada were determined by independent appraisals. Acquisitions subsequent to incorporation are recorded at cost.

Depreciation is provided on the straight-line basis over the estimated useful lives of the following assets:

Buildings	30 and 40 years
Plant equipment	4 to 30 years
Vehicles (other than passenger and light duty commercial)	6 to 10 years
Sales counter and office furniture and equipment	5 to 20 years
Other equipment	5 to 15 years

Depreciation is provided on the diminishing balance basis at an annual rate of 30 per cent for all passenger and light duty commercial vehicles.

(c) Employee termination benefits

Employees of the Corporation are entitled to specified termination benefits, calculated at salary levels in effect at the time of termination, as provided under collective agreements and conditions of employment.

The present value of the projected costs of unpaid employee termination benefits, as determined by actuarial valuation, is recorded in the accounts as a long-term liability.

Such benefits accruing to employees, as well as gains and losses arising from actuarial valuation, are included in current operations.

(d) Revenue recognition

Amounts received for which services have not been rendered prior to the end of the year are deferred.

(e) Pension plan

Employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Under present legislation, contributions made by the Corporation to the Plan are limited to an amount equal to the employees' contributions on account of current service. These contributions, which amounted to $96,052,000 (1990—$97,006,000), represent the total pension obligations of the Corporation and are included in current operations. The Corporation is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Superannuation Account and/or with respect to charges to the Consolidated Revenue Fund for indexation payments under the Supplementary Retirement Benefits Act.

(f) Deferred development costs

Costs incurred in the development of new mail products and the retail postal network are deferred. These costs are amortized on the straight-line basis over the expected period of economic benefit.

(g) Foreign currency translation

Revenues and expenses relating to transactions with foreign postal administrations are translated into Canadian dollars at the exchange rates at the time of transaction. Amounts due to or from foreign postal administrations at the balance sheet date are translated at the then prevailing exchange rates. Gains or losses arising from translation of foreign currencies are included in current operations.

4. Restructuring costs

The Corporation is currently undertaking a multi-year program of significant initiatives to establish a more efficient and effective postal system. Individual initiatives are approved on an ongoing basis. Costs include the development and implementation of management and operating systems as well as the realignment of resources.

CANADA POST CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

5. Fixed assets

	1991			1990
	Cost or fair value	Accumulated depreciation	Net	Net
	(in thousands of dollars)			
Land	216,344		216,344	214,742
Buildings	1,191,072	348,255	842,817	822,695
Plant equipment	681,894	254,459	427,435	345,196
Vehicles	112,619	67,323	45,296	60,308
Sales counter and office furniture and equipment	317,600	85,884	231,716	223,021
Other equipment	233,152	49,472	183,680	162,372
	2,752,681	805,393	1,947,288	1,828,334

6. Segregated cash and investments

The Corporation has segregated certain cash and investments, recorded at cost, for the purpose only of managing cash flows relating to the employee termination benefits liability.

7. Collection of postal memorabilia

The Corporation has an agreement with both the National Archives of Canada and the Canadian Museum of Civilization to operate, administer and maintain a Canadian Postal Archives and a National Postal Museum, respectively, containing philatelic material, postal artifacts, a postal library and exhibits that trace the history of the mail and other memorabilia. Since these collections, exhibits and books are not for resale and are of undetermined value, they have been recorded at a nominal amount of $1,000.

8. Long-term debt

(a) Long-term loan—Government of Canada

In 1988, the Corporation entered into a 10-year $80 million loan with the Government of Canada. Interest is payable semi-annually at the rate of 9.705 per cent per annum, and the principal becomes due and payable on April 27, 1998.

(b) Long-term bonds

On March 15, 1991, the Corporation issued for cash, $55 million of non-redeemable bonds maturing in March 2016. Interest is payable semi-annually at the rate of 10.35 per cent per annum.

Interest expense on long-term debt was $8,029,000 (1990—$7,764,000).

9. Contributed capital adjustment

In prior years, the Corporation was permitted by the rate regulator to recover certain costs from future postal users. On April 1, 1989, the Governor in Council, as rate regulator, authorized the elimination of the accumulated unamortized balances of these costs, in the amount of $588,253,000, against contributed capital.

10. Contingent liabilities

(a) With respect to a complaint filed with the Canadian Human Rights Commission, alleging discrimination by the Corporation concerning work of equal value, the Commission's investigation is continuing and the outcome is not currently determinable. Settlement, if any, arising from resolution of this matter will be recovered in future postal rates (as determined in accordance with the Canada Post Corporation Act) and/or from the Government of Canada.

(b) Employees are permitted to accumulate unused sick leave. However, such leave entitlements do not vest and can be used only in the event of illness. The amount of accumulated sick leave entitlements which will become payable in future years cannot reasonably be determined. Payments of sick leave benefits are included in current operations.

11. Lease commitments

The Corporation occupies certain facilities under operating leases which expire at various dates between 1992 and 2027. The Corporation's future minimum rental payments required under operating leases that have terms in excess of one year, are as follows:

	(in thousands of dollars)
1992	54,350
1993	43,232
1994	34,856
1995	23,533
1996	16,710
1997 to 2027	40,453
	213,134

12. Related party transactions

The Corporation had the following transactions with related parties in addition to those disclosed elsewhere in these consolidated financial statements.

(a) Payments on behalf of postal users

Where Government policy requires the Corporation to provide services at rates less than cost, to the publications industry, and for Government free mail, literature for the blind and Northern air stage services, the Government of Canada compensates the Corporation for foregone postage revenue from those sources. Payments received, amounting to $203,593,000 (1990—$239,593,000), are included in revenue from postal operations.

(b) Property management

The Corporation has incurred net operating costs of $206,080,000 (1990—$191,706,000) in respect of a property management arrangement with the Department of Public Works to manage substantially all the Corporation's real property. In addition, capital expenditures amounted to $11,982,000 (1990—$29,787,000).

(c) Interest

The Corporation earned interest in the amount of $1,740,000 (1990—$1,769,000) on its balance in the Consolidated Revenue Fund of the Government of Canada.

CANADA POST CORPORATION—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

(d) Other

In the normal course of business, the Corporation enters into various other transactions with the Government of Canada, its agencies and other Crown corporations. These include the provision of postal services and the purchase of air and rail transportation.

As a result of all the above transactions, the amounts due from and to these parties are $14,459,000 (1990—$10,696,000) and $147,100,000 (1990—$82,437,000) respectively.

13. Subsequent event

On May 24, 1991, the Board of Directors declared a dividend payable on June 28, 1991 to the Shareholder, the Government of Canada in the amount of 40 per cent of net income with respect to the fiscal year ended March 31, 1991. This amounted to $5,737,000.

CANADIAN BROADCASTING CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The financial statements and all other information presented in this annual report are the responsibility of management and have been approved by the Board of Directors of the Corporation. These financial statements, which include amounts based on management's best estimates as determined through experience and judgement, have been properly prepared within reasonable limits of materiality and are in accordance with generally accepted accounting principles.

Management of the Corporation maintains books of account, records, financial and management control, and information systems, which are designed for the provision of reliable and accurate financial information on a timely basis. These controls provide reasonable assurance that assets are safeguarded, that resources are managed economically and efficiently in the attainment of corporate objectives, that operations are carried out effectively and that transactions are in accordance with the former Part VIII of the Financial Administration Act and regulations as they apply to the Corporation, the Broadcasting Act and the by-laws of the Corporation.

The Corporation's Internal Auditor has the responsibility for assessing the Corporation's systems, procedures and practices. The Auditor General of Canada conducts an independent examination of the annual financial statements and reports on his examination to the Canadian Broadcasting Corporation and the Minister of Communications.

The Board of Directors' Audit Committee, which consists of three members, none of whom is an officer of the Corporation, reviews and advises the Board on the financial statements and the Auditor General's report thereto. The Audit Committee oversees the activities of Internal Audit and meets with management, the Internal Auditor and the Auditor General on a regular basis.

Gérard Veilleux
President

S. Cotsman
Vice-President, Finance and Administration

AUDITOR'S REPORT

TO THE CANADIAN BROADCASTING CORPORATION
AND THE MINISTER OF COMMUNICATIONS

I have audited the balance sheet of the Canadian Broadcasting Corporation as at March 31, 1991 and the statements of income and expense and reconciliation to government funding basis, proprietor's equity account and cash flow for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the former Part VIII of the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with the former Part VIII of the Financial Administration Act and regulations as they apply to the Corporation, the Broadcasting Act and the by-laws of the Corporation.

L. Denis Desautels, FCA
Auditor General of Canada

The accompanying notes and schedule A are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1991

1. Authority and objective

The Canadian Broadcasting Corporation was established by the 1936, 1958 and 1968 Broadcasting Acts. The Corporation is an agent of Her Majesty and all property acquired by the Corporation is the property of Her Majesty.

As the national public broadcaster, the Canadian Broadcasting Corporation provides radio and television services in both official languages incorporating predominantly and distinctively Canadian programs to reflect Canada and its regions to national and regional audiences.

A new Broadcasting Act became effective June 4, 1991. This new act does not impact on the current year's financial statements.

2. Significant accounting policies

(a) Engineering and production supplies and merchandise

The inventory of engineering and production supplies is stated at the lower of average cost and replacement cost. The inventory of merchandise is stated at the lower of cost and net realizable value.

(b) Programs completed and in process of production

Programs completed and in process of production are stated at cost. Cost includes the cost of goods and services, and the share of labour and overhead expenses applicable to each program.

Program costs are charged to operations as the programs are broadcast or deemed unusable.

(c) Film rights

The Corporation enters into contracts for film broadcasting rights. As payments are made under the terms of each contract they are reflected in the accounts as prepaid film rights. The film rights are charged to operations as the films are broadcast or deemed unusable.

(d) Capital assets

Capital assets are recorded at cost. The cost of assets constructed by the Corporation includes material, engineering services, direct labour and related overhead. Amortization is calculated on the straight-line method using rates based on the estimated useful life of the assets as follows:

Buildings	33 years
Technical equipment	
Transmitters and towers	20 years
Other	10 years
Furnishings and office equipment	10 years
Automotive	5 years
Computers	5 years

Major leasehold improvements are capitalized and amortized over the term of the respective leases to a maximum period of five years. Amounts included in uncompleted capital projects are transferred to the appropriate capital asset classification upon completion, and are then amortized according to the Corporation's policy. Gains and losses on disposals of capital assets are credited or charged to Proprietor's Equity Account.

CANADIAN BROADCASTING CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1991—*Continued*

(e) Capital leases

Assets recorded as capital leases are amortized on the straight-line method over the estimated useful life of the assets or the lease term as appropriate. Obligations recorded under the capital leases are reduced by lease payments net of imputed interest.

(f) Pension cost and obligation

The Corporation provides pensions based on length of service and final average earnings as classified under defined benefit pension plans.

The cost of pension benefits earned by employees is determined using the projected benefit method of actuarial valuation with projected salary increases where appropriate, pro-rated on services and charged to expense as services are rendered. This cost reflects management's best estimate of the pension fund's expected investment yields, and of salary escalations, mortality of members, terminations and ages at which members will retire. The surplus on the introduction of this accounting policy (effective April 1, 1987), adjustments arising from plan amendments, experience gains and losses and changes in assumptions are amortized over the estimated average remaining service life of the employee group.

The difference between the accumulated amounts expensed and the funding contributions is reflected in the balance sheet as a long term deferred charge or accrued pension liability as the case may be.

(g) Employee termination benefits and vacation pay

Employee termination benefits and vacation pay are expensed as benefits accrue to employees under their respective terms of employment.

(h) Parliamentary appropriations

Parliamentary appropriations for operating expenditures are recorded as income. Parliamentary appropriations for capital and working capital are credited to Proprietor's Equity Account.

3. Capital assets

	1991			1990
	Cost	Accumulated amortization	Net book value	Net book value
	(in thousands of dollars)			
Land	35,386		35,386	35,357
Buildings	288,714	131,800	156,914	152,595
Technical equipment	780,341	405,967	374,374	351,100
Furnishings, office equipment and computers	49,406	26,862	22,544	24,357
Automotive	15,311	10,950	4,361	4,004
Leasehold improvements	7,931	5,692	2,239	2,449
Property under capital leases	1,347	293	1,054	1,397
Uncompleted capital projects	139,060		139,060	144,228
	1,317,496	581,564	735,932	715,487

4. Deferred charges

In the fiscal year 1988-89 the Corporation was granted a license to operate CBC Newsworld. Total development costs amounting to $6.5 million at August 31, 1989 are being amortized over a five year period commencing September 1, 1989. Amortization for the year amounted to $1.3 million ($0.7 million for the seven months, ended March 31, 1990).

5. Accrued pension liability

Using methods and assumptions identified in the pension cost and obligation accounting policy (2f), projections from the latest actuarial valuations show an estimated present value of accrued pension benefits of $1,923.3 million as at March 31, 1991 (1990—$1,768.5 million) which includes $2.3 million (1990—$2.4 million) of unfunded retirement benefits. Market related values have been used for valuing pension fund assets which based on financial information as at March 31, 1991 are valued at $2,039.5 million (1990—$1,866.8 million).

The accrued pension liability as at March 31, 1991 amounts to $1.9 million (1990—$0.9 million deferred charge) and is the difference between the accumulated pension expense and the required funding contributions.

6. Advances from Government of Canada

Advances from the Government of Canada are made for working capital purposes and are non-interest bearing. These advances become repayable when cash and treasury bills exceed the Corporation's requirements for working capital.

Working capital is determined on a government funding basis which excludes items not requiring current operating or capital funds.

7. Lease obligations

(a) Existing leases

As at March 31, 1991, the Corporation's obligations related to capital leases and operating leases for terms in excess of one year are as follows:

	Capital leases	Operating leases
	(in thousands of dollars)	
1992	284	42,860
1993	277	31,992
1994	269	21,494
1995	628	13,094
1996		6,959
1997-2062		15,122
Total future payments	1,458	131,521
Deduct: imputed interest	299	
Present value of capital lease obligations	1,159	
Deduct: current portion	168	
Long-term obligations under capital leases	991	

CANADIAN BROADCASTING CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1991—*Continued*

(b) Broadcast Centre development project, Toronto

In accordance with Governor in Council approval, the Corporation signed a project agreement, dated September 30, 1988, with Cadillac Fairview Corporation Limited, as the selected developer, for the construction of a building, on the Corporation's site in downtown Toronto, to house the Corporation's Toronto-based operations.

On October 14, 1988, the Corporation entered into a Broadcast Centre agreement to lease with Cadillac Fairview whereby the Corporation will, upon substantial completion of the Canadian Broadcasting Centre building, now estimated to be July 1992, execute Broadcast Centre leases for the building and underlying lands for an initial period of thirty-five years. The Corporation advances funds against the project to Cadillac Fairview in order to minimize the future interest costs associated with the lease.

The Corporation is committed under this lease to pay rent under all circumstances and, in the event of termination of the lease, at the Corporation's option or otherwise, pay sufficient rent to repay all interim and permanent financing.

8. Parliamentary appropriations

The Corporation receives funds from the Parliament of Canada through annual appropriations. In the fiscal year 1990-91, the Corporation received supplementary operating appropriations of $50.0 million to assist in the funding of restructuring expenditures. Approval was also granted to transfer $25.1 million from capital appropriations to operating appropriations in order to fund recessionary impacts. The appropriations approved and the payments received by the Corporation for 1991, including the above noted significant amounts, and 1990 are noted below.

		1991		1990
		(in thousands of dollars)		
Appropriations				
Operating	910,112		849,335	
Plus: restructuring	50,000			
transfer from capital	25,100			
		985,212		849,335
Capital	114,318		128,040	
Less: transfer to operating	(25,100)			
		89,218		128,040
Working capital		4,000		4,000
		1,078,430		981,375

The following summarizes the net items not requiring current operating funds.

	1991	1990
	(in thousands of dollars)	
Amortization	68,294	63,780
Employee termination benefits and vacation pay	(1,188)	1,369
Program inventory costs	4,762	2,564
Deferred pension contribution	2,817	6,208
	74,685	73,921

9. Restructuring and expenditure reductions/downsizing

(a) Restructuring and expenditure reductions

On December 3, 1990, the Board of Directors approved measures to address a significant projected shortfall in income for fiscal 1991-92.

These measures include the restructuring of regional television services, the major service reductions of three local television stations and the reduction of activities in eight others, in addition to cancellation of numerous programming hours, particularly in local and regional television. Furthermore, the status of the English and French parliamentary channels, as well as the shortwave service, Radio Canada International, were modified as of April 1, 1991.

The total expenses related to the above, based on management's best estimates, were as follows:

	(in thousands of dollars)
Expenses incurred in the 1990-91 fiscal period	
Employee terminations and special benefits[1]	42,834
Programming related[2]	7,928
Employee assistance and professional fees[3]	5,711
Redeployment of capital assets and occupancy related[4]	4,891
Other miscellaneous	691
Total expenses incurred in the 1990-91 fiscal period[5]	62,055
Reconciliation to government funding basis	
Add: unfunded expenses recorded in previous fiscal periods[5]	10,879
Total expenses on government funding basis requiring current operating funds[5]	72,934

(1) Severance payments and employment security benefits governed by labour agreements and special programmes.

(2) Cost associated with the cancellation of programs.

(3) Cost primarily associated with employee counselling, career transition assistance, skills enhancement and relocation to vacant positions at other CBC locations.

(4) Cost of dismantling, shipping and re-installation of capital assets as well as the cancellation of leases and improvements to property.

(5) The total cash outlay associated with the restructuring and expenditure reductions requiring current operating funds amounted to $73.0 million. Of the total, $62.1 million was incurred in the 1990-91 fiscal period while the balance of $10.9 million represents employee termination benefits accrued and expensed under normal operations (see Note 2g) as items not requiring current operating funds to the end of the previous fiscal period.

CANADIAN BROADCASTING CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1991—*Concluded*

(b) Downsizing

In 1989-90 the Board of Directors approved a workforce adjustment plan to address the budget reductions requested by the Federal Government. The plan involved, among other things, a wind up of the merchandising section of CBC Enterprises, employee terminations and reassignments and consolidations within the administration and support areas. Costs incurred in 1989-90 relating to this plan totalled $19.6 million of which $18.0 million related to personnel costs including lay off pay, early retirement incentives, and other related costs; and $1.6 million to the wind up of the merchandising section of CBC Enterprises.

10. Income taxes

The Corporation is a prescribed federal Crown corporation under Part LXXI of the Income Tax Regulations and is subject to the provisions of the federal Income Tax Act. Amortization and capital cost allowance are not allowable deductions in the determination of the Corporation's taxable income. Therefore, the Corporation may have taxable income even when there is an excess of expense over income in any year. In addition, the Corporation is subject to the large corporations tax and must pay tax on defined capital exceeding $10 million.

During the year, the Corporation did not incur income tax expense, other than large corporations tax, due to the utilization of $26.5 million of $38.3 million accumulated losses carried forward. The remaining $11.8 million of accumulated losses carried forward for income tax purposes has not been recognized in the financial statements. The tax benefits pertaining to this loss carry-forward are available until 1997.

11. Net change in non-cash working capital balances

	1991	1990
	(in thousands of dollars)	
Cash provided by (used for)		
Accounts receivable	(10,054)	(6,895)
Engineering and production supplies and merchandise	3,292	379
Programs completed and in process of production	9,796	483
Prepaid film and script rights and other expenses	(9,201)	94
Accounts payable and accrued liabilities	26,612	22,061
Plus: short-term portion of capital leases	1,339	220
Accrued vacation pay	140	1,606
	21,924	17,948

12. Commitments

As at March 31, 1991, commitments for sports rights amounted to $147.8 million; procured programs, film rights and co-productions amounted to $17.5 million for total commitments of $165.3 million.

13. Contingencies

In the ordinary course of business, various claims and lawsuits have been brought against the Corporation. In the opinion of management, the losses, if any, which may result from the settlement of these matters are not likely to be material and accordingly no provision has been made in the accounts of the Corporation. In the event that such expenditures were incurred, they would be recognized as period costs.

14. Related party transactions

The Corporation is related in terms of common ownership to all Government of Canada created departments, agencies and Crown corporations and is mainly financed by the Parliament of Canada.

During the year, transactions with these related departments, agencies and Crown corporations were in the normal course of business on normal trade terms applicable to all individuals and enterprises. Transactions with the Parliament of Canada are outlined in Notes 6 and 8.

15. CBC Newsworld

The Corporation operates CBC Newsworld under a license condition that the operation be reported on an incremental cost/revenue basis. In compliance with the license condition, incremental revenue of $25.8 million and incremental costs of $25.9 million, for the year ended March 31, 1991, are being reported separately to the Canadian Radio-Television and Telecommunications Commission. For the seven months ended March 31, 1990 incremental revenue of $14.5 million and incremental costs of $13.5 million were reported to the CRTC. The cumulative excess revenues of $0.9 million as at March 31, 1991 are maintained for CBC Newsworld's future activities. These activities are an integral part of the operations of the Corporation.

16. Comparative figures

Certain of the 1990 comparative figures have been reclassified to conform to the current year's presentation.

CANADIAN COMMERCIAL CORPORATION

AUDITOR'S REPORT

TO THE MINISTER FOR INTERNATIONAL TRADE

I have audited the balance sheet of the Canadian Commercial Corporation as at March 31, 1991 and the statements of operations and retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards in Canada, conforming with International Auditing Guidelines. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canadian Commercial Corporation Act and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Nature, organization and funding

The Corporation was established in 1946 by the Canadian Commercial Corporation Act and is an agent Crown corporation listed in Part I of Schedule III to the Financial Administration Act.

The Corporation acts as the prime contracting agency when other countries and international organizations wish to purchase products and services from Canada on a government-to-government basis. Contracts are made with foreign governments and international organizations and corresponding supply contracts are entered into with Canadian firms by the Corporation (see Note 3).

The Government has provided the Corporation with $20 million as contributed surplus. The Corporation has authority to draw loans from the Consolidated Revenue Fund in amounts up to a total of $10 million as required to supplement its working capital. Annually, the Corporation seeks funding for its operation through parliamentary appropriation (see Note 6).

2. Significant accounting policies

These financial statements are prepared in accordance with generally accepted accounting principles in Canada, consistently applied, and conform in all material respects with International Accounting Standards. A summary of significant policies follows:

(a) Contracts

Revenues from contracts are recorded at the time of delivery except in the case of contracts involving progress payments; in these cases, revenues are recorded at the time the progress payments are billed to customers. Since title to work-in-progress covered by progress claims has not passed to customers, the Corporation sets up a corresponding liability and cost of contract billings. The Corporation records all progress claims by its suppliers as assets. These assets and liabilities are reduced, in accordance with contract terms, as deliveries are accepted.

The cumulative effect of changes in the estimated cost of uncompleted contracts is recorded in the statement of operations in the year when the change is first determined.

(b) Foreign currency translation

Assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the year-end exchange rates. Revenues and expenses are translated at the average exchange rates for the month in which the transactions occur.

Contracts with foreign governments and corresponding contracts with Canadian suppliers are generally entered into in the same currency, or alternatively, the contract terms in the supplier contract pass the risk to the supplier. This reduces the Corporation's contractual exposure to losses or gains due to fluctuations in foreign exchange.

The Corporation maintains some working capital in U.S. currency to facilitate the cash flow between foreign customers and Canadian suppliers.

CANADIAN COMMERCIAL CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

(c) Pension plan

Employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Under present legislation, contributions made by the Corporation to the Plan are limited to an amount equal to the employee's contributions on account of current service. These contributions represent the total pension obligations of the Corporation and are charged to operations on a current basis. The Corporation is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Superannuation Account and/or with respect to charges to the Consolidated Revenue Fund for indexation payments under the Supplementary Retirement Benefits Act.

(d) Employee termination benefits

Employees of the Corporation are entitled to specified termination benefits, calculated at salary levels in effect at the time of termination, as provided for under collective agreements and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to employees.

(e) Income taxes

The Corporation is not subject to income taxes.

(f) Capital assets

Capital assets are fully amortized in their year of purchase as their costs are not recovered through future operations.

3. Contractual obligations

The Corporation is obligated to fulfil numerous contracts with foreign customers. These contracts range in value up to approximately $500 million. The total contract value remaining to be fulfilled approximates $1.4 billion as at March 31, 1991 (1990—$1.4 billion).

The Corporation may incur additional contract costs should suppliers not fulfil the terms of their contracts. As of March 31, 1991, the Corporation has a provision of $1,922,000 (1990—$3,842,000) for additional contract costs, which may be incurred if certain suppliers are unable to meet their contractual obligations.

4. Contingencies

The Corporation is involved in three legal actions, which it considers as material. Losses, if any, resulting from the resolution of these contigencies, will be accounted for as a charge to income of the year in which the settlement occurs.

(a) The Corporation has been named as defendant in proceedings commenced in 1975 by a supplier alleging losses resulting from the termination of a contract and seeking damages in an amount of $6.8 million plus accrued interest and costs. In 1989, the Court ruled in favour of the Corporation on the determination of one of the major issues between the parties. As of March 31, 1991, the balance of the issues in dispute between the Corporation and its supplier are yet to be heard by the Court. Based on the advice of legal counsel, management is of the opinion that no provision for possible loss in respect of this matter is required.

(b) The Corporation has been named as defendant in proceedings commenced in 1985 by a supplier relating to a contract entered into in 1983 in which the claimant is seeking damages in an amount of $876,000. Based on the advice of legal counsel, management is of the opinion that no provision for possible loss in respect of this matter is required.

(c) The Corporation has been named as respondent in proceedings commenced in 1987 in which a supplier challenged the applicability of the fee for service system put in place by the Corporation in 1986, to a transaction between this supplier and the Corporation. The Corporation appealed the judgement of the Court of first instance rendered in 1990 which, inter alia, granted this supplier's motion. If the findings of the Court were upheld by the Court of Appeal, an amount in excess of one million dollars could be claimed from the Corporation. After a review of the reasons for the judgement of the Court and of the law by counsel, management is of the opinion that no provision for possible loss in respect of these proceedings is required.

5. Accounts receivable from foreign governments

As at March 31, 1991, the Corporation has provided $787,000 (1990—$943,000) to cover the possible non-collection of certain accounts receivable from foreign governments.

6. Parliamentary appropriation

For the fiscal year 1990-91, Parliament approved an appropriation amount of $15,157,000 (1990—$20,089,000). Subsequently, the Government decided to offset unanticipated government-wide program costs through re-allocations. Consequently, the Corporation's entitlement was reduced by $240,000. The Corporation drew down the full entitlement of $14,917,000 (1990—$17,089,000) of which $234,000 (1990—$1,814,000) was drawn down subsequent to March 31, 1991. The amount of the draw-down includes amounts due to government departments as at March 31, 1991 of $1,551,000 (1990—$1,473,000).

7. Payment to Government of Canada

During the year ended March 31, 1991, the Corporation approved the payment of $1,430,000 to the Government of Canada. Subsequent to March 31, 1991, the Board of Directors approved a similar payment of $1,340,000, to be made in 1991-92, to the Government of Canada.

8. Services provided by the Government of Canada

(a) Supply and Services Canada

Supply and Services Canada provides contracting services to the Corporation at predetermined rates approved by Treasury Board, based on the amounts of contracts procured, and provides certain administrative functions at cost.

(b) Department of Justice

The Department of Justice represents the Corporation in certain matters. The Corporation pays for amounts billed by Justice related to legal fees and expenses incurred in connection with specific actions but not for general legal services.

CANADIAN COMMERCIAL CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

9. Insurance

The Corporation follows the practice of self insuring.

10. Commitments

Effective April 1986, the Corporation entered into a ten-year lease agreement for office space. The minimum lease payments for the next five years, and in total, will approximate the following:

	(in thousands of dollars)
1992	1,041,000
1993	1,093,000
1994	1,148,000
1995	1,205,000
1996	1,265,000
	5,752,000

CANADIAN DAIRY COMMISSION—*Continued*

MANAGEMENT RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements of the Canadian Dairy Commission and all information in this annual report are the responsibility of management. The statements have been prepared in accordance with generally accepted accounting principles which have been consistently applied, using management's best estimates and judgements, where appropriate. Financial information presented elsewhere in the annual report is consistent with the statements.

In discharging its responsibility for financial reporting, management maintains and relies on financial and management control systems and practices which are designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. These controls and practices ensure the orderly conduct of business, the accuracy of accounting records, the timely preparation of reliable financial information and the adherence to Commission policies and statutory requirements.

The Audit Committee, which is made up of the Commission's three Commissioners, oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting. The Commission's external auditors and those conducting its internal audits have free access to the Audit Committee to discuss the results of their work and to express their concerns and opinions.

The financial statements have been audited by the Auditor General of Canada, the independent auditor for the Government of Canada.

AUDITOR'S REPORT

TO THE MINISTER OF AGRICULTURE

I have examined the balance sheet of the Canadian Dairy Commission as at July 31, 1990 and the statement of operations and financing by producer levies and the statement of dairy support program and costs financed by the Government of Canada for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission as at July 31, 1990 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Commission that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canadian Dairy Commission Act and the by-laws of the Commission.

D. Larry Meyers, FCA

Carrying charges		2,920
Cost of production and dairy policy studies	764	303
Total costs financed by the Government of Canada	270,035	287,510

The accompanying notes and schedule are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS JULY 31, 1990

1. The Commission

The Canadian Dairy Commission (the "Commission") is an agent Crown corporation named in Part I, Schedule III to the Financial Administration Act and is not subject to the provisions of the Income Tax Act. The objectives of the Commission, as established by the Canadian Dairy Commission Act, are "to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality".

The Commission administers the dairy support program financed by the Government of Canada, under which it makes direct support payments to producers. In co-operation with the Canadian Milk Supply Management Committee (CMSMC), which it chairs, the Commission undertakes the management and administration of operations financed by producer levies.

The Commission purchases, at Canadian support prices, all butter and skim milk powder tendered to it. While most of the butter purchased by the Commission is later resold in the domestic market, most of the skim milk powder is in excess of domestic needs and is exported. The Commission sells production surplus to domestic requirements in the form of whole milk products, skim milk powder and butter on international markets at the prevailing world prices. Historically, these prices have usually been lower than Canadian support prices. The Commission also pays assistance to processors and exporters to assist them in disposing of dairy products directly.

2. Significant accounting policies

Foreign currency translation

Sales and receivables in foreign currencies are hedged by currency conversion agreements and are translated into Canadian dollars at the exchange rates provided therein.

Inventories

Inventories are valued at the lower of cost or estimated net realizable value.

Allowance for losses on disposal of surplus production

The Commission establishes an allowance for losses on disposal of surplus production by reference to its outstanding purchase commitments, actual butter inventory levels relative to the normal levels determined by the Commission and world market prices.

Excess of financing over net cost of operations

In accordance with the National Milk Marketing Plan, the treatment of any excess of financing by producer levies over the net cost of operations is determined by the Canadian Milk Supply Management Committee. Refunds are recorded in the year declared.

3. Trade accounts receivable

Trade accounts receivable are net of an allowance for doubtful accounts of $5.6 million (1989—$8.5 million).

The recovery of $1.2 million in the provision for doubtful accounts is the result of the Commission's successful declaration of ownership, and subsequent sale, of a bond in lieu of an account receivable due the Commission.

CANADIAN DAIRY COMMISSION—*Continued*

NOTES TO FINANCIAL STATEMENTS
JULY 31, 1990—*Continued*

4. Financing

Government of Canada

The Agricultural Stabilization Board provides financing to the Commission for direct support payments to producers of industrial milk and cream up to maximum amounts authorized by the Governor in Council. A major portion of the Commission's administrative expenses as well as professional services relating to cost of production and other studies are financed by the Government of Canada.

As a result of the April 1989 Budget, effective August 1, 1989, the federal funding of the Commission's administrative expenses associated with the export of dairy products and of the carrying charges for skim milk powder ceased. In addition, the federal funding of $6.03 per standard hectolitre direct support payment on 1.1 million hectolitres of Special Export Program industrial milk production was discontinued on July 31, 1989.

Producer levies

Producers are responsible for all costs of operations not financed by the Government of Canada. These costs are financed through levies established by the CMSMC, charged and collected by the provincial marketing boards and agencies and remitted to the Commission.

Producer levies are comprised of:

	1990	1989
	(in thousands of dollars)	
Industrial milk		
In-quota levies	123,780	131,322
Over-quota levies	24,995	32,926
	148,775	164,248
Fluid milk	7,154	8,033
Total	155,929	172,281

The Commission's administrative expenses of $5.0 million (1989—$4.7 million) have been financed from producer levies and by the Government of Canada in the amounts of $1.5 million (1989—Nil) and $3.5 million (1989—$4.7 million) respectively.

Industrial milk levies include an amount to cover all eligible costs associated with actual butter inventory levels up to normal levels determined by the Commission. The excess (deficiency) of financing over these eligible costs for the year amounted to ($1.7) million (1989—($0.6) million). The cumulative excess at year end amounted to $1.2 million (1989—$2.9 million) and is included with the excess of financing over net cost of operations and will be applied to future eligible costs associated with butter inventory levels.

5. Inventories

Inventories are comprised as follows:

	1990	1989
	(in thousands of dollars)	
Cost		
Butter	90,742	91,229
Skim milk powder	63,669	67,032
Other dairy products	13,903	12,373
	168,314	170,634
Less allowance for write down		
Butter (unsalted only)		8,038
Skim milk powder	18,694	15,294
Other dairy products	5,635	4,707
	24,329	28,039
Net book value	143,985	142,595

6. Allowance for losses on disposal of surplus production

In recognition, in part, of the decline in domestic butterfat requirements, the Commission has reduced the normal butter inventory level at the year end from 12 million to 10 million kilograms of butter. This has resulted in a $7.8 million increase in the 1989-90 net cost of operations financed by producer levies and the allowance for losses on disposal of surplus production.

7. Loans from Government of Canada

Loans from the Government of Canada, to a maximum of $300 million, are available to finance operations. There are no specific terms of repayment. Principal and accrued interest, however, are repaid on a regular basis as and when funds are available. The interest rates during the year varied from 12.014% to 13.922% (1989—8.995% to 12.888%).

Loan transactions for the year are summarized as follows:

	1990	1989
	(in thousands of dollars)	
Balance at beginning of year	114,250	87,363
Borrowings	252,627	278,222
Payments	(260,594)	(251,335)
Balance at end of year	106,283	114,250
Accrued interest at end of year	1,922	2,302

8. Representatives' fees

The Commission has used the services of representatives for the sale of dairy products on the export market. Their fees, which are included in cost of goods sold, are as follows:

	1990	1989
	(in thousands of dollars)	
Coopérative Fédérée de Québec, Canada	808	1,001
Intercontinental, Mexico	1,848	1,000
Gestion Y. Dessarrollo—Commercial S.A., Peru	59	259
Total	2,715	2,260

CANADIAN DAIRY COMMISSION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
JULY 31, 1990—*Concluded*

9. Purchase commitments

As at July 31, 1990, the Commission was committed to purchase butter and skim milk powder produced prior to that date at Canadian support prices and other dairy products produced prior to that date at negotiated contract prices. These commitments amounted to approximately $12.0 million (1989—$15.3 million).

10. Related party transactions

Included in export sales is an amount of $15.0 million (1989—$18.0 million) of sales to the Canadian International Development Agency. These sales were carried out in the normal course of business and at the Commission's established sales prices.

In addition, government departments provided the Commission with certain administrative services without charge.

11. Subsequent event

In accordance with the decision of the CMSMC at its meeting of September 26, 1990, the excess of financing as at July 31, 1990, excluding the cumulative excess of financing over all eligible costs associated with normal butter inventory levels of $1.2 million, will be refunded to the provinces.

12. Financial statement presentation

A statement of changes in financial position has not been included because, in the opinion of management, it would not provide any meaningful additional information.

CANADIAN FILM DEVELOPMENT CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF COMMUNICATIONS

I have audited the balance sheet of the Canadian Film Development Corporation as at March 31, 1991 and the statements of operations, equity of Canada and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with the Financial Administration Act and regulations, the Canadian Film Development Corporation Act and the by-laws of the Corporation.

CANADIAN FILM DEVELOPMENT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and activities

The Corporation was established in 1967 by the Canadian Film Development Corporation Act with the objective of fostering and promoting the development of a feature film industry in Canada. The Corporation has since been charged with the administration of the Canadian Broadcast Program Development Fund, established on July 1, 1983, within the framework of the Broadcasting Strategy for Canada as well as with the management of various new programs established under the National Film and Video Policy of May 1984.

The Corporation is a Crown corporation subject to the provisions of Part VIII of the Financial Administration Act as it read before its repeal in 1984 and as if it continued to be named in Schedule C of the Act.

2. Significant accounting policies

(a) Liquidity

The financial operations of the Corporation are processed through the Consolidated Revenue Fund of Canada, thus the absence of bank accounts. For the purposes of the statement of changes in financial position, its liquidity consists of a parliamentary appropriation receivable.

(b) Loans

Loans are shown on the balance sheet at their face value, less an allowance for losses.

(c) Investments

Funds advanced for feature films and Canadian programming, in return for a share in the proceeds, are expensed as assistance expenses in the year in which the funds are paid or have become payable.

All proceeds, up to the amount of the related investment, are credited to expenses as a reduction of assistance expenses made during the year. Any amount in excess thereof is accounted for as revenues.

(d) Capital assets

Capital assets are recorded at cost.

Amortization is recorded, using the diminishing-balance method, at the annual rate of 30% for the automobile, 20% for the furniture and equipment and 20% and 30% for the computer installations. Leasehold improvements are amortized, using the straight-line method, based on the terms of the leases.

(e) Parliamentary appropriation

The parliamentary appropriation voted to the Corporation for its objectives comprises an amount for the development of a feature film industry which can be carried forward to future years up to the amount of unused film receipts and another lapsing amount for the production of Canadian programming. The unlapsed parliamentary appropriation is credited to the Equity of Canada. The admissible unlapsed amount not used at the end of the year is presented on the balance sheet as a parliamentary appropriation receivable.

(f) Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided for under their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(g) Pension plan

All employees participate in the superannuation plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service and admissible past service are expensed during the year in which payments are made. The terms of payment for past service are set by the applicable purchase conditions in effect, generally over the number of years of service remaining prior to retirement.

3. Deposit with the Consolidated Revenue Fund and deposit payable

During the previous year, the Corporation received $21,200,000 from a private corporation for the creation of a fund to strengthen and improve the Canadian broadcasting system under an agreement subject to the approval by the Canadian Radio-television and Telecommunications Commission. This agreement was rejected on August 23, 1990 and, as a result, the Corporation returned the funds together with interest thereon.

4. Parliamentary appropriation receivable

Portion applicable to administration expenses	7,352,323	7,446,365

8. Commitments

As at March 31, 1991, the Corporation:

	French projects	English projects	Total
	$	$	$
is contractually committed to advance funds as loans and investments	10,380,739	12,319,138	22,699,877
has accepted to finance projects that may call for disbursements	3,933,485	497,379	4,430,864
	14,314,224	12,816,517	27,130,741

Under a production revenue sharing program, the Corporation has committed funds totalling $2,035,499 as at March 31, 1991, for projects yet to be submitted, under certain conditions.

Next year, the Corporation will pay an amount of $1,000,000 as the balance of its share in a joint project with the Department of External Affairs.

The Corporation has entered into long-term leases for the rental of office space and equipment used in its operations. The aggregate minimum annual rentals payable during subsequent years are as follows:

	$
1992	1,926,330
1993	1,953,409
1994	1,862,081

	13,413,614

CANADIAN INSTITUTE FOR INTERNATIONAL PEACE AND SECURITY

AUDITOR'S REPORT

TO THE CANADIAN INSTITUTE FOR INTERNATIONAL PEACE AND SECURITY
AND THE
SECRETARY OF STATE FOR EXTERNAL AFFAIRS

I have audited the balance sheet of the Canadian Institute for International Peace and Security as at March 31, 1991 and the statements of operations and equity of Canada and changes in financial position for the year then ended. These financial statements are the responsibility of the Institute's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Institute as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles.

D. Larry Meyers, FCA
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada
June 27, 1991

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1991

1. Authority and operations

The Institute was established in 1984 under the Canadian Institute for International Peace and Security Act (the Act). The Institute is exempt from Divisions I to IV of Part X of the Financial Administration Act.

The purpose of the Institute is to increase knowledge and understanding of the issues relating to international peace and security from a Canadian perspective with particular emphasis on arms control, disarmament, defence and conflict resolution, and to:

(a) foster, fund and conduct research on matters relating to international peace and security;

(b) promote scholarship in matters relating to international peace and security;

(c) study and propose ideas and policies for the enhancement of international peace and security; and

(d) collect and disseminate information on, and encourage public discussion of, issues of international peace and security.

2. Significant accounting policies

These financial statements have been prepared in accordance with generally accepted accounting principles in Canada. The significant accounting policies followed are:

(a) Furniture, equipment and leasehold improvements

Furniture, equipment and leasehold improvements are recorded at cost. Furniture and equipment are amortized on the straight-line basis at an annual rate of 20%. Leasehold improvements are amortized, using the straight-line method, based on the duration of the lease.

(b) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The Institute's contributions are equal to the contributions paid by its employees in respect of current services. These contributions represent the total liability of the Institute in respect of the pension plan and are recorded as expenses in the same period as the employees' services are rendered.

(c) Income taxes

The Institute is exempt from any income taxes.

(d) Parliamentary appropriation

Parliamentary appropriation is recorded in the accounts on an accrual basis. Furthermore, the Act states that the Institute shall be paid from the Consolidated Revenue Fund the sum of $5 million annually or such greater amount as may be appropriated by Parliament.

(e) Grants, awards and bursaries

Grants, awards and bursaries are charged to operations when the conditions of the agreement are met by the recipient.

	667,463	441,315	226,148	246,304

4. Deferred rent compensation

Amount provided by new landlord to compensate for expenses to be incurred on previous leased premises during 1989-90 and 1990-91.

5. Commitments

(a) Office lease agreement

The total commitments for lease payments are estimated at $390,000 for each of the seven subsequent years. The lease agreement also calls for a pro rata share of occupancy costs of approximately $220,000 annually.

(b) Programmes

The Institute is committed to make payments totalling $1,124,500 in 1991-92 subject to compliance by the recipients with the terms of the agreements.

CANADIAN LIVESTOCK FEED BOARD

AUDITOR'S REPORT

TO THE CANADIAN LIVESTOCK FEED BOARD
AND THE
MINISTER OF AGRICULTURE

I have audited the balance sheet of the Canadian Livestock Feed Board as at March 31, 1991 and the statements of operations, deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the Board's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Board as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Board that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Livestock Feed Assistance Act and regulations and the by-laws of the Board.

Raymond Dubois, FCA
Deputy Auditor General

CANADIAN LIVESTOCK FEED BOARD—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and objectives

The Board, a Crown corporation named in Part I of Schedule III to the Financial Administration Act, was established in 1967 under the Livestock Feed Assistance Act with the objective of ensuring:

— the availability of feed grain to meet the needs of livestock feeders;

— the availability of adequate storage space in Eastern Canada for feed grain to meet the needs of livestock feeders; and

— reasonable stability in, and fair equalization of, feed grain prices in Eastern Canada, British Columbia, the Yukon Territory and the Northwest Territories.

Bill C-8, an Act to provide for the dissolution or transfer of certain Crown corporations and to amend certain Acts in consequence thereof, was adopted in third reading on May 23, 1991 by the House of Commons and is now before the Senate. This Bill provides for the dissolution of the Board and the execution of its mandate by the Minister of Agriculture.

2. Significant accounting policies

(a) Liquidity

The financial operations of the Board are processed through the Consolidated Revenue Fund of Canada, thus the absence of bank accounts. For the purposes of the statement of changes in financial position, the liquidity consists of parliamentary appropriations receivable or payable.

(b) Contributions

Feed freight assistance is charged to operations in the year in which shipments are made.

Write-offs or provisions for losses of amounts recoverable under the new inland elevator construction assistance program are charged to operations in the year in which collection is considered doubtful.

(c) Capital expenditures

Purchases of equipment, office furniture, vehicles and costs of office renovations are expensed in the year of acquisition.

(d) Parliamentary appropriations

Parliamentary appropriations are recorded in the statement of deficit of Canada for the year to which they apply.

(e) Services provided without charge

An estimated amount for services provided without charge by a government department is included in expenses with an offset to the statement of deficit.

(f) Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(g) Pension plan

All employees participate in the superannuation plan administered by the Government of Canada. The employees and the Board contribute equally to the cost of the plan. This contribution represents the total liability of the Board. Contributions in respect of current service and of admissible past service are expensed when paid. The terms of payment of past service contributions are set by the applicable purchase condition, generally over the number of years of service remaining prior to retirement.

3. Amounts recoverable under the new inland elevator construction assistance program

Under the new inland elevator construction assistance program, the Board contributed towards certain construction costs. As at March 31, 1983, all contributions by the Board had been paid to operators of the elevators. These operators are called upon to reimburse, without interest, part of the contributions received. Reimbursements are based on stored quantities from the fourth to the tenth year of operation of the new facility without exceeding 40% of the contribution received.

As at March 31, 1991, the Board estimates that the amounts that will be recovered, net of a provision for losses, total $69,637 ($112,810 as at March 31, 1990). Because of the basis for the calculation of reimbursements, it is not possible to determine the amounts that will be recovered during each applicable year.

CANADIAN MUSEUM OF CIVILIZATION

AUDITOR'S REPORT

TO THE MINISTER OF COMMUNICATIONS

I have audited the balance sheet of the Canadian Museum of Civilization as at March 31, 1991 and the statements of operations, equity of Canada and changes in financial position for the nine months then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and changes in its financial position for the nine months then ended in accordance with generally accepted accounting principles.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Museums Act and by-laws of the Corporation.

Raymond Dubois, FCA
Deputy Auditor General

CANADIAN MUSEUM OF CIVILIZATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Mission and mandate

The Canadian Museum of Civilization was established on July 1, 1990 by the Museums Act. The Canadian Museum of Civilization is a Crown Corporation named in Part I of Schedule III of the Financial Administration Act. The Canadian War Museum is a component part of the Canadian Museum of Civilization.

The mission, as stated in the Museums Act, is as follows:

"to increase, throughout Canada and internationally, interest in, knowledge and critical understanding of and appreciation and respect for human cultural achievements and human behaviour by establishing, maintaining and developing for research and posterity a collection of objects of historical or cultural interest, with special but not exclusive reference to Canada, and by demonstrating those achievements and behaviour, the knowledge derived from them and the understanding they represent."

In compliance with the Museums Act, assets, liabilities and equity belonging to the Canadian Museum of Civilization were transferred, as of July 1, 1990, from National Museums of Canada to the Canadian Museum of Civilization at book value.

2. Significant accounting policies

(a) Inventories

The inventories, which consist of materials for the boutiques and publications, are valued at the lesser of cost or net realizable value.

(b) Collection

The artifact collection forms the largest part of the assets of the Corporation, but it is presented in the balance sheet at a nominal value of $1,000 given the practical difficulties of determining a meaningful value for this asset.

Objects purchased for the collection of the Corporation are, in the year of acquisition, recorded as an expense or accounted for in the Trust account depending on the source of funds. Objects donated to the Corporation are not recorded in the books of accounts.

(c) Property and equipment

Property and equipment were transferred to the Corporation on July 1, 1990 at the book value, on that date, in the books of the National Museums of Canada. The counterpart of this appears on the balance sheet in the Equity of Canada. Property and equipment acquired since July 1, 1990 are valued at cost.

Amortization is calculated on the straight-line method, commencing with the date of receipt of the goods, as follows:

Leasehold improvements	10 years
Office furniture and equipment	8 years
Technical and informatics equipment	5 and 8 years
Motor vehicles	5 years

Since the buildings are not owned by the Corporation, no amortization is taken.

(d) Pension plan

Employees of the Corporation participate in the Public Service Superannuation plan, administered by the Government of Canada. The Corporation matches these contributions equally for each employee for the period in which services are rendered. These contributions are expended during the year in which services are rendered and represent the total obligation of the Corporation for employee pension plan.

(e) Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The cost of these benefits is expended in the year in which they are earned.

(f) Parliamentary appropriation

The parliamentary appropriation funds the net cost of operations for the period and finances the acquisition of fixed assets—property and equipment. The parliamentary appropriation is credited to the Equity of Canada.

3. Accounts receivable

	March 31 1991	July 1 1990
	(in thousands of dollars)	
Recoveries of salaries from government departments	373	256
Recoveries of Goods and Services Tax	334	
Trade accounts	76	104
Other	57	119
	840	479

4. Trust account

A trust account was created to facilitate the management of funds donated by or received from private individuals and other corporate entities.

On July 1, 1990, the balance of the trust account was $1,289,601. For the period ending March 31, 1991, the revenue amounted to $401,720 and expenditures amounted to $208,072 for a closing balance at March 31, 1991 of $1,483,249.

5. Property and equipment

	March 31 1991			July 1 1990
	Cost	Accumulated amortization	Net book value	Net book value
	(in thousands of dollars)			
Leasehold improvements	6,561	787	5,774	5,608
Office furniture and equipment	3,524	1,188	2,336	1,732

	19,053	6,360	12,693	11,862

CANADIAN MUSEUM OF CIVILIZATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

6. Accounts payable and accrued liabilities

	March 31 1991	July 1 1990
	(in thousands of dollars)	
Trade accounts payable	6,020	3,311
Government departments and agencies	1,336	5,669
Accrued salaries and vacation pay	1,776	2,430
	9,132	11,410

7. Equity of Canada

The Equity of Canada represents the book value of assets and liabilities transferred from the former National Museums of Canada as of July 1, 1990 and the net results of the operations of the Corporation since that date. However, it does not reflect the value of land and buildings occupied by the Corporation as they are presently provided without charge and owned by the Government of Canada (see Notes 2(c) and 8). The artifact collection is included at a nominal value of $1,000 (see Note 2(b)).

8. Related party transactions

The building space occupied by the Corporation is supplied without charge by the Department of Public Works. The Corporation also receives, without charge, accounting and auditing services from different government departments and agencies. These services provided without charge are not recorded in the financial statements.

During the reporting period and in the normal course of operations, the Corporation incurred expenses for the work and services provided by other government departments and agencies under the same conditions as outside parties.

CANADIAN MUSEUM OF NATURE

MANAGEMENT RESPONSIBILITIES

The Board of Trustees, which is responsible for, among other things, the financial statements of the corporation, delegates to management the responsibility for the preparation of the financial statements and the annual report. Responsibility for their review is that of the Audit and Finance Committee. The financial statements were prepared by management in accordance with generally accepted accounting principles and include estimates based on management's experience and judgement. The financial statements have been approved by the Board of Trustees of the corporation on the recommendation of the Audit and Finance Committee. Other financial and operating information appearing in this annual report is consistent with that contained in the financial statements.

Management maintains books and records, financial and management control and information systems and management practices in such a manner as to provide reasonable assurance that: reliable and accurate information is produced on a timely basis; assets are safeguarded and controlled; transactions are in accordance with Part X of the Financial Administration Act and its regulations as well as the Museums Act and by-laws of the corporation; resources are managed economically and efficiently, and that the operations of the corporation are carried out effectively.

The Auditor General of Canada conducts an independent audit of the financial statements of the corporation in accordance with generally accepted auditing standards.

The Board of Trustees of the corporation is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control, and exercises this responsibility through its Audit and Finance Committee, which is composed of three trustees, none of whom are employees of the corporation. The Audit and Finance Committee discharges the responsibilities conferred upon it by the Board of Trustees, and meets on a regular basis with management, and the Auditor General of Canada, who has unrestricted access to the Committee.

Alan R. Emery
Director

Colin C. Eades
Comptroller

AUDITOR'S REPORT

TO THE MINISTER OF COMMUNICATIONS

I have audited the balance sheet of the Canadian Museum of Nature as at March 31, 1991 and the statements of operations, equity of Canada and changes in financial position for the nine months then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at March 31, 1991 and the results of its operations and changes in its financial position for the nine months then ended in accordance with generally accepted accounting principles.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Museums Act and the by-laws of the corporation.

CANADIAN MUSEUM OF NATURE—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority, mission and operations

The Canadian Museum of Nature was established by the Museums Act on July 1st, 1990 and is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

The Canadian Museum of Nature was previously under the jurisdiction of the National Museums of Canada. Following Section 34 of the Museums Act, all rights, obligations and liabilities of the National Museums of Canada in relation to a constituent museum have become rights, obligations and liabilities of the constituent museum as it is for the Canadian Museum of Nature.

The corporation's mission is to increase, throughout Canada and internationally, interest in, knowledge of and appreciation and respect for the natural world by establishing, maintaining and developing for research and posterity a collection of natural history objects, with special but not exclusive reference to Canada, and by demonstrating the natural world, the knowledge derived from it and the understanding it represents.

To accomplish its mission, the corporation has organized its operations in two major functions, Collections and Research and Public Programmes supported by Communications and Marketing activities, Services to the Museum and Comptrollership activities. The overall direction and coordination of activities are under the responsibility of the Museum Directorate.

2. Summary of significant accounting policies

These financial statements are prepared in accordance with generally accepted accounting principles and reflect the following policies:

(a) Inventories

Inventories of publications and boutique are valued at the lower of cost and net realizable value, cost being determined by the specific item method.

(b) Capital assets

Capital assets were transferred from the National Museums of Canada at their original cost with related accumulated amortization. Capital assets acquisitions are recorded at cost. Amortization is calculated on the straight-line basis based on the estimated useful lives of the assets as follows:

Office equipment	5 to 12 years
Other equipment and furnishings	5 to 10 years
Leasehold improvements	5 and 10 years

Material and equipment acquired for the purpose of the design, development and maintenance of exhibits are charged to operations in the year of acquisition.

(c) Collections

Collections constitute the major part of the corporation's assets, but are shown at a nominal value of $1,000 on the balance sheet. Valuation of collections would be neither practical nor economical and their uniqueness prevents the establishment of a fair value.

Objects purchased for the collections are recorded as expenses in the year of acquisition or charged to the Trust account, depending on the source of funds. Objects donated to the corporation are not recorded in the books of accounts.

(d) Pension plan

The corporation's employees participate in the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are made by both employees and the corporation on an equal basis. These contributions represent the total pension obligations of the corporation and are recognized in the accounts on a current basis.

(e) Employee termination benefits

Employees of the corporation are entitled to specified benefits on termination as provided under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees under the respective terms of employment.

(f) Donated services

The value of volunteer and other services donated by individuals and corporate entities to the corporation are not recorded in the financial statements.

3. Trust account

A Trust account is established within the Consolidated Revenue Fund. This account permits the corporation to manage funds donated by and/or received from individuals and corporate entities for the purpose for which funds were donated or received. Funds deposited in this account earn interest. Transactions are accounted for on a cash basis and are not included in the statement of operations.

	(in thousands of dollars)
Receipts	
Gifts and bequests	1,036
Interest	44
	1,080

CANADIAN MUSEUM OF NATURE—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

5. Related party transactions

Through common ownership, the corporation is related to all Government of Canada created departments, agencies and Crown corporations.

Building space occupied by the corporation is provided by Public Works Canada without charge. Buildings are either owned and maintained by Public Works or leased/rented for the benefit of the corporation. During the period, the corporation also received without charge accounting and auditing services from related parties.

The corporation also incurred, in the normal course of operations, expenses in the amount of $1,889,000 for the work and services provided by other government departments and agencies.

6. Parliamentary appropriation

A parliamentary appropriation funds the net operating expenditures and finances the acquisition of capital assets. The parliamentary appropriation is reflected in the equity of Canada.

	(in thousands of dollars)
Department of Communications	
—Vote 47c	14,565
Deferred from previous year	95
	14,660
Amount lapsed	1,100
Amount used	13,560

7. Transfer from trust account

During the period, a sum of $790,000 was transferred to the corporation from the Trust account. This transfer was made to reimburse the corporation for a payment made in June 1990 for the acquisition of the William Pinch Collection. Payments related to the acquisition of this collection are normally made from the Trust account. However, due to a temporary shortfall of funds, the payment had to be made by the National Museums of Canada and the corporation's parliamentary appropriation for the period has been reduced by that amount.

8. Commitments

As at March 31, 1991, the corporation had outstanding commitments which amounted to $1,195,000, mainly in respect of security services and exhibit contracts.

CANADIAN NATIONAL RAILWAY SYSTEM

MANAGEMENT REPORT

The accompanying consolidated financial statements of Canadian National Railway System and all information in this annual report are the responsibility of management and have been approved by the board of directors.

The financial statements have been prepared by management in conformity with Canadian generally accepted accounting principles. These statements include some amounts that are based on best estimates and judgments. Financial information used elsewhere in the annual report is consistent with that in the financial statements.

Management of the Company, in furtherance of the integrity and objectivity of data in the financial statements, has developed and maintains a system of internal accounting controls and supports an extensive program of internal audits. Management believes that this system of internal accounting controls provides reasonable assurance that financial records are reliable and form a proper basis for preparation of financial statements and that assets are properly accounted for and safeguarded.

The board of directors carries out its responsibility for the financial statements in this report principally through its audit committee, consisting solely of outside directors. The audit committee reviews the Company's annual consolidated financial statements and recommends their approval by the board of directors. Also, the audit committee meets regularly with the Vice-President Internal Audit and with the Shareholder's Auditors, appointed by the Government of Canada.

These consolidated financial statements have been examined by the Shareholder's Auditors, Deloitte & Touche and Raymond, Chabot, Martin, Paré, whose report is presented below.

Yvon H. Masse
Senior Vice-President and Chief Financial Officer

AUDITORS' REPORT

TO THE MINISTER OF TRANSPORT

We have audited the consolidated balance sheets of Canadian National Railway System as at December 31, 1990 and 1989 and the consolidated statements of income, retained earnings and changes in financial position for each of the years in the three-year period ended December 31, 1990. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the System as at December 31, 1990 and 1989 and the results of its operations and the changes in its financial position for each of the years in the three-year period ended December 31, 1990 in accordance with generally accepted accounting principles.

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of significant accounting policies

Introduction

All references in these Notes to the "Company" refer to Canadian National Railway Company which is wholly-owned by the Government of Canada and, unless the context otherwise requires, its consolidated subsidiaries, and all references to the "System" mean Canadian National Railway Company and its consolidated subsidiaries together with the lines of railway and other property entrusted by the Government of Canada to the Company for management and operation.

(a) Principles of consolidation

The consolidated financial statements include the accounts of all significant subsidiaries and, consistent with the legislation governing the System, the accounts of the Canadian Government Railways entrusted to the Company by the Government of Canada.

Investments in entities in which the Company has less than a majority interest are accounted for by the equity method, where appropriate.

(b) Reporting by division

In presenting the results by division, interdivisional charges for services have not been eliminated. Consolidated net income is not affected by this practice.

(c) Material and supplies

The inventory is valued at laid down cost based on weighted average cost for ties and rails, latest invoice price for fuel and new materials in stores, and at estimated utility or sales value for usable second hand, obsolete and scrap materials.

(d) Properties

Accounting for railway properties is carried out in accordance with rules issued by the National Transportation Agency of Canada (Canadian properties) and the Interstate Commerce Commission (United States properties). Generally, major additions and replacements are capitalized and interest costs are charged to expense.

The cost of depreciable railway assets retired or disposed of, less salvage, is charged to accumulated depreciation, in accordance with the group plan of depreciation. Other depreciable assets retired or disposed of are accounted for in accordance with the unit plan whereby gains or losses are taken into income as they occur.

The Company follows the successful efforts method of accounting for its oil and gas operations whereby the acquisition costs of oil and gas properties, the costs of successful exploratory wells and the costs of drilling and equipping development wells are capitalized.

CN Real Estate's properties are stated at cost. Carrying costs of properties under development are capitalized. Such costs include real estate taxes, insurance, interest and other expenses directly related to the development activity.

(e) Depreciation

Depreciation is calculated at rates sufficient to write off properties over their estimated useful lives, generally on a straight-line basis. For railway properties, rates are authorized by the National Transportation Agency of Canada and the Interstate Commerce Commission. The rates for significant classes of assets are as follows:

	Annual Rate
Ties	2.71%-2.73%
Rails	1.93%
Other track material	2.23%-2.83%
Ballast	3.27%
Road locomotives	4.30%
Freight cars	1.73%-3.18%

Acquisition costs of oil and gas properties are amortized on a straight-line basis over the term of the lease until such time as the properties are determined to be productive or judged to be impaired. Acquisition costs of productive properties and costs of successful exploratory drilling and of drilling and equipping development wells are charged against income on the unit-of-production method based upon proven reserves of oil and gas. Exploratory dry hole and acquisition costs judged to be impaired are charged against income in the current period. Other exploratory expenditures are charged against income as incurred.

CN Real Estate assets are depreciated using the straight-line method calculated over the estimated economic life of the asset.

(f) Revenues

Transportation: Revenues are generally recognized on completion of movements, with interline movements being treated as complete when the shipment is turned over to the connecting carrier. Costs associated with movements not completed are deferred.

Real estate: Rental revenues are recognized as earned. Revenues from disposition of properties are recognized on completion of the sale. The share of income from joint ventures is recognized on an equity basis and reported as Other income.

(g) Pensions

Pension costs are determined periodically by independent actuaries. Pension expense is charged annually to operations and comprises the total of the following:

— the cost of pension benefits provided in exchange for employees' services rendered during the year, and

— amortization of past service costs over the expected average remaining service life of the employee group covered by the plans.

The pension plans are funded through contributions determined in accordance with the accrued benefit actuarial cost method.

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Continued*

(h) Foreign exchange

The Company's foreign operations are classified as integrated and are translated and accounted for on the following bases. Current assets (excluding material and supplies), current liabilities and long-term debt are translated at the rates in effect at the balance sheet date, whereas all other assets and liabilities are translated at historical rates. Revenues and expenses are translated at average rates during the year except for depreciation which is translated at exchange rates prevailing when the related properties were acquired.

The Company's own foreign denominated assets and liabilities are accorded similar treatment. Revenues and expenses are translated at rates prevailing at the time of the transactions except for revenues designated as a hedge against repayment of foreign denominated long-term debt which are translated at the rate in effect at the inception of the debt.

Currency gains and losses are reflected in net income for the year, except for unrealized foreign currency losses on long-term debt. The Company has designated future U.S. dollar revenue streams as a hedge against the repayment of most of its long-term debt denominated in U.S. dollars, and has thus deferred reflecting the related unrealized foreign currency translation losses in net income until the earlier of the debt repayment or the expiry of the hedge. Unrealized foreign currency losses related to long-term debt denominated in U.S. dollars not covered by the hedge are deferred and amortized over the remaining life of the debt. Such deferred amounts are included in the Consolidated Balance Sheet as part of Other Assets and Deferred Charges.

(i) Leases

Leases which satisfy the criteria for capital leases and which have been entered into after 1981 have been capitalized. Other leases entered into prior to 1982, satisfying the criteria for capital leases, have been recorded as operating leases.

2. Changes in accounting policies

During 1990 the Company adopted retroactively the recommendations of the Canadian Institute of Chartered Accountants relating to discontinued operations and extraordinary items. The principal features of the recommendations are a much narrower definition of the nature of transactions qualifying as extraordinary items and the requirement to disclose results of discontinued operations separately from those of continuing operations. These changes result mainly in the inclusion in the income statement caption "Income taxes" of reductions in income taxes resulting from the application of prior years' losses and in "Discontinued operations" of certain 1988 asset write-downs, closure costs and gains on disposal of business units, net of related income taxes. These amounts had previously been treated as extraordinary items. The changes have no impact on reported net income.

3. Investments

	Percentage of Voting Interest	December 31 1990	December 31 1989
		(in thousands of dollars)	
Entities accounted for by equity method			
CNCP Niagara-Detroit Partnership	50%	18,646	17,766

			189,660	193,733
Long-term debt			1,756,395	1,869,889

(a) The Company borrowed $70.0 million at an all-inclusive cost of 10.25% by means of a Euro-yen public note issue and a currency swap.

(b) The Company borrowed $98.6 million at an all-inclusive cost of 11.17% by means of a public bond issue in Switzerland and a currency swap.

(c) The Government of Canada loan bears interest at 8 3/4% per annum and is payable in equal semi-annual instalments of $13.63 million covering principal and interest to June 30, 1998.

(d) Secured by rolling stock and payable by semi-annual or quarterly instalments over various periods to 2000 at interest rates ranging from 8 1/2% to 17 3/4%. As at December 31, 1990, the principal amounts are payable as U.S. $57.2 million and Canadian $22.7 million (December 31, 1989—U.S. $77.1 million, Canadian $14.4 million).

(e) The Company borrowed $42.6 million at an all-inclusive cost of 11.535% by means of a yen syndicated loan and currency swap.

(f) Interest rates for these leases range from approximately 7 7/8% to 14 1/2% with expiry dates occurring during the years 1991 through 2005. The imputed interest on these leases amounts to $73.9 million (1989—$79.0 million).

(g) Certain of the Company's long-term debt is considered to be extinguished as a result of the Company's having placed in irrevocable trusts, government securities sufficient to satisfy the interest and maturing principal requirements of the specific debt obligations involved.

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Continued*

(h) Principal repayments, including sinking fund repayments, repurchase arrangements and capital lease repayments, on debt outstanding at December 31, 1990, are as follows:

Year ending December 31	(in thousands of dollars)
1991	103,055
1992	96,273
1993	174,171
1994	210,178
1995	242,725
1996-2000	575,010
2001-2005	405,091
2006-2010	26,098
2011-2015	22,038

6. Shareholder's Equity

(a) Capital stock

The capital stock of Canadian National Railway Company, $2,278,866,774, consists of 5,868,786 common shares of no par value authorized, issued and outstanding which are owned by the Government of Canada.

(b) Retained earnings

Under its governing legislation, the Company is required to pay to the Receiver General for Canada a dividend equal to 20% of net income for the year or such greater percentage as the Governor in Council may direct. Accordingly, a dividend representing 20% of the net income for the year has been accrued and is included in Other Current Liabilities as is the dividend pertaining to 1989 net income. The dividend based on 1988 net income was paid during 1990. The dividends accrued on 1985 and 1987 income, which had not yet been paid, were reversed and transferred to retained earnings in 1988 on the basis of a Treasury Board of Canada decision dated December 15, 1988.

7. Major commitments and contingencies

(a) Leases

(i) The Company's commitments as at December 31, 1990, under leases, excluding those which have been capitalized and for which the lease obligations are recorded as long-term debt (see Note 5), are as follows:

Non-cancellable leases Year ending December 31	Pre-1982 Capital leases	Operating leases
	(in thousands of dollars)	
1991	4,727	126,630
1992	3,618	115,462
1993	1,363	114,815
1994	998	109,199
1995	998	99,305
1996-2000	3,466	493,000
2001-2005	1,124	345,011
Thereafter		14,829
Total minimum lease payments	16,294	1,418,251
Less amount representing imputed interest	3,987	
Present value of net minimum lease payments under capital leases	12,307	

A significant portion of the leases is in respect of railway rolling stock and many of them provide renewal options and an option to purchase the property at fair market value at the end of the lease terms.

(ii) Rental expenses under all lease arrangements which have not been capitalized were:

	Year ended December 31		
	1990	1989	1988
	(in thousands of dollars)		
Total expenses	138,584	140,628	154,719
Expenses under pre-1982 capital leases included in total expenses	9,023	22,909	30,347

(iii) Increases in income, assets and liabilities in the consolidated financial statements, which would have arisen if leases entered into prior to 1982 and which satisfied the criteria for capital leases had been capitalized, are as follows:

	Year ended December 31		
	1990	1989	1988
	(in thousands of dollars)		
Increase in net income	1,940	4,925	8,498
Increase in assets			
Properties			
Leased properties under capital leases	46,265	98,706	203,454
Less accumulated amortization	34,981	85,363	180,223
	11,284	13,343	23,231
Other assets and deferred charges			
Unamortized deferred exchange loss	582	977	3,753
	11,866	14,320	26,984
Increase in current liabilities			
Present value of obligations under capital leases	3,761	6,388	22,025
Increase in non-current liabilities			
Present value of obligations under capital leases	11,746	17,760	37,075
Adjustment to current exchange rate (see Note 1 (h))	561	928	3,641
	12,307	18,688	40,716
Less current portion	3,761	6,388	22,025
	8,546	12,300	18,691

(b) Other commitments

The Company has commitments at December 31, 1990, for capital expenditures of $8.7 million for railway ties and $21.1 million for rail.

CANADIAN NATIONAL RAILWAY SYSTEM—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Continued*

(c) Contingencies

In the normal course of its operations, the Company becomes involved in various legal actions, including claims relating to injuries, damage to property and environmental matters. While the final outcome with respect to actions outstanding or pending at December 31, 1990 cannot be predicted with certainty, it is the opinion of management that their resolution will not have a material adverse effect on the System's financial position.

8. Subsidies

Revenues include the following subsidies:

	Year ended December 31		
	1990	1989	1988
	(in thousands of dollars)		
Government of Canada			
(a) Payments under the Railway Act paid under authority of that Act and the related Appropriation Act in respect of certain uneconomic operations, services and prescribed rates which railways are required by the Railway Act to maintain	23,180	32,818	48,854
(b) Maritime Freight Rates Act and Atlantic Region Freight Assistance Act subsidies	14,383	17,381	19,971
(c) Sundry		548	2,510
Other assistance			391
	37,563	50,747	71,726

9. Pensions

The Company has retirement benefit plans covering substantially all its employees under which they are entitled to benefits at retirement age generally based on compensation and length of service and/or contributions.

The actuarial valuations as at December 31, 1989, revealed a consolidated actuarial liability of $7.1 billion and a consolidated actuarial asset value of $6.6 billion. It is estimated that those amounts could approximate $7.3 billion and $6.8 billion respectively as at December 31, 1990. Subsequent actuarial valuations will determine the actual values at that date.

Annual pension costs were:

Year ended December 31		
1990	1989	1988
(in thousands of dollars)		
123,402	156,552	165,784

10. System interest expense

	Year ended December 31		
	1990	1989	1988
	(in thousands of dollars)		
Interest on long-term debt	207,387	214,272	318,297
Interest on short-term borrowings	4,348	217	2,431
Interest income	(4,306)	(15,332)	(20,269)
	207,429	199,157	300,459

11. Income taxes

(a) The Company's provision for income taxes is made up as follows:

	Year ended December 31		
	1990	1989	1988
	(in thousands of dollars)		
Provision for income taxes on income from continuing operations based on combined basic Canadian federal and provincial tax rate for 1990 of 40.8% (1989—40.8%, 1988—44.7%)	2,313	104,870	81,864
Increase (decrease) in taxes resulting from			
Non-allowable portion of capital loss on early extinguishment of debt			17,670
Capital losses not allowed for current year			12,726

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Continued*

(b) Investment tax credits are also available to reduce future income taxes otherwise payable until the related year of expiry as follows:

Year of expiry	(in millions of dollars)
1993	25.9
1994	33.9
1995	29.7
1996	18.9
1997	14.0
1998	9.0

12. Discontinued operations

During 1988 the Company disposed of CN Hotels, the two subsidiary telephone companies and CNCP Telecommunications with the latter sale including Telecommunications Terminal Systems. In addition, TerraTransport ceased operations and incurred closure costs during that year.

(a) The financial effect of these transactions was as follows:

	CN Hotels	CN Communications	Terra-Transport	Total
	(in thousands of dollars)			
Loss from operations	(9,137)	(50,321)	(29,277)	(88,735)
Closure costs			(92,300)	(92,300)
Net gain on disposition	117,922	167,191		285,113
	108,785	116,870	(121,577)	104,078

(b) The provision for income taxes on income from discontinued operations based on combined basic Canadian federal and provincial tax rate for 1988 of 44.7% was $33.9 million. This provision was offset by the application of prior years' losses.

13. Segmented information

(a) Geographic areas

Virtually all of the System's operations and assets are within Canada with the exception of Grand Trunk Corporation which operates in the United States.

(b) International traffic

In addition to the revenue generated by Grand Trunk Corporation, the System derives revenue from traffic originating or terminating on railroads in the United States. In 1990, such revenues approximated $604 million (1989—$622 million, 1988—$668 million).

* Represent additions to properties.

14. Other matters

(a) The Company carries on ordinary business transactions with various entities controlled by the Government of Canada on the same terms and conditions as current transactions with unrelated parties.

In addition, the Company provides, under contractual arrangements, rail transportation and maintenance services to the Government of Canada and to entities controlled by the latter. The revenue derived from such services rendered in 1990 aggregated $102.1 million (1989—$101.5 million, 1988—$103.3 million).

(b) Following enactment of the Western Grain Transportation Act, which became effective on January 1, 1984, the Government of Canada, in order to minimize the cost to grain shippers, pays a portion of the cost of shipping grain. Amounts received from the Government of Canada under the Western Grain Transportation Act amounted to $335.3 million in 1990 (1989—$332.6 million, 1988—$416.0 million), a reflection principally of the volume of grain handled.

(c) On October 10, 1990, the Company announced an enhanced separation benefits package to encourage up to 1,500 management and administrative personnel to leave the Company through early retirement or voluntary departure. The plan has an estimated potential total cost approximating $100 million. To December 31, 1990, approximately 300 employees' applications for such benefits had been accepted and related costs of $20.3 million were accrued and charged against income in 1990.

(d) In the Budget tabled in the House of Commons on February 26, 1991, the Minister of Finance of Canada announced the Government's intention to privatize CN Exploration. He further indicated that proceeds from the sale of this business unit would be remitted to the Government to reduce the deficit.

15. Reclassification of comparative figures

During 1990, changes were made to improve the classification of certain items and for comparative purposes the 1989 and 1988 figures have been reclassified.

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS LTD.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of Canadian National (West Indies) Steamships Ltd. as at December 31, 1990 and the statement of income and retained earnings for the year then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at December 31, 1990 and the results of its operations for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act and the by-laws of the corporation.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1990

1. Authority and activities

Canadian National (West Indies) Steamships Ltd. was incorporated in 1927 under the Dominion Companies Act and continued under the Canada Business Corporations Act. It is a parent Crown corporation named in Schedule III Part I to the Financial Administration Act. It ceased all active operations in 1957, at which time it sold its fleet of eight vessels to Cuban interests.

On October 29, 1985, Parliament passed the Crown Corporations Dissolution Authorization Act which authorized the Minister of Finance to dissolve the corporation.

An assignment has been prepared in which the corporation transfers to Her Majesty in Right of Canada all its rights and interests in, to or arising out of the letter of credit referred to in Note 2 below. However, this document has not yet been executed since the consent from BankAmerica International to this assignment and their acknowledgement that payment under the letter of credit will be made to Her Majesty in Right of Canada, have not yet been received.

Accordingly, the corporation remains to be dissolved and as such the blocked funds are still recorded as an asset of the corporation.

The dissolution process will be completed when the consent and acknowledgement are received from BankAmerica International.

2. Blocked funds

The final instalment of $470,400 on the sale of the eight vessels to Cuban interests was due to be paid on August 19, 1963 by an irrevocable letter of credit issued through BankAmerica International (then known as Bank of America). However, on July 3, 1963, the United States Cuban Assets Control Regulations became effective and prohibited the Bank from honouring payment of the draft. Amendments to the Regulations, effective March 2, 1979 required blocked funds to be held in an interest-bearing account. At December 31, 1990, accrued interest amounted to $1,102,606 (1989—$926,586).

Since 1984, the BankAmerica International has withheld 15% of interest earned on the funds blocked at the Bank by the Cuban Asset Regulations as a tax on non-resident earnings. To date $142,939 has been withheld including interest on the withheld funds of $43,660. In management's opinion, the tax exempt status of the corporation is preserved in the United States by the Tax Convention of 1980, as amended. Therefore, amounts withheld and the interest forgone thereupon have been included in income and assets and accordingly no liability recorded.

Negotiations to recover the blocked funds have been unsuccessful and all legal proceedings have been suspended until the U.S. Regulations are repealed.

3. Matured bonds—Unclaimed

The matured bonds have been unclaimed since March 1, 1955 and as a result of the statute of limitations there is no legal obligation to redeem them. However, the corporation intends to honour any of the outstanding bonds should they be presented.

4. Due to Canada

The advances from Canada bear no interest and are repayable when the blocked funds are received.

5. Related party transactions

Related party transactions not otherwise disclosed in these financial statements are as follows:

— The Department of Transport paid legal fees of $2,533 and will pay outstanding legal fees of $4,357, both of which will not be recovered from the corporation;

— Administrative services were provided without charge by the Department of Transport.

CANADIAN PATENTS AND DEVELOPMENT LIMITED

AUDITOR'S REPORT

TO THE MINISTER OF INDUSTRY, SCIENCE AND TECHNOLOGY

I have audited the balance sheet of Canadian Patents and Development Limited as at March 31, 1991 and the statements of operations and surplus and changes in cash resources for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its cash resources for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act and by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and operations

Canadian Patents and Development Limited is a Crown corporation named in Part I of Schedule III to the Financial Administration Act and is incorporated under the Canada Business Corporations Act. The Corporation was established to make available to the public, through licensing arrangements with industry, the industrial and intellectual property which results from publicly-funded research and development.

The Corporation receives and processes industrial and intellectual property under arrangements with federal government departments, Crown corporations and agencies, universities, and other publicly-financed institutions. Suitable protection is sought in Canada and other countries for such property in instances where there is a promise of commercial use. In respect of money received from the exploitation of such property, the Corporation pays awards to public servants under the Public Servants Inventions Act and makes payments to other originators of such property in accordance with the agreements entered into with them.

On May 23, 1991, Bill C-8, an Act to provide for the dissolution or transfer of certain Crown corporations, received third reading in the House of Commons. If the Act is proclaimed, it will authorize the Minister of Industry, Science and Technology to proceed with the dissolution of the corporation.

2. Significant accounting policies

Industrial and intellectual property rights

Industrial and intellectual property rights are recorded at a nominal value of $1. The net cost of acquisition, protection and maintenance of industrial and intellectual property rights is charged to operations as incurred.

Furniture and equipment

Furniture and equipment are recorded at a nominal value of $1. The cost of these items is charged to operations in the year of acquisition. Proceeds resulting from the sale of these items are credited to revenue in the year of disposal.

Employee termination benefits

Employees are entitled to specified benefits on termination as provided under labour contracts and conditions of employment. In view of the eventual dissolution, the Corporation has approved special termination benefits to the employees. The liability for these benefits is recorded as the benefits accrue to the employees.

Pension plan

Employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. The Corporation's contributions to the cost of the Plan under present legislation are limited to an amount equal to the employees' contributions on account of current service. These contributions represent the total pension obligations of the Corporation and are recognized in the accounts on a current basis. The Corporation is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Superannuation Account or with respect to charges to the Consolidated Revenue Fund for indexation payments under the Supplementary Retirement Benefits Act.

3. Parliamentary appropriation and special employee termination benefits

In view of its eventual dissolution, the Corporation requested and received during the year a supplementary parliamentary appropriation of $1,000,000 to cover the cost of the special termination benefit plan the Corporation approved for its employees.

4. Industrial and intellectual property agents' fees and related expenses, for obtaining and maintaining proprietary protection

	1991	1990
	$	$
Fees and related expenses	686,554	718,143
Less: recoveries	224,787	258,910
	461,767	459,233

5. Lease commitment

Under a lease agreement dated August 24, 1988 the Corporation pays an annual rent of $172,338 for accommodation. The period covered by this agreement is November 1, 1988 to October 31, 1993. The terms of the lease also require payment of certain costs over the lease period. The Corporation is negociating the transfer of the lease to another government entity without any penalty.

CANADIAN SALTFISH CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF FISHERIES AND OCEANS

I have audited the balance sheet of the Canadian Saltfish Corporation as at March 31, 1991 and the statements of operations, deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Saltfish Act and the by-laws of the Corporation, except for the provision of loans described in Note 5. In my opinion, this activity is not within the powers of the Corporation under the Saltfish Act.

CANADIAN SALTFISH CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority, objectives and operations of the Corporation

The Canadian Saltfish Corporation was established by the Saltfish Act in 1970, to improve the earnings of the primary producers of cured codfish. The Corporation is an agent Crown corporation of Canada without share capital, named in Part I of Schedule III to the Financial Administration Act and is required to conduct its operations on a self-sustaining financial basis. The Corporation is dependent on the Government of Canada for working capital and capital asset loans and is not subject to income taxes.

Through agreements between the Government of Canada and the provinces of Newfoundland and Quebec, the Corporation has the exclusive right to trade in and market cured codfish and its by-products in Newfoundland and the Lower North Shore of Quebec and is required to buy all cured codfish of an acceptable standard of quality offered for sale therein. Fish is purchased from fishermen, processed through its own facilities or by agents and is subsequently marketed by the Corporation, primarily to foreign countries (see Note 3).

In prior years, the Corporation provided marketing services and financing for frozen fish products. During 1989-90, the Corporation ceased providing these services.

2. Significant accounting policies

Amortization

Amortization is calculated using the straight-line method and is based on the estimated useful lives of the assets as follows:

Buildings	20 years
Equipment	3 to 10 years
Furniture and fixtures	5 years

Foreign currency translation

Monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date. Revenues and expenses are translated at the rate of exchange prevailing on the transaction date. The resulting foreign currency translation gains and losses are included in the results of operations.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employee and the Corporation. Contributions with respect to current services are expensed on a current basis.

Employee termination benefits

Employees are entitled to specific benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees. Any additional termination benefits are expensed in the period when the decision is made to reduce staff levels.

3. Going concern

These financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assume that the Corporation will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Corporation, an agent Crown corporation, has received financial support from the Government of Canada. The Corporation's ability to continue as a "going concern" is dependent on the continued support by the Government of Canada to meet all obligations and commitments as they come due and its ability, ultimately, to achieve profitable operation. A corporate plan covering only the 1991-92 fiscal year was submitted by the Corporation, and approved by the Governor-in-Council.

The Corporation has taken a number of actions to restructure its operations and reduce its workforce. Contractual arrangements for the production of saltfish by private processors, the drying of saltfish and secondary processing activities have been terminated. The Corporation will continue to fulfil its mandate to purchase and market saltfish produced by fishermen and private production.

These financial statements do not reflect adjustments that would be necessary if the "going concern" basis were not appropriate. If the "going concern" assumption were not appropriate for these financial statements, then adjustments would be necessary in the carrying values of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used.

4. Inventories

	1991	1990
	$	$
Saltfish, at lower of cost and net realizable value	62,685	2,971,452
Packages and supplies, at cost	276,271	504,593
Salt, at cost	429,828	363,315
	768,784	3,839,360

5. Loans receivable

This account consists primarily of loans to fish producers to acquire and refurbish fishing vessels and to acquire production equipment. All of the loans were issued prior to April 1, 1990. The repayment terms require the payment of interest at terms ranging from the Bank of Canada rate plus 1% to the Royal Bank of Canada prime rate plus 1%. The loans are secured by mortgages on vessels and other assets.

6. Capital assets

	1991			1990
	Cost	Accumulated amortization	Net book value	Net book value
	$	$	$	$
Land	79,095		79,095	79,095
Buildings	1,383,633	792,527	591,106	661,556
Equipment	3,579,081	2,344,147	1,234,934	1,427,768
Furniture and fixtures	516,787	252,089	264,698	311,109
	5,558,596	3,388,763	2,169,833	2,479,528

CANADIAN SALTFISH CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

7. Loans from Canada

Working capital loans are interest bearing (based upon current rates as set by the Bank of Canada) and are repayable within one year.

The capital asset loan is repayable in 10 yearly instalments and has an interest rate of 10.94 %. The Corporation intends to repay the outstanding balance in 1991-92, therefore the loan has been classified as current.

Total loans outstanding from Canada and banks shall not exceed $50 million.

8. Bad debts

During 1990-91, the Corporation recovered $1,243,307 in excess of the previously estimated net book values of certain receivables. An additional bad debt expense of $833,968 was recognized during the year.

9. Related party transactions

The Corporation sold approximately $800,000 (1990—$5,700,000) of saltfish products to the Canadian International Development Agency. These transactions were in the normal course of business and at regular commercial rates.

During the year, the Corporation operated a fishermen's service facility at Punchbowl, Labrador on behalf of the Department of Fisheries and Oceans for a nominal annual consideration. Under the terms of the contract, the Corporation is to provide and maintain a fish purchasing and processing station and certain facilities for the fishermen during the regular fishing season.

10. Remuneration to foreign sales agents

During the year $107,262 (1990—$87,902) was paid to six foreign sales agents with whom the Corporation has commission agents' agreements. For reasons of commercial confidentiality, the Corporation does not publish the names of its foreign sales agents.

11. Contractual commitments

The Corporation has entered into long term lease and vessel charters with the following minimum annual payments:

	$
1991-92	347,517
1992-93	349,850
1993-94	43,181
1994-95	Nil
1995-96	Nil
1996-97 and future years	Nil

12. Comparative figures

Certain of the 1990 comparative figures have been reclassified to conform to the current year's presentation.

THE CANADIAN WHEAT BOARD

THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED JULY 31, 1991
WERE NOT AVAILABLE AT DATE OF PRINTING

THE CANADIAN WHEAT BOARD—*Continued*

AUDITORS' REPORT

TO THE CANADIAN WHEAT BOARD

We have examined the financial statements of The Canadian Wheat Board set out as Exhibits I to VIII and notes thereto which include the balance sheet as at July 31, 1990, and the statements of operations for the 1989-90 pool accounts for wheat and amber durum wheat for the period August 1, 1989, to completion of operations on October 19, 1990, the statement of operations for the 1989-90 pool accounts for barley and designated barley for the period August 1, 1989, to completion of operations on September 30, 1990, the statement of administrative and general expenses and allocations to operations for the year ended July 31, 1990, the statement of advance payments to producers under the Prairie Grain Advance Payments Act as at July 31, 1990, and the statement of special account transactions for the year ended July 31, 1990. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Board as at July 31, 1990, and the results of operations for the periods shown, in accordance with generally accepted accounting principles.

THE CANADIAN WHEAT BOARD—*Continued*

FINANCIAL RESULTS AND NOTES TO FINANCIAL STATEMENTS

The Financial Statements of the Canadian Wheat Board including notes thereto for the crop year under review are presented in this section of the report. These statements consist of the Balance Sheet (Exhibit I), which sets forth the financial position of the Board as at July 31, 1990, together with other statements (Exhibits II to VIII) showing the results of Board operations for the year, all as tabulated in the index preceding the financial statements.

The practice of the Board is to include in its accounts, at July 31, the final operating results of pool accounts where marketing operations have been completed before the issuance of the annual report. Operations on the 1989-90 pool accounts for barley and designated barley were completed on September 30, 1990, and on October 19, 1990, for wheat and amber durum wheat. Details of the final operating results of these pool accounts with commentary thereon are presented in this section of the report.

Although the basic measurement for grain has been the "tonne" since February 1, 1978, for your information a tonne equals 36.74371 bushels of wheat or 45.92963 bushels of barley.

Pool account—Wheat

Initial payments

At the beginning of the crop year the Board was authorized to purchase wheat from producers at a fixed initial price of $155.00 per tonne for No. 1 Canada Western Red Spring. Effective January 9, 1990, the initial price for No. 1 Canada Western Red Spring was increased to $165.00 per tonne.

Supplies of wheat

Supplies of wheat in the 1989-90 Pool were 18,401,822 tonnes, comprised of 16,682,883 tonnes delivered by producers, 111,848 tonnes acquired from other than producers, and 1,607,091 tonnes purchased from the previous pool.

Grade pattern

Deliveries of grain to the 1989-90 Pool Account consisted of more lower grades than the previous pool. Deliveries of Nos. 1 and 2 Canada Western Red Spring totaled 11.069 million tonnes or 66.35 per cent of total receipts compared to 86.41 per cent for the previous pool, while No. 3 Canada Western Red Spring receipts of 5.098 million tonnes amounted to 30.56 per cent of total receipts. Deliveries of other types of wheat including Canada Western Feed amounted to .516 million tonnes or 3.09 per cent of total producer deliveries. Deliveries of tough and damp grades were similar to the previous year with approximately 1.02 per cent of producer deliveries grading tough and .09 per cent grading damp.

Final statement of operations and surplus for distribution to producers—Wheat—Table A

Marketing operations on the Pool Account for wheat resulted in an operating surplus of $203,253,274. After providing for producer car rebates of $161,708, allowing for the cost of issuing the final payment and adding estimated interest earnings subsequent to October 19, 1990, the net surplus for distribution to producers amounted to $208,191,710. This net surplus represents an average of $12.480 on producer deliveries of 16,682,883 tonnes. Table B shows the total price realized by producers for No. 1 Canada Western Red Spring at $172.112 compared to $197.136 for the previous pool.

Operating costs

Operating costs incurred applicable to the pool were $130,193,864 or $7.804 per tonne. Details of the principal costs and comment thereon follows:

Carrying charges—$107,119,376

Total carrying charges incurred by the Board, including storage and interest charges on wheat in country elevators and storage on wheat in terminal elevators, amounted to $107,119,376 or $6.421 per tonne.

Bank interest and net interest on other Board accounts—($24,312,632)

This amount consists mainly of bank interest and interest paid to, or received from, other Board accounts. Interest earned exceeded interest paid by $24,312,632 or $1.457 per tonne.

Additional freight—To Terminals—$15,814,413—Freight rate change—$2,389,795

During the crop year the Board paid $15,814,413 of additional freight arising out of the movement of grain in adverse direction to meet sales requirements.

With the passage of the Western Grain Transportation Act on December 31, 1983, freight rates are now reviewed and adjusted annually. On August 1, 1990, freight rates increased by approximately 13 per cent and the Board was required to pay the additional freight on the country stocks held by its agents on August 1, 1990, amounting to $2,389,795 in the Wheat Account.

Drying charges—$76,344

Drying charges for 1989-90 totaled $76,344, an increase from the previous year, reflecting higher quantities of tough and damp grain delivered to the pool under review.

Interest and depreciation on Wheat Board hopper cars—$8,220,815

Costs for the use of the Board's 2,000 hopper cars include depreciation and interest. Hopper car expenses attributable to the 1989-90 Wheat Account totaled $8,220,815 compared to $7,627,680 for the previous pool.

Administrative and general expenses—$20,889,909

This item represents the portion of the cost of operating the Board, including salaries, fringe benefits to employees and the cost of operating the Board's head office premises as well as other branches in Canada and overseas that was charged to the Wheat Account. Since the Pool Accounts run for periods which overlap crop years, some part of the operating costs for two consecutive crop years are allocated to the Pool Accounts based on length of time the Pool Accounts were open and tonnage handled. Charges allocated to the 1989-90 Wheat Account were $20,889,909 or $1.252 per tonne on producer receipts of 16,682,883 tonnes compared with $17,943,259 or $1.262 per tonne on producer receipts of 14,218,367 tonnes for the previous pool.

Administrative and general expenses for the 1989-90 crop year from August 1, 1989, to July 31, 1990, totaled $30,126,784 compared to $28,483,006 for the 1988-89 crop year; an increase of $1,643,778 or 5.77 per cent.

Pool account—Amber Durum Wheat

Initial payments

At the beginning of the crop year the Board was authorized to purchase amber durum wheat from producers at a fixed initial price of $150.00 per tonne for No. 1 Canada Western Amber Durum Wheat.

Supplies of Amber Durum Wheat

Supplies of amber durum wheat in the 1989-90 Pool were 3,951,019 tonnes, comprised of 3,498,752 tonnes delivered by producers, 27,482 tonnes acquired from other than producers, and 424,785 tonnes purchased from the previous pool.

Grade pattern

Receipts of Nos. 1, 2 and 3 Canada Western Amber Durum totaled 3.139 million tonnes or 89.73 per cent of total producer deliveries. Approximately .50 per cent of producer deliveries graded tough while .05 per cent graded damp.

Final statement of operations and surplus for distribution to Producers—Amber Durum Wheat—Table C

Table C shows the operating results of the Pool Account for the crop year. Marketing operations resulted in a surplus of $46,643,070. Operating expenses totaled $27,172,276 for the year or $7.766 per tonne. The principal cost was carrying charges amounting to $21,793,885 or $6.229 per tonne. After allowing for producer car rebates, the cost of issuing the final payment and estimated interest earnings subsequent to October 19, 1990, the net surplus for distribution to producers was $47,793,371. This amount represents an overall average of $13.660 per tonne on producer deliveries of 3,498,752 tonnes. Table D shows the total payments received by producers for the principal grades of amber durum wheat delivered during the crop year. This table shows the total price realized by producers for No. 1 Canada Western Amber Durum Wheat of $163.851 per tonne, compared to $204.482 per tonne for the previous pool.

FINANCIAL RESULTS AND NOTES TO FINANCIAL STATEMENTS—*Continued*

Pool account—Barley

Since August 1, 1975, as authorized by Order-in-Council, barley selected and accepted from producers for use in malting, pot or pearling, has been set up in a separate pool under the caption "Designated Barley". As a result, the transactions remaining in the Barley Pool Account described here consist mainly of marketing results related to feeding grades of barley.

Initial payments

At the beginning of the crop year the Board was authorized to purchase barley from producers at fixed initial prices of $85.00 and $82.00 per tonne for Nos. 1 and 2 Canada Western Barley respectively. Effective October 5, 1989, initial prices for Nos. 1 and 2 Canada Western Barley were increased to $100.00 and $97.00 per tonne respectively.

Supplies and grade pattern

Supplies in the regular Feed Barley Pool were 3,552,714 tonnes comprised of 3,067,088 tonnes delivered by producers, 17,436 tonnes acquired from other than producers, and 468,190 tonnes purchased from the previous pool. Deliveries of Nos. 1 and 2 Canada Western Barley comprised 99.81 per cent of the producer deliveries in the pool. Board receipts of tough and damp barley made up 1.60 per cent of deliveries.

Final statement of operations and surplus for distribution to producers—Barley—Table E

Table E shows the operating results of the Pool Account for the crop year. Marketing operations resulted in a surplus of $73,870,510. Operating expenses totaled $15,234,690 for the year or $4.970 per tonne. The principal cost was carrying charges amounting to $10,753,931 or $3.506 per tonne. After deducting the interim payment of $36,805,057 made to producers in October, 1990, providing for producer car rebates of $41,044, allowing for the cost of issuing the interim and final payments, and estimated interest earnings subsequent to September 30, 1990, the net surplus for distribution to producers was $38,507,294. This amount represents an overall average of $12.555 per tonne on producer deliveries of 3,067,088 tonnes. Table F shows the total payments received by producers for the principal grades of barley delivered during the crop year.

Pool account—Designated Barley

As stated previously, since August 1, 1975, as authorized by Order-in-Council, barley selected and accepted from producers for use in malting, pot or pearling, has been set up in a separate pool account. This account has been labeled "Designated Barley" and the results of operations on this account with comment thereon are contained in this section of the report.

Initial payments

At the beginning of the crop year the Board was authorized to purchase designated barley from producers at a fixed initial price of $105.00 per tonne for Special Select Canada Western Six-Row (Special Select CW 6-Row) and $115.00 per tonne for Special Select Canada Western Two-Row (Special Select CW 2-Row). Effective October 5, 1989, initial prices were increased to $135.00 per tonne for Special Select CW 6-Row and $145.00 for Special Select CW 2-Row. On January 9, 1990, initial prices were increased to $160.00 per tonne for Special Select CW 6-Row and $170.00 for Special Select CW 2-Row.

Supplies and grade pattern

Supplies of barley in the Designated Pool were 843,496 tonnes representing deliveries to the Board by producers during the crop year of barley which has been selected and accepted by purchasers for the use in malting, pot or pearling. Of these receipts 374,437 tonnes or 44.39 per cent were Special Select grades and 388,577 tonnes or 46.07 per cent were Select grades. Receipts of tough and damp grades totaled 9,501 tonnes or 1.13 per cent of total.

Final statement of operations and surplus for distribution to producers—Designated Barley—Table G

Table G shows the operating results of this Pool Account for the crop year. Marketing operations resulted in a surplus of $35,224,748. As to operating costs, it should be noted that the Designated Barley Pool by its very nature does not incur the handling expenses normally related to feeding grades of barley or other grains. It is not stored by the Board, being selected by the processor (buyer) from a producer's sample and is shipped on buyer's call directly from farm to processing plant via the country elevator. As a result, the only expenses attributable to such barley were costs related to hopper cars owned by the Wheat Board and administrative charges totaling $1,441,473 or $1.709 per tonne. These expenses were reduced by interest earnings of $4,087,105 or $4.845 per tonne. After deducting the interim payment of $21,087,398 made to producers in October, 1990, providing for the cost of issuing the interim and final payments, and adding estimated interest earnings subsequent to September 30, 1990, the net surplus for distribution to producers was $14,822,201 or $17.572 per tonne on producer deliveries of 843,496 tonnes. Table H shows the total payments received by producers for the principal grades of designated barley delivered during the crop year.

THE CANADIAN WHEAT BOARD—*Continued*

FINANCIAL RESULTS AND NOTES TO FINANCIAL STATEMENTS—*Continued*

NOTES TO FINANCIAL STATEMENTS

The following are an integral part of the financial statements.

1. Accounting policies

(a) Operating results and valuation of stocks of grain

The annual accounts at July 31 include the final operating results of all pool accounts for the crop year ended July 31, where marketing operations have been completed before the issuance of the annual report for that year. In determining the financial results for such pools, the accounts of the Board at July 31 include:

(i) the stocks of such grains on hand at that date at the values which were ultimately received from the sale thereof basis in store Thunder Bay, Vancouver or Churchill; and

(ii) provision for all expenses incurred or to be incurred before the sales proceeds are realized in cash or in bills of exchange, including a charge for the portion of administrative and general expenses to be incurred subsequent to July 31 but relating to the marketing and accounting for the grains in the various pools before they are closed.

For pool accounts for which marketing operations have not been completed before the issuance of the annual report, the unsold stocks at July 31 are valued at cost, which is the initial price paid to producers, and no provision is made for carrying costs, interest, and administrative expenses beyond that date. Any debit or credit balance in these accounts is carried on the balance sheet.

(b) Foreign currency translations

Bills of exchange receivable in United States funds which are covered by forward exchange contracts are translated at the contract rates. In all other cases, bills of exchange receivable and bank loans payable in United States funds are translated at the rate of exchange in effect as at the balance sheet date.

Foreign exchange adjustments arising from conversion of bills of exchange and bank loans are included in operating results.

(c) Depreciation

The rates of depreciation being applied are intended to fully depreciate assets over their expected lives and are as follows:

Hopper cars	30 years
Office building	40 years
Office furniture and equipment	10 years
Automotive equipment	2 years
	(to 1/3 residual value)

(d) Administration and general expenses

Administration and general expenses, except for that portion of such expenses attributable to distributing final payments to producers, are allocated to the various pool account operations to which the services relate on the basis of the relative tonnage. Expenses attributable to final payments are allocated on the basis of the number of producers receiving payments from the various pool accounts.

2. Bills of exchange plus accrued interest

Of the total bills of exchange receivable, $1,981,139,867 (1989—$1,619,309,884) represents the Canadian equivalent of $1,720,187,433 (1989—$1,371,366,772) repayable in United States funds.

The balances receivable arise from sales of grain to Algeria, Brazil, Bangladesh, Egypt, Ethiopia, Haiti, Iraq, Israel, Jamaica, Mexico, Peru, Poland, U.S.S.R. and Zambia. The terms call for payment in full within 36 months or less from time of shipment, except for Brazil, Egypt, Haiti, Jamaica, Mexico, Peru, Poland and Zambia where the Board, together with the Canadian Government, have agreed to reschedule certain receivables beyond their original maturity dates. Terms of such reschedulings call for payment of interest and the rescheduled debt within 15 years. As at July 31, 1990, total reschedulings amounted to $3,323,435,622 including $1,252,017,849 which is the Canadian equivalent of $1,087,104,149 receivable in United States funds.

During the crop year the Board together with the Government of Canada initialed a bilateral rescheduling agreement with Poland, rescheduling over a 15-year period amounts due and not paid, on all prior rescheduling agreements to December 31, 1989, including post maturity interest. This agreement was signed subsequent to the crop year. Under this agreement the amounts which were due to mature in the period January 1, 1990, to March 31, 1991, have also been rescheduled. Seventy per cent of the interest accruing from January 1, 1990, to March 31, 1991, on the amounts due and not paid on all prior rescheduling agreements is included in this rescheduling agreement, with the balance payable on or before March 31, 1991. As at July 31, 1990, the amounts subject to this rescheduling total $944,217,350 which includes the Canadian equivalent of $354,185,997 receivable in United States funds. Of these respective amounts, a total of $758,653,424, which includes the Canadian equivalent of $280,005,290 receivable in United States funds, had matured by July 31, 1990, and had been consolidated in the new rescheduling agreement.

During the crop year, the Board together with the Government of Canada concluded a bilateral rescheduling agreement with Zambia, rescheduling over a 10-year period amounts due and not paid at December 31, 1985, and amounts due and not paid for the period January 1, 1986, to December 31, 1986. The accounts of the Board at July 31, 1990, included $14,668,425 which was subject to this rescheduling.

During the crop year, ending July 31, 1990, the Government of Canada and other creditor nations agreed to a further deferral of certain Zambian obligations that had earlier been rescheduled. The bilateral agreement to reschedule payments due and not paid at June 30, 1990, and falling due in the period July 1, 1990, to December 31, 1991, has yet to be negotiated. The accounts of the Board at July 31, 1990, included $30,426,898 which will be subject to this rescheduling. As at July 31, 1990, of this total, $26,281,757 had already matured and was already subject to this agreement.

THE CANADIAN WHEAT BOARD—*Concluded*

FINANCIAL RESULTS AND NOTES TO FINANCIAL STATEMENTS—*Concluded*

NOTES TO FINANCIAL STATEMENTS—*Concluded*

During the crop year, ending July 31, 1990, the Government of Canada and other creditor nations agreed to a further deferral of certain Jamaican obligations. Principal amounts due and not paid for the period December 1, 1989, to May 31, 1991, are to be rescheduled under this agreement. The accounts of the Board at July 31, 1990, include $1,720,502 which will be subject to this rescheduling. As at July 31, 1990, none of the $1,720,502 had matured.

Subsequent to the year end the Board together with the Government of Canada amended a previous bilateral rescheduling agreement with Haiti. This amendment incorporated into the previous rescheduling agreement amounts due and unpaid at September 30, 1990, resulting from wheat sales occurring in 1985. The accounts of the Board at July 31, 1990, included $5,717,736 which formed the total amount involved in the amended rescheduling agreement.

Credit sales are made within limits established by the Government of Canada which guarantees the Board's borrowings incurred to finance such sales, both as to principal and interest. Because of these guarantees, the Board does not consider itself to be at risk should any of the unpaid amounts prove to be uncollectable; therefore, no provision is made in its accounts with respect to the possibility of debtors defaulting on their obligations.

3. Accounts receivable

Settlement on amounts due on completed sales as at July 31 were received shortly after that date. Sundry accounts receivable consists mainly of freight costs which are recovered on completed sales.

4. Covered hopper cars

The Board purchased 2,000 covered hopper cars in 1979-80 having an original cost of $90,555,623. Of these 2,000 cars, 45 cars have been wrecked and dismantled leaving 1,955 still in the fleet having an original cost of $88,518,121 with accumulated depreciation of $30,983,516 to July 31, 1990. The Board is reimbursed for destroyed cars under an operating agreement with the Canadian National Railway.

5. Liability to banks

Details of liability to banks are as follows:

	July 31	
	1990	1989
	$	$
Ordinary operations		
Funds on deposit	(141,351,592)	(88,352,406)
Loans to finance credit sales	4,648,568,719	3,707,960,437
	4,507,217,127	3,619,608,031

Of the total liability $1,979,709,692 (1989—$1,605,838,592) represents the Canadian equivalent of $1,718,945,638 (1989—$1,359,958,157) repayable in United States funds.

The Board's borrowings are guaranteed by the Government of Canada.

6. Liability to agents for grain purchased from producers

Grain companies, acting in the capacity of agents of the Board, accept deliveries from producers at country elevators and pay the producers on behalf of the Board based on the Board's initial price in effect. Settlement is not made by the Board for these purchases until delivery to the Board is completed by its agents at terminal or mill position. Liability to agents amounting to $551,700,354 (1989—$569,415,254) represents the amount payable by the Board to its agents for 3,734,428 (1989—3,809,559) tonnes of grain on hand at country elevator points and in transit at July 31 for which delivery to and settlement by the Board is to be completed subsequent to year end date.

7. Liability to agents for deferred cash tickets

Grain companies, as agents of the Board, deposit with the Board in trust an amount equal to the deferred cash tickets issued for Board grain. These monies are returned to the grain companies to cover producer-deferred cash tickets maturing predominately during the first days of the following calendar year.

8. Accrued expenses and accounts payable

This item principally comprises accrued carrying charges, storage, interest and transportation charges to July 31, 1990, together with all other unpaid sundry accounts as at the foregoing date. It also includes provisions for all charges relating to the marketing of pool accounts for the period from August 1, 1990, to completion of operations on September 30, 1990, for barley and designated barley, and October 19, 1990, for wheat and amber durum wheat.

9. Special account—Net balance of undistributed payment accounts

In accordance with the provision of Section 30 of the Canadian Wheat Board Act, the Governor in Council may authorize the Board to transfer to a Special Account the unclaimed balances remaining in payment accounts which have been payable to producers for a period of six years or more. In addition to providing for payment of proper claims from producers against these old payment accounts, the Section further provides that these funds shall be used for purposes as the Governor in Council, upon the recommendations of the Board, may deem to be for the benefit of producers.

10. Provision for final payment expenses

This item represents the balance of the Board's reserve for final payment expenses of pool accounts that have been closed. Six years after particular accounts have been closed, the remaining reserves for these pools are transferred to the special account by Order-in-Council.

11. Lease commitments

The Board, as an agent of Her Majesty in Right of Canada, is the lessor of 2,000 covered hopper cars for the Government of Canada. All lease costs are recoverable from the Government and are not a charge to the operations of the Board. Total payments associated with leases in the year ended July 31, 1990, amounting to $15,106,298 (1989—$13,908,244) have been recovered by the Board. Lease terms are for 20 and 25 years.

CAPE BRETON DEVELOPMENT CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF INDUSTRY, SCIENCE AND TECHNOLOGY

I have audited the balance sheet of Cape Breton Development Corporation as at March 31, 1991 and the statements of equity, income and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Cape Breton Development Corporation Act and the by-laws of the Corporation.

L. Denis Desautels, FCA
Auditor General of Canada

CAPE BRETON DEVELOPMENT CORPORATION—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and objectives

The Corporation was established in 1967 for the purpose of reorganizing and rehabilitating the coal industry on Cape Breton Island, pursuant to the Cape Breton Development Corporation Act. Its current corporate goal is to be a dependable supplier of quality coal and related energy products by operating a safe, commercially viable corporation which will provide a positive working environment through efficient and effective utilization of human, physical and technical resources.

2. Summary of significant accounting policies

(a) Financing

The Corporation, an agent of Her Majesty, is listed as a Schedule III, Part I, corporation for purposes of the Financial Administration Act. The Corporation receives Parliamentary appropriations for capital expenditure and operating loss purposes. In addition, advances from the Government of Canada are provided for working capital purposes to a limit of $50 million on such terms as may be agreed upon, as provided for in the Cape Breton Development Corporation Act. Parliamentary appropriations are reflected in the Statement of Equity as requisitioned by the Corporation. Treasury Board has indicated that amortization and write-down of capital assets should not be provided in determining mining income or losses for Parliamentary appropriation. Accordingly, the amortization and write-down of capital assets have been eliminated in arriving at this amount.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value.

(c) Capital assets

Capital assets are stated at cost. The Corporation has provided amortization on its capital assets based on their estimated useful lives, using the straight-line method of calculation, as follows:

Lingan Colliery	2-30 years
Prince Colliery	2-30 years
Phalen Colliery	2-30 years
Donkin-Morien Development Project	5-30 years
Devco Railway	5-30 years
Coal Preparation Plant	5-20 years
Other assets	5-20 years

(d) Foreign currency translation

Monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date. Revenue and expenses are translated at the rate of exchange prevailing on the transaction date. The resulting foreign currency translation gains and losses are included in the results of operations.

(e) Pensions

Pension expense each year is comprised of a current and a past service cost. The past service cost, which represents an allocation of the unfunded obligation, is being amortized at the rate it is being funded. The Corporation is of the opinion that this is the most appropriate method since it provides for a systematic manner of amortization which conforms to the Corporation's overall funding by the Government of Canada.

(f) Workers' compensation

In accordance with the Government Employees' Compensation Act, the Corporation reimburses Labour Canada for current payments for workers' compensation billed by the Workers' Compensation Board of the Province of Nova Scotia.

3. Accounts receivable

	1991	1990
	(in thousands of dollars)	
Trade	28,416	23,948
Employees	282	845
Government of Canada—In respect of capital expenditures	10,910	
	39,608	24,793
Less: allowance for doubtful accounts	100	355
	39,508	24,438

4. Capital assets

	1991			1990
	Acquisition cost	Accumulated amortization	Net book value	Net book value
	(in thousands of dollars)			
Lingan Colliery	185,001	166,746	18,255	44,394
Prince Colliery	121,478	69,424	52,054	51,418
Phalen Colliery	217,388	73,028	144,360	154,821
Donkin-Morien Development Project	80,679	80,679		40,731
Coal Preparation Plant	100,719	49,980	50,739	44,194
Devco Railway	80,248	36,088	44,160	46,345
Other assets	42,481	27,552	14,929	29,212
	827,994	503,497	324,497	411,115

The Donkin-Morien Development Project, with a net book value of $27,530,694 has been written out of the capital assets of the Corporation as of March 31, 1991, due to poor market prospects. This asset had cumulative costs of $80,678,573, with corresponding accumulated amortization of $53,147,879 as of that date.

The capital asset value of Lingan Colliery has been written down by $25,096,956 as of March 31, 1991 to more appropriately reflect its value based on the conversion from an advance longwall to a pillarless retreat longwall operation. Those areas of the Colliery affected by this write-down had an acquisition cost of $159,326,259 with accumulated amortization to March 31, 1991 of $134,229,303.

5. Commitments

(a) Commitments on capital projects include the following:

Approximately $1,440,000 for underground mining equipment

Approximately $510,000 for other facilities

CAPE BRETON DEVELOPMENT CORPORATION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

(b) The Corporation leases the General Mining Building which houses its administrative offices. The lease is for a 20 year period which commenced June, 1984. The annual lease payments fluctuate with changes in the lessor's mortgage interest rates. Current lease payments are $1,370,000 per annum at an interest rate of 11.75%.

6. Contingent liabilities and claims

(a) Legal matters

The Corporation is subject to a claim and several actions totaling approximately $3,300,000. The Corporation intends to oppose these matters in their entirety.

(b) Insurance

The Corporation self insures against the potential loss of underground assets and for a portion of its liability insurance.

(c) Environmental considerations

The Corporation is subject to regulations that may require it to incur future costs related to environmental issues. We are unable at this time to determine the amount of any future costs. Any such costs will be accounted for in the period incurred.

7. Long-term agreement

The Corporation has signed an agreement with the Nova Scotia Power Corporation which calls for the delivery of a substantial portion of the Corporation's coal production to the Nova Scotia Power Corporation. The agreement expires in the year 2010.

8. Pensions

An actuarial valuation of the Corporation's Non-Contributory Pension Plan, a defined benefit plan, as at December 31, 1990, indicated an unfunded actuarial liability of $116,591,000 (assets of $108,532,000 and liabilities of $225,123,000). The Corporation has made provision in its annual operating plan for past and current service pension costs in amounts equal to anticipated pension payments under this plan. The Corporation expensed pension payments of $15,790,000 for the year ended March 31, 1991.

An actuarial valuation of the Corporation's Contributory Pension Plan, a defined benefit plan, as at December 31, 1990, indicated a final surplus of $3,480,000 (assets of $25,757,000 and liabilities of $22,277,000). Required Corporation payments in respect of current service costs are funded each year and amounted to approximately $806,000 expensed for the year ended March 31, 1991.

9. Income taxes

The Corporation is subject to the provisions of the Income Tax Act.

During the previous year the Corporation was reassessed by Revenue Canada, Taxation for the years 1983-1989. The reassessment treats funding provided by the Government of Canada as government assistance for operating and capital purposes. It is the Corporation's intention to oppose this position to the fullest. The outcome of this matter is not determinable at this time and therefore no adjustment has been reflected in these financial statements.

DEFENCE CONSTRUCTION (1951) LIMITED

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have audited the balance sheet of Defence Construction (1951) Limited as at March 31, 1991 and the statements of operations and deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Defence Production Act and the by-laws of the corporation.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1991

1. Authority and objective

Defense Construction (1951) Limited was incorporated under the Canada Corporations Act in 1951 and was continued under the Canada Business Corporations Act, pursuant to the authority of the Defence Production Act. The objective of the corporation is to contract for major military construction and maintenance projects required by the Department of National Defence. The corporation is an agent Crown corporation named in Part I of Schedule III to the Financial Administration Act. The corporation is not subject to income taxes.

2. Significant accounting policies

Expenses

The accounts of the corporation reflect only the administrative expenses incurred in procuring the construction and maintenance of defence projects on behalf of the Department of National Defence and in procuring the construction of such other projects as are approved by Treasury Board.

Furniture and equipment

Furniture and equipment are recorded at cost and are amortized on a straight-line basis over five years.

Employee termination benefits

Employees are entitled to specified termination benefits calculated at salary levels in effect at the time of separation as provided for by conditions of employment. The liability for these benefits is recorded as the benefits accrue to employees.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. The corporation's contributions to the plan are limited to an amount equal to the employees' contributions on account of current and certain past service. These contributions represent the total pension obligations of the corporation and are charged to income on a current basis.

Services provided without charge

The Department of National Defence provided office space free of charge for employees of the corporation.

3. Due to Department of National Defence

The cost of operations is recovered through the Department of National Defence to the extent of net cash requirement, and any excess of cash advances is refunded at year end. As at March 31, 1991, the net balance due to Department of National Defence was $141,145 (1990—$1,028,762).

4. Provision for employee benefits

	1991	1990
	$	$
Termination benefits	2,426,467	2,616,205
Life insurance	46,388	64,484
Compensation benefits	384,967	692,744
	2,857,822	3,373,433
Less: current portion	384,967	438,312
	2,472,855	2,935,121

DEFENCE CONSTRUCTION (1951) LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

5. Deficit

The deficit of the corporation is comprised of the difference between the provision for employee benefits, which will be funded in future years as they are paid, and the net book value of capital assets.

	1991	1990
	$	$
Deficit, beginning of the year	2,911,987	2,785,771
Increase (decrease) in provision for employee benefits	(515,611)	346,337
Decrease (increase) in net book value of capital assets	32,519	(220,121)
Deficit, end of the year	2,428,895	2,911,987
Composed of:		
Provision for employee benefits (Note 4)	2,857,822	3,373,433
Net book value of capital assets	(428,927)	(461,446)
	2,428,895	2,911,987

6. Lease commitments

The corporation leases certain equipment and accommodation in the performance of its operations. These arrangements include occupancy agreements expiring at various dates for office accommodation. The future minimum lease payments are:

Year ending March 31	$
1992	235,758
1993	128,855
1994	112,855
1995	83,575
1996	13,417
	574,460

7. Contingencies

(a) Claims aggregating approximately $5,294,000 in respect of contractual obligations have been received by the corporation, but are not reflected in the accounts. In the opinion of management and legal counsel, the position of the corporation is defensible. However, the final outcome of such claims is not determinable. Any settlements resulting from the resolution of these claims will be funded through the Department of National Defence, in the year in which the settlements occur.

(b) Included in the cash balance as at March 31, 1991 is an amount of $350,000 subject to restricted use which serves as security against the potential risk of environmental damage with respect to a project.

ENTERPRISE CAPE BRETON CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying consolidated financial statements of Enterprise Cape Breton Corporation and all information in this annual report are the responsibility of management and have been approved by the Board of Directors. The consolidated financial statements include some amounts, such as the allowances for doubtful loans and interest, that are necessarily based on management's estimates and judgement.

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles consistently applied. Financial information presented elsewhere in the annual report is consistent with that contained in the consolidated financial statements.

In discharging its responsibility for the integrity and fairness of the consolidated financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. In addition, the Audit Committee of the Board oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

The independent auditor, the Auditor General of Canada, is responsible for auditing the consolidated financial statements and for issuing his report thereon.

AUDITOR'S REPORT

TO THE MINISTER FOR THE PURPOSES OF THE ATLANTIC CANADA OPPORTUNITIES AGENCY ACT

I have audited the consolidated balance sheet of the Enterprise Cape Breton Corporation as at March 31, 1991, and the consolidated statements of equity, operations and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation and of its wholly-owned subsidiaries that have come to my notice during my examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Enterprise Cape Breton Corporation Act and the by-laws of the Corporation and its wholly-owned subsidiaries.

L. Denis Desautels, FCA

ENTERPRISE CAPE BRETON CORPORATION—*Continued*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991

1. The Corporation

(a) Authority and objectives

Enterprise Cape Breton Corporation (ECBC) was established pursuant to the Enterprise Cape Breton Corporation Act (Part II of the Government Organization Act, Atlantic Canada, 1987) which was proclaimed on December 1, 1988. The Corporation is an agent Crown corporation listed in Schedule III, Part I of the Financial Administration Act and is not subject to the provisions of the Income Tax Act. Its objects, as stated in its enabling legislation are:

to promote and assist either alone or in conjunction with any person or the Government of Canada or of Nova Scotia or any agency of either of those governments, the financing and development of industry on the Island of Cape Breton to provide employment outside the coal producing industry and to broaden the base of the economy of the Island.

2. Significant accounting policies

(a) Parliamentary appropriation

Parliamentary appropriation is recorded on the accrual basis with drawdowns based on cash requirements.

(b) Basis of consolidation

(i) The financial statements of Enterprise Cape Breton Corporation include the results of the Corporation and all its subsidiaries as outlined below.

	Corporation interest	Period ended
Darr (Cape Breton) Limited	100%	December 31
Whale Cove Summer Village Limited	62.5%	March 31

(ii) The financial statements of Darr (Cape Breton) Limited are based on the assumption that the company can continue to operate as a going concern, which assumption depends on the continued financial support of its parent.

(iii) As the financial statements of Whale Cove Summer Village Limited report a deficit equity position as at March 31, 1991, and the minority interest in losses to date have been absorbed against the total of the minority invested capital, all losses of this company are included in the consolidated net operating expenses. As a consequence, no minority interest for this subsidiary is shown in the consolidated balance sheet.

(c) Loans

Loans are recorded at the lower of cost and estimated net realizable value. Certain loans may include interest which has been capitalized as principal due to the restructuring of the terms of the loan contract.

(d) Allowances for doubtful and forgivable loans

The allowance for doubtful loans represents management's estimate of probable losses on specific loans outstanding at the end of the year. The allowance is based on a periodic evaluation of the loan portfolio in which numerous factors are considered, including the period of delinquency, market conditions, financial viability of the business and managerial capabilities. A general provision is included to account for any unexpected delinquencies that may occur throughout the year based on past experience. Management has estimated the effect of these risks and uncertainties when determining the allowance for doubtful loans. Doubtful loans may be reinstated to an accrual status when, in management's opinion, the ultimate collectibility of principal and interest is reasonably assured.

Certain loans are subject to terms of forgiveness as stipulated in the loan contract. The amount eligible for forgiveness is charged to operations when eligibility conditions are met.

Actual loan losses are charged to operations while recoveries are credited. Adjustments of the allowances for doubtful and forgivable loans to the level regarded by management as being appropriate are charged to operations.

(e) Investments

The Corporation has preferred equity holdings as well as partnership interests. These investments are subject to restrictive terms of agreement and are shown at cost net of allowance for doubtful investments.

(f) Interest income

Interest income is recorded on the accrual basis until such time as management determines that a loan should be classified as doubtful. When a loan is classified as doubtful, uncollected interest for the current year and previous years is charged to the provision for doubtful loans and interest.

Interest payments subsequently received on doubtful loans are recorded as interest income on a cash basis.

(g) Capital assets

Capital assets are recorded at lower of cost less accumulated amortization and net realizable value. Amortization is provided over the estimated useful lives of the capital assets using the straight-line method at the rates indicated below:

Buildings	up to 25 years
Equipment and furniture	4 to 10 years
Computer equipment and software	5 years
Leasehold improvements	up to 20 years
Vehicles	3 to 4 years

(h) Pension plan

All eligible employees participate only in the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required equally from the employees and the Corporation. These contributions are expensed during the period in which the services are rendered and represent the total pension obligations of the Corporation.

ENTERPRISE CAPE BRETON CORPORATION—*Continued*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

3. Loans

An analysis of the loan balance outstanding at March 31 is as follows:

Annual interest rate	1991	1990
	$	$
0 %	1,138,524	1,257,440
Less than 8 %	382,740	504,346
8 - 9.95 %	4,169,917	4,824,813
10 - 11.88 %	3,639,360	2,682,176
12 % and over	71,607	392,628
	9,402,148	9,661,403
Less: Allowance for doubtful loans (Note 4)	5,089,782	4,790,089
Allowance for forgivable loans	1,703,713	272,329
	2,608,653	4,598,985

Amounts due by fiscal year based on loan terms are as follows:

	1991	1990
	$	$
Principal past due	3,456,740	739,327
1991		992,708
1992	965,459	633,272
1993	900,928	541,382
1994	1,252,017	495,770
1995	776,825	401,438
1996 and beyond	2,050,179	5,857,506
	9,402,148	9,661,403
Interest receivable—		
Current	139,006	391,826
Arrears	238,774	384,477
	377,780	776,303
Less: Allowance for doubtful interest	321,843	582,997
	55,937	193,306

4. Allowance for doubtful loans

	1991	1990
	$	$
Balance at beginning of the year	4,790,089	3,200,489
Write-offs and recoveries	(758,621)	(1,001,174)
Provision for doubtful loans—		
Current year lending	1,985,338	2,227,734
General provision		380,000
Reductions due to restructuring and reinstatements to accrual status	(38,554)	(16,960)
Transferred to forgiveness	(888,470)	
Balance at end of the year	5,089,782	4,790,089

The balance comprises 30 loans (1990—45) classified as doubtful.

5. Capital assets

	1991			1990
	Cost	Accumulated amortization	Net book value	Net book value
	$	$	$	$
Land for development	732,441	200,000	532,441	509,096
Equipment, furniture, leaseholds	757,682	477,372	280,310	451,784
Rental facilities	24,366,170	12,987,514	11,378,656	12,992,578
Tourist facilities	595,177	450,253	144,924	2,157,283
Agriculture and forestry facilities	1,110,317	789,750	320,567	686,605
	27,561,787	14,904,889	12,656,898	16,797,346

The categories of rental, tourist, and agriculture and forestry facilities shown above each include land, buildings and equipment.

ENTERPRISE CAPE BRETON CORPORATION—*Concluded*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

6. Funding from Government of Canada

(a) The Government of Canada approved a parliamentary appropriation in the amount of $10,600,000 and the Corporation utilized $10,560,000, the result of a $40,000 expenditure reduction determined by the Priorities and Planning Committee of Cabinet.

(b) The Governor in Council empowered the Corporation to sell the assets of its subsidiary Dundee Estates Limited. The Treasury Board instructed that the net proceeds of the sale be remitted to the Consolidated Revenue Fund.

7. Administrative expenses

	1991	1990
	$	$
Salaries and employee benefits	894,253	679,723
Office and miscellaneous	562,286	602,831
Professional fees	209,961	51,097
Travel	42,120	57,166
	1,708,620	1,390,817

8. Provision for environmental clean-up

During 1989-90, the Corporation discovered contaminated land in Sydport Industrial Park formerly occupied by a tenant involved in the reclamation of scrap metal. Management undertook to contain the contamination and commenced a controlled clean-up operation. An estimate $1,000,000 for costs to be incurred during this process had been recorded in the accounts at March 31, 1990. The balance in the accounts at March 31, 1991 is $380,000, which in management's opinion, based on available technical information, is sufficient to complete the clean up.

9. Guarantees

During 1976, the Industrial Development Division of the Cape Breton Development Corporation guaranteed the repayment by Sydney Steel Corporation of that Corporation's $70,000,000 11 1/4% Series D Debentures and the repayment of interest thereon. These funds were borrowed by Sydney Steel Corporation for the purpose of financing its plant rehabilitation program. The balance of the outstanding debentures has since been reduced to $22,610,000.

As successor to the Industrial Development Division of the Cape Breton Development Corporation, the Corporation assumed these guarantees, which were made for and on behalf of Her Majesty the Queen in right of Canada; therefore, any amounts required to be paid as a result of these guarantees shall be paid out of the Consolidated Revenue Fund of Canada.

10. Commitments

(a) As at March 31 the Corporation had outstanding commitments as follows:

	1991	1990
	$	$
Development assistance	2,010,476	2,737,571
Capital expenditures	44,224	448,655
Loans	331,457	414,541
	2,386,157	3,600,767

(b) Future minimum payments by fiscal year on operating leases for premises, with initial non-cancellable lease terms in excess of one year, are as follows:

	$
1992	252,954
1993	59,414
1994	41,820
	354,188

11. Related party transactions

The Corporation had transactions with the Atlantic Canada Opportunities Agency during the year in respect of salaries, professional services and other expenses totalling $210,150 (1990—$144,355). The amount included in accounts receivable was $210,150 (1990—$144,355).

12. Comparative figures

Certain of the comparative figures have been reclassified to conform to the presentation adopted for the current year.

EXPORT DEVELOPMENT CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements contained in this annual report have been prepared by management in accordance with accounting principles generally accepted in Canada, consistently applied, which conform in all material respects with international accounting standards. The integrity and objectivity of the data in these financial statements are management's responsibility. The financial statements include some amounts, such as the allowance for losses on loans, that are necessarily based on management's best estimates and judgement.

The Corporation's view on the valuation of its sovereign loan assets is and always has been that they are ultimately collectible, although indefinite delays in repayment of principal and interest may have to be accepted. This policy is stated in Note 2 of the financial statements as are the two exceptions to this policy, which are "outright repudiation" or "the write-off of asset value agreed to by creditors". The Corporation's financial statements have been prepared on this basis, consistent with prior years. The asset and allowance amounts have been concurred with by the Auditor General of Canada in providing an unqualified opinion for 1990.

During 1989-90, the Government of Canada adopted the view that the evolution of the international debt strategy could potentially lead to concerted multilateral agreement to provide debt or debt service reduction by creditor governments and decided to establish allowances against such a contingency, which is now reflected in the Public Accounts of Canada. When the Auditor General of Canada issued an unqualified audit opinion on the Public Accounts for 1989-90, he concurred that these allowances were sufficient to provide for all the obligations of Canada including those arising from its undertaking to EDC whose assets could be affected by this debt strategy.

In the event the Government of Canada participates in such debt or debt service reduction activities and, consistent with the second exception to EDC's policy on the ultimate collectibility of sovereign debt, EDC has received an undertaking from the Government of Canada that it would compensate EDC fully for any financial consequences to EDC arising from its decisions.

These policies and the undertaking by the Government of Canada are detailed in Note 2 to the financial statements and the results of these policies and the undertaking are shown in Note 7.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises this responsibility through the Audit Committee of the Board, which is composed of Directors who are not employees of the Corporation. The Audit Committee meets with management, the internal auditors and the Auditor General of Canada on a regular basis.

The Board of Directors of EDC is responsible for all business undertaken by the Corporation. Contracts which, in the opinion of the Board of Directors, involve risks for a term or an amount in excess of that which the Corporation would normally undertake, may be entered into under the authority of the Governor General in Council where the Minister considers them to be in the national interest. The Board of Directors has the predominant role in the management of this program and is solely responsible for its administration. Funds required for such contracts are paid to the Corporation by Canada, and funds recovered are remitted to Canada, net of amounts withheld to cover related administrative expenses. The administration of accounts on behalf of Canada is shown in Note 17 to the Corporation's financial statements.

The Auditor General of Canada conducts an independent examination, in accordance with generally accepted auditing standards, and expresses his opinion on the financial statements. His report is presented on the following page.

R.L. Richardson
President and Chief Executive Officer

M.D.J. Bakker
Senior Vice-President Finance and Treasurer

EXPORT DEVELOPMENT CORPORATION—*Continued*

AUDITOR'S REPORT

TO THE MINISTER FOR INTERNATIONAL TRADE

I have audited the balance sheet of the Export Development Corporation as at December 31, 1990 and the statements of income and retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards in Canada, conforming with International Auditing Guidelines. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Export Development Act and the by-laws of the Corporation.

Kenneth M. Dye, FCA
Auditor General of Canada

Ottawa, Canada
February 27, 1991

EXPORT DEVELOPMENT CORPORATION—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1990

1. Act of incorporation and corporate mandate

Export Development Corporation ("The Corporation") was established on October 1, 1969 by the Export Development Act ("The Act"), a statute of the Parliament of Canada. The Corporation was created as an agent of Her Majesty in right of Canada for the purpose of facilitating and developing trade between Canada and other countries, by the provision of loans, guarantees and insurance. The Corporation is accountable for its affairs to Parliament through the Minister for International Trade.

2. Summary of significant accounting policies

These financial statements are prepared in accordance with accounting principles generally accepted in Canada, consistently applied, and conform in all material respects with international accounting standards. A summary of significant accounting policies follows:

Loans receivable and undertakings from the Government of Canada

Loans receivable, mainly to sovereign entities, are stated in the Canadian dollar equivalent of the original amounts disbursed and include where applicable interest capitalized as part of the rescheduling or restructuring process of loans with payment difficulties.

As an export credit agency and an agent of Her Majesty in right of Canada, the Corporation benefits from Canada's membership in the Paris Club, an international group, formed to deal on a multilateral basis with payment difficulties experienced by sovereign entities. Through the auspices of this Club and with subsequent negotiation, rescheduling agreements are arranged coupled with the implementation of International Monetary Fund disciplines to alleviate these payment problems.

It is management's opinion, based on the Corporation's experience, that except in the rare instance of outright repudiation or the write-off of asset value agreed to by creditors, the ultimate collectibility of a sovereign obligation is not subject to question although indefinite delays in repayment of principal and interest may have to be accepted. This opinion is also shared by the Government of Canada.

The Government of Canada is, however, of the view that the evolution of the international debt strategy could lead to concerted multilateral agreement to provide debt and debt service reduction by creditor governments in order to facilitate approved economic adjustment programs by certain debtor countries. The Government of Canada has undertaken to compensate the Corporation fully for any financial consequences arising from the Government's participation in multilateral activities to provide debt and debt service reduction.

Loan interest and fees earned

Interest is accrued on principal receivable until such time as the loan becomes non-performing. Non-performing is defined as any loan where significant payments have not been received for a period of one hundred and eighty days.

Loan fees are taken into income over the disbursement and repayment periods of a loan.

Non-current loans receivable

Subsequent to a review of the payment history and an assessment of the collectibility of the loans, the Corporation may deem certain loans non-current. Non-current is defined as any loan where there is significant doubt as to collectibility in the short to medium term, where significant payments have not been received for a period of one year after a rescheduling agreement has been signed, or two years where rescheduling measures have not been undertaken. As a result, the Corporation terminates all interest accruals on these loans and reverses previously accrued interest over a period of up to twelve months following the loan becoming non-current. As well, the capitalization of interest in future rescheduling agreements is not recognized for accounting purposes.

Non-current loans are restored to an accrual basis when regular repayment patterns of all or substantially all amounts due have been established.

Allowance for losses on loans receivable

The allowance for losses on loans is based on a review of collectibility, at least annually, of all loans to commercial and sovereign borrowers. As the result of the review of all loans to commercial borrowers, the Corporation charges to income an amount sufficient to specifically provide for potential losses on the commercial loans receivable portfolio to reflect the impairment of the related commercial loan assets.

In addition to specific allowances for losses on commercial loans, the Corporation prudently sets aside a general allowance based on management's best estimates on the commercial and sovereign loans receivable portfolio for which no specific provision has been made.

Recoverable claims

Claims payments are recorded at estimated recoverable values. Non-recoverable amounts are charged to the appropriate allowance for claims on insurance and guarantees. Subsequent net gains or losses on recovery are credited or charged to the allowance.

Allowance for claims on insurance and guarantees

The Corporation provides for claims based on claims experience augmented, if necessary, by a specific provision based on a review of contingent liabilities.

Interest expense

Interest expense includes hedging expenses, and the amortization of debt discount and issue expenses which are charged to income over the life of the debt.

Insurance premiums

Insurance premiums and fees are earned in Canada. For short-term insurance policies, premiums are taken into income at the commencement of coverage. Premiums on other export insurance policies are taken into income using methods which generally reflect the exposures over the terms of the policies.

EXPORT DEVELOPMENT CORPORATION—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1990—*Continued*

Translation of foreign currency

The Corporation hedges its U.S. dollar assets and liabilities on a total portfolio basis. Any net exposure to future changes in the U.S. dollar foreign exchange rate is due to short-term timing differences in cash flows. It is the Corporation's policy to manage assets and liabilities denominated in U.S. dollars in such a way as to minimize this net exposure. Accordingly, assets and liabilities denominated in U.S. dollars are translated into Canadian dollars at exchange rates prevailing at year-end.

Income and expenses are translated at average monthly exchange rates in effect during the year. Exchange gains and losses resulting from the translation of foreign currency balances and transactions are reported with investment interest earned.

Treasury financing activities

The Treasury group engages in a variety of trading activities including contracts relating to the purchase and sale of securities, foreign exchange, interest rate and currency futures, interest rate swaps, and forward rate agreements. With the exception of transactions designated as hedges, the instruments and future commitments arising from these transactions are marked to market and the resulting gain or loss recorded in income. Gains or losses arising from transactions designated as hedges are deferred and recognized in income over the remaining life of the hedged item.

3. Loans receivable

Loans receivable from both sovereign and commercial borrowers are mostly at fixed interest rates established in competition with similar export credit agencies in other countries and generally below commercial rates.

These loans mature as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Non-current (Note 6)	1,323,811	1,019,841
Within 12 months		
—Fixed	519,265	575,597
—Floating	334,176	172,333
Overdue	50,061	64,461
1991		661,668
1992	750,181	566,677
1993	505,019	473,580
1994	497,399	435,324
1995	443,737	382,226
1996 and thereafter	1,554,248	1,046,337
Total	5,977,897	5,398,044
Commercial loans included above	942,694	680,633
Floating rate loans, generally based on LIBOR rates, included in total loans	2,134,249	1,563,607
The geographic distribution of these loans is as follows:		
Pacific and Asia	1,215,893	996,739
Middle East and Africa	1,590,381	1,622,601
Europe	856,678	870,337
North America and Caribbean	1,085,764	811,530
South America	1,229,181	1,096,837
Total	5,977,897	5,398,044

4. Overdues on current loans receivable

Amounts overdue consist of principal instalments and billed interest and fees that have not been received in accordance with the specified terms contained in the related loan agreements.

The geographic distribution of the overdue principal and recognized interest and fees, in the amounts of $50,061 (1989—$64,461) and $31,775 (1989—$27,006) respectively, is as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Pacific and Asia	1	111
Middle East and Africa	11,590	82,170
Europe	8,449	899
North America and Caribbean	987	1,707
South America	60,809	6,580
Total	81,836	91,467

5. Rescheduled and restructured amounts on current loans receivable

Rescheduled and restructured amounts during the year are as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Principal	91,580	172,855
Interest	18,016	40,758
Total	109,596	213,613
Total outstanding on rescheduled and restructured loans	655,682	608,302
Commercial amounts included above	29,761	32,852
Amounts overdue	50,175	8,501

6. Non-current loans receivable

Due to the weakening of economic conditions over time, certain loans where there is risk of long repayment delays or, in respect of commercial loans, significant doubt as to collectibility are placed in the non-current category. Non-current amounts receivable are as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Sovereign, mainly in South America, Europe and Africa	1,318,523	936,904
Commercial	5,288	82,937
Total	1,323,811	1,019,841

EXPORT DEVELOPMENT CORPORATION—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1990—*Continued*

7. Allowance for losses on loans

Allowance for losses are as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
General allowance, beginning of year	324,872	107,819
Provision expense	77,589	271,275
Transfers and (interest reversed)	43	(54,222)
General allowance, end of year	402,504	324,872
Specific allowance, beginning of year	51,079	58,816
Recoveries and write-offs	(44,070)	(7,737)
Specific allowance, end of year	7,009	51,079
Total balance sheet allowance	409,513	375,951

In the event the Government participates in multilateral activities to provide debt and debt service reduction, the Government has agreed to compensate the Corporation fully for any financial consequences to the Corporation arising from its decisions. Parliamentary approval would be required to transfer the funds to the Corporation for such compensation. The Auditor General of Canada has pointed out, after working with an independent consultant, that had it not been for this undertaking, the Corporation's allowances for losses on loans should have been at least $900 million higher than presently stated.

In addition, in an earlier decision, the Government of Canada, as part of its initiative to provide concessional terms for rescheduling the debt of the poorest countries, has agreed to provide them with interest assistance to be paid directly to the Corporation, on their debts to the Corporation.

By these agreements with the Government of Canada, the Corporation is shielded from the consequences of current and potential multilateral debt and debt service reduction strategies affecting its sovereign loan portfolio.

The establishment by the Government of Canada of allowances and a contingency reserve in order to participate in potential multilateral debt and debt service reduction activities and the compensation undertakings put in place by the Government establish a realistic option for the settlement of the international sovereign debt problem and limit the Corporation's exposure to the consequences thereof.

The Corporation therefore considers that these Government undertakings, in addition to the Corporation's general loan loss allowance policy, adequately provide for any financial impact of uncertainties relating to the sovereign loan portfolio.

The Corporation also has off balance sheet non-accrued interest receivables as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Non-accrued interest receivable, beginning of year	462,064	341,122
Non-current interest revenue, during the year	170,435	124,681
Non-performing interest revenue	14,855	
Recoveries and write-offs	954	(3,739)
Non-accrued interest receivable, end of year	648,308	462,064

The provision expense, the non-current interest revenue, and the non-performing interest revenue have the effect of adding to the total balance sheet allowance and the non-current interest receivable $262,879 for 1990 compared to $395,956 for 1989.

8. Loans—Statutory limits and commitments

The Act allows the Corporation to have outstanding loans and commitments to foreign borrowers up to a maximum of $15 billion. The position against this limit, determined in accordance with the requirements of the Act, is $8,114 million (1989—$7,652 million). Of this amount, undisbursed commitments on signed loan agreements are $1,894 million (1989—$2,195 million) with the balance representing loans receivable and loans with recourse to the Corporation.

The Corporation expects to fund these undisbursed commitments near the time of their disbursement, typically over a three year period, by issuing a combination of debt instruments in world capital markets at commercial rates of interest and capital stock. The Corporation generally attempts to match debt maturities and currencies with those of its loans.

9. Insurance—Statutory limits and contingent liabilities

The Act specifies that the Corporation can incur liabilities under contracts of insurance, related guarantees and guarantees pertaining to the lending program up to a maximum of $15 billion. The position against this limit, determined in accordance with the requirements of the Act, is $4,780 million (1989—$4,383 million).

Contingent liabilities with respect to insurance and all guarantees of the Corporation included in the above positions are as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Pacific and Asia	795,639	785,472
Middle East and Africa	525,318	594,995
Europe	898,819	527,560
North America and Caribbean	946,828	1,079,819
South America	362,022	227,980
Total	3,528,626	3,215,826

EXPORT DEVELOPMENT CORPORATION—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1990—*Continued*

10. Insurance and guarantees—Allowance for claims

The experience under short and medium term programmes is as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Allowance, beginning of year	48,659	44,567
Provision during the year	18,424	12,115
Net write-offs	(20,466)	(8,023)
Allowance, end of year	46,617	48,659

11. Recoverable insurance claims

Activity for the year is as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Recoverable claims, beginning of year	5,127	10,157
Claims paid	28,149	19,793
Claims recovered	(4,945)	(16,231)
Net write-downs	(20,013)	(8,592)
Recoverable claims, end of year	8,318	5,127

12. Loans payable

The Act allows the Corporation to borrow up to a maximum of ten times the aggregate of its paid-in capital from time to time and the retained earnings, if any, determined in accordance with the most recent audited financial statements. As at December 31, 1990 and based on paid-in capital only, this formula produced a limit of at least $7,720 million (1989—$6,970 million) against which borrowings amounted to $5,855 million (1989—$5,473 million).

Loans payable mature as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
Within 12 months		
—Fixed	457,026	674,263
—Floating	2,447,712	2,149,169
1991		499,071
1992	725,860	725,887
1993	760,276	226,227
1994	123,743	74,561
1995	72,173	5,564
1996 and thereafter	1,268,378	1,117,785
Total	5,855,168	5,472,527
Commercial loans included above at fixed rates	2,372,819	2,610,061
Floating rate and short-term fixed rate revolving loans	3,482,349	2,862,466

The Corporation also had lines of credit and overdraft facilities aggregating $2,451 million at December 31, 1990 (1989—$2,572 million).

13. Share capital

The authorized share capital is $1.5 billion consisting of 15 million shares with a par value of $100 each. The number of shares issued and fully paid is 7,720 thousand (1989—6,970 thousand). During the year, the Corporation has issued 750 thousand shares for a consideration of $75 million.

14. Foreign currency balances

The Corporation has substantial assets and liabilities in U.S. dollars and in other currencies. The Canadian dollar equivalent after taking into consideration forward exchange contracts is as follows:

	December 31	
	1990	1989
	(in thousands of dollars)	
U.S. dollars		
Assets	5,489,990	4,826,158
Liabilities	5,335,082	4,825,916
Net exposure	154,908	242
Rate of exchange U.S. $1.00	1.1599	1.1585
Other currencies		
Assets	376,000	396,499
Liabilities	392,138	368,130
Net exposure	(16,138)	28,369

15. Off-balance sheet financial activities

The Corporation reports on its activities in Canadian funds; however, it deals extensively in other currencies in order to meet customer requirements and to source funds to the best advantage.

In any transaction there is always an inherent risk of loss. These risks may be classified as credit risks, wherein the counter-party to a transaction does not perform as agreed, or market risks where an exposure exists as a result of changes in foreign exchange and interest rates.

The Corporation limits its exposure to credit risk by dealing only with financial institutions having very high credit ratings. Internal procedures establish proper credit approvals, controls and monitoring.

As a normal course of business, the Corporation enters into a wide range of financial arrangements to reduce the market risks of adverse changes in foreign exchange and interest rates and to reduce its funding costs. The financial instruments used to effect these results would normally include: currency and interest rate swaps, options, caps and floors, forward and spot conversions, and futures.

A typical currency swap involves the immediate purchase (or sale) of a foreign currency and the simultaneous sale (or purchase) of future commitments. An interest rate swap involves the exchange of interest rate flows over a defined period of time based on a notional amount. The Corporation has currency swap contracts amounting to $1,693 million in principal value and interest rate swap contracts with a notional principal value of $1,339 million. The currency and interest rate swap contracts have a net credit exposure of $265 million when valued at market replacement cost and the largest singular exposure to any institution amounts to $74 million.

EXPORT DEVELOPMENT CORPORATION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1990—*Concluded*

Options represent the right to buy or sell financial instruments, usually containing foreign exchange or interest components, at a predetermined price, in exchange for an agreed upon sum of money paid or received at the commencement of a specified period. If the right is not exercised in the specified period, the option expires. An option is attached to one of the interest rate swap agreements of U.S. $150 million entered into by the Corporation. This option which the Corporation sold gives the buyer the right to terminate the swap prior to August 1, 1996.

Caps and floors represent financial agreements wherein interest rate protection limits are purchased or sold. The Corporation has sold LIBOR caps on U.S. $350 million notional principal value. Exposure under these caps will exist in whole or part until 1998.

Forward contracts are specifically negotiated arrangements which will convert a currency instrument to another currency at a future date. All contractual terms are fixed, which eliminates foreign exchange risk but a minimal amount of credit risk exists. The total amount of forward contracts are $2,286 million.

Futures contracts represent publicly traded obligations locking in specific currency or rate levels at a known future date. The credit risk is extremely low due to margin requirements, daily settling of accounts and the use of recognized exchanges. There are no futures contracts in place as at December 31, 1990.

16. Related party transactions

The Corporation is a Crown corporation wholly owned by Canada and an agent of Her Majesty in right of Canada. Therefore, all of the Corporation's borrowings carry the full faith and credit of Canada.

The Government of Canada has established an understanding that it may seek Parliamentary appropriations to eliminate any losses the Corporation might incur.

The Corporation is not subject to the requirements of the Income Tax Act with respect to its earnings.

17. Accounts administered for Canada

(a) Pursuant to the Act, the Corporation administers for Canada certain loans and insurance programs entered into under the authority of the Governor in Council for which the Board of Directors has the predominant role in the management of the program and is solely responsible for its administration. These accounts are maintained separately from the Corporation's accounts, and are consolidated annually as at March 31 with the financial statements of the Government of Canada which are reported upon separately by the Auditor General of Canada. The assets administered for Canada, mainly loans receivable and accrued interest and fees recorded in accordance with accounting policies and practices approved by the Government of Canada, amounted to $1,256 million (1989—$1,027 million).

(b) Statutory limits, commitments and contingent liabilities

The Act allows the Accounts administered for Canada to have outstanding loans and commitments to foreign borrowers up to a maximum of $6 billion. The position against this limit, determined in accordance with the requirements of the Act, is $1,532 million (1989—$1,375 million).

The Act also specifies that the Accounts administered for Canada can incur liabilities under contracts of insurance, related guarantees and guarantees pertaining to the lending program up to a maximum of $7 billion. The position against this limit, determined in accordance with the requirements of the Act, is $89 million (1989—$62 million). Contingent liabilities of the Accounts administered for Canada included in the above positions amounted to $84 million (1989—$58 million).

FARM CREDIT CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying financial statements of Farm Credit Corporation and all information in this annual report are the responsibility of the Corporation's management and have been approved by the Board of Directors. The financial statements include some amounts, such as the allowance for loan losses and the valuation of real estate acquired in settlement of loans, that are necessarily based on management's estimates and judgement.

The financial statements have been prepared in accordance with accounting principles which are generally accepted in Canada and which have been consistently applied. Financial information presented elsewhere in the annual report is consistent with that contained in the financial statements.

The approach followed by the Corporation to estimate the allowance for loan losses, on a consistent basis with past years, includes a specific review of undersecured loans and a general estimate of probable losses inherent in the secured portion of the portfolio. The general allowance is prudential in nature, and provides for loan losses which have not been specifically identified.

As a result of loans going through the recovery process the amount of the allowance attributable to specific individual loans has declined from the March 31, 1990 level. However, the increased uncertainty facing Canadian agriculture at this time, arising from adverse conditions such as the failure of the GATT negotiations, and its probable negative impact on farmers' ability to repay and the value of the Corporation's security has, in management's judgement, necessitated the retention of the allowance at its book value as of March 31,1991. Therefore, it is management's opinion that the year-end allowance at $232.7 million is the best estimate of probable losses on loans outstanding.

Other than an amount of $3.7 million, which was charged to operations to provide for probable loan losses on current year lending, no amount has been charged to or credited to operations with regard to the allowance for loan losses. The Board of Directors supports management's opinion that, in an environment of continuing, low agricultural export prices, particularly in the grain sector, and the recent failure of GATT negotiations, it would be imprudent to further reduce the allowance at this time.

In discharging its responsibility for the integrity and fairness of the financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. The system of internal control is augmented by internal audit which conducts periodic reviews of different aspects of the Corporation's operations. In addition, the internal and external auditors have full and free access to the Audit Committee of the Board, which oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

The independent auditor, the Auditor General of Canada, is responsible for auditing the financial statements and for issuing his report thereon.

James J. Hewitt
Chairman and Chief Executive Officer

Senior Vice-President
Finance

AUDITOR'S REPORT

TO THE MINISTER OF AGRICULTURE

I have audited the balance sheet of Farm Credit Corporation as at March 31, 1991 and the statements of operations and deficit and changes in cash position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

Except as explained in the following paragraph, I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

Loans of $3,378.3 million are stated net of an allowance for loan losses of $232.7 million. Although the Corporation has provided me with evidence and analyses in support of the inclusion of $136.1 million in the allowance, it was unable to provide adequate support for the balance of $96.6 million. As a consequence, I was unable to satisfy myself as to the appropriateness of this additional amount. Accordingly, I was unable to determine whether any adjustments might be necessary to the allowance for loan losses and consequentially to the provision for loan losses, the net income for the year and the deficit.

In my opinion, except for the effect of adjustments, if any, which I might have determined to be necessary had I been able to satisfy myself with respect to the appropriateness of the additional $96.6 million in the allowance for loan losses described in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its cash position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Farm Credit Act and the by-laws of the Corporation.

L. Denis Desautels, FCA
Auditor General of Canada

Ottawa, Canada
May 30, 1991

FARM CREDIT CORPORATION—*Continued*

BALANCE SHEET AS AT MARCH 31, 1991
(in thousands of dollars)

ASSETS	1991	1990
Cash and short-term investments	182,076	48,104

FARM CREDIT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. The Corporation

(a) Authority and objectives

Farm Credit Corporation ("the Corporation") was established in 1959 by the Farm Credit Act as the successor to the Canadian Farm Loan Board and is an agent Crown corporation named in Part I of Schedule III to the Financial Administration Act. The Corporation makes and administers farm loans under the authority of the Farm Credit Act and the Farm Syndicates Credit Act, and administers programs as requested by the Government of Canada ("the government").

The Corporation's role, as clarified in the Corporate Plan approved in 1988, is to provide mortgage credit and complementary financial services to Canadian farmers on a break-even basis and, when called upon by the government, to deliver specific government programs on a cost-recovery basis.

(b) Financial restructuring

The government has approved a financial restructuring for the Corporation which covers a four-year period ending March 31, 1992 and establishes operating policies and management guidelines within which the Corporation is to operate.

2. Significant accounting policies

(a) Revenue recognition

Interest income is recorded on the accrual basis until such time as management determines that a loan should be classified as non-accrual. A loan is classified as non-accrual when:

1 principal or interest is six months past due, unless the loan is well secured, or
2 when circumstances indicate doubt as to the ultimate collectibility of principal or interest.

When a loan is classified as non-accrual, uncollected interest recognized in the year is reversed against interest income and, where necessary, uncollected interest recognized in previous years is provided for in the allowance for loan losses.

Interest payments on non-accrual loans are recorded as interest income when received where it has been determined that the loan does not require a specific provision for loss; otherwise, they are credited to principal.

Non-accrual loans return to accrual status when, in management's opinion, the ultimate collection of principal and interest is reasonably assured.

Lease and other revenues from real estate are recorded when earned.

Loan fees and charges are recorded as other income when earned.

(b) Allowance for loan losses

The allowance for loan losses represents management's best estimate of probable losses on the loans outstanding at the end of the year. The allowance has a specific component which is based on the review of outstanding undersecured loans and a general component, which is prudential in nature, to provide for loan losses which have not yet been specifically identified.

The allowance is based on a periodic evaluation of the loan portfolio in which numerous factors are considered including future land values, commodity prices, federal and provincial governments' programs, and climatic conditions. Management has estimated the effect of these risks and uncertainties when determining the allowance for loan losses. However, future agricultural and economic conditions are not predictable with certainty and, therefore, actual loan losses may vary from management's estimate.

The government has agreed to reimbusre the Corporation for concessions it will make to farmers during the next year as a result of its participation in the Farm Debt Review process. The type of concessions to be made through the process, and the extent to which they will reduce the Corporation's loan losses, are not presently known. They are, therefore, not included in establishing the allowance for loan losses.

Actual loan losses, write-downs of acquired real estate, and losses on the sale of real estate are charged to the allowance while recoveries are credited to the allowance. Adjustments of the allowance to the level regarded by management as being appropriate are applied to operations.

(c) Real estate acquired in settlement of loans

Real estate is recorded at the lower of the amount of the loan outstanding or the estimated net realizable value at the time of acquisition. Subsequent declines in estimated net realizable value are recorded in the year in which they occur.

(d) Farm Debt Review process

Amounts received on behalf of farmers for concessions granted by the Corporation under the Farm Debt Review process are applied as if they had been received directly from the farmers.

(e) Office equipment and leasehold improvements

Office equipment and leasehold improvements are recorded at cost less accumulated amortization. Amortization is provided over the estimated useful lives of office equipment and leasehold improvements according to the following methods and rates:

	Methods	Rates
Equipment and furniture	Declining balance	20%
Computer equipment and software	Straight-line	20%
Leasehold improvements	Straight-line	Lease term plus the first renewal option

(f) Debt discount and issue expenses

Debt discount and issue expenses are amortized on a straight-line basis over the life of the debt and are included in interest expense on loans payable.

(g) Translation of foreign currencies

Loans and related interest payable in foreign currencies are hedged by currency conversion agreements and are translated into Canadian dollars at the rates provided therein. The differences between the ultimate amounts payable at the contracted rates and the cash proceeds of the debt issues are included with debt discount and issue expenses. These amounts are amortized on a straight-line basis and are charged to interest expense over the lives of the obligations.

FARM CREDIT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

(h) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The Corporation's contributions to the plan are limited to matching the employees' contributions for current service. These contributions are expensed during the year in which the services are rendered and represent the total pension obligations of the Corporation.

(i) Employee termination benefits

On termination of employment, employees are entitled to benefits provided for under their terms of employment. The liability for these benefits is recorded as the benefits accrue to the employees.

(j) Income taxes

The Corporation follows the tax allocation method of providing for income taxes. The cumulative differences between tax calculated on such a basis and taxes currently payable are essentially timing differences and result in deferred income taxes. The Corporation has deferred tax benefits which have not been recorded and will only be recognized when there is virtual certainty that they will be realized.

3. Loans receivable

	Annual interest rate	1991	1990
	%	(in thousands of dollars)	
Loans to farmers, secured by mortgages	5-16¼	3,416,781	3,627,405
Loans to farm syndicates, secured by notes	7-14⅝	6,607	5,118
Loans receivable from real estate sales, secured by agreements for sale or mortgages	5-14⅞	35,470	36,828
		3,458,858	3,669,351
Accrued interest—Current		88,862	113,245
—Arrears		63,291	70,183
		3,611,011	3,852,779
Less: allowance for loan losses		232,665	279,365
		3,378,346	3,573,414

At March 31, 1991, the Corporation had 4,333 loans representing $485 million of loans receivable classified as non-accrual (1990—5,495 representing $642 million). During the year, interest not recognized on non-accrual loans amounted to $22 million (1990—$31 million). The accumulated interest not recognized on non-accrual loans outstanding at March 31, 1991 amounted to $82 million (1990—$122 million).

4. Allowance for loan losses

The summary is as follows:

	1991	1990
	(in thousands of dollars)	
Balance at beginning of the year	279,365	350,000
Write-offs, net of recoveries	(50,384)	(73,837)
Provision for loan losses	3,684	3,202
Balance at end of the year	232,665	279,365
Specific allowance	87,665	124,365
General allowance	145,000	155,000
Balance at end of the year	232,665	279,365

5. Real estate acquired in settlement of loans

The summary is as follows:

	1991	1990
	(in thousands of dollars)	
Balance at beginning of the year	178,281	135,642
Acquisitions	110,316	118,205
Disposals	(63,886)	(75,566)
Balance at end of the year	224,711	178,281

Real estate represents farm property acquired in the process of administering loans receivable and must be disposed of within five years of acquisition or such further period as the Governor in Council may prescribe.

The Corporation has 2,371 properties (1990—1,864), of which 1,036 (1990—1,010) are saleable within the next year. Of these saleable properties , 555 (1990—650) may be eligible for lease renewal. The balance are leased for periods of up to four years.

FARM CREDIT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

6. Loans payable

	Annual interest rate	1991	1990
	%	(in thousands of dollars)	
Loans from Canada, secured by notes			
Farm Credit Act	6-13	2,309,233	2,442,104
Farm Syndicates Credit Act	9 1/4-11	4,536	3,736
Loans from capital markets, secured by notes			
Farm Credit Act			
Payable in:			
U.S. dollars (375,000,000)	9-10 1/2	507,987	591,447
Swiss Francs (100,000,000)	11	59,666	59,666
Japanese Yen (7,660,000,000)	9 1/4	69,500	69,500
Canadian dollars	9-12 1/8	305,000	495,000
		3,255,922	3,661,453
Accrued interest		85,665	99,070
		3,341,587	3,760,523
Amounts due by fiscal year are as follows:			
1991			506,854
1992		408,816	423,305
1993		468,387	446,037
1994		585,510	543,069
1995		351,699	372,948
1996		314,414	259,201
1997 to 2005		1,127,096	1,110,039
		3,255,922	3,661,453
Accrued interest		85,665	99,070
		3,341,587	3,760,523

As part of the financial restructuring, $200 million of loans from Canada (1990—$600 million) was repaid during the year from the increase in contributed capital. The government decided that no interest would be payable on these loans throughout the year.

7. Limits on borrowing

The Farm Credit Act limits the aggregate amount outstanding of the principal borrowings by the Corporation pursuant to the Act to twenty-five times the contributed capital of the Corporation. At March 31, 1991, the Corporation's outstanding borrowings under this Act, comprising short-term notes of $304 million and loans payable of $3,256 million, were 3.49 times the contributed capital of $1,018 million (1990—4.60 times the contributed capital of $818 million).

The Farm Syndicates Credit Act limits the loans from Canada pursuant to the Act to $25 million. At March 31, 1991, the Corporation's loans from Canada under this Act were $5 million (1990—$4 million).

8. Contributed capital

The contributed capital of the Corporation represents the amount received from Canada under section 12 of the Farm Credit Act. The statutory limit was increased by $200 million in the current year to $1,025 million (1990—$825 million).

As part of the financial restructuring, Canada increased its contributed capital by $200 million. The Corporation has applied these amounts to the repayment of loans from Canada.

9. Income taxes

(a) Timing differences of approximately $297 million are available to the Corporation as at March 31, 1991. These have not been recognized in the accounts since they will not be used in the foreseeable future. They result primarily from differences between the provision for loan losses charged to operations and the amount claimed for income tax purposes.

In addition, the loss carry-forward for income tax purposes which has not been recognized in the financial statements amounts to $493 million and expires on the dates indicated:

	(in thousands of dollars)
March 31, 1996	13,000
March 31, 1997	480,000
	493,000

During the current year the Corporation will incur no income tax expense, other than the large corporations tax, due to the utilization of $321 million in loss carry-forwards.

(b) Income taxes payable by the Corporation relate to the large corporations tax, which may be offset against any current or future surtaxes payable. The Corporation has no surtax currently payable.

10. Commitments to farmers

As at March 31, 1991, loans to farmers approved but not disbursed amounted to $47 million (1990—$47 million). These loans were approved at rates from 11.625 per cent to 12.25 per cent. It is expected that the majority of these loans will be disbursed within the six-month period ending September 30, 1991.

11. Operating leases

Future minimum payments by fiscal year on operating leases for premises, with initial non-cancellable lease terms in excess of one year, are as follows:

	(in thousands of dollars)
1992	3,206
1993	2,872
1994	2,094
1995	1,864
1996	701
1997 to 2000	450
	11,187

These leases generally provide for the payment by the Corporation of real estate taxes and operating expenses in excess of the amounts established at the commencement of the lease term.

FARM CREDIT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

12. Government programs

Farm Debt Review process

Subject to annual parliamentary appropriation, the Minister of Agriculture has been authorized to make contributions to farmers, payable to the Corporation. These payments are based on concessions that the Corporation has granted to farmers under arrangements made pursuant to the Farm Debt Review Act. The Corporation is reimbursed at the time farmers realize the benefits of the concessions, which may be over a period as long as five years. These concessions cease if the farmers fail to meet their commitments, or the Corporation proceeds with recovery action.

The government has allocated funds for concessions to be granted over the period ending March 31, 1992. Since the inception of the Farm Debt Review process, the Corporation has offered $167 million in concessions and billed $121 million to the government of which $45 million was billed in the current year and $76 million in prior years. The committed difference of $46 million will be due and received over the next five years as farmers meet their commitments and thereby realize the benefits of the concessions.

13. Comparative figures

Certain 1990 comparative figures have been reclassified to reflect the presentation adopted in 1991.

FEDERAL BUSINESS DEVELOPMENT BANK

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying financial statements were prepared by the management of the Federal Business Development Bank in accordance with accounting principles generally accepted in Canada, which were consistently applied. The financial data contained in other sections of this annual report is consistent with the content of the financial statements.

In discharging its responsibility for the integrity and fairness of the financial statements and for the accounting systems from which they are derived, management maintains a system of internal controls designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. The system of internal controls is augmented by audit and inspection staff who conduct periodic reviews of different aspects of the Bank's operations. In addition, the Vice-President, Internal Audit, and the Independent Auditors have full and free access to the Audit Committee of the Bank's Board of Directors which oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

These financial statements have been examined and reported upon by the Bank's independent auditors, Raymond, Chabot, Martin, Paré and Associates, Chartered Accountants and the Auditor General of Canada.

Guy A. Lavigueur
President

AUDITORS' REPORT

TO THE MINISTER OF
INDUSTRY, SCIENCE AND TECHNOLOGY
AND
TO THE MINISTER OF STATE
(SMALL BUSINESSES AND TOURISM)

We have audited the balance sheet of the Federal Business Development Bank as at March 31, 1991 and the statements of operations, deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Bank as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Bank that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Federal Business Development Bank Act, the by-laws of the Bank and with the directive given to the Bank as disclosed in Note 5.

FEDERAL BUSINESS DEVELOPMENT BANK—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Objectives and operations of the Corporation

Federal Business Development Bank is a Crown corporation wholly-owned by the Government of Canada, which was established December 20, 1974, by the Federal Business Development Bank Act and commenced operations on October 2, 1975, as the successor to the Industrial Development Bank.

The objectives of the Bank, as stated in the Act, are to promote and assist in the establishment of business enterprises in Canada by providing financial assistance, management counselling and training; giving particular consideration to the needs of small business enterprises.

The Bank's lending and venture capital operations are carried out by Financial Services. Management Services includes counselling and training. A statement of operations is shown for Management Services since it is funded separately by parliamentary appropriation.

Federal Business Development Bank is for all purposes of its Act an agent of the Government of Canada. The Bank is named in Part I of Schedule III to the Financial Administration Act and is exempt from income taxes.

2. Significant accounting policies

Short-term investments

Short-term investments are recorded on an amortized cost basis.

Loans and venture capital investments

Loans are recorded at principal amounts. Venture capital investments are recorded at cost.

Provision for losses on loans, guarantees and venture capital investments

Provisions are established for specifically identified probable losses on loans, guarantees and venture capital investments, as well as for anticipated but unidentified losses. The specific provision is established on an account by account basis whereas the general provision is based on historical experience and the level of loss experience anticipated and is intended to cover losses on loans and guarantees which have not yet been specifically identified.

Revenue recognition

Interest on loans is recorded as income on an accrual basis except that interest is not accrued on loans where management believes that the interest will not be recovered. Dividends, interest and capital gains on venture capital investments are recorded as income when received.

Capital assets and amortization

Capital assets acquired by Financial Services are recorded at cost and amortized over their estimated useful lives using the straight-line or diminishing-balance methods.

For Management Services, all capital expenditures are charged against income in the year of acquisition as these are funded by parliamentary appropriation.

Premiums, discounts and debt issue expenses

Premiums, discounts and expenses related to the issue of debt are amortized on a straight-line basis over the term of the obligations to which they pertain and charged to interest expense.

Translation of foreign currencies

Notes payable in foreign currencies and interest thereon, are hedged by foreign exchange forward contracts or by currency swap agreements and are translated into Canadian dollars at the rates provided therein. The Bank adopts a similar practice for notes denominated in Canadian dollars which are tied to the performance of foreign currencies. The difference between the ultimate amount payable at the contracted rate and the cash proceeds of the issue is considered to be an element of financing costs and is therefore amortized to interest expense over the life of the obligation on a straight-line basis. The unamortized portion of these amounts is included with unamortized debt issue expenses in the balance sheet.

Interest rate swaps

The Bank enters into interest rate swap transactions as part of its debt financing strategy. Amounts receivable and payable arising from these contracts are recorded over the life of the swap contracts as interest expense .

Pension plan

The Bank maintains a contributory, defined benefit pension plan for eligible employees. Periodic actuarial evaluations are performed by independant actuaries to determine the value of accrued pension benefits and the costs of the plan. Pension expense for the year is comprised of the aggregate of:

— the cost of pension benefits provided in respect of current service and,

— the amortization over the expected average remaining service life of employees for adjustments arising from changes in the plan or assumptions, experience gains or losses and the plan funding excess or deficiency determined by the latest actuarial valuation.

The cumulative difference between the amounts of pension expense and funding contributions is recorded in "Other liabilities" or "Other assets" as applicable.

Employee termination entitlements

Termination entitlements arising from the Bank's conditions of employment are expensed in the year in which they are earned by employees.

Parliamentary appropriation for Management Services

Net expenditures for Management Services include certain expenses such as employee termination entitlements and pension fund accruals which are not funded by parliamentary appropriation until they are disbursed.

3. Venture capital investments

	1991	1990
	(in thousands of dollars)	
Shares	27,816	28,538
Shareholder advances	911	996

4. Accumulated provision for losses

	1991	1990
	(in thousands of dollars)	
Accumulated provision, beginning of year	214,559	174,411
Amounts written off during the year	(26,587)	(19,661)
Recovery of amounts previously written off	1,462	2,674
	189,434	157,424
Provision for the year	51,459	57,135
Accumulated provision, end of year	240,893	214,559

5. Long-term investment

Pursuant to a directive dated October 16, 1986, given by the Government of Canada to the Federal Business Development Bank under section 89 of the Financial Administration Act, the Bank was directed to purchase from Cominco Ltd. 790,000 series "E" preferred shares for an amount of $79 million with funds provided by the Government.

Cominco Ltd. is a Canadian mining producer of zinc and lead. This investment forms part of a $260 million program of modernization relating to lead smelting operations in Trail, B.C. A twenty-year agreement between the Government of Canada and Cominco Ltd. provides for a sharing in the risks of the project. The redemption of the Bank's investment and payment of dividends thereon are tied to the success of the project as determined by a profitability index which is related to the performance of lead and silver prices over the life of the agreement.

This investment is carried at cost and any dividends will be recorded when received.

6. Long-term notes

Maturities by fiscal year are as follows:

Rate %	1992	1993	1994	1995	1996	1997-99	Total
	(in thousands of dollars)						
8 3/4-9 7/8	288,709	183,084	75,000	31,476	27,440	25,000	630,709
10-11 3/4	411,218	204,199	116,672	431,121	4,448	16,217	1,183,875
12-13 1/2	35,000	69,465	35,000		20,000		159,465
	734,927	456,748	226,672	462,597	51,888	41,217	1,974,049

These long-term notes include the following notes denominated in foreign currencies hedged by currency swap agreements or by foreign exchange forward contracts (See Note 2):

	Canadian dollars (in millions of dollars)
United States $141.0 million	184.0
European Currency Units (ECU) 100.0 million	125.4
Japanese Yen 9.4 billion	84.7
Australian $20.1 million	23.2
Italian Lira 12.0 billion	9.5
	426.8

FEDERAL BUSINESS DEVELOPMENT BANK—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

The first table includes $212.1 million of long-term notes payable which have been the subject of interest rate swap agreements with other financial institutions. Under these agreements, fixed interest rate commitments ranging between 8 3/4% and 13 1/2% have been converted to floating interest rates which resulted in effective interest rates for fiscal 1991 which ranged between 10% and 14%. These borrowings fund a portion of the Bank's floating interest rate loan portfolio.

7. Capital paid in by Canada

	1991	1990
	(in thousands of dollars)	
Amount paid to the Bank of Canada pursuant to section 52 of the Federal Business Development Bank Act	79,000	79,000
Amounts paid in pursuant to subsection 28(1) of the Federal Business Development Bank Act	475,000	475,000
Amounts paid in by appropriation	26,600	26,600
	580,600	580,600

8. Statutory limitations on operations

The Minister of Finance, with the approval of the Governor in Council, has authorized capital payments to the Bank totalling $475 million, being the maximum allowed by subsection 28(1) of the Federal Business Development Bank Act. The Bank may receive additional funding for the purposes of section 20 of the Act by way of parliamentary appropriation.

The total of direct and contingent liabilities of the Bank may not exceed twelve times the amount of its "Capital" as defined in subsection 28(2) of the Federal Business Development Bank Act (or up to fifteen times with the approval of the Governor in Council). These liabilities combined with the Bank's "Capital" may not exceed $3.2 billion.

9. Contingent liabilities and commitments

As at March 31, 1991:

(a) The Bank is guarantor of loans aggregating $1.1 million.

(b) Various legal proceedings arising from the normal course of business are pending against the Bank. Management considers that the aggregate liability resulting from these proceedings will not be material.

(c) The undisbursed amounts on loans and venture capital investments authorized aggregated $106.5 million.

(d) The future minimum lease commitments under operating leases related to the rental of Bank premises are as follows:

	(in thousands of dollars)
1992	7,155
1993	6,284
1994	5,390
1995	4,918
1996	4,261
Thereafter	3,790
	31,798

10. Pension plan

Based on the latest actuarial valuation prepared as of December 31, 1990, the present value of the accrued pension benefits amounted to $192.1 million and the market related value of the net assets was $193.1 million.

11. Financial Services

The statement of operations for Financial Services is comprised of the results of the Loans Division and the Venture Capital Division which are segregated below. Within the capital of the Bank as at March 31, 1991, was an amount of $45.6 million provided by the Government of Canada to fund the venture capital investment portfolio.

	1991			1990		
	Loans	Venture capital	Total	Loans	Venture capital	Total
	(in thousands of dollars)					
Interest and investment income	366,697	4,810	371,507	357,169	8,983	366,152
Interest expense	238,641		238,641	224,574		224,574

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

12. Comparative financial data

(a) During the year ended March 31, 1990, the Information and Advice Programs of Management Services were eliminated in response to the reduction in annual parliamentary appropriation announced by the Minister of Finance in his budget speech of April 27, 1989. The costs of the reorganization, consisting mainly of employee terminations and excess space, were expensed in the year.

(b) Certain amounts pertaining to the fiscal year ended March 31, 1990, have been reclassified to conform with the presentation adopted for the fiscal year ended March 31, 1991.

FRESHWATER FISH MARKETING CORPORATION

AUDITOR'S REPORT

TO THE MINISTER OF FISHERIES AND OCEANS

I have audited the balance sheet of the Freshwater Fish Marketing Corporation as at April 30, 1991 and the statements of income and retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at April 30, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Freshwater Fish Marketing Act and by-laws of the Corporation.

Raymond Dubois, FCA
Deputy Auditor General

FRESHWATER FISH MARKETING CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
APRIL 30, 1991

1. Authority, objectives and operations

The Corporation was established by the Freshwater Fish Marketing Act in 1969, as a corporation without share capital, for the purpose of marketing and trading in fish, fish products and fish by-products in and out of Canada. The Corporation is an agent Crown corporation named in Schedule III, Part I of the Financial Administration Act and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed $30 million.

The Corporation has the exclusive right to market the products of the commercial fishery in the provinces participating in the program in inter-provincial and export trade. Participation of the provinces of Manitoba, Saskatchewan, Alberta and Ontario and the Northwest Territories was established by agreement with the Government of Canada.

2. Significant accounting policies

Inventories

Finished fish products are valued at the lower of cost and net realizable value. Packaging material and parts are valued at the lower of cost and replacement cost.

Amortization

Amortization is based on the estimated useful lives of the assets using the following methods and annual rates:

Buildings	—Lake stations	Straight-line	5-10%
	—Plants	Straight-line	2 1/2%
Equipment	—Machinery and office equipment	Declining balance	10-40%
	—Automotive	Declining balance	30%
Fresh fish delivery tubs		Straight-line	10%
Vessels		Straight-line	6 2/3%

Leasehold improvements are amortized on a straight-line basis over the term of the lease. Lease terms vary in length up to 20 years.

Payments to fishermen

The Corporation purchases fish at initial prices established by the Board of Directors and the cost of such purchases is included in the cost of sales. A guide used in the determination of the initial price is 80% of the projected total payments to fishermen (initial plus final), based upon forecasts prepared by the Corporation. Final payments, if any, to fishermen are determined by the Board after the end of the year, based on the results of operations for the year. The final payments are made in respect of products purchased during the year and therefore are charged to operations of the current year.

Foreign currency translation

Amounts receivable and payable denominated in foreign currency are translated into Canadian dollars at the year-end exchange rate. Transactions in foreign currency during the year are translated at the rate in effect at the time of the transactions. Foreign exchange gains and losses are included in interest expense.

Contributions

Contributions earned in respect of property, plant and equipment are credited to the cost of the assets; those received in respect of job creation programs are credited against salaries and wages expense.

3. Loan receivable

The loan receivable is secured by various property, plant and equipment and matures in 1995.

4. Property, plant and equipment

	1991			1990
	Cost	Accumulated amortization	Net	Net
	$	$	$	$
Land	263,065		263,065	263,065
Buildings	6,268,397	2,955,491	3,312,906	3,096,887
Equipment	11,972,981	7,481,810	4,491,171	4,400,200
Fresh fish delivery tubs	2,631,092	2,071,213	559,879	647,389
Vessels	66,820	21,096	45,724	47,881
Leasehold improvements	422,499	409,065	13,434	24,367
Construction in progress	547,011		547,011	359,552
	22,171,865	12,938,675	9,233,190	8,839,341

5. Working capital loans from Canada

These loans are made under Section 16(1) of the Act and bear interest at 10.96% (1990—11.49%). They are secured by promissory notes.

6. Loan payable

The loan payable is repayable in monthly instalments of $5,000 U.S. and bears interest at 9%. The loan is unsecured and matures in 1995.

7. Interest expense

	1991	1990
	$	$
Interest on working capital loans from Canada	2,086,039	2,054,426
Interest on loan payable	24,121	
Losses on foreign exchange	1,609	60,874
Interest income	(478,247)	(88,050)
	1,633,522	2,027,250

8. Income taxes

The Corporation is eligible to deduct for tax purposes a portion of its eligible capital cost allowance, and accordingly has no taxable income for the year. At April 30, 1991, the excess of undepreciated capital cost over net book value of property, plant and equipment amounted to $2,560,840 (1990—$2,702,432) which can be used to reduce future years' taxable income.

FRESHWATER FISH MARKETING CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
APRIL 30, 1991—*Concluded*

9. Remuneration to foreign agents

During the year, the Corporation paid an aggregate amount of $726,529 (1990—$766,964) to the following foreign sales agents: Frohman International, Juhl Brokerage Incorporation, Associated Marketing Services Inc., R.M. Sloan Co., G&G Food Sales Company, Benolken Brokerage Company, X. Sea. Lnt International Corp., Performance Foods, Bocar Enterprises, Great Lakes Marketing, McMahon & MacDonald Food Brokers, D.B. Clark Sales, Kohlman Sales Co.—U.S.; I. LeGrand H. Malo et Cie—France; Lejos Oy—Finland; AB.P. Jorgensen—Sweden; Rud Kanzow Gmbh & Co.—Germany.

10. Comparative figures

Certain of the comparative figures have been reclassified to conform to the current year's presentation.

GREAT LAKES PILOTAGE AUTHORITY, LTD.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of Great Lakes Pilotage Authority, Ltd. as at December 31, 1990 and the statements of operations, deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the Authority's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Pilotage Act and regulations, and the by-laws of the Authority.

GREAT LAKES PILOTAGE AUTHORITY, LTD.—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Authority and objectives

The Great Lakes Pilotage Authority was established in February 1972 pursuant to the Pilotage Act, incorporated as a limited company in May 1972, and is continued under the Canada Business Corporations Act. Pursuant to the Financial Administration Act, the Authority is a Crown corporation listed in Schedule III Part I thereto. The Authority is a subsidiary of The St. Lawrence Seaway Authority but is deemed to be a parent corporation within the meaning of the Financial Administration Act.

The objectives of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act provides that the pilotage tariffs shall be fair, reasonable and sufficient and together with any revenue from other sources, shall permit the Authority to operate on a self-sustaining financial basis.

The Authority is exempt from any income taxes.

2. Significant accounting policies

Parliamentary appropriations

Parliamentary appropriations received to finance the excess of expenditures over revenues are recorded in the year in which they are voted by Parliament. Any portion of the appropriations pertaining to operating expenditures is reflected in the statement of deficit. Any portion of the appropriations pertaining to the acquisition of fixed assets is recorded as contributed capital.

Amortization

Amortization of capital assets is calculated on a straight-line basis and is based on the estimated useful lives of the assets as follows:

Furniture and equipment	5 to 10 years
Buildings	20 years

Pension plan

All employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid.

Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees. The current liability reflects the accrued termination benefits of only those employees who have indicated their intention to terminate their employment within the coming year.

Employee life insurance plan

The Authority provides a life insurance plan for its employees. Surpluses and deficits from the plan are included in the Statement of Operations in the year in which they are incured.

3. Adjustment of prior year's loss

During the year a decision was made by a Board of Arbitration in favour of the Authority concerning a grievance filed by the pilots in 1987. Accordingly, accrued liabilities at December 31, 1989 have been reduced by $53,642, with an offsetting credit to the opening deficit for 1989.

4. Pension plan

Under provisions of the Pilotage Act, pilots who became employees of the Authority are entitled to count certain service prior to becoming an employee as pensionable under the Public Service Superannuation Act. For pilots who elect to purchase pension benefits with respect to past service as licensed pilots, the Authority is required to match the employee contribution. The estimated unfunded past service pension contribution with respect to these pilots and other employees under the pension plan was approximately $192,500 as of December 31, 1990 (1989—$203,000) and will be funded over the remaining years of service of the pilots, or the terms of purchase, whichever is the lesser.

Pension expense was $434,713 (1989—$443,521) including $31,511 (1989—$45,805) for past service contributions.

5. Commitments

The Authority has a lease agreement for the rental of office space. Future minimum rental payments are:

	$
1991	44,977
1992	47,213
1993	49,435
1994	4,135
	145,760

In addition, the Authority has contract commitments of approximately $180,000 for the land transportation service for the next year. Tenders have also been requested for pilot boat services for the next two years. Expenditures for these services were approximately $315,000 in 1990.

6. Parliamentary appropriation

The Authority is seeking a parliamentary appropriation of $1.4 million for the cash operating loss for 1990.

7. Comparative figures

Comparative figures have been reclassified to conform with the current year's presentation.

HALIFAX PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have audited the balance sheet of Halifax Port Corporation as at December 31, 1990, and the statements of income and surplus and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990, and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with the Financial Administration Act and regulations, the Canada Ports Corporation Act, and the by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990

1. In accordance with the Canada Ports Corporation Act, sections 6.1 and 6.2, a petition for the establishment of a local port corporation at the Port of Halifax was approved and the Halifax Port Corporation was established effective June 1, 1984.

   In accordance with the Canada Ports Corporation Act, the assets, liabilities and equity were transferred at their carrying values in the accounts of the Canada Ports Corporation—Port of Halifax to Halifax Port Corporation.

2. Significant accounting policies

   (a) Investments

   The investments, which are direct and guaranteed securities of Canada, are shown at amortized cost. Premiums or discounts are amortized over the periods to maturity.

   (b) Fixed assets

   Fixed assets are recorded at cost, except for those transferred to the Corporation from Canada, which are recorded at appraised or fair market value established at the time of transfer. Grants towards capital projects received from Canada and from third parties are deducted from the cost of the related fixed assets.

   Depreciation is calculated on the straight-line basis for the full year, commencing with the year the asset becomes operational, using rates based on the estimated useful lives of the assets.

   (c) Pension costs

   All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions for pensions are recognized in the accounts on a current basis.

   (d) Grants in lieu of municipal taxes

   The expense for grants in lieu of municipal taxes is based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

   (e) Employee benefits

   The Corporation accrues in its accounts, annually, the estimated liabilities for severance pay, annual leave, and overtime compensatory leave, which are payable to its employees in subsequent years under its collective agreements or in accordance with its policy.

5. Loans from Canada

	1990	1989
	$	$
10% loan maturing on December 31, 1996, repayable in blended annual principal and interest payments of $716,080	3,118,714	3,486,176
Less current portion repayable within one year	404,208	367,462
	2,714,506	3,118,714

The loans from Canada are unsecured.

6. Contributed capital

Under a deficit sharing initiative undertaken by the Government of Canada, the Corporation provided $2,940,000 during 1990 as a return on capital amounts previously contributed.

7. Contingent liabilities

(a) The Corporation has been named as one of the defendants in a lawsuit for damages for which the plaintiff has not quantified an amount. In the opinion of management this claim is without merit and therefore no provision has been made in the accounts.

(b) The Corporation has been assessed for approximately $625,000 grants in lieu of taxes in addition to the amounts provided for. In the opinion of management this assessment is not valid. The determination of additional amounts due, if any, is subject to the completion of a final audit and assessment by Public Works Canada, the outcome of which cannot be reasonably determined at this time.

8. Comparative figures

Certain of the 1989 comparative figures have been reclassified to conform with the financial statement presentation adopted for 1990.

HARBOURFRONT CORPORATION

AUDITORS' REPORT

TO THE MINISTER OF PUBLIC WORKS

We have examined the consolidated balance sheet of Harbourfront Corporation as at March 31, 1991 and the consolidated statements of operations, contributed capital and deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation and its subsidiaries that have come to our notice during our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Corporation and the management agreement dated June 13, 1980 as amended and renewed from time to time and expiring March 31, 1994.

HARBOURFRONT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991

1. The Corporation

Harbourfront Corporation (the "Corporation"), continued under the Canada Business Corporations Act December 21, 1984, is a parent Crown corporation listed under Part I of Schedule III to the Financial Administration Act. The share capital of the Corporation is held by Her Majesty the Queen in right of Canada ("Canada") as represented by the Minister of Public Works. The Corporation is exempt from corporate income tax.

2. Activities of the Corporation

The Corporation owns and operates, or operates on behalf of Canada, the Harbourfront site which totals approximately 100 acres and occupies a central position on the Toronto waterfront. The Corporation operates under a Management Agreement with Canada dated June 13, 1980, as amended and renewed from time to time, and expiring March 31, 1994. Title to the lands which comprise the Harbourfront site is held by Canada with the exception of parkland and public infrastructure conveyed to municipal governments and certain lands transferred to the Corporation by Canada.

In recent years, the Corporation has been the subject of a number of studies by various levels of government. In addition, regulatory restrictions have been placed from time to time on the development of Harbourfront lands. On December 13, 1989, the Province of Ontario imposed a development freeze on all of the Harbourfront lands and subsequently initiated a study on the future of the Corporation and the ultimate disposition of the Harbourfront site and the Corporation's activities. The results of this study were released in a report dated March 1990. The report recommended, among other things, the removal of three contemplated condominium projects from the south side of Queen's Quay West in exchange for rights to certain commercial and residential developments on the north side of Queen's Quay West, the conveyance of these south side properties to the City of Toronto as public space and the separation of the Corporation's programming activities from its land development activities.

In April 1990, the federal government appointed its representative to assess and make recommendations regarding the provincial report. The resulting report was completed and accepted by the federal government in November 1990. It proposed a reorganization of the Corporation into three entities. The first entity, a not-for-profit company to be known as Harbourfront Corporation (1990) ("Harbourfront '90"), would carry on the Corporation's existing public programming activities on a 10 acre site at Harbourfront. The second entity, a charitable foundation ("Harbourfront Foundation"), would be responsible for managing the funds generated on the disposition of the Corporation's remaining real estate assets and would make ongoing contributions from that fund to support the public programming activities of Harbourfront '90. The third entity would be the remaining Corporation after the assets and liabilities which were used exclusively in connection with public programming were transferred to Harbourfront '90.

The recommendations contained in the federal report are being implemented with the result that effective January 1, 1991 the public programming activities and related net assets of the Corporation were conveyed to Harbourfront '90 (Note 9). The Corporation's objective is to dispose of the remaining assets of the Corporation in an orderly fashion, transferring the resulting funds to the Harbourfront Foundation. Canada has agreed to reimburse the Corporation for the costs of the reorganization. Legislation providing for the sale of any or all assets and the dissolution of the Corporation was passed by the House of Commons on May 23, 1991. The report contemplates that for a three year period commencing January 1, 1991, the Corporation will make a financial contribution to Harbourfront '90 in the amount of $8,800,000 per annum. In the three months ended March 31, 1991, the Corporation made a contribution of $2,200,000 to Harbourfront '90.

As part of the implementation process, the Corporation is currently renegotiating certain existing development contracts and certain other agreements. The consequences of these negotiations have not been reflected in these consolidated financial statements.

3. Accounting policies

These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in Canada. The significant accounting policies of the Corporation are as follows:

(a) Basis of consolidation

These consolidated financial statements include the accounts of the Corporation and its subsidiaries.

(b) Revenue recognition

Revenues from commercial activities are recognized as the related services are provided.

(c) Development proceeds and costs

All development proceeds and costs directly attributable to a project are deferred until approval of the related development agreement is received from Canada, at which time, the proceeds are recorded, net of related development costs, as contributed capital. Development costs not attributable to a particular project are charged to contributed capital as incurred.

(d) Parkland and public infrastructure

Cost related to parkland and public infrastructure expected to be conveyed are deferred and charged to contributed capital when title is passed to the appropriate local or regional governments. All other public infrastructure costs are charged to contributed capital as incurred.

(e) Parliamentary appropriations

Parliamentary appropriations, made from time to time by Canada in its capacity as shareholder, are recorded as contributed capital.

(f) Contributions to Harbourfront '90

Capital and operating contributions to Harbourfront '90 are charged to contributed capital.

HARBOURFRONT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

(g) Capital assets

Capital assets are recorded at cost. Amortization is calculated on the straight-line basis over the estimated useful life of each asset. Transfers of land to the Corporation from Canada, required to facilitate certain development agreements, are recorded at a nominal cost.

4. Receivable from Canada

	1991	1990
	$	$
Deposit in the Harbourfront Capital Account	38,029	3,998,029
Interest receivable on the Harbourfront Capital Account	16,989	167,150
Cost of the reorganization	616,932	
	671,950	4,165,179

5. Deferred development costs

	1991	1990
	$	$
Deferred costs of projects under development	555,441	713,676
Deferred costs of parkland and public infrastructure	3,540,433	4,368,312
	4,095,874	5,081,988

6. Capital assets

	1991	1990
	$	$
Land and buildings	1	3,658,960
Equipment	651,335	2,468,032
	651,336	6,126,992
Less government grants and corporate sponsorship		3,459,110
	651,336	2,667,882
Less accumulated amortization	465,283	1,471,186
	186,053	1,196,696

7. Loan from Canada

Date of loan	Principal of loan	Interest rate	Maturity
	$	%	
January 10, 1991	2,200,000	10.46	January 10, 1996

The Corporation may borrow up to $3,700,000 for the year ended March 31, 1991 from the Consolidated Revenue Fund to fund its operations and its financial contributions to Harbourfront '90. Loans bear interest, payable semi-annually, at the Consolidated Revenue Fund lending rate established by the Minister of Finance at the time the funds are drawn. Borrowings are for terms not to exceed five years. Upon the disposition of any real property, the Corporation must, within fourteen days, use the net proceeds realized to repay the loans to the extent possible. Each loan is secured by a debenture of the Corporation in favour of the Receiver General for Canada. The Corporation may prepay the loan or any part thereof at any time without penalty upon fourteen days' prior notice.

Interest accrued to March 31, 1991 in the amount of $50,437 is included in accounts payable and accrued liabilities.

8. Share capital

As at March 31, 1991, the authorized share capital of the Corporation consists of 500,000 (1990—500,000) common shares without par value of which 215,500 (1990—215,500) shares are issued and fully paid for consideration of $1 (1990—$1).

9. Transferred activities

Responsibility for all public programming activities and the related net assets were transferred to Harbourfront '90 pursuant to the Asset Transfer Agreement dated December 31, 1990 between the Corporation and Harbourfront '90. The contributed capital of the Corporation has been reduced by the carrying value of the net assets transferred.

The significant accounting policies related to transferred activities are as follows:

(a) Revenue recognition

Revenues from public programming activities are recognized on performance of the related event. Revenues from public facilities are recognized as the related services are provided.

(b) Government funding and corporate sponsorship

Grants and sponsorship income are recorded as receivable when receipt is reasonably assured. Grants and sponsorship income are recognized as revenue on performance of the related event or over the period being funded, as appropriate. Grants and sponsorships related to specific capital projects are applied against the cost of those projects.

(c) Capital assets

Capital assets are recorded at cost, net of related government grants and corporate sponsorship. Amortization is calculated on the straight-line basis over the estimated useful life of each asset.

The net assets transferred to Harbourfront '90 include:

	$
Working capital	376,384
Capital assets	978,075
Investment in programming subsidiaries	143,949
	1,498,408

HARBOURFRONT CORPORATION—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

The results of public programming activities and costs of the reorganization to December 31, 1990 were:

	Nine months ended December 31, 1990	Year ended March 31, 1990
	$	$
Revenues		
Event admissions	1,690,112	2,105,798
Corporate sponsorships	1,472,807	2,619,971
Government grants	824,578	1 014,381
Other income	1,061,256	1,220,667

	12,532,094	15,521,180
Results for the period	(7,084,580)	(7,791,239)
Costs of the reorganization	(1,648,932)	
Transferred activities	(8,733,512)	(7,791,239)

10. Litigation

The Corporation is a defendant in a number of legal actions and, in a number of instances, has instituted counterclaims. In the opinion of management, these actions will not have a material adverse effect on the financial position of the Corporation.

11. Comparative figures

Certain of the 1990 financial statement balances presented for comparative purposes have been reclassified to conform to the current financial statement presentation.

12. Cumulative contributions by Canada

The following unaudited information has been supplied by the Department of Public Works:

	Fiscal 1972 to 1980	Fiscal 1981 to 1991	Total
	(in millions of dollars)		
Land acquisition	54.4		54.4
Operating and capital expenditures	21.5	7.2	28.7
Operating contributions		8.5	8.5
Development and land acquisition contributions		51.3	51.3
	75.9	67.0	142.9

Amounts contributed subsequent to fiscal 1980 represent expenditures pursuant to the Management Agreement between the Corporation and Canada.

INTERNATIONAL CENTRE FOR OCEAN DEVELOPMENT

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the International Centre for Ocean Development and all information in this annual report are the responsibility of management and have been approved by the Board of Directors.

The financial statements have been prepared in accordance with accounting principles which are generally accepted in Canada and which have been consistently applied. Financial information presented elsewhere in the annual report is consistent with that contained in the financial statements.

In discharging its responsibility for the integrity and fairness of the financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained. In addition, the Audit and Evaluation Committee of the Board oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

The independent auditor, the Auditor General of Canada, is responsible for auditing the financial statements and for issuing his report thereon.

Gary C. Vernon
President

AUDITOR'S REPORT

TO THE MINISTER FOR EXTERNAL RELATIONS

I have audited the balance sheet of the International Centre for Ocean Development as at March 31, 1991 and the statements of operations, surplus and changes in financial position for the year then ended. These financial statements are the responsibility of the Centre's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Centre as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Centre that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the International Centre for Ocean Development Act, and the by-laws of the Centre.

Raymond Dubois, FCA

INTERNATIONAL CENTRE FOR OCEAN DEVELOPMENT—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and objectives

The International Centre for Ocean Development was established by the International Centre for Ocean Development Act in 1985 as a Crown corporation without share capital, named in Part I of Schedule III to the Financial Administration Act and is exempt from the provisions of the Income Tax Act. The Centre is dependent on the Government of Canada for operating appropriations.

The objectives of the Centre are to initiate, encourage and support cooperation between Canada and developing countries in the field of ocean resource development by:

(a) initiating and supporting programs in developing countries for the improved management and utilization of ocean resources, particularly as a source of food;

(b) supporting the development of indigenous expertise and institutions in developing countries in order to increase the capacity of developing countries in integrated ocean use management;

(c) enlisting the expertise of people and institutions in Canada, developing countries and elsewhere;

(d) developing and sponsoring the collection and dissemination of information relating to ocean resource development;

(e) developing and sponsoring training programs, technical assistance and advisory services relating to ocean resource development; and

(f) supporting research relating to ocean resource development.

2. Significant accounting policies

The financial statements reflect the following policies:

(a) Capital expenditures

Purchases of equipment, office furniture, and costs of leasehold improvements are expensed in the year of acquisition.

(b) Parliamentary appropriations

Parliamentary appropriations are recorded in the Statement of Surplus for the year to which they apply.

(c) Project expenditures

The Centre enters into agreements with third parties to undertake projects. Project expenditures are charged to operations when disbursed and as they become due under the terms of the contractual agreement.

(d) Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required equally from the employees and the Centre. These contributions represent the total liability of the Centre and are recognized in the accounts on a current basis.

(e) Foreign currency translation

Monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date. Foreign administrative expenses are translated using the weighted average of exchange rates in effect at the date of transfer to the Centre's foreign office. The resulting foreign currency translation gains and losses are included in the results of operations.

(f) Recognition of recoveries

Revenue in respect of projects is recognized at the time the related expenses are incurred. Revenues received in excess of expenses are included in current liabilities.

3. Parliamentary appropriation

The Government of Canada approved a parliamentary appropriation in the amount of $12,300,000 and the Centre utilized $12,200,000 which was the result of an $100,000 expenditure reduction determined by the Centre pursuant to a request from the Priorities and Planning Committee of Cabinet.

4. Contributed surplus

Pursuant to the approval of the Minister for External Relations, the contributed surplus of $54,227 has been transferred to surplus, effective March 13, 1989. Contributed surplus represented the net book value of assets contributed to the Centre by the predecessor, non-government organization, International Centre for Ocean Development.

5. Operating leases

The Centre has entered into various operating lease arrangements for office premises and equipment. The future minimum lease payments are as follows:

Year ending March 31	$
1992	468,480
1993	477,367
1994	477,727
1995	467,884
1996	446,371
	2,337,829

6. Contractual commitments

The Centre approved or has committed by agreement to the following project expenditures, subject to the execution of contractual documents or compliance by recipients with the terms of their agreements.

Year ending March 31	$
1992	6,330,459
1993	4,484,899
1994	1,844,840
1995	1,264,670
1996	786,100

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE

AUDITOR'S REPORT

TO THE INTERNATIONAL DEVELOPMENT RESEARCH CENTRE
AND THE
SECRETARY OF STATE FOR EXTERNAL AFFAIRS

I have audited the balance sheet of the International Development Research Centre as at March 31, 1991 and the statements of operations, equity and changes in the financial position for the year then ended. These financial statements are the responsibility of the Centre's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards in Canada, conforming with International Auditing Guidelines. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. The audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Centre as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards.

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE—*Continued*

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1991

1. Authority and objective

The International Development Research Centre, a Corporation without share capital, was established in 1970 by the Parliament of Canada through the International Development Research Centre Act. The annual grant received from the Parliament of Canada is pursuant to External Affairs Vote 60 and 50 for the years ended March 31, 1991 and 1990 respectively.

The objective of the Centre is to initiate, encourage, support, and conduct research into the problems of the developing regions of the world and into the means for applying and adapting scientific, technical, and other knowledge to the economic and social advancement of those regions.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles, conforming with International Accounting Standards, and reflect the following significant accounting policies.

Property and equipment

Property and equipment are recorded at cost and amortized over their estimated useful lives. Leasehold improvements are amortized over the terms of the respective leases. The methods and rates used to provide for the amortization of property and equipment are:

	Method	Rate(%)
Computer equipment	Straight-line	20
Leasehold improvements	Straight-line	5-50
Office furniture and equipment	Diminishing balance	20
Vehicles	Diminishing balance	30
Telephone system	Straight-line	20

Recognition of revenue

Parliamentary grants are recorded as revenue on an accrual basis.

Revenue in respect of contract research is recognized at the time the related project expenses are incurred. Contract research funds received in excess of expenses are included in current liabilities.

Accrued employee separation benefits

Employees are entitled to specified termination benefits, calculated at salary levels in effect at the time of separation as provided for by conditions of employment. The liability for these benefits is recorded as the benefits accrue to employees.

Deferred rent

Any rent-free period or other benefits associated with long-term leases are deferred and amortized over the term of the lease on a straight-line basis.

Pension costs

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from the employees and the Centre. These contributions represent the total liability of the Centre and are recognized in the accounts on a current basis.

Income taxes

The Centre is exempt from any liability for income taxes.

Foreign-currency translation

Foreign-currency transactions are translated into Canadian dollars by the use of an average exchange rate that closely approximates the rate in effect at the transaction date. Monetary assets and liabilities are adjusted to reflect the rate of exchange in effect at year-end. Exchange gains and losses are included in operations for the current year.

3. Cash and short-term deposits

	1991	1990
	$	$
Cash (bank overdraft)	(465,070)	(659,105)
Short-term deposits		
Canadian banks	8,530,333	11,648,255
Commercial companies	6,754,895	
Foreign-owned banks	2,074,156	2,151,598
Federal and Provincial governments		974,930
	16,894,314	14,115,678

4. Property and equipment

	1991			1990
	Cost	Accumulated amortization	Net	Net
	$	$	$	$
Computer equipment	5,818,074	2,767,285	3,050,789	3,021,759
Office furniture and equipment	1,844,228	1,141,245	702,983	692,713
Leasehold improvements	1,303,313	518,161	785,152	988,617
Vehicles	984,160	571,597	412,563	636,771
Telephone system	833,577	753,387	80,190	137,979
	10,783,352	5,751,675	5,031,677	5,477,839

Amortization for the year amounted to $1,374,701 (1990, $1,322,278).

5. Endowment funds

In 1987, the estate of the late John Bene established a fund to provide a postgraduate fellowship in the field of social forestry. During the same year, a former member of the Board of Governors of the Centre established a fund for applied or mission-oriented research. Last year, the Centre received a contribution from the V International Conference on AIDS (acquired immune deficiency syndrome), which was used to establish a fund for the purpose of AIDS research in the Third World.

	1991	1990
	$	$
Balance at the begining of the year	433,475	165,441

Total endowment funds	293,041	433,475

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE—*Concluded*

NOTES TO FINANCIAL STATEMENTS AS AT MARCH 31, 1991—*Concluded*

6. Accounts payable and accrued liabilities

	1991	1990
	$	$
Accrued liabilities—Projects	6,686,751	6,983,667
Accrued annual and other leave benefits	1,472,304	1,390,149
Other	2,066,772	2,930,009
	10,225,827	11,303,825

7. Contract research

Contract research relates to research conducted or managed by the Centre and to the V International Conference on AIDS organized by the Centre. These are funded by other international agencies, the Canadian International Development Agency (CIDA), and other federal government entities.

Contract research expenses of $5,133,337 (1990, $9,276,881) include $4,681,921 (1990, $2,909,740) expended on behalf of CIDA. In addition, the Centre received $146,646 (1990, $49,971) as an administration fee from CIDA, which is included in investment and other income.

Contract research current liabilities of $650,181 (1990, $1,426,291) include $139,266 (1990, nil) related to AIDS activities. Contract research liabilities do not include any amounts related to CIDA activities (1990, $1,043,422), rather, receivables of $264,676 related to contract research activities on behalf of CIDA have been included in accounts receivable in 1991.

8. Operating leases

The Centre has entered into various lease arrangements for office premises, equipment, and staff accommodation in Canada and in various countries. The total annual payments under such lease arrangements will be:

Year ending March 31	$
1992	6,194,140
1993	5,500,868
1994	5,051,369
1995	5,005,147
1996	5,046,551
1997-2000	8,520,433
	35,318,508

9. Contractual commitments—Project grants and program development

The Centre is committed to make payments up to $105.2 million during the next 4 years subject to funds being provided by Parliament and subject to compliance by recipients with the terms of project agreements. The Centre has also submitted formal grant offers to prospective recipients totaling $14.8 million and is awaiting acceptance of these offers.

LAURENTIAN PILOTAGE AUTHORITY

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of Laurentian Pilotage Authority as at December 31, 1990 and the statements of operations, contributed capital, deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the Authority's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Pilotage Act and regulations and the by-laws of the Authority.

Raymond Dubois, FCA
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada
February 8, 1991

LAURENTIAN PILOTAGE AUTHORITY—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Authority and activities

The Laurentian Pilotage Authority was established in February 1972 under the Pilotage Act. Its objectives are to establish, operate, maintain and administer in the interests of safety an efficient pilotage service within certain designated Canadian waters in and around the Province of Quebec. The Act provides that pilotage tariffs shall be fair and reasonable and assure a revenue which, together with any revenue from other sources, is sufficient to permit the Authority to operate on a self-sustaining basis.

The Authority is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

2. Significant accounting policies

Capital assets

Capital assets obtained from Canada when the Authority was established were recorded at the then assigned values. Capital assets purchased subsequently by the Authority are recorded at cost.

Capital assets are amortized using the straight-line method, at rates based on the estimated useful lives of the assets.

Contributed capital

The values assigned to the capital assets obtained from Canada when the Authority was established and the net cost of capital assets financed from parliamentary appropriations are recorded as contributed capital.

Parliamentary appropriations

Parliamentary appropriations received to finance the excess of expenditures over revenues are recorded in the year in which they are voted by Parliament, to contributed capital for that portion pertaining to the acquisition of capital assets and to the deficit for that pertaining to operations. In this respect, operating expenditures include only those which require an outlay of funds.

Pension plan

Employees participate in the Superannuation Plan administered by the Government of Canada. The employees and the Authority contribute equally to the cost of the Plan. This contribution represents the total liability of the Authority. Contributions in respect of current service and of admissible past service are expensed when paid. The terms of payment of past service contributions are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

3. Capital assets

Details of capital assets are as follows:

	1990			1989
	Cost	Accumulated amortization	Net	Net
	$	$	$	$
Land	9,300		9,300	9,300
Buildings	38,056	27,156	10,900	9,335
Pilot boats	1,417,538	1,165,014	252,524	349,902
Furniture and fixtures	181,425	99,582	81,843	68,580
Communications equipment	159,852	118,182	41,670	42,432
Boarding facilities	223,634	161,308	62,326	68,944
Wharf improvements	169,033	84,516	84,517	92,968
Leasehold improvements	82,059	82,059		1,368
	2,280,897	1,737,817	543,080	642,829

Amortization for the year is $157,434 ($166,601 in 1989).

The estimated useful lives for the principal categories of capital assets for the purposes of calculating amortization are as follows:

Buildings	10 years
Pilot boats	10 and 15 years
Furniture and fixtures	10 years
Communications equipment	10 years
Boarding facilities	10 and 20 years
Wharf improvements	20 years
Leasehold improvements	duration of the leases

4. Parliamentary appropriation

In the Estimates for 1990-91, the Parliament approved an appropriation of $ 375,000 to cover the Authority's cash deficit for the year 1990. On February 6, 1991, the Treasury Board approved an appropriation up to $2 million in the Supplementary Estimates for 1990-91 to cover the balance of the Authority's cash deficit for the year 1990.

5. Contingencies

In connection with its operations, the Authority is the claimant or defendant in certain pending claims and lawsuits. It is the opinion of Management that these actions will not result in any material liabilities to the Authority.

6. Comparative financial data

Certain amounts pertaining to the fiscal year ended December 31, 1989, have been reclassified to conform with the presentation adopted for the fiscal year ended December 31, 1990.

MARINE ATLANTIC INC.

MANAGEMENT RESPONSIBILITIES FOR FINANCIAL REPORTING

The consolidated financial statements presented in this annual report are the responsibility of Marine Atlantic Inc.'s management. They have been approved by its board of directors.

Management prepared the consolidated financial statements in accordance with generally accepted accounting principles in Canada. The financial information contained in the annual report is consistent with the data presented in the financial statements.

Marine Atlantic Inc. maintains books of account, systems of information, systems of financial and management control, as well as a comprehensive internal audit program which provide reasonable assurance that accurate financial information is available, that assets are protected, that resources are managed efficiently, and that transactions are conducted in accordance with relevant legislation and the Corporation's articles of incorporation and by-laws.

The board of directors oversees internal audit activities through its audit committee. The committee reviews matters related to accounting, auditing, internal control systems, and the financial statements and annual report of the independent external auditors.

D.J. Weaver
Vice-President Finance and Administration

Terry W. Ivany
President and Chief Executive Officer

AUDITORS' REPORT

TO THE MINISTER OF TRANSPORT

We have audited the consolidated balance sheet of Marine Atlantic Inc. as at December 31, 1990 and the consolidated statements of earnings, deficit and changes in financial position for the year then ended. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation and of its wholly-owned subsidiaries that have come to our notice during our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Marine Atlantic Inc. Acquisition Authorization Act and the articles of incorporation and by-laws of the Corporation and its wholly-owned subsidiaries.

MARINE ATLANTIC INC.—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990
(in thousands of dollars)

1. Nature of operations and authority

The Marine Atlantic Inc. Acquisition Authorization Act was proclaimed in 1986. In accordance with the Act, the Corporation's articles restrict the business that it may carry on to the acquisition, establishment, management and operation of a marine transportation service, a marine maintenance repair and refit service, a marine construction business and any service or business related thereto. Marine Atlantic Inc. is a Crown corporation listed in Schedule III, Part I of the Financial Administration Act and is not subject to income tax under the provisions of the Income Tax Act.

The Corporation's activities are also governed by agreements negotiated with the Government of Canada. The agreements provide, among other things, for the Corporation to receive contract revenues from the Government of Canada to the extent that the estimated cost of providing ferry, coastal, terminal and water services is not recovered from estimated commercial revenues. In addition, and subject to parliamentary appropriations, amounts are received to finance the acquisition of fixed assets on a proven cash needs basis. The allocation of funds received in respect of contract revenue and the acquisition of fixed assets are subject to approval by the Minister of Transport. As a result, the Corporation is economically dependent on the Government of Canada for the funds it receives through these arrangements.

2. Significant accounting policies

(a) Consolidation

These consolidated financial statements include the accounts of the Corporation and its wholly-owned subsidiary, Coastal Transport Limited. All intercompany transactions between the parent company and Coastal Transport Limited have been eliminated in these consolidated financial statements. (See also Note 5 concerning Newfoundland Dockyard Corporation).

(b) Inventory of fuel and supplies

Inventories are valued at the lower of cost and replacement cost. Cost is determined on a weighted-average basis.

(c) Property, plant and equipment

Property, plant and equipment are carried at the cost to acquire them less accumulated depreciation. Due to a change in funding arrangements with the Corporation's shareholder in 1986, and as explained further in Note 6, a provision for those capital costs not considered recoverable from future revenue sources has been made.

(d) Depreciation

Depreciation is calculated at rates sufficient to write off fixed assets over their estimated useful lives generally on a straight line basis. The rates for significant classes of assets are as follows:

Vessels	5%
Terminal properties	2.5%
Equipment	10%, 12.5% and 25%
Leasehold improvements	lesser of 5 years or term of lease

(e) Deferred charges

Deferred charges are accounted for at cost less accumulated amortization. They are being amortized to income on a straight line basis over periods not exceeding 60 months.

(f) Government contract revenue and government contract revenue—Accrued

(i) Revenues received under contract to provide ferry service to Atlantic Canada are based on operating budgets approved by the Government of Canada for each year and are included in income in the year received to fund operating expenses in excess of commercial revenues.

(ii) Revenue for vacation pay, vessel refits and separation benefits is accrued to the extent that the amounts are reasonably assured of being recovered from future contract revenue.

(g) Capital assistance

Amounts received or receivable from the Government of Canada, under the Capital Funding Agreement, to finance the acquisition of fixed assets are recorded in the Provision for Capital Assistance in the year in which the related fixed assets are capitalized, and are amortized to income on the same basis and over the same periods as the related fixed assets are depreciated.

In management's opinion, the amounts received under the Capital Funding Agreement represent general capital assistance funds, not equity contributions from the Government of Canada as shareholder.

(h) Foreign currency translation

Monetary assets and liabilities denominated in a foreign currency are translated at exchange rates in effect at the year end. Gains and losses arising on translation are included in net earnings. Other assets and liabilities, revenues and expenses are translated using exchange rates in effect at the date of the transaction.

(i) Employee compensation

(i) Pension plans

Substantially all of the Corporation's employees are covered by a defined benefit retirement plan. Pension costs related to benefits earned by employees in the current year are charged to income. The value of the accrued pension benefits for services rendered to December 31, 1990, of $276,000, has been determined by the Corporation's actuaries using best estimate assumptions provided by management. The pension fund assets of $245,000 as at December 31, 1990 have been valued using market related values calculated on a basis whereby they will be adjusted to market values over a moving 5 year average.

The Canadian National Railway pension plan pays pension benefits to retired employees who worked for the predecessor organizations to Marine Atlantic Inc. Canadian National Railway has claimed $12,800 from Marine Atlantic Inc. due to improvements in benefits to these retirees. Marine Atlantic Inc. disputes the amount of the liability and thus it is not reflected in the Marine Atlantic Inc. unfunded pension liabilities.

MARINE ATLANTIC INC.—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Continued*

The net deficiency for the plan at January 1, 1989, the date of last actuarial evaluation, is being amortized on a straight line basis over the estimated average remaining service lives of the related employee group.

(ii) Personal injury costs

Certain employees, retired as a result of injury, receive specified pension benefits. The Corporation recognizes the benefit payouts as an expense in the year paid.

(j) Vessel spare parts

The Corporation maintains spare parts for vessels in service. The cost of spare parts is charged to operations in the year the purchase is made.

3. Accounts receivable, Government of Canada

(a) Capital assistance receivable, Government of Canada

Under contractual terms contained in the Corporation's Capital Funding Agreement, the Corporation receives payments against its approved capital budget in installments calculated in reference to its monthly working capital deficiency or cash requirements. The amount receivable at December 31, 1990 represents a charge to the Government of Canada for funds previously approved under the Capital Funding Agreement.

(b) Accrued revenue, Government of Canada

Revenue for vacation pay, vessel refits and separation benefits in the amount of $20,104 is accrued pursuant to the accounting policy described in Note 2(f)(ii).

(c) Account receivable, Government of Canada

On January 29, 1991, Treasury Board approved operational funding for the Newfoundland Dockyard Corporation, a subsidiary of Marine Atlantic Inc. The funding, subject to approval by Parliament, will be paid to Marine Atlantic Inc. and has been recorded as a receivable from the government and a payable to Newfoundland Dockyard Corporation.

4. Property, plant and equipment and deferred charges

	1990			1989
	Cost	Accumulated depreciation and amortization	Net book value	Net book value
Vessels	431,433	108,485	322,948	194,447
Terminal properties	94,795	26,310	68,485	71,058
Equipment	17,040	11,744	5,296	5,555
Leasehold improvements	266	128	138	140
	543,534	146,667	396,867	271,200
Assets under construction	12,745		12,745	151,881
	556,279	146,667	409,612	423,081
Deferred charges	6,555	4,953	1,602	2,955
	562,834	151,620	411,214	426,036

5. Discontinued operation

On instructions of the Minister of Transport, dated January 11, 1991, the Corporation has prepared a formal plan to dispose of a subsidiary, the Newfoundland Dockyard Corporation. This subsidiary is engaged in the ship repair business. Approval by the Minister of the actual privatization method is expected in April 1991. Accordingly, the subsidiary is not being consolidated. The investment in the subsidiary is accounted for at the lower of the net realizable value and the carrying value of the investment using the equity method. The comparative figures have been restated to reflect the application of the equity method.

Newfoundland Dockyard Corporation had been subject to an Agreement with the Government of Canada which had provided it with subsidies to cover operating losses up to $10,000. Operating losses of the subsidiary exceeded the funding limit by $7,752 (1989—$2,584). Capital assistance was also provided on a proven cash needs basis. The Agreement expired on March 31, 1990. On January 29, 1991, the Treasury Board approved up to $9,600 to cover operating losses of the subsidiary to March 31, 1991 which will be paid to the Corporation. Marine Atlantic Inc. will pay amounts to Newfoundland Dockyard Corporation once they have been received from the Government of Canada. The Corporation has recorded an amount of $7,752 as due from the Government of Canada. Funding toward current losses from operations of the subsidiary in the amount of $5,168 has been applied to reduce the loss from discontinued operations and the balance of $2,584 related to 1989 is reflected as a contribution toward the reduction of the Corporation's deficit.

The results of the subsidiary's operations are as follows:

	1990	1989
Revenue	12,941	17,491
Operating expenses	18,336	23,503
	(5,395)	(6,012)
Government assistance	5,168	3,166
Loss from discontinued operation	(227)	(2,846)
Funding contribution to reduce deficit	2,584	
Increase (decrease) in investment in subsidiary	2,357	(2,846)

Newfoundland Dockyard Corporation had sales to the parent company of $3,600 in 1990 (1989—$1,500).

MARINE ATLANTIC INC.—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Concluded*

The amounts of the assets and liabilities of the subsidiary at December 31, which are not consolidated, are summarized as follows:

	1990	1989
Current assets	3,318	5,250
Funding contribution due from parent	7,752	
Capital assistance due from parent	272	
Property, plant and equipment	9,005	9,300
	20,347	14,550
Less		
Bank indebtedness	8,471	4,169
Current liabilities	1,752	2,582
Provisions for capital assistance	2,735	3,039
Long-term debt	8,065	8,065
	21,023	17,855
Losses of subsidiary in excess of the cost of the investment	676	3,305

The results of the subsidiary's change in cash position are as follows:

	1990	1989
Cash provided by (used in)		
Operations		
Loss from discontinued operation	(227)	(2,846)
Depreciation, which does not involve cash	261	263
Change in non-cash operating working capital	(6,920)	1,933
	(6,886)	(650)
Financing		
Amounts due from parent for capital projects	272	
Due from parent—Cash deficit	2,584	
Ministry of Transport capital contribution		1,220
Proceeds on disposal of property and equipment		176
	2,856	1,396
Investment		
Expenditures on property and equipment	(272)	(1,220)
Decrease in cash from discontinued operation	(4,302)	(474)
Cash position, beginning of year	(4,169)	(3,695)
Cash position, end of year	(8,471)	(4,169)

6. Provision for capital assistance

In accordance with changes in 1986 in the contractual funding agreements, future depreciation and amortization on those fixed assets and deferred charges acquired prior to January 1, 1987, and which had substantially been financed through the issue of capital stock, were no longer recoverable under contracts with the Government of Canada. Management considers it unlikely that the Corporation will generate sufficient commercial revenue to recover these costs. Accordingly, in 1986 management provided $290,600 as an adjustment to retained earnings. This provision for capital assistance is reduced as the related assets are depreciated, amortized or upon their disposition. The provision for capital assistance is also charged annually with amounts received or receivable from the Government of Canada to finance the acquisition of fixed assets (see Note 2(g)).

7. Commitments and contingencies

(a) The total amount required to complete contracted fixed assets under construction at December 31, 1990 is estimated to be $8,700 (1989—$6,000).

(b) The Corporation is in receipt of claims, an estimated $542 of which is in litigation and another $752 of which has not yet reached litigation; however any final determination as to the Corporation's exposure is presently unknown. Other legal actions are also outstanding and it is the opinion of management that the outcome of these actions will not have a material adverse effect on the Corporation's financial position.

(c) The Corporation makes use of property which is available through operating leases. The minimum lease payments are as follows: 1991—$979; 1992—$979; 1993—$979; 1994—$985; 1995—$622.

(d) The Corporation charters vessels to complement its existing fleet. The minimum vessel charter payments are as follows: 1991—$2,670; 1992—$1,192; 1993—$1,192.

8. Adjustments to prior years

During the year, the Corporation received $1,370 as settlement of a claim against the builder of one of the Corporation's vessels. The amount has been applied to reduce the opening deficit for the 1989 comparative year.

The opening deficit for 1990 has been increased by $523 to reflect additional sales taxes assessed to the Corporation in respect of the years 1984 to 1989. Of the amount reassessed, $105 relates to 1989 and has been charged to income for that year. The remaining amount of $418 is applicable to years prior to January 1, 1989 and the deficit at that date has been increased accordingly.

A loss on disposal of equipment of $814 previously reflected in 1989 earnings has subsequently been determined to relate to an asset with no carrying value at the date of disposal. As a result, earnings for 1989 have been increased and the opening deficit for 1990 has been decreased by $814.

9. Comparative figures

Certain comparative figures have been restated to conform with the presentation adopted for 1990.

MONTRÉAL PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have audited the consolidated balance sheet of Montréal Port Corporation as at December 31, 1990 and the consolidated statements of earnings, retained earnings, contributed capital and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles.

Furthermore, in our opinion, the transactions of the Corporation that have come under our notice in the course of our examination of the consolidated financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and with the charter and by-laws of the Corporation.

MONTRÉAL PORT CORPORATION—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990

1. Description of business

The Montréal Port Corporation (the Corporation) was incorporated by letters patent in accordance with subsection 6.2(1) of the Canada Ports Corporation Act on July 1, 1983.

Under section 6.5 of the same Act, on the establishment of a local port corporation, all rights, obligations and liabilities of the Canada Ports Corporation in relation to that harbour shall become rights, obligations and liabilities of the local port corporation and the administration of all such property and works within the limits of that harbour administered by the Board shall be deemed to have been transferred to the local port corporation, in this case the Corporation.

The Corporation holds an investment in a wholly-owned subsidiary, 176422 Canada Inc., which is consolidated.

2. Accounting policies

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles and include the following significant accounting policies:

(a) Investments

Investments are shown at amortized cost, with premiums or discounts amortized over their periods to maturity.

(b) Materials and supplies

Materials and supplies are valued at the lower of cost and replacement cost. Cost is determined substantially on average cost.

(c) Property, plant and equipment

Fixed assets are recorded at original cost with related accumulated depreciation transferred from Canada Ports Corporation; subsequent acquisitions are recorded at cost.

Depreciation is calculated according to the straight-line method for the full year, commencing in the year the asset becomes operational, using rates based on the estimated useful lives of the assets.

(d) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employees and the Corporation. These contributions represent the total liability of the Corporation and are recognized in the accounts on a current basis.

(e) Grants in lieu of municipal taxes

Grants in lieu of municipal taxes are based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(f) Employee benefits

The Corporation accrues in its accounts the estimated liabilities for severance pay, annual leave, sick leave and overtime compensatory leave, which are payable to its employees in subsequent years under collective agreements, or in accordance with Corporation policy.

3. Investments

Funds are invested in Government of Canada direct securities and guaranteed by the Government of Canada. As at December 31, 1990, the market value of the short-term investments is equivalent to their amortized cost, and market value of long-term investments is $35,135,092 ($43,868,057 in 1989).

4. Property, plant and equipment

	1990			1989
	Depreciation rates	Cost	Accumulated depreciation	Net book value	Net book value
	%	(in thousands of dollars)

		327,012	158,087	168,925	156,989

*As at December 28, 1990, the Corporation purchased the port operations of a mining company. The purchase price was $15,250,000 cash included in acquisition for expansion. The acquisition was accounted for by the purchase method, and the results of operations will be included in the consolidated financial statements as of January 1, 1991, the effective date of transfer of the operations.

MONTRÉAL PORT CORPORATION—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Concluded*

5. Accounts payable and accrued liabilities

	1990	1989
	(in thousands of dollars)	
Special contribution to Canada	12,325	
Current portion of loans from Canada	460	432
Deferred revenues	828	632
Other	8,115	7,053
	21,728	8,117

6. Loans from Canada

	1990	1989
	(in thousands of dollars)	
Loans, 6.25% payable to 2000 in annual installments of $842,561 including interest	6,129	6,561
Current portion	460	432
	5,669	6,129

Principal repayment requirements over the next five years amount to:

	(in thousands of dollars)
1991	459,528
1992	488,249
1993	518,765
1994	551,187
1995	585,636

7. Changes in non-cash operating working capital items

	1990	1989
	(in thousands of dollars)	
Accounts receivable	(766)	(1,415)
Materials and supplies	11	(68)
Accounts payable and accrued liabilities	1,258	(2,162)
Grants in lieu of municipal taxes	2,150	(1,566)
	2,653	(5,211)

8. Contingencies

Claims aggregating approximately $3,000,000 in respect of lawsuits, guarantees and damages allegedly suffered on the Corporation property and sundry legal matters in dispute have been made against the Corporation but are not reflected in the accounts. In the opinion of the Corporation, its position is defensible and the final outcome of such claims should not result in any material loss.

9. Commitments

(a) Contractual obligations for the completion, construction and purchase of fixed assets are estimated at $689,000.

(b) In accordance with a Government of Canada policy concerning payment of dividends, the Corporation would be required to pay a dividend, in respect of the 1990 fiscal year, based on a method of calculation using net earnings. This dividend, payable before March 31, 1991, would amount to approximately $2,700,000 and would be applied against retained earnings.

10. Related party transactions

In the ordinary course of business, the Corporation enters into transactions with related parties, including the Government of Canada, its agencies and other Crown corporations.

The Corporation derives revenues from related parties principally from grain warehousing and switching charges. The expenses paid to related parties are principally administration fees.

NATIONAL ARTS CENTRE CORPORATION

AUDITOR'S REPORT

TO THE CHAIRMAN OF THE BOARD OF TRUSTEES
NATIONAL ARTS CENTRE CORPORATION

I have examined the balance sheet of the National Arts Centre Corporation as at August 31, 1990 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at August 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Raymond Dubois, FCA

NATIONAL ARTS CENTRE CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 1990

1. Objectives and operations

The objectives of the Corporation are: to operate and maintain the National Arts Centre; to develop the performing arts in the National Capital Region; and to assist the Canada Council in the development of the performing arts elsewhere in Canada.

In furtherance of its objectives, the Corporation may arrange for and sponsor performing arts activities at the Centre; encourage and assist in the development of performing arts companies resident at the Centre; arrange for or sponsor radio and television broadcasts and the showing of films in the Centre; provide accommodation at the Centre, on such terms and conditions as the Corporation may fix, for national and local organizations whose objects include the development and encouragement of the performing arts in Canada; and, at the request of the Government of Canada or the Canada Council, arrange for performances elsewhere in Canada by performing arts companies, whether resident or non-resident in Canada, and arrange for performances outside Canada by performing arts companies resident in Canada.

With a view to achieving the objectives, Her Majesty demised and leased the National Arts Centre building complex to the Corporation for a period expiring May 31, 1991. Under the terms of the lease, the Corporation is responsible for maintenance and operation of the building complex, but is not required to pay for the use of the complex.

2. Significant accounting policies

(a) Short-term investments

Short-term investments are carried at cost which approximates market value.

(b) Grants

Grants are recorded as revenue in the year in which the grantors make firm commitments to the Corporation.

(c) Inventories

Inventories are valued at the lower of cost and net realizable value for food and beverages or replacement cost for production materials and supplies.

(d) Programmes in progress

Direct costs, including advances to performing companies and artists, incurred prior to the end of the year for programmes in progress are deferred and charged to expenses in the year in which the programmes terminate. Indirect costs and common services not attributable to particular performances are charged to expenses in the year in which they are incurred.

(e) Fixed assets

Fixed assets used in the operations, other than the NAC complex, are recorded at cost. Depreciation and amortization are calculated on the straight-line method, as follows:

Building—L'Atelier	20 years
Equipment	5 and 7 years
Equipment under capital lease	5 and 7 years
Leasehold improvements	10 years

The NAC complex is leased by the Corporation at no cost, no depreciation or amortization is taken.

(f) Deferred revenue

Revenue from tickets sold prior to the end of the year for programmes in progress is deferred and credited to revenue in the year in which the programmes terminate. Revenue from gift certificates and exchange vouchers is deferred until the certificates and vouchers are redeemed. Gift certificates and exchange vouchers not redeemed within three years of the year of their issuance are credited to revenue. A percentage of those less than three years old is also credited to revenue.

(g) Operating expenses

Expenses relating to performing arts programmes and commercial services do not include costs relating to building and equipment maintenance, utilities and administrative services. The costs relating to furniture and equipment that are not capitalized are included as expenses of operations of the buildings and commercial services.

(h) Pension plan

Employees of the Corporation participate in the Public Service Superannuation plan, administered by the Government of Canada. Contributions to the plan are required by both the employees and the Corporation on an equal basis. The Corporation's contributions represent the Corporation's total obligation and are recorded as they become due.

(i) Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees under the respective terms of employment.

(j) Parliamentary appropriations

The parliamentary appropriation for operations, received during the period April 1 to August 31, is in respect of the Government of Canada's fiscal year ending on March 31 of the following year. The Corporation credits to surplus each month one-twelfth of the approved appropriation. Accordingly, of the amount received to August 31, the amount received is in excess of 5/12ths of the appropriation is deferred to the following year. In the event that the amount received is less than 5/12ths of the appropriation, the difference is recorded as a receivable.

The parliamentary appropriation received for major capital projects is deferred until used. An amount equal to the cost of the projects incurred during the year is deducted from the deferred parliamentary appropriation.

Received during the year	(16,100,000)	(15,984,000)
Receivable at end of year	529,583	285,250

7. Commitments

As at August 31, 1990, commitments for operating and capital leases, with terms of more than one year, amounted to $696,536. Future minimum payments under these arrangements are payable as follows:

Year ending August 31	$
1991	318,959
1992	234,770
1993	70,061
1994	70,061
1995	1,685
	695,536

Furthermore, the NAC entered into an agreement with a ticket sales agency. The agreement extends to 1996. Payments are based on the number of tickets sold; there are no minimum payments.

8. Related party transactions

In addition to the rental of the NAC complex, provided free of charge by the Government of Canada, the Corporation receives audit services without charge from the Office of the Auditor General of Canada.

During the year, in the normal course of business, the Corporation incurred expenses totalling $935,523 (1989—$794,231) for utility, ground maintenance, snow removal and telephone services provided by other government departments and agencies.

9. Closing of Boutique

The boutique, A Capriccio, was closed on August 31, 1989. Inventories were disposed of during the year.

10. Subsequent event

The Treasury Board approved a 1990-91 fiscal year Supplementary Estimate of $1,321,000 for the Corporation on September 20, 1990 and will be recorded in the accounts for the year ending August 31, 1991.

11. Comparative figures

Certain figures for the year ended August 31, 1989 have been reclassified to conform to the presentation adopted for the year ended August 31, 1990.

NATIONAL CAPITAL COMMISSION

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the National Capital Commission are the responsibility of management and have been approved by the members of the Commission. The financial statements have been prepared by management in accordance with generally accepted accounting principles.

Management has developed and maintains books of account, records, financial and management controls and information systems. These are designed to provide reasonable assurance that the assets are safeguarded and controlled and that transactions are in accordance with Part X of the Financial Administration Act and regulations, as well as the National Capital Act and by-laws of the Commission. Internal audits are conducted to assess these systems and practices.

The members of the Commission carry out their responsibilities for the financial statements principally through an Audit Committee that consists of members of the Commission only. The Audit Committee meets periodically with management as well as with the internal and external auditors to discuss the results of audit examinations with respect to the adequacy of internal accounting controls and to review and discuss financial reporting matters. The external and internal auditors have full access to the Audit Committee, with and without management being present.

The Commission's external auditor, the Auditor General of Canada, has examined the financial statements. He submits his report to the Minister of Public Works, who is responsible for the National Capital Commission.

Jean E. Pigott
Chairman

R. Curry Wood
Vice-President, Controller

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have audited the balance sheet of the National Capital Commission as at March 31, 1991 and the statements of operations, equity and changes in cash resources for the year then ended. These financial statements are the responsibility of the Commission's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Commission as at March 31, 1991 and the results of its operations and the changes in its cash resources for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Commission that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the National Capital Act and by-laws of the Commission.

L. Denis Desautels, FCA
Auditor General of Canada

Ottawa, Canada

NATIONAL CAPITAL COMMISSION—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and objectives

The National Capital Commission was established in 1958 by the National Capital Act. The Commission is an agent Crown corporation without share capital named in Part I of Schedule III to the Financial Administration Act. The objects and purposes of the Commission are stated in the National Capital Act as amended in 1988. They are to:

(a) prepare plans for and assist in the development, conservation and improvement of the National Capital Region in order that the nature and character of the seat of the Government of Canada may be in accordance with its national significance; and

(b) organize, sponsor or promote such public activities and events in the National Capital Region as will enrich the cultural and social fabric of Canada, taking into account the federal character of Canada, the equality of status of the official languages of Canada and the heritage of the people of Canada.

The powers of the Commission, as they were extended in 1988, also enable the Commission to "coordinate the policies and programs of the Government of Canada respecting the organization, sponsorship or promotion by departments of public activities and events related to the National Capital Region."

The Commission is also responsible for the management and maintenance of the Official Residences located in the National Capital Region.

2. Significant accounting policies

(a) Land, buildings and equipment

Land, buildings and equipment are generally recorded at historical cost. Property acquired at nominal cost or by donation is recorded at market value at time of acquisition except for properties of historical significance whose market value cannot be reasonably determined. These are recorded at nominal value. Property acquired by exchange is recorded at the carrying value of the assets disposed of in the transaction. Improvements that extend the useful life of buildings and equipment are recorded at cost.

(b) Amortization

Amortization of assets in use is charged to operations in equal annual amounts based on the cost of the assets, their estimated useful life and their final salvage value. Useful life of assets is estimated as follows:

Buildings	20 years
Parkways, roadways and bridges	25 years
Park landscaping and improvement	25 years
Machinery and equipment	7 to 15 years
Office furniture and equipment	5 years
Vehicles	4 to 7 years
Antiques and works of art	10 years
Computer and communications equipment	5 years

(c) Operating supplies, small tools and nursery stock

Operating supplies and small tools are carried at cost. Nursery stock is valued at estimated replacement cost less an allowance for overhead, balling and packaging expenses.

(d) Pension plan

The Commission's employees participate in the Public Service Superannuation Plan, which is administered by the Government of Canada. Contributions to the Plan are made by both the employees and the Commission on an equal basis. These contributions represent the total pension obligations of the Commission and are recognized in the accounts on a current basis.

(e) Employee termination benefits

Severance pay generally accrues to employees over their service period, and is payable on their separation or retirement. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(f) Parliamentary appropriations

Parliamentary appropriations for operating expenditures, for contributions to other levels of government and other authorities and for grants are used to offset the net cost of operations. Parliamentary appropriations to acquire land, buildings and equipment are credited to equity of Canada.

(g) Workers' compensation

The Commission assumes all risks for workers' compensation claims. The costs of claims resulting from injuries on duty are recorded in the years when compensation payments are due.

3. Cash and short-term deposits

Cash and short-term deposits at year-end amounted to $11.085 million. Included in this cash balance are:

(a) Cash donations received for the Canadiana Fund in the amount of $33 thousand;

(b) Funds relating to a 1990 long-term lease transaction that, pursuant to Governor-in-Council authority, have been restricted for the acquisition of environmentally sensitive lands;

(c) Funds generated by the disposal of surplus properties that may be used to acquire real property or to support other major programs, as may be authorized by Treasury Board and Governor-in-Council.

Details of property transactions are highlighted in the following analysis.

	Environmentally sensitive lands	Others	Total
	(in thousands of dollars)		
Cash available at beginning of year	2,111	3,974	6,085

	485,048	154,158	330,890	321,938

*Provision for transfers pertains to property to be transferred in accordance with agreements with the Province of Quebec. This includes lands to be given free of charge for the approaches to the MacDonald-Cartier Bridge and for the transfer for $1 of lands to be used as a right-of-way for Highway 550.

5. Cost of operations

(a) Summary of expenses by major classification

	1991	1990
	(in thousands of dollars)	
Salaries and employee benefits	50,159	45,557
Goods and services	32,220	28,435
Grants in lieu of municipal taxes	12,220	11,632
Contributions	6,979	11,440
Amortization	12,474	11,760
	114,052	108,824

(b) Sector definitions and objectives

The Commission uses six sectors to structure its activities. Short, medium and long-term objectives linked to the mandate and mission have been developed for each. The following provides the long-term objectives established for each sector:

Transcendent

To guide, facilitate and provide input and direction to the formulation and implementation of National Capital Commission programs to ensure that the Commission's objectives are met.

Safeguard and preserve

To safeguard and preserve the Capital and its assets for future generations.

Communicate Canada

To provide programs that present the past, present and future of Canada and that increase understanding of the country through the Capital.

Meeting place

To implement programs that provide opportunities to bring Canadians together in the Capital to increase their knowledge and understanding of the country.

Operations/assets management

To manage the real property assets of the Corporation efficiently and effectively in accordance with their importance to the Capital.

Operations/administration

To manage the resources of the Corporation efficiently and effectively and to provide services that allow the Commission to meet its objectives.

6. Major commitments

(a) The Commission is committed to contribute to the Province of Quebec one-half of the cost of a road network within the Quebec portion of the National Capital Region. The Commission's remaining commitment to be paid over future years is estimated at $100.0 million but is payable only if funding is approved by the Treasury Board of Canada. The Treasury Board has authorized expenditures of $160.2 million for the Quebec Road Network. As of March 31, 1991, payments have totalled $154.2 million.

(b) The Commission has entered into agreements for computing services, leases of equipment and a lease for office space that will expire in 1993. The accomodations options are at present under review. Minimum annual payments under these agreements are approximately as follows:

	(in thousands of dollars)
1991-92	3,353
1992-93	2,527
1993-94	104
	5,984

NATIONAL CAPITAL COMMISSION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

(c) The Province of Quebec has expropriated certain lands in the City of Hull on behalf of the Commission. An amount of $1.25 million will be payable in exchange of appropriate title documents.

(d) The Commission has entered into contracts for capital expenditures estimated to cost approximately $10.5 million. Payments under these contracts are expected to be made in 1991-92.

(e) The Commission under the Interprovincial Transit Subsidy Agreement is committed to the Société de transport de l'Outaouais and the Ottawa-Carleton Regional Transit Commission for the amount of $1.187 million in 1991-92.

7. Contingencies

(a) Claims

Claims and potential claims have been made against the Commission totalling approximately $38.1 million for alleged damages and other matters. The final outcome of these claims is not determinable and accordingly these items are not recorded in the accounts. However, in the opinion of management, the position of the Commission is defensible. Settlements, if any, resulting from the resolution of these claims will be accounted for in the year in which the liability is determined.

(b) Agreement with the Province of Ontario

In 1961, the Commission entered into an agreement whereby the Province of Ontario established and maintains 2,761 hectares (6,820 acres) of forest. When the agreement expires in 2011, or is terminated, the Commission will reimburse the Province for the excess of expenses over revenues, or the Province will pay the Commission the excess of revenues over expenses. At March 31, 1990, cumulative expenses exceeded cumulative revenues by $1.1 million, and are not reflected in the accounts of the Commission.

(c) Environmental assets management

The Commission is subject to Part IV of the Canadian Environmental Protection Act and is committed to sound environmental assets management. No provision has been made for potential financial implications related to future environmental site restoration.

8. Related party transactions

The Corporation is related in terms of common ownership to all Government-of-Canada-created departments, agencies and Crown corporations and is mainly financed by the Parliament of Canada.

(a) Canada Museums Construction Corporation Inc.

The Commission has permitted the Canada Museums Construction Corporation Inc. to undertake the construction of the Canadian Museum of Civilization on Commission lands. The Commission is in the process of transferring the lands in question to Public Works Canada in exchange for other properties of equal value.

(b) Canadian Museum of Contemporary Photography

The Commission and the National Gallery of Canada are sharing costs for the construction of the Canadian Museum of Contemporary Photography on Commission lands. Total shared construction costs are estimated at $16.7 million, of which the Commission's share is $12.7 million. As at March 31, 1991, payments on this project have totalled $5,478,000. The Commission has received Governor-in-Council authority to lease the completed building to the National Gallery of Canada for a term of 49 years.

(c) Commemorative monuments

The Commission, on behalf of the Department of National Defence, will undertake the implementation of a peacekeeping monument that is planned for completion in 1992. The total cost of the project will be $2.8 million, of which the Commission will contribute a maximum of $.5 million.

(d) Public Works Canada

Public Works Canada acts as an agent for the Commission with respect to sales of properties that are surplus to the Commission's needs. Fees charged are based on standard rates set by Public Works Canada. The Commission has also entered into an agreement with Public Works Canada, whereby the latter will, with respect to the Official Residences, provide certain property services at rates established with the Commmission and approved by the Treasury Board of Canada.

NATIONAL GALLERY OF CANADA

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the National Gallery of Canada and all information in this annual report are the responsibility of management and have been approved by the Board of Directors. The financial statements include some amounts, such as the allowances for doubtful accounts, that are necessarily based on management's estimates and judgment.

The financial statements have been prepared in accordance with accounting principles which are generally accepted in Canada. Financial information presented elsewhere in the annual report is consistent with that contained in the financial statements.

In discharging its responsibility for the integrity and fairness of the financial statements, management maintains financial and management control systems and practices designed to provide reasonable assurance that transactions are authorized, assets are safeguarded, and proper records are maintained. In addition, the Audit and Evaluation Committee of the Board oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting.

The independent auditor, the Auditor General of Canada, is responsible for auditing the financial statements and for issuing the report thereon.

Dr. Shirley L. Thomson
Director of the National Gallery of Canada

AUDITOR'S REPORT

TO THE MINISTER OF COMMUNICATIONS

I have audited the balance sheet of the National Gallery of Canada as at March 31, 1991 and the statements of operations, equity of Canada, and changes in financial position for the nine months then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at March 31, 1991 and the results of its operations and changes in its financial position for the nine months then ended in accordance with generally accepted accounting principles.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Museums Act, and the by-laws of the corporation.

Raymond Dubois, FCA

NATIONAL GALLERY OF CANADA—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority, objective, and operations

The National Gallery of Canada was established as at July 1, 1990 by the Museums Act as a Crown corporation under Part I of Schedule III to the Financial Administration Act.

The Gallery's mandate as stated in the Museums Act is to develop, maintain and make known throughout Canada and internationally, a collection of works of art, both historic and contemporary, with special but not exclusive reference to Canada, and to further knowledge, understanding and enjoyment of art in general among all Canadians.

The Gallery's operations comprise the National Gallery of Canada and its affiliate the Canadian Museum of Contemporary Photography.

The Museums Act provides that all property, assets, rights, obligations, and liabilities of the National Museums of Canada pertaining to the National Gallery of Canada be transferred to the Gallery. These transfers were made at book value.

The Gallery operated through the Consolidated Revenue Fund for the nine months ended March 31, 1991, and did not receive or pay interest on outstanding balances.

2. Significant accounting policies

These financial statements have been prepared in accordance with generally accepted accounting principles. The most significant accounting policies follow:

(a) Inventories

Inventories are valued at the lower of cost or market value. The market value of books and pamphlets is determined by the lower of the retail price or the net value. The net value is represented by the cost, which is written down on a straight-line basis over a five-year period to take into account obsolescence. All other stock items have a market value representing their retail price.

(b) Capital assets

Capital assets transferred from the National Museums of Canada on July 1, 1990, have been recorded at the book value on that date.

Capital assets are recorded at cost and amortized using the straight-line method over their estimated useful lives as follows:

Equipment and furniture	5 to 12 years
Leasehold improvements	25 years
Vehicles	5 years

Expenses related to the design and development of exhibits are charged to operations in the year in which they occur.

The cost of buildings occupied by the Gallery is not shown in the financial statements as they are owned and maintained by the Government of Canada.

(c) Collections

Collections constitute the major portion of the Gallery's assets but are shown at a nominal value of $1,000 on the balance sheet because of the practical difficulties of reflecting them at a meaningful value. Works of art purchased for the collections of the Gallery are, in the year of acquisition, recorded as an expense or accounted for in the trust account depending on the source of funds. Works of art donated to the Gallery are not recorded in the books of accounts.

(d) Pension plan

The employees of the Gallery participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Gallery contribute equally to the cost of the Plan. This contribution represents the total liability of the Gallery. Contributions in respect of current service are expended during the year in which services are rendered. With respect to admissible past service, contributions are expended when paid; the terms of payment are set by the applicable purchase conditions.

(e) Employee termination benefits

On termination of employment, employees of the Gallery are entitled to certain benefits provided for under their collective agreement and their conditions of employment. The cost of these benefits is expended in the year in which they are earned.

(f) Parliamentary appropriation—Operating and capital expenditure

The parliamentary appropriation is recorded in the period to which it applies, and is credited to the Equity of Canada.

(g) Bookstore and publishing

Expenses of bookstore and publishing, including costs relating to personnel, travel, transportation and advertising are included in operating expenses.

3. Capital assets

	March 31 1991			July 1 1990
	Cost	Accumulated amortization	Net book value	Net book value
	(in thousands of dollars)			
Equipment and furniture	13,706	7,256	6,450	6,197
Leasehold improvements—In progress	2,325		2,325	
Vehicles	156	83	73	23
	16,187	7,339	8,848	6,220

NATIONAL GALLERY OF CANADA—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

4. Trust account

The Gallery deposits monies received for purposes consistent with its mandate in the Consolidated Revenue Fund. Section 29 of the Museums Act requires the Minister of Finance to pay interest on those monies. Section 42 of the Museums Act provided for the transfer from the former National Museums of Canada trust account those monies applicable to the purpose of the Gallery. The following summarizes the transactions of the period:

	(in thousands of dollars)
Balance transferred from National Museums of Canada	2,574
Revenue for the period	
Gifts and bequests	188
Grants under Section 29 of the Cultural Property Export and Import Act	144
Interest	233
	565
Expenditures for the period	
Purchase of works of art for the collections	189
Other	43
	232
Excess of revenue over expenditure	333
Balance at end of period	2,907

5. Accounts payable and accrued liabilities

	(in thousands of dollars)
Trade	3,566
Due to government departments and Crown corporations	2,462
Accrued salaries and vacation pay	743
Others	247
	7,018

6. Deferred parliamentary appropriation

The Gallery may defer the unspent balance, up to a maximum of $6,000,000, of appropriations for the acquisition of works of art for the collections. This provides the means to acquire historically important, unique, and high quality works that strengthen the collections when opportunities arise.

	(in thousands of dollars)
Deferred parliamentary appropriation from preceeding period	1,090
Transferred from Communications Canada on July 1, 1990 (Vote 67c)	3,000
Purchase of works of art for the collections of the Gallery	(1,242)
Deferred to the following year	2,848

7. Equity of Canada

The Equity of Canada represents the book value of assets and liabilities transferred from the former National Museums of Canada as of July 1, 1990 and the net results of the operations of the Gallery since that date.

8. Related party transactions

(a) Services provided without charge

Services provided without charge by government departments and agencies have been evaluated and include accommodation, cheque issue, other accounting services, and the employer's portion of Workman's Compensation payments.

	(in thousands of dollars)
Public Works Canada— Accommodation	7,962
Others	42
	8,004

These services provided without charge are not recorded in the financial statements.

(b) Canadian Museum of Contemporary Photography (CMCP)

The National Capital Commission is providing, on a cost recovery basis, project management services to the CMCP, which include the construction work, the fit-up, and other expenditures (including consultant fees) related to the new CMCP facility. The total construction costs are estimated at $16.7 million, of which the Gallery's share is $3,559,000. An amount of $730,000 was charged to previous years' operating expenditures by the National Museums of Canada. The remaining $2,829,000 of which $1,880,000 related to this nine-month period, is being capitalized and will be amortized over a period of 25 years, representing the estimated life of the facility. It is expected that the facilities of the CMCP will open during the summer of 1992.

9. Collections

In the period, the acquisitions of works of art for the collections were made through the following:

	(in thousands of dollars)
Purchase from appropriation	1,242
Purchase from trust account	189
Gift or bequest, at fair market value	4,312
	5,743

NATIONAL GALLERY OF CANADA—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

10. Commitments

As at March 31, 1991, the Gallery has entered into various agreements for a total of approximately $22,935,000. The future minimum payments required are as follows:

	(in thousands of dollars)
1991-92	5,454
1992-93	4,404
1993-94	377
1994-95	347
1995-96 and thereafter	12,353

The major agreements include the construction of the new Canadian Museum of Contemporary Photography and the protective services.

NATIONAL MUSEUM OF SCIENCE AND TECHNOLOGY

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements contained in this annual report have been prepared by Management in accordance with generally accepted accounting principles and the integrity and objectivity of the data in these financial statements are Management's responsibility. Management is also responsible for all other information in the annual report and for ensuring that this information is consistent, where appropriate, with the information and data contained in the financial statements.

In support of its responsibility, Management has developed and maintains books of account, records, financial and management controls, information systems and management practices. These are designed to provide reasonable assurance as to the reliability of financial information, that assets are safeguarded and controlled, and that transactions are in accordance with the Financial Administration Act and regulations as well as the Museums Act and by-laws of the corporation.

The Board of Trustees is responsible for ensuring that Management fulfills its responsibilities for financial reporting and internal control. The Board exercises its responsibilities through the Audit Committee which includes a majority of members who are not officers of the corporation. The Committee meets with Management and the independent external auditor to review the manner in which these groups are performing their responsibilities and to discuss auditing, internal controls and other relevant financial matters. The Audit Committee has reviewed the financial statements with the external auditor and has submitted its report to the Board of Trustees. The Board of Trustees has reviewed and approved the financial statements.

The corporation's external auditor, the Auditor General of Canada, examines the financial statements and reports to the Minister responsible for the National Museum of Science and Technology.

Geneviève Sainte-Marie, Ph. D.
Director

Laurent Nadon
Director General, Management Services

AUDITOR'S REPORT

TO THE MINISTER OF COMMUNICATIONS

I have audited the balance sheet of the National Museum of Science and Technology as at March 31, 1991 and the statements of operations, equity of Canada and changes in financial position for the nine months then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the nine months then ended in accordance with generally accepted accounting principles.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Museums Act and the by-laws of the corporation.

NATIONAL MUSEUM OF SCIENCE AND TECHNOLOGY—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority, mandate and operations

The National Museum of Science and Technology was established by the Museums Act on July 1st, 1990, and is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

The mandate of the corporation as stated in the Act is to foster scientific and technological literacy throughout Canada by establishing, maintaining and developing a collection of scientific and technical objects, with special but not exclusive reference to Canada, and by demonstrating the products and processes of science and technology and their economic, social and cultural relationships with society.

The corporation's operations comprise the National Museum of Science and Technology, the National Aviation Museum and common support activities.

The National Museum of Science and Technology was previously under the jurisdiction of the National Museums of Canada. On the establishment of the new corporation, all rights, obligations and liabilities of the National Museums of Canada in relation to the National Museum of Science and Technology became rights, obligations and liabilities of the National Museum of Science and Technology. Total transfer of assets less assumed liabilities resulted as of July 1st, 1990 in an excess of assets over liabilities represented by Equity of Canada of $1,676,892. Capital assets were recorded at their original cost with related accumulated amortization.

2. Accounting policies

(a) Inventories

Inventories are valued at the lower of cost and net realizable value, cost being determined using the first in, first out method.

(b) Collection

The collection constitutes the major portion of the corporation's assets but is shown at a nominal value of $1,000 on the balance sheet because of the practical difficulties in reflecting it at a meaningful value. Objects purchased for the collection are recorded as expenses in the year of acquisition. Objects donated to the corporation are not recorded in the books of accounts.

(c) Property and equipment

Property and equipment transferred from the national Museums of Canada are recorded at their original cost with related accumulated amortization; subsequent acquisitions are recorded at cost. Capital assets are amortized using the straight-line method over their estimated useful lives as follows:

Building renovations	10 to 25 years
Equipment	5 to 12 years
Office furniture	5 to 10 years

(d) Pension plan

The employees of the corporation participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the corporation contribute equally to the cost of the Plan. This contribution represents the total liability of the corporation. Contributions in respect of current service are expensed during the year in which the service is rendered. Contributions in respect of admissible past service are expensed when paid; the terms of payment are set by the applicable purchase conditions.

(e) Publishing and gift store operations

Operating expenses of publishing and gift stores, including costs relating to personnel, travel, transportation, advertising, building maintenance, rent and utilities, are included in operating expenses.

(f) Employee termination benefits

On termination of employment, employees of the corporation are entitled to certain benefits provided for under their collective agreement and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

3. Inventories

	March 31 1991	July 1st 1990
	(in thousands of dollars)	
Books, pamphlets, replicas and other materials	185	236
Publications in process	75	5
	260	241

4. Trust account

This account was established by sub-section 15(1)(m) of the Museums Act, and is credited with moneys received by the corporation by way of gift, bequest or otherwise, interest on securities, rent or sales of real property acquired by the corporation by way of gift, bequest or otherwise, and an amount representing interest on the balance from time to time to the credit of the account. The account is charged with amounts expended for the purpose for which such moneys or property were given, bequeathed or otherwise made available to the corporation.

	(in thousands of dollars)

	8,210	2,716	5,494	2,693

6. Parliamentary appropriation

Operating expenditures and the acquisition of capital assets are financed by a parliamentary appropriation. The amount deferred represents the funds available for the purchase of objects for the collection of the corporation until the end of the next year.

	(in thousands of dollars)
Department of Communications	
Vote 72	15,079
Amount lapsed	(38)
Amount deferred	(197)
Amount used	14,844

7. Related party transactions

Through common ownership, the corporation is related to all government of Canada departments, agencies and Crown corporations. The rental of building space by the corporation is a service supplied without charge by the Government of Canada. The corporation also received without charge employee compensation, accounting and audit services from different departments and agencies. The value of such services is estimated at $4,416,000 and is not included in operating expenses.

The corporation also incurred expenses for the work and services provided by other government departments and agencies. These transactions were conducted in the normal course of operations, under the same terms and conditions that applied to outside parties.

8. Commitments

As at March 31, 1991, the corporation had entered into various agreements mainly for the provision of protection services and for renovations to the main building of the National Museum of Science and Technology. The future minimum payments required under these agreements are as follows:

	(in thousands of dollars)
1991-92	1,995,906
1992-93	874,175

OLD PORT OF MONTREAL CORPORATION INC.

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC WORKS

I have audited the balance sheet of the Old Port of Montreal Corporation Inc. as at March 31, 1991 and the statements of transactions and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the charter and by-laws of the Corporation, as well as the agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works.

OLD PORT OF MONTREAL CORPORATION INC.—*Concluded*

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1991

1. Authority and activities

The Old Port of Montreal Corporation Inc. was incorporated on November 26, 1981 under the Canada Business Corporations Act and is a wholly-owned subsidiary of Canada Lands Company Limited, a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

Effective February 1, 1982, pursuant to an agreement between the Corporation and Her Majesty in Right of Canada represented by the Minister of Public Works, the Corporation is responsible for developing and for promoting the development of the lands of the Old Port of Montreal, and for administering, managing, and maintaining the property of Her Majesty located therein. The Corporation fulfills this responsibility in the name and for the account of the Minister of Public Works who continues to hold title to the capital assets for the benefit of Her Majesty.

2. Significant accounting policies

(a) Financial statements presentation

The financial statements present transactions carried out by the Corporation as agent and on behalf of the Minister of Public Works. All expenditures, net of proceeds from other than the direct use of capital assets, are reimbursable to the Corporation. Proceeds from the direct use of capital assets are payable to the Receiver General for Canada.

Differences between parliamentary appropriations received and net reimbursable expenditures are recorded by the Corporation as due from or due to the Minister of Public Works.

(b) Expenditures of a capital nature

Expenditures of a capital nature represent costs which significantly increase the value or extend the useful lives of properties administered by the Corporation. They also include costs of demolishing structures.

(c) Employee termination benefits

On termination of employment, employees of the Corporation are entitled to certain benefits provided for under the salary administration policy of the Corporation. The cost of these benefits is recorded in the year in which they are earned by the employees.

(d) Retirement savings plan

The Corporation has established a group retirement savings plan under which a single trust was established with a private sector organization in order to accumulate contributions to provide a retirement income for the employees through individually registered retirement savings plans. All contributions are paid by the employees, the Corporation acting solely as an agent without incurring any liability.

3. Due from (due to) Minister of Public Works

	1991	1990
	$	$
Balance at beginning of the year	(1,321,505)	(315,103)
Net expenditures	15,118,800	5,048,748
	13,797,295	4,733,645
Less:		
Funds drawn from Vote 20 of Department of Public Works for the Old Port of Montreal Corporation Inc.	(13,600,000)	(6,055,150)
Balance at end of the year	197,295	(1,321,505)

4. Due to Receiver General for Canada

	1991	1990
	$	$
Balance at beginning of the year	179,392	29,867
Direct proceeds	664,943	625,490
	844,335	655,357
Remittances to the Consolidated Revenue Fund	(807,342)	(475,965)
Balance at end of the year	36,993	179,392

5. Capital stock

The Corporation is authorized to issue a single share, to be held in trust for Her Majesty in Right of Canada, which may not be transferred without the consent of the Governor General in Council. The authorized share has been issued in consideration of services rendered.

6. Commitments

As at March 31, 1991, the commitments, mainly for the development of the lands, totalled $10,442,902 ($985,368 as at March 31, 1990).

7. Contingent liability

As operator of the Expotec/Imax program, the Corporation has committed itself to take charge of the contingent liability which may result from a litigation between a municipal corporation and a services supplier. The Corporation considers that this lawsuit is ill-founded and consequently no provision has been recorded as at March 31, 1991. Any payment resulting from this commitment would be charged to the year during which the Corporation would actually be compelled to pay. As at March 31, 1991, the Corporation estimates this contingent liability to be approximately $1,100,000.

Various claims and lawsuits and a prosecution have been brought against the Corporation. It is the opinion of management that the conclusion of these actions will not result in any material liabilities to the Corporation.

PACIFIC PILOTAGE AUTHORITY

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of Pacific Pilotage Authority as at December 31, 1990 and the statements of operations, retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the Authority's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Pilotage Act and regulations and the by-laws of the Authority.

PACIFIC PILOTAGE AUTHORITY—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Authority and objectives

The Pacific Pilotage Authority was established in 1972 pursuant to the Pilotage Act. The objectives of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

Pilotage services on the Fraser River are provided by employee pilots and in other coastal waters under a contract with a local licensed pilots' company.

The Authority is a Crown corporation named in Part I of Schedule III to the Financial Administration Act and is not subject to any income taxes.

2. Significant accounting policies

Capital leases

Under the terms of certain lease agreements the Authority assumes the rights and obligations of ownership. These leases are treated as capital leases. An asset and an obligation are recorded at an amount equal to the market value of the asset at the beginning of the lease. The obligation is reduced each year by the principal portion of the lease payments and the interest portion is charged to expense.

Amortization

Amortization of property and equipment is calculated on a straight-line basis and is based on the estimated useful lives of the assets as follows:

Buildings	20 years
Pilot boats	25 years
Equipment—Communication and other	10 years
—Computer	5 years
Leasehold improvements	15 years

Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these payments is recorded in the accounts as the benefits accrue to the employees.

Contributed capital

Amounts representing the values assigned to property and equipment transferred from Canada in 1972 and the cost of any property and equipment financed from parliamentary appropriations are shown as contributed capital.

Retained earnings

Amounts are appropriated from time to time by the Authority to provide for extraordinary costs arising from renewal or acquisition of capital assets and for contingencies.

Pension plan

All employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. These contributions represent the total liability of the Authority and are recognized in the accounts on a current basis.

3. Property and equipment

	1990			1989
	Cost	Accumulated amortization	Net	Net
	(in thousands of dollars)			
Buildings	40	38	2	4
Pilot boats	1,291	833	458	410
Equipment				
—Communication and other	653	538	114	115
—Computer	350	285	65	100
Leasehold improvements	60	20	41	44
	2,394	1,714	680	673

The above assets include a computer under a capital lease at a total value of $43,375 (1989—$43,375) less accumulated amortization of $17,347 (1989—$8,671).

4. Obligation under capital lease

	1990	1989
	(in thousands of dollars)	
Total minimum payments under 18% capital lease agreement due February 1994, payable in blended monthly payments of $1,094	42	55
Amount representing interest	10	16
Balance of obligation	32	39
Current portion	8	13
Long-term portion	24	26

The Authority has an option to purchase the computer, at any time, at a price to be determined when the option is exercised.

5. Commitments

The Authority has a long-term operating lease obligation for office accommodation aggregating $780,840 to December 31, 1999 at a base annual rent of $86,760. The obligation also calls for pro-rata share of operating costs estimated at $32,000 for 1991.

The Authority has an operating lease agreement for the services of a manned pilot boat until December 31, 1993. For the calendar year 1991, rent shall be $24,565 per month. The rent for 1992 and 1993 is still to be negotiated. The Authority holds an option to cancel the contract any time during the period on 30 days notice. If, however, the Authority does exercise the option, the Authority has the obligation to purchase the boat at current market value.

PETRO-CANADA

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The financial statements have been prepared by management in accordance with generally accepted accounting principles appropriate in the circumstances. Management is responsible for the other information in the Annual Report, which is consistent, where applicable, with that contained in the financial statements. Management is also responsible for installing and maintaining a system of internal control to provide reasonable assurance that reliable financial information is produced. The Company has an internal audit department whose functions include reviewing the system of internal control to ensure that it is adequate and functioning properly.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. This responsibility has been carried out by the Board of Directors of Petro-Canada Limited (formerly Petro-Canada), the former parent company, principally through its Audit Committee. The Audit Committee has met with management, the internal auditors and the external auditors to satisfy itself that responsibilities were discharged properly and to review the financial statements.

The external auditors conduct an independent examination, in accordance with generally accepted auditing standards, and express their opinion on the financial statements. Their examination includes a review and evaluation of the Company's system of internal control and appropriate tests and procedures to provide reasonable assurance that the financial statements are presented fairly. The external auditors have full and free access to the Audit Committee of the Board.

AUDITORS' REPORT

TO THE HONOURABLE JOHN McDERMID, P.C., M.P.
MINISTER OF STATE (PRIVATIZATION AND REGULATORY AFFAIRS)
HOUSE OF COMMONS, OTTAWA, ONTARIO

We have audited the consolidated balance sheet of Petro-Canada (formerly Petro-Canada Inc.) as at December 31, 1990 and 1989 and the consolidated statements of earnings, retained earnings and changes in financial position for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 1990 and 1989 and the results of its operations and the changes in its financial position for the years then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion, except for the change in the method of accounting for capital asset writedowns as explained in Note 3(b) to the consolidated financial statements, the accounting principles have been applied, after giving retroactive effect to the change in the method of accounting for extraordinary items as explained in Note 3(a) to the consolidated financial statements, on a consistent basis.

Further, we have audited the transactions of the Company and its consolidated wholly-owned subsidiaries that came to our notice in the course of the above mentioned audits, to determine whether they were in accordance with Part X of the Financial Administration Act, the regulations, the charter and by-laws of the Company and its consolidated wholly-owned subsidiaries and any directives given to the Company pursuant to the Act. Our examinations of these transactions were made in accordance with generally accepted auditing standards. In our opinion, these transactions were, in all significant respects, in compliance with the authorities specified.

PETRO-CANADA—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990
(stated in millions of dollars)

1. Summary of significant accounting policies

(a) Basis of consolidation

The consolidated financial statements include the accounts of Petro-Canada (formerly Petro-Canada Inc.) and of all subsidiary companies ("the Company").

The excess of the consideration paid for the shares of subsidiaries over the underlying net book values at the dates of acquisition is attributed to the related assets acquired and is amortized over the life of these assets.

(b) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost of crude oil, refined products and merchandise is determined on a "first-in, first-out" basis.

(c) Investments

The Company accounts for investments in companies over which it has significant influence on the equity method. Other long-term investments are accounted for on the cost method.

(d) Property, plant and equipment

The Company accounts for its investment in exploration and development activities on the successful efforts method. Under this method the acquisition cost of unproved acreage is capitalized. Costs of exploratory wells are initially capitalized pending determination of proved reserves and costs of wells which are assigned proved reserves remain capitalized while costs of unsuccessful wells are charged to earnings. All other exploration costs are charged to earnings as incurred. Development costs, including the cost of all wells, are capitalized.

Substantially all of the Company's exploration and development activities are conducted jointly with others. Only the Company's proportionate interest in such activities is reflected in the financial statements.

The interest cost of debt attributable to the construction of major new facilities is capitalized during the construction period.

Overburden removal costs relating to oil sands which will be mined in future years are deferred and are charged to earnings when the related oil sands are mined.

(e) Depreciation, depletion and amortization

The carrying amounts of significant unproved properties are evaluated periodically for impairment with any such impairment being charged to earnings. The cost of other unproved properties is amortized over their average holding period.

Depreciation and depletion of capitalized costs of oil and gas producing properties is calculated using the unit of production method.

Depreciation of other plant and equipment is provided on either the unit of production method or the straight line method as appropriate. Straight line depreciation rates are based on the estimated service lives of the related assets.

(f) Income taxes

The Company makes full provision for income taxes deferred as the result of claiming depreciation, exploration, development and other costs for income tax purposes which differ from the related amounts charged to earnings.

(g) Translation of foreign currency

Monetary assets and liabilities are translated into Canadian dollars at rates of exchange in effect at the balance sheet date. Other assets and related depreciation, depletion and amortization, other liabilities, revenue and other expense items are translated at rates of exchange in effect at the respective transaction dates. The resulting exchange gains or losses are included in earnings, except for unrealized exchange gains or losses arising on translation of long-term debt, which are deferred and amortized over the remaining term of the debt.

Foreign operations are integrated with the Company's other activities and are translated in the manner described above.

(h) Postemployment benefits

In addition to its pension plans the Company provides for other postemployment benefits, including health, dental and life insurance, to its qualifying retirees. The cost of these benefits is charged to earnings when paid by the Company.

2. The Petro-Canada Public Participation Act

On February 1, 1991 the Petro-Canada Public Participation Act ("the Act") received Royal Assent. The Act authorizes the Company to proceed with an Initial Public Offering of shares of the Company to the public subject to restrictions on non-resident and individual share ownership of 25% and 10%, respectively.

The Act also provides that:

- the name of the Company is changed from Petro-Canada Inc. to Petro-Canada,
- the name of the former parent company is changed from Petro-Canada to Petro-Canada Limited,
- the shares of the Company held by Petro-Canada Limited are transferred to the Minister of State (Privatization and Regulatory Affairs),
- the Company's head office will be situated in Calgary, and
- the sale of substantially all of the assets of individual business segments is restricted.

The Company is negotiating arrangements for its short-term and long-term financing requirements, including the servicing and refinancing of its present indebtedness to Petro-Canada Limited.

3. Accounting changes and prior period adjustment

Changes in accounting policies

(a) In 1990 the Company adopted, retroactively, the new recommendations of the Canadian Institute of Chartered Accountants on the presentation of extraordinary items. Items previously reported as extraordinary have been reclassified as expenses of continuing operations and the related income tax effects have been included with the provision for income taxes.

PETRO-CANADA—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Continued*

(b) In 1990 the Company adopted, prospectively, the new recommendations of the Canadian Institute of Chartered Accountants on capital asset writedowns. The new recommendations require a writedown when the net carrying amount of an asset exceeds the net recoverable amount. Previously the Company applied a "ceiling test" to capitalized costs of oil and gas producing properties to ensure that these costs in each individual field did not exceed the fair market value of the related proved reserves. The effect of this change was to increase 1990 net earnings by $31 million.

Prior period adjustment

In 1990 the Company was reassessed for income taxes and related interest for the 1983 taxation year and was notified of proposed reassessments for other years prior to 1990. As a result, the previously reported income tax provisions, net earnings and retained earnings have been adjusted and the financial statements for these years have been restated. Accordingly, retained earnings as at January 1, 1990 and 1989 have been reduced by $173 million and $148 million, and 1990 and 1989 net earnings have been reduced by $17 million and $25 million, respectively.

4. Acquisition of ICG Propane Inc.

In 1990 the Company completed its acquisition of ICG Propane Inc., the propane division of Inter-City Gas Corporation. This acquisition was effective January 1, 1990 and has been accounted for by the purchase method as follows:

	1990	
Book value of assets acquired		164
Book value of assumed liabilities		(78)
		86
Excess of attributed value over book value of acquired net assets		
Property, plant and equipment	71	
Goodwill	78	149
Total cost of acquisition		235

Funds for the acquisition were provided from cash flow from operations and short-term borrowings.

5. Marketing, general and administrative

In 1989 the Company implemented an internal reorganization program which resulted in a staff reduction. The cost of this program, in the amount of $92 million, is included in 1989 marketing, general and administrative expenses.

6. Taxes and Crown royalties

	1990	1989
Items included in the statement of earnings		
Federal sales taxes	363	328
Other taxes	66	56
	429	384
Provision for income taxes	166	51
	595	435

In addition, Crown royalties paid and paid in kind of $136 million (1989—$133 million) together with federal excise taxes and provincial fuel and sales taxes of $1,675 million (1989—$1,554 million) are not included in the statement of earnings.

7. Income taxes

The provision for income taxes of $166 million (1989—$51 million) represents an effective rate of 47.8% (1989—71.8%) on earnings before income taxes of $347 million (1989—$71 million). The computation of the provision, which requires adjustment to earnings before income taxes for non-taxable and non-allowable items, is as follows:

	1990	1989
Earnings before income taxes	347	71
Add (deduct)		
Royalties and other payments to provincial governments, net	139	137
Federal allowances		
Resource allowances	(133)	(103)
Tax depletion		(36)
Non-deductible depreciation, depletion and amortization	73	68
Non-deductible interest	17	20
Non-taxable gains	(6)	(7)
Equity in earnings of affiliates	(37)	(31)
Other	(19)	(8)
Earnings as adjusted before income taxes	381	111
Canadian Federal income tax at 38.0% (1989—39.5%) applied to earnings as adjusted	145	44
Large Corporations Tax	10	5
Provincial and other income taxes, net of federal abatement	13	7
Provincial income tax rebates	(2)	(5)
Provision for income taxes	166	51

8. Non-cash items included in earnings

	1990	1989
Depreciation, depletion and amortization	373	396
Gain on sale of property, plant and equipment	(69)	(45)
Deferred income taxes	36	(1)
Equity earnings, net of dividends received	(9)	(6)
Other	(2)	(10)
	329	334

9. Increase in operating working capital

	1990	1989
Accounts receivable	35	(73)
Inventories	(287)	(117)
Prepaid expenses	(3)	(4)
Accounts payable and accrued liabilities	168	110
Income taxes payable	(63)	17
Advances	(148)	45
Other	(9)	
	(307)	(22)

PETRO-CANADA—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Continued*

Operating working capital is comprised of working capital other than cash and short-term deposits, short-term notes payable and current portion of long-term debt.

10. Accounts receivable

In 1990 the Company entered into an agreement to sell, with limited recourse, accounts receivable on a revolving basis. As at December 31, 1990 accounts receivable of $212 million have been sold pursuant to this agreement, resulting in cash proceeds of $200 million.

11. Inventories

	1990	1989
Crude oil, refined products and merchandise	907	615
Materials and supplies	57	62
	964	677

12. Investments

Mortgages and other investments	31	38
	504	467

Westcoast Energy Inc. ("Westcoast")

At December 31, 1990 the Company held approximately 37% (1989—37%) of the outstanding common shares of Westcoast with a quoted market value of $453 million (1989—$378 million).

Petro-Canada Centre

The Company owns 50% of Petro-Canada Centre, an office complex in Calgary. The Company has entered into a long-term lease for use of a portion of the complex and, as at December 31, 1990, has provided support for a guarantee of $230 million of long-term debt related to the facility.

	1990	1989
Common shares	1	1,000
Contributed surplus	2,572	1,550
Retained earnings (deficit)	98	(173)
	2,671	2,377

The authorized share capital of the Company is comprised of an unlimited number of:

(a) Canadian dollar cumulative, redeemable, preferred shares without nominal or par value;

(b) U.S. dollar cumulative, redeemable, preferred shares without nominal or par value;

(c) Class A non-cumulative, non-voting, preferred shares without nominal or par value; and

(d) Common shares without nominal or par value.

PETRO-CANADA—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Continued*

Changes in Share Capital and Contributed Surplus were as follows:

	1990			1989		
	Common shares			Common shares		
	Shares	Amount	Contributed surplus	Shares	Amount	Contributed surplus
Balance at beginning of year	4,216,011	1,000	1,550	4,216,011	1,000	2,537
Issued for cash	189,910	158				
Reduction of stated capital		(1,157)	1,157			
Transfer to retained earnings			(135)			(987)
Balance at end of year	4,405,921	1	2,572	4,216,011	1,000	1,550

In 1989 the Company approved the adoption of the successful efforts method of accounting which resulted in a decrease in retained earnings to a deficit of $987 million as at January 1, 1989. An amount of $987 million was transferred from contributed surplus to retained earnings to offset this deficit.

In October 1990 a reduction in the common share stated capital of $1,157 million and a corresponding increase in contributed surplus, together with a transfer from contributed surplus to retained earnings, were approved. The transfer from contributed surplus to retained earnings offset a deficit of $135 million.

In January 1991 the Company issued 37,415 common shares for a cash consideration of $31 million to Petro-Canada Limited, thereby increasing the number of issued common shares to 4,443,336.

In January 1991 the Company approved articles which amended its authorized share capital so as to provide for an unlimited number of:

(a) Preferred shares issuable in series designated as Senior Preferred Shares;

(b) Preferred shares issuable in series designated as Junior Preferred Shares; and

(c) Common shares.

18. Pension plans

The Company's plans are defined benefit plans with the benefits generally based upon years of service and average salary during the final years of employment. They are funded by the Company based upon the advice of an independent actuary.

Plan status as at December 31

	1990	1989
Actuarial value of assets	588	536
Pension obligation	527	508
Net pension asset	61	28

The net pension asset is amortized to earnings over the expected average remaining service life of the employees covered by the plans, which is currently 13 years.

Pension funding and expense amounted to $9 million (1989—$31 million) and $12 million (1989—$20 million), respectively.

PETRO-CANADA—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Continued*

19. Related party transactions

The Company has short-term notes payable, advances and long-term debt (Note 15) payable to Petro-Canada Limited, the former parent company (Note 2), and is negotiating with the Government of Canada to provide for the servicing and refinancing of this indebtedness.

Transactions with the Government of Canada and its agencies are in the normal course of business and are therefore on the same terms as those accorded to non-related parties.

20. Segmented information

The Company operates in two business segments:

Natural resources, comprising: exploration, development, production, transportation and marketing activities for crude oil, natural gas, field liquids, sulphur and oil sands; and extraction of liquids from natural gas.

Refined products, comprising: purchase and sale of crude oil; refining crude oil into oil products; and distribution and marketing of these and other purchased products.

Financial information by business segment is presented in the following table as though each segment were a separate business entity. Inter-segment transfers of products, which are accounted for at market value, are eliminated on consolidation. Corporate and other includes propane marketing, investment income, interest expense and unallocated general corporate revenues and expenditures. Corporate and other assets are principally cash and short-term deposits, investments in other companies, propane marketing assets and general corporate assets.

	Natural resources		Refined products		Corporate and other		Consolidated

PETRO-CANADA—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

21. Comparative figures

Certain reclassifications have been made to the 1989 comparative figures to conform with the current year's presentation.

22. Commitments and contingent liabilities

Commitments

(a) The Company has leased property and equipment under various long-term operating leases for periods up to 2009. The minimum annual rentals for non-cancellable operating leases are estimated at $115 million in 1991, $108 million in 1992, $83 million in 1993, $68 million in 1994, $56 million in 1995 and $34 million per year thereafter until 2009.

(b) During 1990 the Company signed agreements with other joint venture participants and with the governments of Canada and Newfoundland and Labrador to develop the Hibernia offshore oil field. Costs of this project to production start-up, which is expected in 1996, are estimated at $5.2 billion; the Company's 25% share after government contributions is expected to be approximately $1.1 billion. It is anticipated that total development costs subsequent to production start-up, estimated at approximately $3.4 billion, will be financed from cash flow from the Hibernia project.

Contingent liabilities

The Company is involved in litigation and claims associated with normal operations. Management is of the opinion that any resulting settlements would not materially affect the financial position of the Company.

PETRO-CANADA INTERNATIONAL ASSISTANCE CORPORATION

AUDITORS' REPORT

TO THE SHAREHOLDER OF PETRO-CANADA
INTERNATIONAL ASSISTANCE CORPORATION

We have audited the balance sheets of Petro-Canada International Assistance Corporation (a wholly-owned subsidiary of Petro-Canada Limited) as at March 31, 1991 and 1990 and the related statements of operations and changes in financial position for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and 1990 and the results of its operations and the changes in its financial position for the years then ended in accordance with generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991 AND 1990

1. Incorporation

The Corporation was incorporated in 1981 by Petro-Canada Limited under the Canada Business Corporations Act as a wholly-owned subsidiary pursuant to directions provided by Order-in-Council P.C. 1981-2167 of August 5, 1981.

2. Operations

The Corporation's operations are financed by parliamentary appropriations. An affiliated company, Petro-Canada, provides technical and administrative services to the Corporation at cost.

3. The Petro-Canada Public Participation Act

On February 1, 1991 the Petro-Canada Public Participation Act ("the Act") received Royal Assent. The Act provides that:

> Petro-Canada Limited is authorized to transfer all the shares of the Corporation held by Petro-Canada Limited to the Minister designated by the Governor in Council,
>
> and
>
> the Minister is authorized to procure the dissolution of the Corporation.

On February 26, 1991, the Government of Canada announced that the Corporation would be dissolved in 1991. Foreign aid in the energy sector will continue to be provided through the Canadian International Development Agency.

4. Share capital

Authorized:

Common shares—Unlimited

Issued:

One common share for a cash consideration of one dollar.

6. Contingent liabilities

The Corporation is involved in litigation and claims associated with normal operations. Management is of the opinion that any resulting settlements would not materially affect the financial position of the Corporation.

PETRO-CANADA LIMITED (formerly PETRO-CANADA)

AUDITORS' REPORT

TO THE MINISTER OF ENERGY, MINES AND RESOURCES

We have audited the consolidated balance sheet of Petro-Canada Limited (formerly Petro-Canada) (incorporated by Special Act of the Parliament of Canada) as at December 31, 1990 and 1989 and the consolidated statements of earnings, retained earnings and changes in financial position for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and 1989 and the results of its operations and the changes in its financial position for the years then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, we report that, in our opinion these principles have been applied on a consistent basis.

Further, we have audited the transactions of the Corporation and its consolidated wholly-owned subsidiaries that came to our notice in the course of the above mentioned audits, to determine whether they were in accordance with Part X of the Financial Administration Act, the regulations, the charter and by-laws of the Corporation and its consolidated wholly-owned subsidiaries and any directives given to the Corporation pursuant to the Act. Our examinations of these transactions were made in accordance with generally accepted auditing standards. In our opinion, these transactions were, in all significant respects, in compliance with the authorities specified.

PETRO-CANADA LIMITED (formerly PETRO-CANADA)—*Continued*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1990
(stated in millions of dollars)

1. Summary of significant accounting policies

(a) Basis of consolidation

The consolidated financial statements include the accounts of Petro-Canada Limited (formerly Petro-Canada), an agent of Her Majesty in right of Canada, and its subsidiary Petro-Canada International Assistance Corporation ("the Corporation"). The former principal operating subsidiary Petro-Canada (formerly Petro-Canada Inc.) is accounted for as a discontinued operation for the reasons described in Notes 2 and 3.

(b) Translation of foreign currency

Monetary assets and liabilities are translated into Canadian dollars at rates of exchange in effect at the balance sheet date. Related interest income and expense are translated at rates of exchange in effect at the respective transaction dates. Unrealized exchange gains or losses arising on translation of debentures receivable and long-term debt are deferred and amortized over the remaining term of the debentures or debt.

2. The Petro-Canada Public Participation Act

On February 1, 1991 the Petro-Canada Public Participation Act ("the Act") received Royal Assent. The Act provides that:

- the name of the Corporation is changed from Petro-Canada to Petro-Canada Limited,
- the name of the former principal operating subsidiary of the Corporation is changed from Petro-Canada Inc. to Petro-Canada,
- the shares of Petro-Canada held by the Corporation are transferred to the Minister of State (Privatization and Regulatory Affairs) ("the Minister"),
- Petro-Canada is authorized to proceed with an Initial Public Offering of its shares to the public subject to certain restrictions,
- the Corporation is authorized to transfer the shares of Petro-Canada International Assistance Corporation held by the Corporation in accordance with the direction of the Governor in Council, and
- the Corporation be dissolved and the Petro-Canada Limited Act be repealed on a date to be fixed by the Governor in Council.

3. Transfer of shares of Petro-Canada

The transfer to the Minister of the shares of Petro-Canada held by the Corporation (Notes 2 and 7) is regarded by management to have been approved upon the passing of the Act, in the form of Bill C-84, by the House of Commons in December 1990. Accordingly, the Corporation's investment in Petro-Canada is accounted for as a discontinued operation effective December 31, 1990.

A summary of the assets and liabilities of Petro-Canada is as follows:

	1990	1989
Current assets	1,821	1,557
Investments	504	467
Property, plant and equipment	4,778	4,626
Other assets	175	93
Current liabilities	1,882	1,936
Long-term debt	1,537	1,232
Deferred credits	191	231
Deferred income taxes	997	967

At December 31, 1990 current liabilities of $732 million and long-term debt of $1,392 million were due to the Corporation.

Petro-Canada's total revenues for the year ending December 31, 1990 were $5,873 million (1989—$5,026 million) and the provision for income taxes was $166 million (1989—$51 million). Dividends received from Petro-Canada in 1990 were $45 million (1989—$45 million).

In January 1991 the Corporation received a dividend of $31 million from Petro-Canada and purchased common shares of Petro-Canada for $31 million.

The Corporation formally transferred its investment in Petro-Canada to the Minister on February 1, 1991.

4. Related party transactions

The Corporation has loaned the proceeds from the short-term notes payable and long-term debt to Petro-Canada, evidenced by short-term notes receivable and debentures receivable, on terms substantially the same as the Corporation's borrowing terms. In anticipation of the Initial Public Offering of the shares of Petro-Canada to the public, the Corporation is negotiating arrangements with Petro-Canada and the Government of Canada to provide for the servicing and repayment of the Corporation's outstanding debt and other obligations and the related obligations of Petro-Canada to the Corporation.

5. Prior period adjustment

In 1990 Petro-Canada was reassessed for income taxes and related interest for the 1983 taxation year and was notified of proposed reassessments for other years prior to 1990. As a result, the previously reported net earnings and retained earnings of the Corporation have been adjusted; retained earnings as at January 1, 1990 and 1989 have been reduced by $173 million and $148 million, and 1990 and 1989 net earnings have been reduced by $17 million and $25 million, respectively.

8.60% unsecured debentures (U.S. $300 million)	2010	348	
8.25% unsecured debentures (U.S. $200 million)	2016	232	232
9.70% unsecured debentures (U.S. $100 million)	2018	116	115
8.80% unsecured debentures (U.S. $200 million)	2019*	232	232
		1,392	1,043

*Redeemable in 2004 at the option of the holder thereof.

There are no minimum repayments of long-term debt in the next five years.

7. Shareholder's equity

	1990	1989
Capital	2,727	2,727
Retained earnings (deficit)	(29)	(142)
	2,698	2,585
Shareholder's equity attributed to investment in Petro-canada transferred to the Minister (Notes 2 and 3)	(2,698)	
		2,585

Authorized capital

(a) 71,188 common shares with a par value of one hundred thousand dollars each, and

(b) Preferred shares issued to the Government of Canada provided that the amount of such shares together with any loans received, and outstanding, from the Consolidated Revenue Fund of the Government of Canada is not in excess of one billion dollars. These shares have a par value of one dollar each, are redeemable at par at the option of the Corporation, carry no stated rate of dividend and are non-cumulative.

Issued (to the Government of Canada)

	Number of shares	1990	1989
Common shares	17,540	1,754	1,754
Preferred shares	972,771,853	973	973
Total capital		2,727	2,727

Contributed surplus

During 1989 the Board of Directors approved the adoption of the successful efforts method of accounting which resulted in a decrease in retained earnings to a deficit of $1,434 million as at January 1, 1989. The Governor in Council approved the surrender for cancellation of 14,343 common shares and this surrender and cancellation resulted in a contributed surplus of $1,434 million. Shareholder's equity at December 31, 1989 was adjusted to give effect to the contributed surplus and its offset against the deficit.

8. Commitments

The Corporation has leased office space in Petro-Canada Centre, an office building in Calgary, and has subleased this space to Petro-Canada. The minimum annual rentals are estimated at $35 million in 1991, $35 million in 1992, $36 million in 1993, $39 million in 1994, $41 million in 1995 and $47 million thereafter until 2009.

PORT OF QUÉBEC CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have audited the balance sheet of Port of Québec Corporation as at December 31, 1990 and the statements of income, contributed capital, surplus and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles.

We further report that, in our opinion, the transactions of the Corporation that have come to our notice in the course of our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Ports Corporation Act and with the charter and by-laws of the Corporation.

PORT OF QUÉBEC CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990

General

The Port of Québec Corporation was incorporated on June 1, 1984, under section 6.2(1) of the Canada Ports Corporation Act. The Corporation is exempt from income tax.

Summary of significant accounting policies

(a) Investments

Investments are direct securities guaranteed by Canada. They are presented at amortized cost and the premiums or discounts are amortized over the periods to maturity.

(b) Fixed assets

Fixed assets are recorded at cost except for those transferred to the Corporation from Canada, which are recorded at appraised or fair market value established at the time of transfer. Grants received from Canada and from third parties for capital projects are deducted from the cost of the related fixed assets.

Depreciation is calculated on the straight-line basis commencing with the year the asset becomes operational, using the following annual rates:

Dredging	2.5%-6.7%
Berthing structures	2.5%-10%
Buildings	2.5%-10%
Utilities	3.3%-10%
Roads and surfaces	2.5%-10%
Machinery and equipment	5%-20%
Office furniture and equipment	20%

(c) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions represent the liability of the Corporation for pensions and are recognized in the accounts on a current basis.

(d) Insurance

The Port of Québec Corporation assumes all risks with respect to workers' compensation claims. Any costs arising from these claims are recorded in the accounts in the year, based on the invoices received or to be received from Labour Canada for the year.

(e) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is estimated based on municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(f) Employee benefits

The Corporation accrues in its accounts annually the estimated liabilities for severance pay, annual leave and overtime compensatory leave, which are payable to its employees in subsequent years under collective agreements, or in accordance with its policy.

1. Investments

Investments, which are direct securities guaranteed by Canada, are as follows:

	1990		1989	
	Cost	Market value	Cost	Market value
	$	$	$	$
Current	1,909,823	1,909,588	21,464,555	21,411,038
Long-term	6,729,236	7,176,618	6,702,891	7,520,074

4. Related party transactions

During the year, the Corporation entered into transactions with related entities including various departments, government organizations and Crown corporations.

Principally, the Corporation earned rental revenues of $878,000 in 1990 from related entities ($577,000 in 1989). The expenses paid to related parties mainly consist in reimbursements of $803,000 ($696,000 in 1989) to Canada Ports Corporation as its share of the Corporation's head office expenses. The Corporation has also earned investment income of $2,170,000 ($2,900,000 in 1989) on Government of Canada securities.

The Corporation has accounts payable of $281,000 ($99,000 in 1989) and accounts receivable of $64,000 ($271,000 in 1989) with the same related parties.

PORT OF QUÉBEC CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Concluded*

5. Contingencies

Claims aggregating approximately $1,000,000 have been received by the Corporation in respect to lawsuits and various other matters in dispute. In the Corporation's view, its position is defensible and the final outcome of such claims should not result in any material loss.

In addition, claims for an estimated amount of approximately $5,000,000 have been received by the Corporation concerning the ownership of certain lands. Any amount payable in connection with those claims will be capitalized to the cost of land.

These amounts are not recorded in the financial statements.

6. Commitments

The Corporation has made commitments totalling approximately $1,300,000 of which $33,000 have been expensed as at December 31, 1990, pertaining to the restoration of the main cereal terminal in 1991. In addition, funds committed for fixed assets projects in 1990, but not yet disbursed, amounted to approximately $1,000,000 as at December 31,1990.

PRINCE RUPERT PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have audited the balance sheet of Prince Rupert Port Corporation as at December 31, 1990 and the statements of income and surplus and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, and the letters patent and by-laws of the Corporation.

PRINCE RUPERT PORT CORPORATION—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990

Local port corporation

The Prince Rupert Port Corporation was established effective June 1, 1984 as a local port corporation pursuant to the Canada Ports Corporation Act. The Corporation is exempt from income taxes.

On June 1, 1984, all the assets and liabilities of Canada Ports Corporation relating to the Port of Prince Rupert were transferred to the Corporation at their book value as recorded by Canada Ports Corporation.

1. Significant accounting policies

(a) Investments

The investments, which are direct and guaranteed securities of Canada, are shown at amortized cost. Premiums or discounts are amortized over the periods to maturity.

(b) Property and equipment

Property and equipment are recorded at cost. Grants towards capital projects received from Canada and from third parties are deducted from the cost of the related property and equipment.

Depreciation is calculated on the straight-line basis, commencing with the year the asset becomes operational, at rates based on the estimated useful lives of the assets as follows:

Dredging	5%
Berthing structures	2.5-10%
Buildings	5-10%
Roads and surfaces	3.3-10%
Utilities	5-10%
Machinery and equipment	5-100%
Office furniture and equipment	20-33.3%

(c) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions represent the liability of the Corporation for pensions and are recognized in the accounts on a current basis.

(d) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is estimated based on municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(e) Employee benefits

The Corporation accrues in its accounts annually the estimated liabilities for severance pay, annual leave and overtime compensatory leave, which are payable to its employees in subsequent years.

2. Investments

PRINCE RUPERT PORT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Concluded*

4. Recoverable contribution from Canada

A recoverable contribution of $50,400,000 was approved for the construction of the infrastructure for the coal terminal facility on Ridley Island. The recoverable contribution as at December 31, 1990 is $48,300,000.

The total recoverable contribution was interest-free until April 1, 1989, thereafter it bears interest of approximately 13.9%.

Principal and interest on $48,300,000 of the contribution are repayable in annual instalments over a 20 year period, commencing April 1, 1989 contingent upon the revenues received from a direct coal throughput surcharge of $.463 per tonne for 1990, (escalating with the rate of increase in the Consumer Price Index) at a minimum throughput of 6,600,000 tonnes but not to exceed 12,000,000 tonnes per year. On April 1, 2009, it is anticipated that the unpaid balance of the contribution, if any, will be forgiven by the Government of Canada.

As the Corporation acts as an intermediary between Ridley Terminals Inc. and the Government of Canada, the surcharge revenues and interest payments are not reflected in the Corporation's statement of income. Rather, they are reflected on the balance sheet as payable to Canada.

As at December 31, 1990, the Corporation has received/receivable approximately $2,175,000 (1989, $1,900,000) in connection with the above surcharge which is included in payable to Canada.

5. Loans from Canada

	1990	1989
	$	$
Interest-bearing loans at 9.80% to 10.40% repayable in blended annual instalments, maturing in 2010	17,179,871	4,500,000
Less portion included in current liabilities	300,873	80,129
	16,878,998	4,419,871

Principal repayment requirements over the next five years are as follows:

	$
1991	301,000
1992	332,000
1993	366,000
1994	403,000
1995	444,000
	1,846,000

6. Commitments

(a) During the year the Corporation entered into an agreement with Canadian National Railway Company (CNR), whereby CNR sold to the Corporation 2.8 hectares of land in exchange for 0.913 hectares of land and $625,000.

The Corporation recorded the land acquired at the carrying value of the land sold and $625,000.

At year end, the Corporation had acquired title to the former CNR property but title had not yet transferred on the land sold from the Corporation to CNR.

(b) The Corporation rents a building under a long-term operating lease which expires May 1, 1991. The aggregate rental payable to the expiry date amounts to $90,088.

7. Related party transactions

(a) During the year, the Corporation received revenue of $1,654,584 (1989, $1,489,644) from Ridley Terminals Inc., a company in which Canada Ports Corporation has a significant investment. At December 31, 1990, the Corporation was owed $741,675 by Ridley Terminals Inc. (1989, $495,561).

(b) During the year the Corporation paid $534,884 (1989, $463,961) to Canada Ports Corporation as its share of that Corporation's head office expense.

ROYAL CANADIAN MINT

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements contained in this annual report have been prepared by Management in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards, and the integrity and objectivity of the data in these financial statements are Management's responsibility. Management is also responsible for all other information in the annual report and for ensuring that this information is consistent, where appropriate, with the information and data contained in the financial statements.

In support of its responsibility, Management has developed and maintains books of account, records, financial and management controls, information systems and management practices. These are designed to provide reasonable assurance as to the reliability of financial information, that assets are safeguarded and controlled, and that transactions are in accordance with the Financial Administration Act and regulations as well as the Royal Canadian Mint Act and by-laws of the corporation.

The Board of Directors is responsible for ensuring that Management fulfills its responsibilities for financial reporting and internal control. The Board exercises its responsibilities through the Audit Committee which includes a majority of members who are not officers of the corporation. The Committee meets with Management, internal audit staff and the independent external auditor to review the manner in which these groups are performing their responsibilities and to discuss auditing, internal controls and other relevant financial matters. The Audit Committee has reviewed the financial statements with the external auditor and has submitted its report to the Board of Directors. The Board of Directors has reviewed and approved the financial statements.

The corporation's external auditor, the Auditor General of Canada, examines the financial statements and reports to the Minister responsible for the Royal Canadian Mint.

M.A.J. Lafontaine
President and Master of the Mint

J.E. Uberig
Vice-President, Administration and Finance

AUDITOR'S REPORT

TO THE MINISTER OF SUPPLY AND SERVICES

I have audited the balance sheet of the Royal Canadian Mint as at December 31, 1990 and the statements of operations and retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards in Canada, conforming with International Auditing Guidelines. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles in Canada, conforming with International Accounting Standards. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Royal Canadian Mint Act and by-laws of the corporation.

Raymond Dubois, FCA
Deputy Auditor General
for the Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Authority and objectives

The Mint was incorporated in 1969 by the Royal Canadian Mint Act and is an agent of Her Majesty named in Part II of Schedule III to the Financial Administration Act.

The objectives of the Mint are to mint coins in anticipation of profit and to carry out other related activities.

The Mint may borrow money from the Consolidated Revenue Fund or any other source, subject to the approval of the Minister of Finance with respect to the time and the terms and conditions, but the aggregate of the amounts loaned to the Mint and outstanding at any time shall not exceed $50 million.

2. Significant accounting policies

(a) Foreign currency translation

Foreign currency transactions are translated into Canadian dollars at the exchange rate in effect at the transaction date. Assets and liabilities denominated in foreign currency at the balance sheet date are translated into Canadian dollars at the exchange rate in effect at that date.

(b) Inventories

Raw materials, work in process and finished goods are valued at the lower of cost and net realizable value, cost being determined by the average cost method.

Supplies are valued at the lower of cost and replacement cost, cost being determined by the average cost method.

(c) Property, buildings and equipment

Property, buildings and equipment are recorded at cost and amortized under the straight-line method at the following annual rates:

Land improvements	2½%
Buildings	2½%
Equipment	10%

(d) Employee termination benefits

According to their collective agreement and terms of employment, employees are entitled to termination benefits. The liability for these benefits is recorded when earned by the employees.

(e) Pension plan

Employees participate in the Public Service Superannuation Plan, which is administered by the Government of Canada. The corporation's contributions to the Plan are limited to an amount equal to the employees' contributions on account of current service. These contributions represent the total pension obligations of the corporation and are charged to operations on a current basis.

ROYAL CANADIAN MINT—*Concluded*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990—*Concluded*

In order to facilitate the production of precious metal coins, the Mint borrows the quantity of gold, platinum and silver required and pays interest based on the value of these metals established on the commodity markets. As at December 31, 1990, a total of 504,106 ounces of gold, 29,368 ounces of platinum and 45,480 ounces of silver was borrowed and was not reflected in these financial statements.

	78,367	29,240	49,127	42,098

5. Loans from Government of Canada

These loans bear interest at various annual rates ranging from 8.25% to 12.00% and are repayable according to the following schedule:

	(in thousands of dollars)
1991	2,673
1992	2,673
1993	2,673
1994	2,673
1995	2,673
1996-1998	175
	13,540
Current portion	(2,673)
	10,867

6. Deferred revenues

Deferred revenues represent payments received from customers for products to be shipped after December 31, 1990.

7. Expenses

Expenses include cost of goods sold, detailed as follows:

	1990	1989
	(in thousands of dollars)	
Materials used	529,626	671,719
Direct labour	4,284	4,587
Manufacturing overhead	27,418	26,909
	561,328	703,215

8. Related party transactions

Included in these financial statements are transactions with the Department of Finance relating to the borrowing, refining and purchasing of gold. These transactions were conducted in the normal course of business, under the same terms and conditions that apply to unrelated parties.

Transactions with the Department of Finance related to the production and delivery of Canadian circulation coins are generally carried out on a cost plus basis.

SAINT JOHN PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have audited the balance sheet of the Saint John Port Corporation as at December 31, 1990 and the statements of income and retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Ports Corporation Act and the by-laws of the Corporation.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990

1. Canada Ports Corporation Act and Incorporation

In accordance with the Canada Ports Corporation Act, a petition for the establishment of a local port corporation at the Port of Saint John was approved and the Saint John Port Corporation was incorporated under the laws of Canada effective at the closing of business on December 31, 1986 and commenced operations January 1, 1987.

In accordance with the Canada Ports Corporation Act, the assets, liabilities and equity were transferred to the Saint John Port Corporation at their carrying values in the accounts of the Canada Ports Corporation—Port of Saint John.

2. Significant accounting policies

(a) Investments

The investments are shown at amortized cost whereby premiums or discounts from par value are amortized over the periods to maturity.

(b) Fixed assets

Fixed assets are recorded at cost except for those transferred to the Corporation from Canada which are recorded at appraised or fair market value established at the time of transfer. Grants towards capital projects received from Canada and from third parties are deducted from the cost of the related fixed assets.

Depreciation is calculated on the straight-line basis for the full year, commencing with the year the asset becomes operational, using rates as follows:

Dredging	2.5-6.7%
Berthing structures	2.5-10.0%
Buildings	2.5-10.0%
Utilities	3.3-10.0%
Roads and surfaces	2.5-10.0%
Machinery and equipment	5.0-100.0%
Office furniture and equipment	20.0%

(c) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by Canada. Contributions to the plan are required from both the employees and the Corporation. The annual contributions represent the liability of the Corporation for pensions and are recognized in the accounts on a current basis.

(d) Grants in lieu of municipal taxes

The expense for grants in lieu of municipal taxes is based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(e) Employee benefits

The Corporation accrues in its accounts, annually, the estimated liabilities for severance pay and annual leave which are payable to its employees in subsequent years under its collective agreements or in accordance with its policy.

SAINT JOHN PORT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Concluded*

3. Investments

Investments are direct and guaranteed securities of Canada as follows:

	1990		1989	
	Amortized cost	Face value	Amortized cost	Face value
	(in thousands of dollars)			
Canada Treasury Bills	13,386	14,009	11,419	12,013
Canada Bonds	962	1,000	959	1,000

4. Fixed assets

	1990			1989
	Cost	Accumulated depreciation	Net book value	Net book value
	(in thousands of dollars)			
Land	30,426		30,426	30,426
Dredging	1,967	1,516	451	469
Berthing structures	63,803	30,496	33,307	34,575
Buildings	13,897	7,712	6,185	7,106
Utilities	7,733	4,013	3,720	4,028
Roads and surfaces	5,345	4,528	817	1,035
Machinery and equipment	1,796	1,607	189	170
Office furniture and equipment	1,222	940	282	352
Work under construction	1,126		1,126	156
	127,315	50,812	76,503	78,317

5. Contributed capital

	1990	1989
	(in thousands of dollars)	
Contributed capital, beginning of year	49,372	49,372
Contribution to Canada	(4,910)	
Contributed capital, end of year	44,462	49,372

During the year the Federal Government required payment of $4.91 million from the Corporation as a contribution toward the Federal Government deficit reduction. At December 31, 1990 $2.455 million was outstanding, and was paid in early 1991.

6. Loans from Canada

	1990	1989
	(in thousands of dollars)	
Term loans bearing interest at 11.0% to 12.43% maturing between December 31, 1998 and 2005	20,052	20,052

7. Financing provided by a province

The Province of New Brunswick advanced $25,000,000 to partially finance the construction of Rodney Terminal Complex, Saint John. The province will receive annual principal payments equal to approximately 47% of the net operating income of the terminal until the non-interest bearing advance is repaid. The cost of major repairs has been included in calculating the net operating income of the terminal and the current portion payable as at December 31, 1990 has been calculated accordingly. The province is disputing this accounting treatment. Had net operating income not been reduced by the cost of these major repairs, the current portion payable would be approximately $1,109,000.

8. Deferred interest contribution

During the year the Federal Government advanced the Corporation $2,000,000 to offset interest payments in 1990, 1991 and 1992 on the $6,665,000 debt owed to the Federal Government with respect to Rodney Terminal.

The original amount of the advance plus the interest earned will be available to fund interest payments required over the three year period. The anticipated interest payments will be $2,485,500. The defined interest credits will be absorbed on a straight line basis over the period. The funds on hand at December 31, 1990, $1,331,000, are available to reduce interest expense in 1991 and 1992. Interest expense for 1990 was reduced by approximately $773,000 as a result of the application of the deferred credit.

9. Net change in non-cash working capital balances

	1990	1989
	(in thousands of dollars)	
Decrease (increase) in current assets		
Accounts receivable	145	185
Materials and supplies	17	1
	162	186
Increase (decrease) in current liabilities		
Accounts payable and accrued charges	650	220
Deferred revenues	143	99
Grants in lieu of municipal taxes	(44)	(19)
	749	300
	911	486

10. Related party transactions

During the year the Corporation paid $803,000 (1989—$696,000) to Canada Ports Corporation as its share of that Corporation's head office expense.

11. Comparitive figures

Certain of the 1989 figures have been reclassified to conform with the statement presentation adopted for the current year.

ST. JOHN'S PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have audited the balance sheet of the St. John's Port Corporation as at December 31, 1990, and the statements of income and surplus and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Ports Corporation Act and the by-laws of the Corporation.

5. Loans from Canada

	1990	1989
	$	$
Term loans, bearing interest at 9.33% to 10.015%, maturing between 1997 and 2000, repayable in equal annual instalments of principal and interest of $521,516	2,912,126	3,132,162
Principal instalments payable within one year	241,331	220,036
	2,670,795	2,912,126

The loans from Canada are unsecured.

Annual principal repayments in each of the next five years are as follows: 1991—$241,331; 1992—$264,689; 1993—$290,309; 1994—$318,412; 1995—$349,238.

6. Contingent liabilities

Claims aggregating approximately $364,000 arising from alleged damages suffered on the Corporation's property have been received by the Corporation.

The Corporation is a third party defendant, and has denied any liability, and no material loss is anticipated.

7. Related party transactions

During the year, the Corporation received advances on a capital grant from the federal government in the amount of $1,334,000. The remaining grant of $66,000 will be advanced to the Corporation in 1991.

During the year the Corporation paid $222,512 (1989—$193,008) to Canada Ports Corporation as its share of that Corporation's head office expense.

THE ST. LAWRENCE SEAWAY AUTHORITY

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of The St. Lawrence Seaway Authority as at March 31, 1991 and the statements of operations, deficit and changes in financial position for the year then ended. These financial statements are the responsibility of the Authority's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at March 31, 1991, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Authority that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, The St. Lawrence Seaway Authority Act and the by-laws of the Authority.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and objectives

The St. Lawrence Seaway Authority was established in 1954 under The St. Lawrence Seaway Authority Act and is classified as a parent Crown corporation under Schedule III Part I of the Financial Administration Act.

The Authority was established to construct and operate a deep waterway between the Port of Montreal and Lake Erie together with such works and other property, including bridges incidental to the deep waterway, as deemed necessary by the Governor in Council.

Under the St. Lawrence Seaway Authority Act, the Authority must file the tariff of tolls with the National Transportation Agency. This tariff of tolls then becomes operative from the date of filing.

2. Accounting policies

The financial statements have been prepared in accordance with accounting principles generally accepted in Canada. A summary of significant accounting policies follows:

(a) Supplies inventory

Supplies inventory comprises equipment and supplies used in the operation and maintenance of the Seaway and is recorded at cost.

(b) Investments in subsidiaries

Investments in wholly-owned subsidiary companies are recorded at cost. The financial statements of the subsidiary companies have not been consolidated in these financial statements because changes in the equity of the subsidiaries do not accrue to the Authority. Separate audited financial statements for each of the subsidiary companies are available to the public.

(c) Capital assets

Capital assets are recorded at cost. Replacements and major improvements which increase the capacity of the deep waterway system or extend the estimated useful lives of existing assets are capitalized. Repairs and maintenance are charged to operations as incurred and major betterments incurred to assure the reliability of the system are capitalized. The cost of assets sold, retired, or abandoned, and the related accumulated amortization are removed from the accounts on disposal. Gains or losses on disposals are credited or charged to operations.

Amortization is recorded using the straight-line method based on the estimated useful lives of the assets.

(d) Welland Canal Rehabilitation Program

Funding received from the Government of Canada for this program is accounted for by crediting the amount against the costs of related capital projects undertaken during the year, with amortization to be calculated on the net amount.

(e) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to employees.

(f) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. These contributions represent the total liability of the Authority and are recognized in the accounts on a current basis.

(g) Employee life insurance plan

The Authority provides a life insurance plan for its employees. Surpluses and deficits from the plan are included in revenues and/or expenses in the year in which they are incurred.

(h) Insurance

The Authority assumes substantially all risks in relation to compensation and damages to its locks. For all other assets the Authority carries conventional insurance.

(i) Thousand Islands Bridge

In September 1976, the Minister of Transport entrusted the Authority with the management and operation of the Thousand Islands Bridge, while the real property was vested in the name of Her Majesty in Right of Canada. Subsequent capital expenditures made by the Authority to improve the Bridge have been recorded as capital assets. The retained earnings of the Bridge represent its cumulative earnings since September 1976.

These financial statements have segregated the operations of the Thousand Islands Bridge on the premise that its management and operation by the Authority is independent of Seaway operations.

3. Long-term investments

In order to provide for major capital improvement projects of The St. Lawrence Seaway and the rehabilitation of the Canadian span at the Thousand Islands Bridge and for future employee termination benefits, the Authority has set aside the following long-term investments:

	1991	1990
	(in thousands of dollars)	
Capital improvements		
Government of Canada Bonds, maturing on varying dates up to 1995	9,053	9,053
Par value $9,000 (1990—$9,000)		
Market value $9,005 (1990—$8,292)		
Treasury Bills, maturing on varying dates up to August 1991 (1990—Up to March 1991)	4,858	12,809
Investment Certificates, maturing March 1994 and March 1995	10,000	10,000
	23,911	31,862
Termination benefits		
Deposit with Consolidated Revenue Fund, maturing March 1994	13,000	13,000
	36,911	44,862

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Continued*

4. Subsidiaries and related parties

Investments in wholly-owned subsidiaries consist of the following:

	Number of shares	Cost
		$
Great Lakes Pilotage Authority, Ltd. (GLPA)	15	1,500
The Jacques Cartier and Champlain Bridges Incorporated (JCCB)	1	100
The Seaway International Bridge Corporation, Ltd. (SIBC)	8	8,000
		9,600

During the year ended March 31, 1991, the Authority provided JCCB with certain administration services for which it charged $686,280 (1990—$653,000). At March 31, 1991, $77 was receivable (1990—$76,000).

Each calendar year, SIBC pays a bridge user charge to the Authority (1990—$602,174; 1989—$406,018) towards amortization of the Authority's construction and interest costs related to the North Channel Bridge. At March 31, 1991, $4.6 million (1990—$5.2 million) in construction costs remained unamortized.

The Canadian Coast Guard provides the Authority with navigational aids services. The fee paid by the Authority for this service during the year amounted to $595,000 (1990—$565,000).

5. Capital assets

	Amortization rate	1991 Cost	1991 Accumulated amortization	1991 Net	1990 Net

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

Welland Canal Rehabilitation Program

In 1985, the Authority engaged consultants to examine in detail, and report on, the structural condition of the Welland Canal system. The report was submitted during 1986 and, as a result, a seven-year $175 million rehabilitation program has been established to refit the Welland Canal and ensure a continued safe and reliable waterway into the 21st century. The program consists of refurbishing lock walls, stabilizing the canal banks and approach walls, and rehabilitating ancillary structures.

During 1986, the Government of Canada approved funding for the financing of the Welland Canal Rehabilitation Program for an amount not to exceed $175 million over a period of seven years. To date the federal government funding has amounted to $117.3 million, all of which has been spent on the program and has been deducted from related works under construction. As at March 31, 1991, $115.5 million of the approved amount for the first five years was received and $1.8 million (1990—$4.2 million) is included in accounts receivable.

The Government of Canada funding for the remainder of the program is:

	(in millions of dollars)
1991-92	28.7
1992-93	29.0
Total	57.7

6. Contributed capital

As of April 1, 1977, loans from Canada of $624.95 million were converted to equity by parliamentary appropriation. This amount was recorded as contributed capital.

The parliamentary appropriation authorizing the 1977 conversion of loans from Canada to equity also authorized the Minister to fix, from time to time, the amount that shall be paid by the Authority annually out of its toll revenue as a return on capital. No return on capital has been required to be paid for the years ended March 31, 1991 and 1990.

7. Income taxes

The Authority, as a prescribed Federal Crown corporation, is subject to the provisions of the Income Tax Act. The Authority is not subject to any provincial income taxes.

Currently, unamortized capital cost for tax purposes is in excess of the net book value of capital assets by approximately $230 million. The tax effect of this excess has not been recorded in the accounts of the Authority. The Authority also has accumulated research and development costs of approximately $4 million which are available to reduce the taxable income of future years.

The Federal Budget of April 1989 included the introduction of a Large Corporation Tax. The tax is levied on taxable capital employed in Canada and is to be applied after June 1989. The Authority has made provision for the estimated amount payable for the years 1991 and 1990.

8. Commitments

At March 31, 1991, contractual obligations for capital and other expenditures, including Welland Canal Rehabilitation Program, amounted to $195,000 (1990—$4.7 million). The Authority is committed to make future minimum operating lease payments, required for office space for a term in excess of one year, as follows:

	(in thousands of dollars)
1991-92	269
1992-93	269
1993-94	269
1994-95	269
Subsequent years	179

9. Contingencies

There is a total of $79 million in claims instituted against the Authority. These arise from a breakdown of the Valleyfield bridge in November 1984, an October 1985 Lock 7 wall blow-out, compensation and damages in connection with the expropriation of lands and various other claims. The Authority is contesting all these claims and their outcome cannot be determined at this time although management is of the opinion that these actions will not result in any material losses to the Authority. The Authority is also the claimant in certain other pending or threatened claims and lawsuits.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

APPENDIX 1

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of The Jacques Cartier and Champlain Bridges Incorporated as at March 31, 1991 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations and the charter and by-laws of the Corporation.

Raymond Dubois, FCA
Deputy Auditor General
for the Auditor General of Canada

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

APPENDIX 1—*Continued*

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and activities

The Jacques Cartier and Champlain Bridges Incorporated was established under the Canada Business Corporations Act on November 3, 1978 and is a wholly owned subsidiary of The St. Lawrence Seaway Authority, which is a Crown corporation named in Part I of Schedule III to the Financial Administration Act.

The Corporation is dependent on the Government of Canada for its financing.

Effective December 1, 1978, the Corporation assumed the responsibility for the operation, maintenance and control of the Jacques Cartier and Champlain bridges and of a portion of the Bonaventure Autoroute, situated in the Montreal area.

2. Significant accounting policies

(a) Fixed assets

Fixed assets acquired from the National Harbours Board (now Canada Ports Corporation) on December 1, 1978 were recorded at their then book values with an offset to contributed capital. Subsequent additions are recorded at cost.

Fixed assets are depreciated over their estimated economic lives using the straight-line method, at the following rates:

Jacques Cartier Bridge	4.8%
Champlain Bridge	2.5%
Vehicles and equipment	10% and 20%

The cost of the portion of the Bonaventure Autoroute for which the Corporation is responsible and the initial cost of the Jacques Cartier Bridge are fully depreciated.

The cost of major maintenance is charged to operations in the year in which the work is performed.

(b) Parliamentary appropriation

The amount of the parliamentary appropriation used to cover the loss for the year is reflected in the statement of deficit. In this regard, operating expenses do not include depreciation and any change in the provision for employee termination benefits.

The portion of the parliamentary appropriation used to finance the acquisition of fixed assets is recorded as contributed capital.

Any balance of the parliamentary appropriation required to finance the loss for the year and not received at the year-end is shown as an amount due from Canada. Any parliamentary appropriation received in excess of requirements is recorded as due to Canada. It is the Corporation's policy to reimburse this amount in the following fiscal year.

(c) Deferred revenues

Rental revenues collected in advance are recorded as deferred revenues.

(d) Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided under their collective agreements and their conditions of employment. The cost of these benefits is expended in the year in which they are earned.

(e) Pension plan

Employees participate in the Superannuation Plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the Plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service and of admissible past service are expensed when paid. The terms of payment of past service contributions are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

(f) Expenses

Expenses incurred with respect to the portion of the Bonaventure Autoroute for which the Corporation is responsible are included with those for the Champlain Bridge.

(g) Income tax

As a federal Crown corporation, the Corporation is not subject to provincial income tax. However, it is subject to the federal Income Tax Act from the fact that its parent corporation has been prescribed by regulation under that Act.

3. Abolition of tolls

The minister of Transport decided to abolish the tolls for the Champlain Bridge from May 4, 1990. The net loss of revenue resulting from this decision, of approximately $6,000,000 per year, will be funded through parliamentary appropriation.

On this respect, the Corporation had paid $1,481,331 during the year for employee termination benefits, costs of removing certain installations and costs of terminating equipment lease.

4. Major maintenance

In its endeavour to keep the bridges and the autoroute in a good state of repair, to protect the public and serve traffic needs throughout the useful life of these installations, the Corporation must undertake major repairs, notably on the deck of both bridges. The cost of the repairs to the deck of the Champlain bridge is estimated at more than $35 million of which $7 million has been incurred to March 31, 1991. With regard to the repairs to the Jacques Cartier bridge, the urgency and the nature of the work have yet to be defined; it is therefore not possible at this time to assess the cost of the program which will have to be carried out over a number of years. It is expected that the eventual cost of this program will be funded through parliamentary appropriations.

5. Related party transactions

Related party transactions not otherwise disclosed in these financial statements are as follows:

Administrative services from the parent company amounted to $698,290 ($696,195 in 1990). As at March 31, 1991, an unpaid balance thereon of $78 ($66,103 in 1990) is included in the amount due to the parent company. The Corporation estimates the cost of such services for the next year to be approximately $773,000.

APPENDIX 1—*Concluded*

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991—*Concluded*

The Corporation paid an amount of $58,401 to the Montreal Port Corporation concerning the follow-up of fine records for the year ended March 31, 1991 ($573,410 for 1990 represents regular services and follow-up of fine records). No amount was unpaid as at March 31, 1991 and 1990.

6. Commitments

(a) Leases

The aggregate minimum rental payments under long-term leases for equipment and premises through to April 30, 1992 are approximately $121,000 on an annual basis.

(b) Operation services

The minimum amount which will be paid in future years under an agreement for operation services ending on June 30, 1994 is $2,763,564 on an annual basis.

(c) Suppliers

At March 31, 1991, contractual obligations to suppliers amounted to $30,865,383.

7. Contingencies

In connection with its operations, the Corporation is the claimant or defendant in certain pending claims and lawsuits. It is the opinion of management that these actions will not result in any material liabilities to the Corporation.

However, in view of its major maintenance works, management expects to receive other claims of amounts that cannot be estimated but that could be significant. The amounts of those claims will be charged to the results of the year in which they will be received to a level that it will judge appropriate.

APPENDIX 2

THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of The Seaway International Bridge Corporation, Ltd. as at December 31, 1990 and the statements of operations, and changes in financial position for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act, the St. Lawrence Seaway Authority Act, and the by-laws of the Corporation.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Continued*

APPENDIX 2—*Continued*

THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1990

1. Authority and activities

The Seaway International Bridge Corporation, Ltd. is a Crown corporation pursuant to the Financial Administration Act and is a wholly-owned subsidiary of The St. Lawrence Seaway Authority, a parent Crown corporation named in Schedule III Part I of the aforementioned Act. The Corporation was incorporated under the Canada Corporations Act in 1962, continued under the Canada Business Corporations Act, and is subject to The St. Lawrence Seaway Authority Act. Its purpose is to operate and manage the international toll bridge system between Cornwall, Ontario, and Rooseveltown, New York, on behalf of The St. Lawrence Seaway Authority and its U.S. counterpart, the Saint Lawrence Seaway Development Corporation.

2. Accounting policies

The financial statements have been prepared in accordance with accounting principles generally accepted in Canada. A summary of significant accounting policies follows:

Bridge user charge

As described in Note 5 to the financial statements, the Corporation is required to distribute, as a bridge user charge, its excess of revenues over expenses for the year. The current year excess is included in the "Due to The St. Lawrence Seaway Authority" amount on the balance sheet.

Distribution and amortization are dependent on the Corporation's ability to generate excess revenues. Accordingly, the unamortized balances of the total cost to The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation, as set out in Note 5, are not recorded as a liability in the books of the Corporation.

Capital assets and amortization

Capital assets are recorded at cost. These costs include moveable and removeable assets acquired to operate the bridge. The cost of the North Channel Bridge is recorded in the books of The St. Lawrence Seaway Authority.

Amortization on these assets is based on their estimated useful life and is calculated on the straight-line method at the following annual rates:

Automotive	20%
Maintenance equipment	10% to 20%
Office and toll equipment	10% to 20%
Bridge equipment	5%

Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under the conditions of employment. The liability for these benefits is recorded in the accounts as the employees become entitled to the benefits.

Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Corporation. These contributions represent the total pension liability of the Corporation and are recognized in the accounts on a current basis.

Deferred revenue

Revenue from unredeemed toll tickets is deferred.

Employee life insurance plan

The Corporation provides a life insurance plan for its employees. Surpluses, and deficits from the plan are included in revenues and/or expenses in the year in which they are incurred.

3. Capital assets

	1990			1989
	Cost	Accumulated amortization	Net	Net
	$	$	$	$
Automotive	97,469	64,579	32,890	4,883
Maintenance equipment	105,124	75,559	29,565	36,352
Office and toll equipment	244,768	105,165	139,603	145,684
Bridge equipment	40,007	8,001	32,006	34,006
	487,368	253,304	234,064	220,925

4. Debentures payable

These debentures; due on December 31, 2012, are non-interest bearing and payable to the Saint Lawrence Seaway Development Corporation.

5. Bridge user charge

By agreement between The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation, the annual excess of revenues over expenses of the Corporation is due as a bridge user charge; first, to the Authority to offset the amortization of the cost of the North Channel Bridge together with interest; then to the Saint Lawrence Seaway Development Corporation to offset the amortization of a $300,000 contribution towards the cost of the Raquette River Bridge; and the balance, if any, is then divided equally between both parties.

All bridge user charges since the commencement of the Corporation's operations have been paid to The St. Lawrence Seaway Authority. At December 31, the unamortized balance of the total cost of the North Channel Bridge was as follows:

	1990	1989
	$	$
Cost of construction	8,539,695	8,539,695
Interest	2,569,652	2,569,652
	11,109,347	11,109,347
Less: bridge user charges		
Beginning of year	5,886,572	5,480,554
Current year charge	602,174	406,018
End of year	6,488,746	5,886,572
Unamortized balance	4,620,601	5,222,775

6. Bridge use

With the approval of the National Transportation Agency of Canada, the Corporation has continued the practice of providing free usage of the bridge system to certain North American Indians. This represents a substantial portion of the Bridge traffic.

7. Related party transactions

In addition to the transactions disclosed elsewhere in these financial statements, The St. Lawrence Seaway Authority provides to the Corporation, without charge, certain engineering and administrative support services.

STANDARDS COUNCIL OF CANADA

AUDITOR'S REPORT

TO THE STANDARDS COUNCIL OF CANADA
AND THE
MINISTER OF CONSUMER AND CORPORATE AFFAIRS

I have audited the balance sheet of Standards Council of Canada as at March 31, 1991 and the statements of operations, retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the Council's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Council as at March 31, 1991 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Council that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Standards Council of Canada Act and by-laws of the Council.

STANDARDS COUNCIL OF CANADA—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1991

1. Authority and objectives

The Standards Council of Canada was created by Parliament as a corporation under the Standards Council of Canada Act in 1970 to be the national co-ordinating body for voluntary standardization. The Council is a Crown corporation named in Part I of Schedule III to the Financial Administration Act. The Council carries out its task through the National Standards System, a federation of accredited organizations concerned with standards-writing, certification, and testing.

The objectives of the Council are to foster and promote voluntary standardization in fields relating to the construction, manufacture, production, quality, performance, and safety of buildings, structures, manufactured articles, and products and other goods and to further international co-operation in the field of standards.

2. Significant accounting policies

(a) Office furniture and equipment

Office furniture and equipment are recorded at cost and amortized on a straight-line basis over the estimated useful life of the assets as follows:

Furniture	5 years
Equipment	4 years

(b) Inventory

Inventory of foreign standards is valued at the lower of cost or replacement cost.

(c) Recognition of recoverable expenses

Recoveries, in respect of agreements with the Department of External Affairs for the operation of the GATT Enquiry Point/Europe 1992, and for development assistance programmes, are recognized at the time the related expenses are incurred.

(d) Parliamentary appropriation

Parliamentary appropriation is recorded on an accrual basis in the year in which the corresponding expenses are incurred but is drawn upon only as cash disbursements are made.

(e) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(f) Pension plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Council. Contributions with respect to current service are expensed on a current basis.

3. Office furniture and equipment

	1991			1990
	Cost	Accumulated amortization	Net book value	Net book value
	$	$	$	$
Office furniture	167,037	140,566	26,471	35,018
Office equipment	726,288	596,788	129,500	194,408
	893,325	737,354	155,971	229,426

4. Lease commitment

The Council is leasing office space at its present location for a five-year term which expires in June 1992. The future minimum annual rental under this agreement is $410,133.

5. Related party transactions

In addition to those related party transactions disclosed elsewhere in these financial statements, the Council is related in terms of common ownership to all Government of Canada created departments, agencies, and Crown corporations. The Council enters into transactions with these entities in the normal course of business.

6. Comparative figures

Certain comparative figures have been reclassified to conform to the current year presentation.

TELEGLOBE CANADA

AUDITOR'S REPORT

TO THE MINISTER OF FINANCE

I have audited the balance sheet of Teleglobe Canada as at December 31, 1990 and the statements of income and retained earnings and changes in financial position for the year then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations, the Teleglobe Canada Act and regulations and by-laws of the corporation and the Teleglobe Canada Reorganization and Divestiture Act.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1990

1. Authority and activities

Teleglobe Canada is a Crown corporation created by the Teleglobe Canada Act and named in Part II of Schedule III to the Financial Administration Act. The corporation is subject to federal income tax.

Since the sale of its assets to Memotec Data Inc. on April 3, 1987, following the adoption of the Teleglobe Canada Reorganization and Divestiture Act, the corporation's activities consist of the management of its cash resources and the performance of other duties and functions leading to dissolution. The foregoing Act stipulates that on dates to be fixed by proclamation, the corporation's name will be changed to TH (1987) and it will be wound up.

2. Guarantees

As at December 31, 1990, the corporation is guarantor of the following obligations of Teleglobe Canada Inc., towards one of its suppliers:

Maturities	Amounts in pounds sterling
May 16, 1991	2,289,670
November 16, 1991	2,213,444
May 16, 1992	2,127,746
November 16, 1992	2,047,462
May 16, 1993	1,963,117
	10,641,439

Based on the exchange rate at December 31, 1990, this amount represents 23,881,517 Canadian dollars.

Arrangements have been made with this supplier and its bankers for the Government of Canada to assume these guarantees in the event of the dissolution of the corporation.

VANCOUVER PORT CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE DOUG LEWIS, P.C., M.P.
MINISTER OF TRANSPORT

We have audited the balance sheet of Vancouver Port Corporation as at December 31, 1990 and the statements of income and retained earnings and changes in cash resources for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 1990 and the results of its operations and the changes in its cash resources for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in our opinion, the transactions of the Corporation that have come to our notice during our examination of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations and the charter and by-laws of the Corporation.

Peat Marwick Thorne

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990

The Vancouver Port Corporation was established effective July 1, 1983 as a local port corporation pursuant to the Canada Ports Corporation Act and is a parent Crown corporation named in Schedule III, Part II of the Financial Administration Act. The Corporation is exempt from income taxes.

The Corporation's mission is to facilitate the efficient movement of maritime imports and exports through the Port of Vancouver in the best interest of Canadians.

Summary of significant accounting policies

These financial statements have been prepared by management in accordance with generally accepted accounting principles considered to be appropriate in the circumstances and consistently applied. A summary of the significant accounting policies of the Corporation is as follows:

(a) Property and equipment

Property and equipment are recorded at cost. Depreciation is calculated on the straight-line basis, commencing with the year the asset becomes operational, at rates based on the estimated useful lives of the assets as follows:

Dredging	15 to 40 years
Berthing structures, buildings, roads and surfaces	10 to 40 years
Utilities	10 to 33 years
Machinery and equipment	1 to 20 years
Office furniture and equipment	5 years

(b) Pension costs

All permanent employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employees and the Corporation. Although the Plan is a defined benefit plan, the contributions represent the total pension liability of the Corporation and are recognized in the accounts on a current basis.

(c) Grants in lieu of municipal taxes

Grants in lieu of municipal taxes are estimated based on municipal assessments adjusted in accordance with the Municipal Grants Act. After the amounts have been audited by the Municipal Grants Division of Public Works Canada, any adjustments upon finalization are reflected in the accounts in the period of settlement.

(d) Employee benefits

The Corporation accrues estimated liabilities for severance pay and annual leave. These benefits are provided under collective agreements and corporate policy.

1. Investments

Current investments are in Government of Canada treasury bills and at December 31, 1990 and 1989 the market value of the treasury bills approximated carrying value.

2. Long-term receivables

	1990	1989
	(in thousands of dollars)	
Non-interest-bearing agreement with B.C. Rail, due as and when rail trackage is constructed on Roberts Bank causeway or April 1, 1994, whichever is earlier	3,947	3,947
Long-term agreement for sale of No. 1 Elevator, bearing interest at 6 5/8% per annum, payable in blended annual instalments of $462,916, maturing December 31, 1996	2,232	2,528
Less current portion	(315)	(296)
	1,917	2,232
Long-term agreement for sale of No. 3 Elevator, bearing interest at 5 3/4% per annum, payable in annual instalments of $117,720 plus interest, maturing August 1, 1994	471	589
Less current portion	(118)	(118)
	353	471
Other	47	52
	6,264	6,702

3. Property and equipment

	1990			1989
	Cost	Accumulated depreciation	Net	Net
	(in thousands of dollars)			
Land	77,224		77,224	77,124
Dredging	366	213	153	165
Berthing structures	61,313	26,967	34,346	28,113
Buildings	49,189	11,922	37,267	32,442
Utilities	15,347	6,920	8,427	8,178
Roads and surfaces	33,884	20,502	13,382	13,745
Machinery and equipment	41,604	14,408	27,196	27,615
Office furniture and equipment	3,286	2,140	1,146	1,152
Projects under construction	3,073		3,073	10,749
	285,286	83,072	202,214	199,283

4. Loan from Canada

	1990	1989
	(in thousands of dollars)	
Interest-bearing loan at 7.5%, repayable in blended annual instalments, maturing December 31, 2000	3,504	3,734
Less current portion	(248)	(230)
	3,256	3,504

Principal repayment requirements over the next five years are as follows:

	(in thousands of dollars)
1991	248,000
1992	266,000
1993	286,000
1994	308,000
1995	331,000
	1,439,000

5. Contingencies

(a) At December 31, 1990, the Corporation had claims from municipalities for grants in lieu of taxes of approximately $9.4 million greater than the amount accrued in the financial statements.

(b) There are claims against the Corporation for $9.9 million plus unspecified damages. The likelihood of these claims succeeding is not determinable.

(c) Over a period of years, the Corporation has recorded revenues on certain leases which continue unresolved.

The effect, if any, of the ultimate resolution of the matters referred to in points (b) and (c) above will be accounted for as a prior period adjustment when known.

6. Related party transactions

In addition to the loan from Canada disclosed in Note 4, the Corporation paid $1,961,000 (1989, $1,701,000) to Canada Ports Corporation as its share of that Corporation's operating expenses.

The Corporation received notice during the year from Canada Ports Corporation to make payments totalling $35.73 million as part of the Federal Government's deficit reduction program announced in the February 20, 1990 budget. Half of this amount was paid in 1990, and the remainder will be paid in early 1991.

VIA RAIL CANADA INC.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have audited the balance sheet of VIA Rail Canada Inc. as at December 31, 1990 and the statements of operations and reconciliation to Government funding basis, deficit, contributed surplus and changes in financial position for the year then ended. These financial statements are the responsibility of the corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at December 31, 1990 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. As required by the Financial Administration Act, I report that, in my opinion, these principles have been applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the corporation that have come to my notice during my audit of the financial statements have, in all significant respects, been in accordance with Part X of the Financial Administration Act and regulations and the charter and by-laws of the corporation.

Kenneth M. Dye, FCA
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990

1. Authority and objectives

VIA Rail Canada Inc. is a Crown corporation named in Part I of Schedule III to the Financial Administration Act. It was incorporated in 1977 under the Canada Business Corporations Act. The corporation's mission is to manage and provide safe, efficient, effective and economic rail passenger services in Canada to meet the needs of the travelling public. It uses the roadway infrastructure of other railway companies which also assure the control of train operations.

The corporation is not an agent of Her Majesty. It is subject to the Income Tax Act (Canada) and those of certain provinces.

2. Accounting policies

These financial statements have been prepared by management in accordance with generally accepted accounting principles. The significant accounting policies followed by the corporation are summarized as follows:

(a) Government funding

Contract revenue, which pertains to services, activities and other undertakings provided by the corporation for the management and operation of railway passenger services in Canada, is recorded in the statement of operations on a realized and estimated basis. Any changes in estimates are accounted for in the year of change.

Any contract revenue from the Government of Canada to cover the costs of the network restructuring is recorded as a recovery in the statement of operations in the year in which the disbursements are made.

Funding received as financing for capital expenditures is recorded as contributed surplus.

(b) Charges under train service agreements

Effective January 15, 1990, the corporation entered into train service agreements and other agreements with Canadian Pacific Limited for the use of tracks and train personnel, control of train operations and rolling stock maintenance. It also entered into a train service and other agreements with Canadian National Railway Company effective January 1, 1989 to cover services provided by the latter. Charges under these agreements are not subject to adjustment by the National Transportation Agency.

Prior to these agreements, the corporation had an operating agreement with each of Canadian Pacific Limited and Canadian National Railway Company. The terms of these agreements are still in effect with respect to certain station facilities and ancillary services which are not yet covered by specific successor agreements. Charges under these operating agreements are subject to adjustment by the National Transportation Agency following a determination of the actual costs incurred each year using railway costing methodology approved by the National Transportation Agency. Charges for the years 1989 and 1990 have not yet been finalized.

Charges under these agreements are recorded on an incurred and estimated basis; any changes in estimates are accounted for in the year of change.

(c) Materials and supplies

Materials in store and on-board inventories are valued at weighted average cost, fuel at latest invoice price, and obsolete, surplus and scrap materials at estimated utility or net realizable value.

VIA RAIL CANADA INC.—*Continued*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Continued*

(d) Properties

Properties acquired from other railway companies at the start of operations in 1978 were recorded at the net transfer values. Subsequent additions, including those acquired under capital leases, are recorded at cost.

The costs of refurbishing and rebuilding rolling stock and costs associated with other property upgrading are capitalized if they are incurred to improve the service values or extend the useful lives of the properties concerned; otherwise, they are expensed as incurred.

(e) Amortization of properties

Amortization of properties is calculated on a straight-line basis at rates sufficient to write off the cost of properties over their estimated useful lives. The estimated useful lives for significant classes of properties are as follows:

Rolling stock	12 to 30 years
Maintenance buildings	25 years
Infrastructure improvements	5 to 38 years
Leasehold improvements	5 to 20 years
Other capital properties	3 to 20 years

No amortization is provided for projects in progress and retired rolling stock.

(f) Leases

Properties recorded under capital leases are amortized on a straight-line basis over the terms of the leases, which are representative of their useful lives.

Rental payments under operating leases are expensed as incurred.

(g) Income taxes

Government funding provided to the corporation to cover operating costs is determined on the basis of current needs. For this reason, income taxes are accounted for on the taxes payable basis as there is a reasonable expectation that all taxes payable in future years will be included in the approved formula for reimbursement and will be recoverable at that time.

(h) Deferred investment tax credits

Investment tax credits are deferred and amortized over the estimated useful lives of the related properties. The amortization of deferred investment tax credits is recorded as a reduction of the amortization of properties.

(i) Pension plans

The corporation has two contributory defined benefit retirement plans, based on retirement age, compensation and length of service, covering all its permanent employees.

The cost to the corporation thereunder is determined by actuarial valuations which allocate to each year the accrued portion of the benefits based on projections of employees' compensation levels to the time of their retirement.

Pension expense includes both the cost of benefits attributable to services rendered during the current year and the amortization of any unfunded liability in respect of past services. This amortization is calculated over the expected average remaining service lives of the active employee groups.

(j) Employee termination and special benefits

The cost of employee termination and special benefits provided for under labour agreements and special programmes is expensed in the year in which they are granted.

3. Network restructuring

On October 4, 1989, the corporation approved a plan for the restructuring of its transportation network whereby its operations were significantly reduced effective January 15, 1990. As a result, certain properties became surplus to ongoing needs and will be disposed of by December 1992 while employee terminations and reassignments took place mainly in 1990.

The cost of the network restructuring, based on management's best estimates, has been expensed (adjusted) as follows:

	1990	1989
	(in millions of dollars)	
Employee terminations and special benefits[1]	(7.9)	152.8
Loss on write-down of properties[2]	(6.5)	76.3
Other costs[3]	(0.5)	8.2
	(14.9)	237.3

[1] Severance payments and employment security benefits governed by labour agreements and special programmes which may extend to the year 1999.
[2] Surplus properties that have been written down to their estimated salvage values.
[3] Lease cancellation penalties, inventory provisions and other costs.

4. Investment

The corporation owns 4% of the common shares of Railroad Association Insurance, Ltd. (R.A.I.L.), which are recorded at cost. The book value of the shares, per the financial statements of R.A.I.L. as at November 30, 1990, was $4.9 million (1989—$3.9 million).

5. Properties

	1990			1989
	Cost	Accumulated amortization	Net	Net
	(in millions of dollars)			
Rolling stock	481.9	165.7	316.2	338.3
Maintenance buildings	215.4	42.9	172.5	166.6
Infrastructure improvements	78.5	11.8	66.7	72.8
Leasehold improvements	74.0	24.3	49.7	40.5
Other capital properties	122.7	83.7	39.0	36.5
	972.5	328.4	644.1	654.7
Projects in progress			68.6	72.8
Retired rolling stock			5.8	3.3
			718.5	730.8

At December 31, 1990 the gross value of assets under capital leases included above was $5.9 million (1989—$6.8 million) and related accumulated amortization thereon amounted to $3.0 million (1989—$2.9 million).

VIA RAIL CANADA INC.—*Concluded*

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1990—*Concluded*

6. Share capital

The authorized share capital of the corporation is comprised of an unlimited number of common shares of no par value. As at December 31, 1990 and 1989, 93,000 shares at $100 per share have been issued and fully paid.

7. Commitments

(a) The future minimum rental payments relating to operating leases mainly for real estate, computer equipment and services are as follows:

	(in millions of dollars)
1991	13.0
1992	11.4
1993	6.9
1994	8.0
1995	9.3
Subsequent years up to 2034	241.3
	289.9

(b) There are no obligations under capital leases as lease payments applicable to the initial terms were paid in lump sums at the inception of the leases.

(c) As at December 31, 1990, the corporation has outstanding commitments amounting to $64.8 million, mainly in respect of upgrading rolling stock and equipment.

8. Pension plans

The latest actuarial valuations of the pension plans were carried out as at December 31, 1987. Based on these valuations and actuarial projections made for 1988, 1989 and 1990, the accumulated plan benefits as at December 31, 1990 are $634 million. The net assets available to provide for these benefits at market related values as at that date amount to $600 million.

9. Related party transactions

In the normal course of business, transactions with other Crown corporations amounted to:

	1990	1989
	(in millions of dollars)	
Revenue	5.1	8.0
Operating expense	82.8	121.0
Capital expenditures	21.3	7.8
Balance payable	52.7	24.5

10. Contingencies

In the ordinary course of business, various claims and lawsuits have been brought against the corporation. It is the opinion of management that the settlement of these actions will not result in any material liabilities to the corporation beyond any amounts already provided.
